AI VISIBILITY AUDIT & ACTION PLAN

W Rome

Rome, Italy

INITIAL DIGITAL PRESENCE ASSESSMENT

NOVEMBER 2026

1. Executive Audit Summary

Bridge Formal Meeting Metrics to W Rome's Broader Private-Event Offer

W Rome appears in 20 of 48 eligible scenarios and ranks third among six certified Marriott Bonvoy peers, but AI Consideration is 11.5%. Its official pages show a differentiated lifestyle proposition—148 rooms and suites, rooftop dining, W Lounge, WET Deck, private-event venues, design, and city programming—while several of those assets remain absent or weak in the certified attribute read.

Performance Snapshot

AI CONSIDERATION	SCENARIO PRESENCE	CERTIFIED PEER POSITION
11.5%	**41.7%**	**#3 of 6**
Mentioned in 22 of 192 comparable monitored AI answers	Present across 20 of 48 eligible traveler-need scenarios	Third-highest presence among 6 certified Marriott Bonvoy peers

AI Consideration is the share of comparable monitored answers mentioning the hotel; Scenario Presence is the share of eligible traveler-need scenarios where it appeared. Certified Peer Position uses the named governed peer set. These measures do not represent bookings, ADR, revenue, or traveler exposure.

Key Findings

1. Bridge Formal Meeting Metrics to Private-Event Capacities

The events headline lists 2 event rooms, 60 square meters, and a largest-space capacity of 40. The same page separately offers W Lounge and Giardino Clandestino for up to 100 standing, WET Deck for 90, and other private-event settings.

Why it matters. A clear formal-room versus buyout/ancillary-venue bridge helps planners compare the right capacity frame.

2. Publish One Dining and Social-Venue Category Map

Official copy presents Giano, Citrico Rooftop, Zucchero, W Lounge, and Giardino Clandestino across dining and social contexts, while the amenity headline states four restaurants and one bar.

Why it matters. Stable categories help guests and partners distinguish restaurants, bars, lounges, pastry concepts, and seasonal spaces.

3. Strengthen Restaurant, Pool, Pet, and Lifestyle Facts

ADP recorded 0% for on-site restaurant, small meeting space, private dining, pet friendly, and lifestyle; outdoor pool recognition was 1.4%, despite detailed official content.

Why it matters. Consistent facts can improve buyer context without promising a change in AI rank, bookings, ADR, or revenue.

DEPENDENCIES

TECHNICAL NOTES

ADP recognition is a prioritization signal, not proof of ranking, booking, ADR, or revenue causation.

6. Methodology, Responsibilities & Next Steps

Combines the pinned certified ADP lean baseline with a bounded review of named public pages, WebFetch retrieval, and zero-cost technical probes. No paid research, ADP remeasurement, production write, customer publication, or founder/customer approval was performed.

How to Read Findings

- VERIFIED_ISSUE — a directly observed, source-backed discrepancy.
- RECOMMENDED_INVESTIGATION — evidence warrants review but does not prove a defect or cause.
- REQUIRES_HOTEL_CONFIRMATION — leadership must establish the source of truth before correction.
- OPTIONAL_COMMERCIAL_OPPORTUNITY — proceed only if leadership wants the demand.

Responsibilities

- Hotel leadership confirms facts, priorities, and public changes.
- Digital, brand, and partner teams implement only approved corrections and document verification.
- Dealality packages measurement context and evidence without implying ranking, booking, ADR, or revenue causation.

How This Relates to Monthly Monitoring

Approved actions may be tracked later. Completing an action does not itself prove a change in AI presence, bookings, ADR, or revenue.

Suggested Next Step

Approve the highest-priority source-of-truth decision, then authorize only the validated work.
