

AI DEMAND PERFORMANCE REVIEW

Casas del XVI

Distrito Nacional

MONTHLY EXECUTIVE REVIEW

SEPTEMBER 2026 · CURRENT MONITORING SEP 10, 2026 · PRIOR RUN —
PERFORMANCE · COMPETITIVE MOVEMENT · EVIDENCE · ACTIONS · ACCOUNTABILITY

This AI Demand Performance Review is a Dealality executive monitoring report. Measurement methodology is unchanged by presentation.
Confidential — for the named recipient only.

1. Executive Performance

No official comparable prior period is available. This review is a current-period baseline read; prior-run trend deltas are not shown.

AI CONSIDERATION 31.7%	SCENARIO PRESENCE 41.3%	REALITY COVERAGE 40.0%
COMPETITIVE POSITION InterContinental Real Santo Domingo Top displacement competitor · 37 scenarios where subject was absent	BRAND PORTFOLIO POSITION 31.7% 80 of 252 AI observations	PORTFOLIO RANK #2 of 5 Among 5 relevant IHG One Rewards hotels

Executive Assessment

Executive Conclusion — Casas del XVI's most important issue is concentrated competitive displacement by JW Marriott Hotel Santo Domingo, not a vague visibility problem. Why this is the primary issue — JW Marriott Hotel Santo Domingo appears in 37 monitored scenarios where Casas del XVI is absent. That concentration matters more than a long competitor list because it identifies a repeatable substitution pattern. Related Reality Gap pressure includes Soft Brand / Independence at 0% recognition, which may help explain why the hotel is not carried into those answers. Leadership needs to understand why specific alternatives are surfaced instead of Casas del XVI in recurring demand contexts. Otherwise attention may stay on average scores while missing the concentrated leak. A displacement pattern that repeats is more actionable than a soft overall visibility narrative. Where the pattern is concentrated — Scenario Capture is softest in Business Travel (9.1%) versus stronger Family Travel (66.7%). These are current-period scenario-capture rates from demandCapture.byIntent — not answer-level consideration. When the property is absent, the leading observed alternative is InterContinental Real Santo Domingo (37 monitored scenarios). Counts are observational and do not establish causation. Reality Coverage is 40.0% (6 of 15 monitored attributes recognized). High-severity gaps include Soft Brand / Independence; IHG One Rewards Loyalty; Wedding Venue. What management should focus on — Focus first on the demand contexts where JW Marriott Hotel Santo Domingo is consistently surfaced instead of Casas del XVI. Determine whether the relevant attributes and use cases are clearly represented across priority sources, and whether the hotel's own proposition is complete for those same contexts. What not to overreact to — No comparable prior official monitoring period is available yet. This period can be evaluated on its own; change over time is not shown. Independent Positioning shows #2 of 5 with Portfolio AI Presence 31.7%. Portfolio and Core metrics share observation context but are not interchangeable denominators. What to watch next — Open the underlying displacement evidence for JW Marriott Hotel Santo Domingo and compare attributes cited in those answers with Casas del XVI's first-party and major travel-source representation. Confirm whether the same cues appear when the hotel is present. Anchored metrics (current published ADP): AI Consideration 31.7%; Scenario Presence 41.3%; Reality Coverage 40.0%. Biggest Strength (platform): Often placed near the top when AI ranks hotels. Biggest Constraint (platform): AI does not fully reflect the property.

POSITIVE SIGNAL

Among AI answers where hotel ranking could be measured, Casas del XVI appeared in the Top 3 80% of the time. This shows how prominently the hotel is positioned when AI includes it.

WATCH ITEM

AI currently reflects 40% of the monitored facts and attributes that define the hotel. Important parts of the property's proposition are not consistently reflected in AI results.

MANAGEMENT PRIORITY

Focus first on the demand contexts where JW Marriott Hotel Santo Domingo is consistently surfaced instead of Casas del XVI. Determine whether the relevant attributes and use cases are clearly represented across priority sources, and whether the hotel's own proposition is complete for those same contexts.

2. Demand & Competitive Movement

Material Movement

No material movement rows in this period.

Demand Movement

DEMAND TERRITORY	CURRENT	CAPTURED	SIGNIFICANCE	INTERPRETATION
Business Travel	9.1%	1 of 11	LEVEL_LOW	Low scenario-capture rate for this traveler need. Treat as a priority inspection area (absolute level — not a period-over-period decline).
Group / Meeting	20.0%	2 of 10	LEVEL_LOW	Low scenario-capture rate for this traveler need. Treat as a priority inspection area (absolute level — not a period-over-period decline).
Wellness	25.0%	1 of 4	LEVEL_LOW	Low scenario-capture rate for this traveler need. Treat as a priority inspection area (absolute level — not a period-over-period decline).
Adventure	33.3%	1 of 3	LEVEL_LOW	Low scenario-capture rate for this traveler need. Treat as a priority inspection area (absolute level — not a period-over-period decline).
Celebration	57.1%	4 of 7	LEVEL_PARTIAL	Partial scenario capture. Review whether missing scenarios share a common attribute or competitor pattern.
Leisure Travel	58.3%	7 of 12	LEVEL_PARTIAL	Partial scenario capture. Review whether missing scenarios share a common attribute or competitor pattern.

