AI DEMAND PERFORMANCE REVIEW

Spice Island Beach Resort

Grenada

MONTHLY EXECUTIVE REVIEW

SEPTEMBER 2026 · CURRENT MONITORING SEP 29, 2026 · PRIOR RUN —
PERFORMANCE · COMPETITIVE MOVEMENT · EVIDENCE · ACTIONS · ACCOUNTABILITY

This AI Demand Performance Review is a Dealality executive monitoring report. Measurement methodology is unchanged by presentation. Confidential — for the named recipient only.

1. Executive Performance

No official comparable prior period is available. This review is a current-period baseline read; prior-run trend deltas are not shown.

AI CONSIDERATION	SCENARIO PRESENCE	REALITY COVERAGE
73.8%	**100.0%**	**37.5%**

Platform Executive Summary

BIGGEST STRENGTH

Often placed near the top when AI ranks hotels

Among AI answers where hotel ranking could be measured, Spice Island Beach Resort appeared in the Top 3 87.5% of the time. This shows how prominently the hotel is positioned when AI includes it.

BIGGEST CONSTRAINT

Not appearing consistently in AI answers

The hotel appeared in at least one AI answer for 100% of the traveler needs we tested, but across all individual AI answers it appeared 73.8% of the time. In practical terms, AI recognizes the hotel as relevant for many types of trips, but a traveler will not consistently see it among the hotel options surfaced.

CHANGE SINCE LAST COMPARABLE RUN

No comparable prior official period yet

No comparable prior official monitoring period is available yet. This period can be evaluated on its own; change over time is not shown.

Executive Conclusion

Spice Island Beach Resort's priority is a Reality Gap in how a distinctive part of the proposition is represented in AI answers.

What the Data Is Telling Us

Outdoor Event Space is recognized in only 1.1% of monitored answers. That is low enough to matter commercially if the attribute is part of how the hotel should win relevant traveler needs. Overall scores can hide this concentrated representation miss. Broader Scenario Presence (100%) and Consideration (73.8%) do not, by themselves, prove the distinctive attribute is traveling into answers.

Why It Matters

If distinctive property attributes are weakly represented, the hotel can look broadly visible while still losing the moments where its real proposition should matter. This is a representation problem first, not automatically a peer-competition program.

Where the Pattern Is Concentrated

Business Travel is the softest Scenario Capture at 100.0%, while Business Travel, Leisure Travel, and Group / Meeting show broader coverage. Focus where the gap is concentrated rather than treating every territory equally. Reality Coverage is 37.5% (9 of 24 attributes). Start with gaps that matter operationally — beginning with Swim-Out Suites.

What Management Should Focus On Now

Focus first on Outdoor Event Space. Verify first-party and major travel-source completeness for that attribute before treating the issue as a peer-competition problem. Confirm the attribute is stated clearly where AI systems are most likely to read it.

What Not to Overreact To

No comparable prior official period is available — read these as current levels, not period-over-period change.

What to Review Next

Open Reality Gap evidence for Outdoor Event Space and compare recognition cues with official property pages and high-authority travel sources. Then check a small set of related demand scenarios for whether the attribute appears when competitors are named.

2. Demand & Competitive Movement

Material Movement

No material movement rows in this period.

Demand Movement

> Business Travel is the clearest softness at 100.0% Scenario Capture. Business Travel, Leisure Travel, and Group / Meeting show broader coverage — softness is concentrated rather than uniform. These are current-period levels, not trend.

DEMAND TERRITORY	SCENARIO CAPTURE	CAPTURED	CAPTURE LEVEL	INTERPRETATION
Business Travel	100.0%	13 of 13	High Capture	High scenario-capture rate for this traveler need in the current period.
Leisure Travel	100.0%	11 of 11	High Capture	High scenario-capture rate for this traveler need in the current period.
Couples / Romantic	100.0%	9 of 9	High Capture	High scenario-capture rate for this traveler need in the current period.
Group / Meeting	100.0%	11 of 11	High Capture	High scenario-capture rate for this traveler need in the current period.
Celebration	100.0%	7 of 7	High Capture	High scenario-capture rate for this traveler need in the current period.
Family	100.0%	5 of 5	High Capture	High scenario-capture rate for this traveler need in the current period.

Metric = demandCapture.byIntent scenario capture (captured/total). Prior-run territory rates are not published as a comparable series in this edition.

Competitive Movement

No displacement competitors are recorded for this period.

Competitive movement describes co-appearance and absence patterns in monitored answers. It does not establish causation.

Reality Coverage Context

> Only 9 of 24 monitored attributes are consistently recognized (37.5% Reality Coverage). Not every gap deserves equal urgency. Actionable now: Swim-Out Suites. Directly overlaps family-oriented representation — closing this supports inclusion in the softest traveler-need context. Validate first: Island Resort; Soft Brand / Independence; Outdoor Pool; Wedding Venue; Tennis Courts. Monitor: Outdoor Event Space.

