AI VISIBILITY AUDIT & ACTION PLAN

# Renaissance Arlington Capital View Hotel

Arlington, Virginia

INITIAL DIGITAL PRESENCE ASSESSMENT

NOVEMBER 2026

# 1. Executive Audit Summary

## Reconcile Event Totals and the Capital View Name

Renaissance Arlington Capital View leads its certified five-hotel set, but appears in only 54.3% of eligible scenarios and 19.0% of comparable consideration answers. Official pages verify a complimentary DCA, Metro, Pentagon, and Amazon HQ2 shuttle, SOCCi dining, Navigator programming, and substantial meetings inventory. The immediate work is to reconcile event totals and property naming, resolve conflicting pet fees, and organize those verified demand signals.

### Performance Snapshot

| AI CONSIDERATION | SCENARIO PRESENCE | CERTIFIED PEER POSITION |
|---|---|---|
| **19.0%** | **54.3%** | **#1 of 5** |
| Mentioned in 35 of 184 comparable monitored AI answers | Present across 25 of 46 eligible traveler-need scenarios | Highest presence among 5 certified Marriott Bonvoy peers |

AI Consideration is the share of comparable monitored answers mentioning the hotel; Scenario Presence is the share of eligible traveler-need scenarios where it appeared. Certified Peer Position uses only the named certified Marriott Bonvoy set. These measures do not represent bookings, ADR, revenue, or traveler exposure.

### Key Findings

#### 1. Reconcile Event Totals and the Capital View Name

The overview markets 17,000 square feet; the events summary reports 17,179; its opening copy says 20,000; and virtual-tour copy says “Renaissance Arlington Capitol View Hotel” rather than Capital View.

**Why it matters.** Planners need one inventory basis, and the property name should be consistent for entity clarity.

#### 2. Resolve Conflicting Pet-Fee Terms

Pet-friendly marketing states a $100 non-refundable fee per stay, while hotel information and the FAQ state a $50 non-refundable fee per night; both allow up to two pets.

**Why it matters.** Guests need one approved fee basis before booking, and the audit cannot determine which amount is current.

#### 3. Strengthen Shuttle, Dining, Navigator, and Demand Context

Marriott verifies complimentary scheduled service to DCA and Crystal City Metro plus weekday Pentagon/Amazon HQ2 service, SOCCi, illy Café, room service, Renaissance Navigators, and government/military positioning. ADP recorded 0% recognition for airport shuttle, restaurant, room service, ballroom capacity, and Navigator.

**Why it matters.** These facts support airport, government, corporate, and local-experience decisions, but no ranking or booking causation is claimed.

### Recommended Priorities

| PRIORITY | ACTION | DESIRED OUTCOME |
|---|---|---|
| High | Director of Sales / Marriott Digital: Reconcile Event Totals and the Capital View Name | Hotel leadership records the approved source of truth and scope. |
| High | Hotel Operations / Revenue Leadership: Resolve Conflicting Pet-Fee Terms | Hotel leadership records the approved source of truth and scope. |
| High | Hotel Commercial Leadership: Strengthen Shuttle, Dining, Navigator, and Demand Context | Hotel leadership records the approved source of truth and scope. |
| Medium | Marriott Digital / CDN Security Owner: Review Marriott Origin Access for Intended Crawlers | Hotel leadership records the approved source of truth and scope. |

EXECUTIVE TAKEAWAY

**Renaissance Arlington Capital View Hotel should treat its certified ADP result as a prioritization signal. The practical task is to protect or improve decision context with current, internally consistent official facts and documented verification—not to promise a visibility, booking, ADR, or revenue outcome.**

### RECOMMENDED ACTION

1. Review the exact research user agent and redirect chain.
2. Confirm intended crawler and bot policy.
3. Make only narrow approved changes if a conflict is verified.
4. Retest the origin and named hotel pages.

## 6. Methodology, Responsibilities & Next Steps

Combines the pinned certified ADP baseline with a bounded review of named official Marriott pages, WebFetch retrieval, and zero-cost technical probes. No paid research, ADP remeasurement, production publication, or customer approval was performed.

### How to Read Findings

- VERIFIED_ISSUE — a directly observed, source-backed discrepancy.
- RECOMMENDED_INVESTIGATION — evidence warrants review but does not prove a defect or cause.
- REQUIRES_HOTEL_CONFIRMATION — leadership must establish the source of truth before correction.
- OPTIONAL_COMMERCIAL_OPPORTUNITY — proceed only if leadership wants the demand.

### Responsibilities

- Hotel leadership confirms facts, priorities, and public changes.
- Digital, brand, and partner teams implement only approved corrections and document verification.
- Dealality packages measurement context and evidence without implying ranking, booking, ADR, or revenue causation.

### How This Relates to Monthly Monitoring

Approved actions may be tracked later. Completing an action does not itself prove a change in AI presence, bookings, ADR, or revenue.

### Suggested Next Step

Approve the highest-priority source-of-truth decision, then authorize only the validated work.