Metric = demandCapture.byIntent scenario capture (captured/total). Prior-run territory rates are not published as a comparable series in this edition.

Competitive Movement

When the property is absent, AI answers most often include InterContinental Real Santo Domingo (37), JW Marriott Hotel Santo Domingo (37), Santo Domingo Marriott Hotel (37). Counts are observational and do not by themselves prove why displacement occurs.

COMPETITOR	DISPLACEMENT COUNT
InterContinental Real Santo Domingo	37
JW Marriott Hotel Santo Domingo	37
Santo Domingo Marriott Hotel	37
Hilton Santo Domingo	31
Renaissance Santo Domingo Jaragua Hotel & Casino	29

Competitive movement describes co-appearance and absence patterns in monitored answers. It does not establish causation.

3. Evidence Review

EVIDENCE 01

Business

Provider: Gemini

Observation: The definitive best luxury hotel for a business trip in Piantini is the ****JW Marriott Hotel Santo Domingo****. However, depending on your specific business needs (client entertainment, loyalty programs, or dining preferences), the ****InterContinental Real Santo Domingo**** is an extremely close runner-up. Here is a breakdown of the top options in Piantini to help you decide. --- ### 1. The Winner: JW Marriott Hotel Santo...

Why It Matters: Shows a monitored case where the property was not mentioned while alternatives were surfaced.

Management Review: Review whether property information for this traveler need is complete and consistently represented across first-party and major third-party sources.

EVIDENCE 02

Property reality attributes

Provider: All Providers

Observation: Soft Brand / Independence recognized in 0.0% of applicable monitored answers (0 of 80).

Why It Matters: This attribute is part of the monitored property proposition but is infrequently reflected in AI answers.

Management Review: Verify whether "Soft Brand / Independence" is accurately and consistently described on the hotel website and major booking/travel platforms.

EVIDENCE 03

Scenarios where subject is absent

Provider: Cross-provider

Observation: InterContinental Real Santo Domingo appeared in 37 monitored scenarios where Casas del XVI was absent.

Why It Matters: Identifies the competitor most often present when the subject hotel is missing from AI answers.

Management Review: Compare public positioning and third-party descriptions against this competitor for the traveler needs where displacement concentrates.

EVIDENCE 04

Property reality attributes

Provider: All Providers

Observation: IHG One Rewards Loyalty recognized in 7.5% of applicable monitored answers.

Why It Matters: Another high-severity attribute gap in the current monitoring period.

Management Review: Confirm whether "IHG One Rewards Loyalty" should be represented more clearly in first-party and third-party property copy.

4. Management Action Agenda

ACTION 01

Complete the meetings decision package with missing capacity, space, and contact facts

HIGH OPEN Owner: Commercial / Sales Lead Due: Date to be confirmed

OBSERVED ISSUE

Business/meeting demand opportunity remains contested ("Best upscale hotel in Distrito Nacional for a multi-day corp...") with weak competitor ownership in monitored answers.

RECOMMENDED ACTION — IMPLEMENTATION STEPS

- 1. Confirm the hotel's canonical facts for Meetings information with the accountable owner (Casas del XVI).
- 2. Complete the applicable checklist items: total meeting space; largest capacity; meeting sales contact; downloadable floorplans; event fact sheet.
- 3. Audit each target source and record current wording/state: Hotel Website; Meeting / Event Fact Sheet; Google Business Profile.
- 4. Correct only the sources where facts are missing, conflicting, or outdated. Do not change measurement methodology.
- 5. Store completion evidence (canonical policy summary, sources reviewed, sources corrected, URLs/screenshots, completion date).
- 6. Notify Dealality of completion so the next monitoring period can check the expected signal without assuming causation.

TARGET SOURCES

Hotel Website; Meeting / Event Fact Sheet; Google Business Profile

DEFINITION OF DONE

- Canonical facts for "Meetings information" are confirmed by hotel management.
- Each target source is reviewed: Hotel Website; Meeting / Event Fact Sheet; Google Business Profile.
- Sources that were incorrect or incomplete are corrected, with URLs or screenshots stored.
- The specific missing/inconsistent items are resolved: total meeting space; largest capacity; meeting sales contact; downloadable floorplans; event fact sheet.
- Accountable owner signs off with completion date.

EXPECTED SIGNAL

Dealality will monitor whether meetings information recognition and related scenario inclusion change in the next monitoring period. Monitoring alone does not establish causation.