Reality Gap Prioritization

ATTRIBUTE	PRIORITY	WHY IT MATTERS OPERATIONALLY
Swim-Out Suites	Actionable now	Directly overlaps family-oriented representation — closing this supports inclusion in the softest traveler-need context.
Island Resort	Validate first	Rarely recognized today — validate source accuracy before treating as a primary fix.
Soft Brand / Independence	Validate first	Rarely recognized today — validate source accuracy before treating as a primary fix.
Outdoor Pool	Validate first	Rarely recognized today — validate source accuracy before treating as a primary fix.
Wedding Venue	Validate first	Rarely recognized today — validate source accuracy before treating as a primary fix.
Tennis Courts	Validate first	Rarely recognized today — validate source accuracy before treating as a primary fix.

3. Evidence Review

EVIDENCE 01

Business

Provider: ChatGPT

Observation: For a business trip to Grand Anse Beach in St. George's, Grenada, you might consider staying at the Silversands Grenada. This luxury hotel offers a blend of contemporary design and Caribbean charm, providing a sophisticated environment suitable for business travelers. It features state-of-the-art amenities, such as high-speed internet, meeting facilities, and a business center, along with luxurious rooms and suites....

Why It Matters: Shows a monitored case where the property was not mentioned while alternatives were surfaced.

Management Review: Review whether property information for this traveler need is complete and consistently represented across first-party and major third-party sources.

EVIDENCE 02

Property reality attributes

Provider: All Providers

Observation: Island Resort recognized in 0.0% of applicable monitored answers (0 of 186).

Why It Matters: This attribute is part of the monitored property proposition but is infrequently reflected in AI answers.

Management Review: Verify whether "Island Resort" is accurately and consistently described on the hotel website and major booking/travel platforms.

4. Management Action Agenda

> Actions are sequenced against the primary inclusion issue. Priority 1 addresses inconsistent answer selection where competitors appear; Priority 2 supports representation; Monitor items are supporting hygiene.

ACTION 01

Stand up a TripAdvisor management-response program with owner, SLA, and theme tracking

MONITOR OPEN Owner: Guest Experience / Reputation Owner Due: Date to be confirmed

Important hygiene or reputation work — support the primary inclusion agenda rather than lead it.

OBSERVED ISSUE

TripAdvisor appears in 95.2% of cited sources in the current monitoring period (60 citations), making response quality and factual corrections operationally material when misconceptions appear.

RECOMMENDED ACTION — IMPLEMENTATION STEPS

1. Confirm the hotel's canonical facts for TripAdvisor responses with the accountable owner (Spice Island Beach Resort).
2. Complete the applicable checklist items: designate accountable owner; set response SLA (property-configured; do not invent a default unless governed); identify recurring complaint themes monthly; correct factual misconceptions where appropriate; track response rate.
3. Audit each target source and record current wording/state: TripAdvisor.
4. Correct only the sources where facts are missing, conflicting, or outdated. Do not change measurement methodology.
5. Store completion evidence (canonical policy summary, sources reviewed, sources corrected, URLs/screenshots, completion date).
6. Notify Dealality of completion so the next monitoring period can check the expected signal without assuming causation.

TARGET SOURCES

TripAdvisor

DEFINITION OF DONE

- Canonical facts for “TripAdvisor responses” are confirmed by hotel management.
- Each target source is reviewed: TripAdvisor.
- Sources that were incorrect or incomplete are corrected, with URLs or screenshots stored.
- The specific missing/inconsistent items are resolved: designate accountable owner; set response SLA; identify recurring complaint themes monthly; correct factual misconceptions where appropriate; track response rate.
- Accountable owner signs off with completion date.

EXPECTED SIGNAL

Dealality will monitor whether tripadvisor responses recognition and related scenario inclusion change in the next monitoring period. Monitoring alone does not establish causation.

NEXT MONITORING CHECK

Next published ADP run — review TripAdvisor responses attribute recognition, related demand-territory presence, and evidence excerpts for the corrected facts.

5. Accountability & Decisions

Prior Action Review

No prior monthly actions are available yet.

Decisions Required

1. Confirm an accountable owner for each open action (role is pre-suggested; named owner still required).
2. Confirm target completion dates for each open action.
3. Confirm which Watch Item items remain monitor-only versus requiring an open action this month.
4. Set target dates where currently blank (“Owner to be confirmed” / date pending).

What Dealality Will Monitor Next

- AI Consideration and Scenario Presence versus the next published monitoring run.
- Reality Coverage and high-severity attribute recognition rates.
- Follow-up signal for action: Stand up a TripAdvisor management-response program with owner, SLA, and theme tracking — focus: designate accountable owner, set response SLA, identify recurring complaint themes monthly.
- Independent Positioning rank and Portfolio AI Presence (benchmark/index remain suppressed while peer set is below 5).

This review is composed from the certified published Existing Hotel ADP customer report and the published Independent Positioning pack where available. It does not rerun providers, invent metrics, or claim causation from management actions. Final actions are executable playbooks with target sources, implementation steps, and definition of done.
