AI VISIBILITY AUDIT & ACTION PLAN

Cambridge Beaches Resort & Spa

Sandys Parish, Bermuda

INITIAL DIGITAL PRESENCE ASSESSMENT

NOVEMBER 2026

1. Executive Audit Summary

Reconcile Official Dining Facts With the 0% Recognition Gap

The hotel reaches all 21 eligible scenarios and leads its certified four-hotel peer set, but appears in 78.6% of comparable answers and has only 28.6% Reality Coverage. The immediate task is to reconcile explicit first-party facts with the staged reality gaps, while treating technical-probe results as bounded observations rather than causal proof.

Performance Snapshot

AI CONSIDERATION	SCENARIO PRESENCE	CERTIFIED PEER POSITION
78.6%	**100.0%**	**#1 of 4**
Mentioned in 66 of 84 comparable monitored AI answers	Present across 21 of 21 eligible traveler-need scenarios	Highest presence among 4 certified Independent Positioning hotels

AI Consideration is the share of comparable monitored answers mentioning the hotel; Scenario Presence is the share of eligible traveler-need scenarios where it appeared. Peer position is certified-set context. These measures do not represent bookings, ADR, revenue, or traveler exposure.

Key Findings

1. Reconcile Official Dining Facts With the 0% Recognition Gap

The official homepage describes multiple waterview restaurants and bars, including poolside, oceanfront, dockside, and tropical-bar experiences; the certified ADP read recorded 0% recognition for On-Site Restaurant.

Why it matters. The gap is commercially material because dining is explicit first-party content, but it does not prove that page copy caused measured AI performance.

2. Strengthen the Resort, Beach, and Cottage Fact Architecture

The official homepage states that the property is a Bermuda luxury resort with cottage accommodations, four private beaches, and two private coves. The staged reality-gap read recorded 0% for Luxury Positioning, Resort Experience, and Outdoor Pool, and 1.2% for Island Resort.

Why it matters. These are defining product facts. Consistent, approved presentation can improve decision context without promising a ranking, booking, ADR, or revenue outcome.

3. Validate the Business-District Attribute Before Acting

The staged review marks Business District Location as the first actionable 0% gap, while the certified property identity is an oceanfront resort in Sandys Parish.

Why it matters. A potentially inapplicable attribute should not trigger public copy changes until hotel leadership and the measurement steward confirm the intended demand context.

Recommended Priorities

PRIORITY	ACTION	DESIRED OUTCOME
High	Hotel Commercial Leadership / Digital Content Owner: Reconcile Official Dining Facts With the 0% Recognition Gap	Hotel leadership records the approved source of truth and scope.
High	Hotel Commercial Leadership: Strengthen the Resort, Beach, and Cottage Fact Architecture	Hotel leadership records the approved source of truth and scope.
High	Hotel Commercial Leadership / Dealality Measurement Steward: Validate the Business-District Attribute Before Acting	Hotel leadership records the approved source of truth and scope.
Medium	Website Platform Owner: Preserve the Healthy Public-Crawl Baseline	Hotel leadership records the approved source of truth and scope.

EXECUTIVE TAKEAWAY

The practical next step is one approved source-of-truth decision at a time, followed by narrow implementation and verification.

2. Action Overview

4 hotel-specific actions at a glance; detailed evidence, decisions, and verification steps follow.

PRIORITY	ACTION & BUSINESS RELEVANCE	ACCOUNTABLE OWNER	SUGGESTED TIMING
HIGH	**AVA-CAMB-001** Reconcile Official Dining Facts With the 0% Recognition Gap The gap is commercially material because dining is explicit first-party content, but it does not prove that page copy caused measured AI performance.	Hotel Commercial Leadership / Digital Content Owner	Review in 2 weeks; approved updates within 30–45 days
HIGH	**AVA-CAMB-002** Strengthen the Resort, Beach, and Cottage Fact Architecture These are defining product facts. Consistent, approved presentation can improve decision context without promising a ranking, booking, ADR, or revenue outcome.	Hotel Commercial Leadership	Review in 2 weeks; approved updates within 30–45 days
HIGH	**AVA-CAMB-003** Validate the Business-District Attribute Before Acting A potentially inapplicable attribute should not trigger public copy changes until hotel leadership and the measurement steward confirm the intended demand context.	Hotel Commercial Leadership / Dealality Measurement Steward	Review in 2 weeks; approved updates within 30–45 days
MEDIUM	**AVA-CAMB-004** Preserve the Healthy Public-Crawl Baseline This is a healthy bounded observation, not proof of complete indexing. Preserving it provides a useful technical baseline while content facts are improved.	Website Platform Owner	Review in 2 weeks; approved updates within 30–45 days

3. Decisions Requested from Hotel Leadership

No public change is approved by this payload. Hotel leadership must establish the source of truth and authorize implementation.

