AI VISIBILITY AUDIT & ACTION PLAN

Sheraton Mallorca Arabella Golf Hotel

Palma de Mallorca, Spain

INITIAL DIGITAL PRESENCE ASSESSMENT

NOVEMBER 2026

1. Executive Audit Summary

Make the Family Golf Resort Proposition Easier for Planners to Choose

Sheraton Mallorca Arabella Golf Hotel's central issue is absolute visibility: 20.6% consideration, 35.6% scenario presence, and third place among four Bonvoy peers. Official content is already rich—four courses and 63 holes, Kids Club, Shine Spa, and dining. The opportunity is to package those strengths clearly for international leisure and group planners, not to frame the result as peer embarrassment.

Performance Snapshot

AI CONSIDERATION	SCENARIO PRESENCE	CERTIFIED PEER POSITION
20.6%	**35.6%**	**#3 of 4**
Share of comparable monitored AI answers that mentioned the hotel	Eligible traveler-need scenarios where the hotel appeared	Third among 4 certified Marriott Bonvoy peers

AI Consideration is the share of comparable monitored answers mentioning the hotel; Scenario Presence is the share of eligible traveler-need scenarios where it appeared; Certified Peer Position compares only the certified four-hotel set. Presence does not equal bookings, revenue, or traveler exposure.

Key Findings

1. The Absolute Visibility Gap Is the Business Story

The hotel appears in 35.6% of eligible scenarios and 20.6% of comparable consideration answers, despite rich official content.

Why it matters. The third-place rank is context, not embarrassment. Management should investigate where the family-friendly golf proposition is absent or unclear without claiming that content alone caused the measured gap.

2. Golf, Family, Wellness, and Dining Form a Distinct Offer

Marriott presents access to four courses and 63 holes, Kids Club, Shine Spa, and multiple dining experiences.

Why it matters. International group planners need consistent golf access conditions, family-program details, seasonal availability, meeting fit, and inquiry routing before these strengths can function as a dependable resort or retreat proposition.

3. Sister-Cluster Positioning Is an Opportunity

Sheraton's family-friendly golf resort role differs naturally from Castillo's adults-only Luxury Collection castle, although ADP observed sister-hotel displacement.

Why it matters. Cluster leadership can clarify complementary audiences and occasions without negative rivalry. Any incentive or golf-retreat package should remain optional and proceed only if sales and operations want that demand.

Recommended Priorities

PRIORITY	ACTION	DESIRED OUTCOME
High	Hotel and Arabella Golf: lock access, family, wellness, dining, and meeting facts	Consistent resort proposition
High	Sales: test international planner journey and golf-retreat fit	Approved content brief or documented no-go
Medium	Cluster leadership: define Sheraton and Castillo audience roles	Complementary sister-hotel positioning
Medium	Marriott platform support: investigate bounded 403 behavior	Documented access decision

EXECUTIVE TAKEAWAY

Sheraton Mallorca Arabella Golf Hotel needs stronger absolute consideration, but it does not need a new identity. Clarify the existing family-friendly golf resort offer for international planners, define its complementary role beside Castillo, and package incentive or retreat demand only when commercial leadership confirms the fit. Digital authority: Sheraton Mallorca Arabella Golf is already listed on Visit Palma destination hotel inventories and Urban Meetings materials alongside Castillo Son Vida.

Castillo Son Vida holds a more property-specific Marriott Luxury Collection href on its Visit Palma page. Priority: keep Visit Palma and golf-media facts synchronized with Marriott (family, golf, meetings)—not invent directory volume. arabellagolf.com remains TLS-unreliable and is not used as customer-facing evidence.

Clarify Golf, Family, and Meetings Packaging for International Planners

HIGH PRIORITY | AWAITING HOTEL DECISION | OPTIONAL OPPORTUNITY | Owner: Hotel Commercial Leadership

Timing: Decision within 30 days; approved content within 60–90 days

WHAT WE FOUND

Golf, family, wellness, dining, and meetings content exists, but the combined planner journey and international group proposition require a commercial test.

WHY IT MATTERS

A concise planner path can clarify group fit and inquiry ownership. Incentive or golf-retreat packaging remains optional and should be built only if sales and operations want that demand.

RECOMMENDED ACTION

1. Sales reviews current planner journey and recent target demand.
2. Make a go/no-go decision on golf-retreat packaging.
3. If go, approve capacities, components, exclusions, and inquiry routing.
4. Refine existing content or add a module only where needed.

Clarify Positioning Beside Castillo Hotel Son Vida

MEDIUM | AWAITING HOTEL DECISION | NEEDS INVESTIGATION | Owner: Cluster Commercial Leadership

RECOMMENDED ACTION

1. Review the displaced scenarios with cluster leadership.
2. Define each property's intended audience and occasions.

Combines the certified ADP baseline with a bounded review of named public pages and zero-cost technical probes. No paid research, Airtable write, ADP remeasurement, or customer publication was performed.

How to Read Findings

- VERIFIED_ISSUE — a directly observed, source-backed discrepancy.
- RECOMMENDED_INVESTIGATION — evidence warrants review but does not prove a defect or cause.
- REQUIRES_HOTEL_CONFIRMATION — hotel leadership must establish the source of truth before correction.
- OPTIONAL_COMMERCIAL_OPPORTUNITY — proceed only if leadership wants the demand.

Responsibilities

- Hotel leadership confirms facts, priorities, and public changes.
- Digital or brand teams implement only approved corrections and document verification.
- Dealality packages measurement context and evidence without implying booking or revenue causation.

How This Relates to Monthly Monitoring

Approved actions may be tracked in a later review. Completing an action does not itself prove a change in AI presence, bookings, or revenue.

Suggested Next Step

Confirm the decision items, then authorize the highest-priority validated work.
