AI VISIBILITY AUDIT & ACTION PLAN

Fiesta Americana Condesa Cancún All Inclusive

Cancún, Quintana Roo

INITIAL DIGITAL PRESENCE ASSESSMENT

NOVEMBER 2026

1. Executive Audit Summary

Protect the Peer Lead While Improving Absolute Buyer Recognition

Fiesta Americana Condesa Cancún All Inclusive ranks first among four certified Fiesta Americana all-inclusive resort peers, yet absolute consideration is 2.8% and scenario presence is 11.1%. That combination is not evidence of a defect. The hotel already has recognized all-inclusive, beachfront, and spa strengths; the practical opportunity is to present under-recognized fitness, watersports, and romance attributes more clearly, while correcting public dining-count inconsistency and protecting the conditions attached to the airport-transfer offer.

Performance Snapshot

AI CONSIDERATION	SCENARIO PRESENCE	CERTIFIED PEER POSITION
2.8%	**11.1%**	**#1 of 4**
Mentioned in 5 of 180 comparable monitored AI answers	Present across 5 of 45 eligible traveler-need scenarios	Highest presence among 4 certified Fiesta Americana all-inclusive resort peers

AI Consideration is based on 5 of 180 comparable monitored answers; Scenario Presence is based on 5 of 45 eligible scenarios. Certified Peer Position compares the four-hotel Fiesta Americana all-inclusive resort set. These measures do not represent bookings, revenue, or traveler exposure.

Key Findings

1. Peer Leadership Does Not Equal Broad Consideration

The resort is #1 of 4 in its certified peer set but appears in a small share of the broader monitored answers and scenarios.
Why it matters. The hotel can build on a relative strength while treating low absolute presence as a prioritization signal rather than a diagnosed website failure.

2. Dining Inventory Needs One Count Language

The official amenities page says 10 restaurants and bars, while Booking.com displays 15 restaurants.
Why it matters. The difference may reflect whether bars, counters, or seasonal outlets are counted. Guests and partners need one approved classification.

3. Offer Conditions and Selective Differentiators Need Clarity

Free airport transfer requires an official-site booking of at least four nights, while fitness, watersports, and honeymoon recognition remain partial.
Why it matters. Clear conditions prevent over-promising, and selective content can improve decision context without inventing defects or guaranteeing demand.

Recommended Priorities

PRIORITY	ACTION	DESIRED OUTCOME
High	Commercial team: strengthen verified differentiators	Clearer fitness, watersports, family, spa, and beachfront context
High	Food and beverage: align official and Booking.com outlet counts	One approved dining inventory
High	Revenue and digital: make airport-transfer conditions consistent	Accurate eligibility language across booking paths
Optional	Leadership: decide whether romance content supports target demand	Documented wedding/honeymoon go or no-go

EXECUTIVE TAKEAWAY

The resort's first-place peer rank is a sound foundation, not a reason to overstate performance. The best next step is disciplined information quality—align dining counts, protect offer conditions, and selectively strengthen real differentiators—then evaluate future movement through governed measurement. Digital authority: The resort's strongest verified digital surfaces today are brand and major leisure-distribution pages. Digital content readiness: Condesa's brand/all-inclusive pages and distributor listings create dining and transfer fact conflicts that matter more than backlink volume.

2. Priority Findings & Opportunities

The most important verified corrections and opportunities for this hotel. Full research detail remains in the AVA record.

Issue: Official amenities copy says 10 restaurants and bars, while Booking.com lists 15 restaurants.

Recommended action: Align Restaurant and Bar Inventory Across Channels

1. Food and beverage signs a current outlet roster with type and operating status.
2. Define the counting rule for restaurants, bars, counters, and seasonal concepts.
3. Update official wording if needed and submit a field-level Booking.com correction.
4. Verify both pages and schedule recurring inventory review.

PRIORITY: MEDIUM · **PLATFORM:** OFFICIAL RESORT PAGE

Why it matters: A focused romance module could clarify fit and inquiry routing, but generic content would add maintenance and cannot guarantee leads or bookings.

Recommended action: Decide Whether to Expand Romance and Honeymoon Content

1. Commercial leadership records a wedding/honeymoon go or no-go.
2. If go, define target occasions, packages, adult-versus-family positioning, proof points, and inquiry owner.
3. Draft concise content without weakening the family-resort proposition.
4. If no-go, document and close the action.
5. A written commercial go/no-go and target-segment rationale are on file.

Responsible party: Hotel Commercial Leadership

Evidence: Official resort page
