1. Executive Performance

No official comparable prior period is available. This review is a current-period baseline read; prior-run trend deltas are not shown.

AI CONSIDERATION	SCENARIO PRESENCE	REALITY COVERAGE
34.9%	**90.5%**	**16.7%**

Platform Executive Summary

BIGGEST STRENGTH

Often placed near the top when AI ranks hotels

Among AI answers where hotel ranking could be measured, YOTEL Geneva Lake appeared in the Top 3 62.5% of the time. This shows how prominently the hotel is positioned when AI includes it.

BIGGEST CONSTRAINT

Not appearing consistently in AI answers

The hotel appeared in at least one AI answer for 90.5% of the traveler needs we tested, but across all individual AI answers it appeared 34.9% of the time. In practical terms, AI recognizes the hotel as relevant for many types of trips, but a traveler will not consistently see it among the hotel options surfaced.

CHANGE SINCE LAST COMPARABLE RUN

No comparable prior official period yet

No comparable prior official monitoring period is available yet. This period can be evaluated on its own; change over time is not shown.

Executive Conclusion

YOTEL Geneva Lake reaches many monitored demand scenarios, but consideration consistency is the primary constraint.

What the Data Is Telling Us

Scenario Presence at 90.5% shows broad recognition across monitored traveler needs. AI Consideration at 34.9% shows that recognition does not consistently convert into selection in individual answers. The management problem is inclusion consistency — not awareness. Softness concentrates in Wellness; Business Travel and Group / Meeting remain stronger.

Why It Matters

Broad scenario reach without consistent appearance in AI answers means the hotel is known in the demand set but not reliably carried into traveler-facing answers. Management attention should start with consistency of representation, not with assuming the hotel needs an entirely new competitive set.

Where the Pattern Is Concentrated

Wellness is the softest Scenario Capture at 75.0%, while Business Travel and Group / Meeting show broader coverage. The inclusion issue is concentrated, not universal. Reality Coverage is 16.7% (1 of 6 attributes). Start with gaps that matter operationally — beginning with Pet-Friendly.

What Management Should Focus On Now

Focus first on consistency of representation for Wellness. Confirm priority sources present the same use cases and attributes that appear in scenarios where the hotel is absent, and close gaps that repeatedly coincide with cases where the hotel is missing.

What Not to Overreact To

No comparable prior official period is available — read these as current levels, not period-over-period change.

What to Review Next

Compare high-presence versus low-consideration scenarios and inspect which sources and attributes appear when the hotel is missing. Use that evidence pack before changing channel strategy.

2. Demand & Competitive Movement

Material Movement

No material movement rows in this period.

Demand Movement

> Wellness is the clearest softness at 75.0% Scenario Capture. Business Travel and Group / Meeting show broader coverage — the inclusion issue is concentrated rather than universal. These are current-period levels, not trend.

Metric = demandCapture.byIntent scenario capture (captured/total). Prior-run territory rates are not published as a comparable series in this edition.

Competitive Movement

No displacement competitors are recorded for this period.

Competitive movement describes co-appearance and absence patterns in monitored answers. It does not establish causation.

Reality Coverage Context

> Only 1 of 6 monitored attributes are consistently recognized (16.7% Reality Coverage). Not every gap deserves equal urgency. Validate first: Pet-Friendly.

Pet-Friendly	Validate first	Rarely recognized today — validate source accuracy before treating as a primary fix.

3. Evidence Review

EVIDENCE 01

Business

Provider: Gemini

Observation: Because Founex itself is a small, exclusive residential commune with no major commercial hotels, the best upscale accommodation for a business trip will be located **just 2 to 10 minutes outside of Founex** along the Lake Geneva / Nyon corridor. Depending on whether your priority is **true 5-star luxury** or **pure business convenience**, here are the top three upscale choices: --- ### 1. The Ultimate Luxury Choice:...

Why It Matters: Shows a monitored case where the property was not mentioned while alternatives were surfaced.

Management Review: Review whether property information for this traveler need is complete and consistently represented across first-party and major third-party sources.

EVIDENCE 02

Property reality attributes