NEXT MONITORING CHECK

Next published ADP run — review Meetings information attribute recognition, related demand-territory presence, and evidence excerpts for the corrected facts.

ACTION 02

Reconcile public facts for traveler needs where a named competitor appears and the subject hotel is absent

MEDIUM

OPEN

Owner: General Manager + Marketing Lead Due: Date to be confirmed

OBSERVED ISSUE

InterContinental Real Santo Domingo appeared in 37 monitored scenarios where Casas del XVI was absent.

RECOMMENDED ACTION — IMPLEMENTATION STEPS

1. Confirm the hotel's canonical facts for Competitive displacement with the accountable owner (Casas del XVI).
2. Complete the applicable checklist items: list traveler needs / scenarios where absence concentrates; identify subject facts that are missing or inconsistent on priority sources; update first-party pages covering those facts.
3. Audit each target source and record current wording/state: Hotel Website; TripAdvisor; Google Business Profile; Booking.com.
4. Correct only the sources where facts are missing, conflicting, or outdated. Do not change measurement methodology.
5. Compare public facts credited to InterContinental Real Santo Domingo in displacement evidence against the subject hotel's corrected pages; close only evidence-backed gaps.
6. Store completion evidence (canonical policy summary, sources reviewed, sources corrected, URLs/screenshots, completion date).
7. Notify Dealality of completion so the next monitoring period can check the expected signal without assuming causation.

TARGET SOURCES

Hotel Website; TripAdvisor; Google Business Profile; Booking.com

DEFINITION OF DONE

- Canonical facts for "Competitive displacement" are confirmed by hotel management.
- Each target source is reviewed: Hotel Website; TripAdvisor; Google Business Profile; Booking.com.
- Sources that were incorrect or incomplete are corrected, with URLs or screenshots stored.
- The specific missing/inconsistent items are resolved: list traveler needs / scenarios where absence concentrates; identify subject facts that are missing or inconsistent on priority sources; update first-party pages covering those facts.
- Accountable owner signs off with completion date.

EXPECTED SIGNAL

Dealality will monitor whether competitive displacement recognition and related scenario inclusion change in the next monitoring period. Monitoring alone does not establish causation.

NEXT MONITORING CHECK

Next published ADP run — review Competitive displacement attribute recognition, related demand-territory presence, and evidence excerpts for the corrected facts.

ACTION 03

Stand up a TripAdvisor management-response program with owner, SLA, and theme tracking

MEDIUM **OPEN** Owner: Guest Experience / Reputation Owner Due: Date to be confirmed

OBSERVED ISSUE

TripAdvisor appears in 69.2% of cited sources in the current monitoring period (45 citations), making response quality and factual corrections operationally material when misconceptions appear.

RECOMMENDED ACTION — IMPLEMENTATION STEPS

1. Confirm the hotel’s canonical facts for TripAdvisor responses with the accountable owner (Casas del XVI).
2. Complete the applicable checklist items: designate accountable owner; set response SLA (property-configured; do not invent a default unless governed); identify recurring complaint themes monthly; correct factual misconceptions where appropriate; track response rate.
3. Audit each target source and record current wording/state: TripAdvisor.
4. Correct only the sources where facts are missing, conflicting, or outdated. Do not change measurement methodology.
5. Store completion evidence (canonical policy summary, sources reviewed, sources corrected, URLs/screenshots, completion date).
6. Notify Dealality of completion so the next monitoring period can check the expected signal without assuming causation.

TARGET SOURCES

TripAdvisor

DEFINITION OF DONE

- Canonical facts for “TripAdvisor responses” are confirmed by hotel management.
- Each target source is reviewed: TripAdvisor.
- Sources that were incorrect or incomplete are corrected, with URLs or screenshots stored.
- The specific missing/inconsistent items are resolved: designate accountable owner; set response SLA; identify recurring complaint themes monthly; correct factual misconceptions where appropriate; track response rate.
- Accountable owner signs off with completion date.

EXPECTED SIGNAL

Dealality will monitor whether tripadvisor responses recognition and related scenario inclusion change in the next monitoring period. Monitoring alone does not establish causation.

NEXT MONITORING CHECK

Next published ADP run — review TripAdvisor responses attribute recognition, related demand-territory presence, and evidence excerpts for the corrected facts.

ACTION 04

Align first-party and OTA room descriptions with recurring expectation mismatches in evidence

MEDIUM **OPEN** Owner: Director of Marketing / Revenue Marketing Due: Date to be confirmed

OBSERVED ISSUE

AI Consideration is 31.7% with Reality Coverage 40.0%. High-severity reality gaps indicate stay-expectation descriptions may contribute to under-inclusion.