1. **Reconcile Official Dining Facts With the 0% Recognition Gap** **(AVA-CAMB-001)**
   Hotel leadership must approve facts and public changes before implementation.
2. **Strengthen the Resort, Beach, and Cottage Fact Architecture** **(AVA-CAMB-002)**
   Hotel leadership must approve facts and public changes before implementation.
3. **Validate the Business-District Attribute Before Acting** **(AVA-CAMB-003)**
   Hotel leadership must approve facts and public changes before implementation.
4. **Preserve the Healthy Public-Crawl Baseline** **(AVA-CAMB-004)**
   Hotel leadership must approve facts and public changes before implementation.

4. Key Digital Presence Findings

Findings separate verified inconsistencies, bounded investigations, confirmation needs, and optional commercial choices.

NEEDS INVESTIGATION · AVA-CAMB-001

Reconcile Official Dining Facts With the 0% Recognition Gap

The official homepage describes multiple waterview restaurants and bars, including poolside, oceanfront, dockside, and tropical-bar experiences; the certified ADP read recorded 0% recognition for On-Site Restaurant.

SUPPORTING EVIDENCE

- VERIFIED PUBLIC EVIDENCE
  Cambridge Beaches homepage — Describes multiple waterview restaurants and bars across poolside, oceanfront, and dockside settings.

NEEDS INVESTIGATION · AVA-CAMB-002

Strengthen the Resort, Beach, and Cottage Fact Architecture

The official homepage states that the property is a Bermuda luxury resort with cottage accommodations, four private beaches, and two private coves. The staged reality-gap read recorded 0% for Luxury Positioning, Resort Experience, and Outdoor Pool, and 1.2% for Island Resort.

SUPPORTING EVIDENCE

- VERIFIED PUBLIC EVIDENCE
  Cambridge Beaches homepage — Presents luxury-resort positioning, cottage accommodations, four private beaches, and two private coves.

NEEDS HOTEL CONFIRMATION · AVA-CAMB-003

Validate the Business-District Attribute Before Acting

The staged review marks Business District Location as the first actionable 0% gap, while the certified property identity is an oceanfront resort in Sandys Parish.

SUPPORTING EVIDENCE

- VERIFIED PUBLIC EVIDENCE
  Cambridge Beaches homepage — Positions the property as an oceanfront Bermuda resort rather than a business-district hotel.

NEEDS INVESTIGATION · AVA-CAMB-004

Preserve the Healthy Public-Crawl Baseline

The zero-cost probe received HTTP 200 for robots.txt, sitemap.xml, HEAD, and homepage GET; the homepage also exposed JSON-LD.

SUPPORTING EVIDENCE

- TECHNICAL OBSERVATION
  Zero-cost public research probe — Returned HTTP 200 for the tested homepage, HEAD, robots, and sitemap requests.

5. Prioritized Action Plan

Each action states the owner, evidence, approval requirement, completion criteria, target URLs, and verification method.

ACTION 01 · AVA-CAMB-001

Reconcile Official Dining Facts With the 0% Recognition Gap

HIGH PRIORITY | NOT STARTED | NEEDS INVESTIGATION | Owner: Hotel Commercial Leadership / Digital Content Owner

Timing: Review in 2 weeks; approved updates within 30–45 days

WHAT WE FOUND

The official homepage describes multiple waterview restaurants and bars, including poolside, oceanfront, dockside, and tropical-bar experiences; the certified ADP read recorded 0% recognition for On-Site Restaurant.

WHY IT MATTERS

The gap is commercially material because dining is explicit first-party content, but it does not prove that page copy caused measured AI performance.

RECOMMENDED ACTION

1. Approve the current outlet names, meal periods, and operating-season facts.
2. Map the approved facts across dining, overview, structured data, and priority partner profiles.
3. Check whether each outlet is visible in rendered and machine-readable content.
4. Archive live evidence and review the gap at the next governed measurement.

ACCOUNTABLE OWNER

Hotel Commercial Leadership / Digital Content Owner

SUPPORTING PARTIES

Hotel commercial leadership,Digital content owner

SUGGESTED TIMING

Review in 2 weeks; approved updates within 30–45 days

MEASURABLE COMPLETION CRITERIA

- **Investigation Completed.** Hotel leadership records the approved source of truth and scope.
- **Correction Submitted.** Approved field-level changes are submitted to the responsible channel.
- **Correction Verified Live.** Named pages match the approved facts and live evidence is archived.
- **No Change Required.** Valid only when leadership documents why the current presentation is accurate and sufficient.

> **Hotel Decision Required.** Hotel leadership must approve facts and public changes before implementation.

AGENCY IMPLEMENTATION DETAILS

For the digital marketing agency, website developer, or CDN partner.

