AI VISIBILITY AUDIT & ACTION PLAN

Charlotte Marriott City Center

Charlotte, North Carolina

INITIAL DIGITAL PRESENCE ASSESSMENT

NOVEMBER 2026

1. Executive Audit Summary

Reconcile Event-Space Totals and Room Counts

Charlotte Marriott City Center ranks second in its certified six-hotel set, but appears in only 38.6% of eligible scenarios and 12.5% of comparable consideration answers. Official pages verify an Uptown location, convention-center connection, five restaurants, M Club, and substantial meeting capacity. The priority is to reconcile competing event-space totals and organize those verified strengths into consistent buyer context.

Performance Snapshot

AI CONSIDERATION	SCENARIO PRESENCE	CERTIFIED PEER POSITION
12.5%	**38.6%**	**#2 of 6**
Mentioned in 22 of 176 comparable monitored AI answers	Present across 17 of 44 eligible traveler-need scenarios	Second-highest presence among 6 certified Marriott Bonvoy peers

AI Consideration is the share of comparable monitored answers mentioning the hotel; Scenario Presence is the share of eligible traveler-need scenarios where it appeared. Certified Peer Position uses only the named certified Marriott Bonvoy set. These measures do not represent bookings, ADR, revenue, or traveler exposure.

Key Findings

1. Reconcile Event-Space Totals and Room Counts

The events page reports 10 event rooms, 23,011 square feet, 13 breakout rooms, and capacity of 1,450; the overview and meeting narrative state 20,000 square feet and 13 breakout areas.

Why it matters. Planners need one setup-qualified inventory; rounding may be valid, but the counting and area basis should be explicit.

2. Strengthen Uptown and Convention-Center Decision Context

Official content places the hotel at 100 West Trade Street, describes a connection to Charlotte Convention Center, and names Spectrum Center and Bank of America Stadium; ADP recorded 0% recognition for Uptown, convention-center proximity, and walkable downtown.

Why it matters. These are verified location assets that can be made consistent without claiming they caused the measured visibility gap.

3. Organize Dining and M Club Facts Across Priority Pages

Marriott lists five restaurants, Stoke Charlotte, Stoke Bar, Coco and the Director, in-room dining, and M Club; ADP recorded 0% restaurant and in-room dining recognition, with M Club at 20%.

Why it matters. Complete and consistent outlet, meal-period, and lounge facts can improve buyer context, although no booking or ranking outcome is promised.

Recommended Priorities

High	Director of Sales / Events Leadership: Reconcile Event-Space Totals and Room Counts	Hotel leadership records the approved source of truth and scope.

EXECUTIVE TAKEAWAY

Charlotte Marriott City Center should treat its certified ADP result as a prioritization signal. The practical task is to protect or improve decision context with current, internally consistent official facts and documented verification—not to promise a visibility, booking, ADR, or revenue outcome.

TECHNICAL NOTES

ADP recognition is a prioritization signal, not proof of ranking, booking, ADR, or revenue causation.

6. Methodology, Responsibilities & Next Steps

Combines the pinned certified ADP baseline with a bounded review of named official Marriott pages, WebFetch retrieval, and zero-cost technical probes. No paid research, ADP remeasurement, production publication, or customer approval was performed.

How to Read Findings

- VERIFIED_ISSUE — a directly observed, source-backed discrepancy.
- RECOMMENDED_INVESTIGATION — evidence warrants review but does not prove a defect or cause.
- REQUIRES_HOTEL_CONFIRMATION — leadership must establish the source of truth before correction.
- OPTIONAL_COMMERCIAL_OPPORTUNITY — proceed only if leadership wants the demand.

Responsibilities

- Hotel leadership confirms facts, priorities, and public changes.
- Digital, brand, and partner teams implement only approved corrections and document verification.
- Dealality packages measurement context and evidence without implying ranking, booking, ADR, or revenue causation.

How This Relates to Monthly Monitoring

Approved actions may be tracked later. Completing an action does not itself prove a change in AI presence, bookings, ADR, or revenue.

Suggested Next Step

Approve the highest-priority source-of-truth decision, then authorize only the validated work.