RECOMMENDED ACTION — IMPLEMENTATION STEPS

1. Confirm the hotel’s canonical facts for Room expectation alignment with the accountable owner (Casas del XVI).
2. Complete the applicable checklist items: identify exact recurring expectation mismatch; update first-party room descriptions; verify OTA room-type descriptions; ensure imagery accurately reflects room type.
3. Audit each target source and record current wording/state: Hotel Website; OTA Room-Type Descriptions; Booking.com; Expedia.
4. Correct only the sources where facts are missing, conflicting, or outdated. Do not change measurement methodology.
5. Store completion evidence (canonical policy summary, sources reviewed, sources corrected, URLs/screenshots, completion date).
6. Notify Dealality of completion so the next monitoring period can check the expected signal without assuming causation.

TARGET SOURCES

Hotel Website; OTA Room-Type Descriptions; Booking.com; Expedia

DEFINITION OF DONE

- Canonical facts for “Room expectation alignment” are confirmed by hotel management.
- Each target source is reviewed: Hotel Website; OTA Room-Type Descriptions; Booking.com; Expedia.
- Sources that were incorrect or incomplete are corrected, with URLs or screenshots stored.
- The specific missing/inconsistent items are resolved: identify exact recurring expectation mismatch; update first-party room descriptions; verify OTA room-type descriptions; ensure imagery accurately reflects room type.
- Accountable owner signs off with completion date.

EXPECTED SIGNAL

Dealality will monitor whether room expectation alignment recognition and related scenario inclusion change in the next monitoring period. Monitoring alone does not establish causation.

NEXT MONITORING CHECK

Next published ADP run — review Room expectation alignment attribute recognition, related demand-territory presence, and evidence excerpts for the corrected facts.

ACTION 05

Audit and correct Google Business Profile fields against the hotel’s canonical facts

MEDIUM

OPEN

Owner: Marketing / Local Presence Owner Due: Date to be confirmed

OBSERVED ISSUE

Broad under-inclusion (Scenario Presence 41.3%) requires verifying that Google Business Profile amenities, description, and booking link match the hotel’s canonical facts before other channels can be trusted as consistent.

RECOMMENDED ACTION — IMPLEMENTATION STEPS

1. Confirm the hotel’s canonical facts for Google Business Profile with the accountable owner (Casas del XVI).
2. Complete the applicable checklist items: booking link; amenities; photos; description; Q&A; outdated user-added information.
3. Audit each target source and record current wording/state: Google Business Profile; Hotel Website.
4. Correct only the sources where facts are missing, conflicting, or outdated. Do not change measurement methodology.
5. Store completion evidence (canonical policy summary, sources reviewed, sources corrected, URLs/screenshots, completion date).
6. Notify Dealality of completion so the next monitoring period can check the expected signal without assuming causation.

TARGET SOURCES

Google Business Profile; Hotel Website

DEFINITION OF DONE

- Canonical facts for “Google Business Profile” are confirmed by hotel management.

- Each target source is reviewed: Google Business Profile; Hotel Website.
- Sources that were incorrect or incomplete are corrected, with URLs or screenshots stored.
- The specific missing/inconsistent items are resolved: amenities; description; booking link; photos; Q&A; outdated user-added information.
- Accountable owner signs off with completion date.

EXPECTED SIGNAL

Dealality will monitor whether google business profile recognition and related scenario inclusion change in the next monitoring period. Monitoring alone does not establish causation.

NEXT MONITORING CHECK

Next published ADP run — review Google Business Profile attribute recognition, related demand-territory presence, and evidence excerpts for the corrected facts.

5. Accountability & Decisions

Prior Action Review

No prior monthly actions are available yet.

Decisions Required

1. Confirm an accountable owner for each open action (role is pre-suggested; named owner still required).
2. Confirm target completion dates for each open action.
3. Confirm whether the corrective action order matches management's operating priority for the next 30 days.
4. Confirm whether any high-severity reality-gap attributes are outdated, incorrect, or intentionally not marketed.
5. Set target dates where currently blank ("Owner to be confirmed" / date pending).

What Dealality Will Monitor Next

- AI Consideration and Scenario Presence versus the next published monitoring run.
- Reality Coverage and high-severity attribute recognition rates.
- Displacement pattern involving InterContinental Real Santo Domingo.
- Follow-up signal for action: Complete the meetings decision package with missing capacity, space, and contact facts — focus: total meeting space, largest capacity, meeting sales contact.
- Follow-up signal for action: Reconcile public facts for traveler needs where a named competitor appears and the subject hotel is absent — focus: list traveler needs / scenarios where absence concentrates, identify subject facts that are missing or inconsistent on priority sources, update first-party pages covering those facts.

This review is composed from the certified published Existing Hotel ADP customer report and the published Independent Positioning pack where available. It does not rerun providers, invent metrics, or claim causation from management actions. Final actions are executable playbooks with target sources, implementation steps, and definition of done.