AFFECTED PAGES / PLATFORMS

REQUIRED CHANGES OR INVESTIGATION

1. Approve the current outlet names, meal periods, and operating-season facts.
2. Map the approved facts across dining, overview, structured data, and priority partner profiles.
3. Check whether each outlet is visible in rendered and machine-readable content.
4. Archive live evidence and review the gap at the next governed measurement.

SOURCE EVIDENCE

- Source

VERIFICATION METHOD

Re-fetch the named pages and compare rendered facts with the approved record.

DEPENDENCIES

- Hotel-approved source of truth
- Access to the responsible content channel

TECHNICAL NOTES

ADP recognition is a prioritization signal, not proof of ranking, booking, ADR, or revenue causation.

ACTION 02 · AVA-CAMB-002

Strengthen the Resort, Beach, and Cottage Fact Architecture

HIGH PRIORITY | NOT STARTED | NEEDS INVESTIGATION | Owner: Hotel Commercial Leadership

Timing: Review in 2 weeks; approved updates within 30–45 days

WHAT WE FOUND

The official homepage states that the property is a Bermuda luxury resort with cottage accommodations, four private beaches, and two private coves. The staged reality-gap read recorded 0% for Luxury Positioning, Resort Experience, and Outdoor Pool, and 1.2% for Island Resort.

WHY IT MATTERS

These are defining product facts. Consistent, approved presentation can improve decision context without promising a ranking, booking, ADR, or revenue outcome.

RECOMMENDED ACTION

1. Approve one canonical property-description block with resort, cottage, beach, and cove facts.
2. Separate permanent facts from seasonal or package-specific claims.
3. Apply the approved block to overview, accommodations, experience, and structured fields.
4. Verify wording and source consistency across priority channels.

ACTION 03 · AVA-CAMB-003

Validate the Business-District Attribute Before Acting

HIGH PRIORITY | NOT STARTED | NEEDS HOTEL CONFIRMATION

Owner: Hotel Commercial Leadership / Dealality Measurement Steward Timing: Review in 2 weeks; approved updates within 30–45 days

WHAT WE FOUND

The staged review marks Business District Location as the first actionable 0% gap, while the certified property identity is an oceanfront resort in Sandys Parish.

WHY IT MATTERS

A potentially inapplicable attribute should not trigger public copy changes until hotel leadership and the measurement steward confirm the intended demand context.

RECOMMENDED ACTION

1. Confirm whether business-district relevance is genuinely part of the hotel's target demand.
2. Review the prompts and evidence associated with the attribute without changing methodology.
3. Document either an approved positioning fact or a no-change rationale.
4. Keep the outcome in the monthly action register.

ACTION 04 · AVA-CAMB-004

Preserve the Healthy Public-Crawl Baseline

MEDIUM | NOT STARTED | NEEDS INVESTIGATION | Owner: Website Platform Owner

Timing: Review in 2 weeks; approved updates within 30–45 days

WHAT WE FOUND

The zero-cost probe received HTTP 200 for robots.txt, sitemap.xml, HEAD, and homepage GET; the homepage also exposed JSON-LD.

WHY IT MATTERS

This is a healthy bounded observation, not proof of complete indexing. Preserving it provides a useful technical baseline while content facts are improved.

RECOMMENDED ACTION

1. Record the current robots, sitemap, response, and structured-data baseline.
2. Include these endpoints in release regression checks.
3. Avoid broad crawler-policy changes without a verified issue.
4. Re-run the bounded probe after material site releases.

DEPENDENCIES

- Hotel-approved source of truth
- Access to the responsible content channel

TECHNICAL NOTES

ADP recognition is a prioritization signal, not proof of ranking, booking, ADR, or revenue causation.

6. Methodology, Responsibilities & Next Steps

Combines the pinned certified ADP baseline with the staged monthly-review reality gaps, a bounded review of named public pages, and zero-cost technical probes. No paid research, ADP remeasurement, production publication, or customer approval was performed.

How to Read Findings

- VERIFIED_ISSUE — a directly observed, source-backed discrepancy.
- RECOMMENDED_INVESTIGATION — evidence warrants review but does not prove a defect or cause.
- REQUIRES_HOTEL_CONFIRMATION — leadership must establish the source of truth before correction.
- OPTIONAL_COMMERCIAL_OPPORTUNITY — proceed only if leadership wants the demand.

Responsibilities

- Hotel leadership confirms facts, priorities, and public changes.
- Digital, brand, and partner teams implement only approved corrections and document verification.
- Dealality packages measurement context and evidence without implying ranking, booking, ADR, or revenue causation.

How This Relates to Monthly Monitoring

Approved actions may be tracked later. Completing an action does not itself prove a change in AI presence, bookings, ADR, or revenue.

Suggested Next Step

Approve the highest-priority source-of-truth decision, then authorize only the validated work.
