Executive Assessment

NOW NOW NOHO currently shows AI Consideration of 3.2% and Scenario Presence of 12.7%, with Reality Coverage at 28.6%. Strongest governed signal: Still developing. Primary constraint: AI does not fully reflect the property. Versus the prior published run (2026-08-20), material headline movement is AI Consideration 0.0 pp and Scenario Presence 0.0 pp. Independent Positioning metrics are included only where published. Independent Positioning is weak as well, so the Core and portfolio reads point in the same direction. Overall Core performance remains weak; gaps are

broad across consideration, scenario coverage, and Independent Positioning. Management should prioritize correcting clear visibility and reality gaps, then address the competitors that most often appear when the property is absent.

Positive Signal

NOW NOW NOHO does not yet show a single dominant strength with enough comparable evidence in this period.

Performance Risk

AI currently reflects 28.6% of the monitored facts and attributes that define the hotel. Important parts of the property's proposition are not consistently reflected in AI results.

Management Priority

Prioritize correcting high-severity reality gaps and the information conditions behind displacement by Crosby Street Hotel.

What Changed

METRIC / DEMAND AREA	CURRENT	PRIOR	CHANGE	EXECUTIVE INTERPRETATION
AI Consideration	3.2%	3.2%	0.0 pp	Change is within the 2 pp materiality heuristic used in the property Executive Read. Treat as stable unless other evidence indicates concentration risk.
Scenario Presence	12.7%	12.7%	0.0 pp	Change is within the 2 pp materiality heuristic used in the property Executive Read. Treat as stable unless other evidence indicates concentration risk.
Reality Coverage	28.6%	28.6%	0.0 pp	Change is within the 2 pp materiality heuristic used in the property Executive Read. Treat as stable unless other evidence indicates concentration risk.

Demand Movement

DEMAND TERRITORY	CURRENT	CAPTURED	SIGNIFICANCE	INTERPRETATION
Business Travel	7.7%	1 of 13	MATERIAL DECLINE	Low scenario coverage for this traveler need. Treat as a priority inspection area.
Leisure Travel	20.0%	3 of 15	MATERIAL DECLINE	Low scenario coverage for this traveler need. Treat as a priority inspection area.
Couples / Romantic	0.0%	0 of 9	MATERIAL DECLINE	Low scenario coverage for this traveler need. Treat as a priority inspection area.
Group / Meeting	11.1%	1 of 9	MATERIAL DECLINE	Low scenario coverage for this traveler need. Treat as a priority inspection area.
Family	0.0%	0 of 5	MATERIAL DECLINE	Low scenario coverage for this traveler need. Treat as a priority inspection area.
Celebration	16.7%	1 of 6	MATERIAL DECLINE	Low scenario coverage for this traveler need. Treat as a priority inspection area.

Prior-run demand-territory rates are not published as a comparable series in this report edition; current-period rates are shown.

Competitive Movement

When the property is absent, AI answers most often include Crosby Street Hotel (39), Soho Grand Hotel (28), The Bowery Hotel (23). Counts are observational and do not by themselves prove why displacement occurs.

COMPETITOR	DISPLACEMENT COUNT
Crosby Street Hotel	39
Soho Grand Hotel	28
The Bowery Hotel	23
The Greenwich Hotel	22
The Beekman, A Thompson Hotel	20

Competitive movement describes co-appearance and absence patterns in monitored answers. It does not establish causation.

Evidence Review

Traveler Need: Leisure Travel

Provider: perplexity

Observation: For a ****design-focused weekend in NoHo****, the strongest fit is ****Now Now NoHo****: it is described as “uniquely designed,” “high design,” and explicitly a boutique hotel created by a design-obsessed collective.[1] If you want the closest match to ***NoHo proper*** with a strong visual identity, that is the best pick. A few nuances: - ****NoMo SoHo**** is also design-forward, with a curated mix of vintage and contemporary art,...

Why It Matters: Shows a monitored case where the property is included in the AI answer for a relevant traveler need.

Management Review: Confirm the attributes and third-party sources that support this inclusion remain accurate and consistent.

Traveler Need: business

Provider: gemini

Observation: For a business trip to SoHo or NoHo, the "best" hotel depends on whether you prioritize ****room size and desk space**** or ****trendy spaces to entertain clients****. Here are the top upscale hotels in the area, categorized by what they do best for business travelers: --- ###
1. The Dominick (SoHo) – ***Best Overall for Traditional Business Travelers*** If you need space to work, a dedicated desk, reliable full-service ameniti...

Why It Matters: Shows a monitored case where the property was not mentioned while alternatives were surfaced.

Management Review: Review whether property information for this traveler need is complete and consistently represented across first-party and major third-party sources.

Traveler Need: Property reality attributes

Provider: All providers (attribute recognition)

Observation: Pet-Friendly recognized in 0.0% of applicable monitored answers (0 of 8).

Why It Matters: This attribute is part of the monitored property proposition but is infrequently reflected in AI answers.

Management Review: Verify whether “Pet-Friendly” is accurately and consistently described on the hotel website and major booking/travel platforms.

Traveler Need: Scenarios where subject is absent

Provider: Cross-provider

Observation: Crosby Street Hotel appeared in 39 monitored scenarios where NOW NOW NOHO was absent.

Why It Matters: Identifies the competitor most often present when the subject hotel is missing from AI answers.

Management Review: Compare public positioning and third-party descriptions against this competitor for the traveler needs where displacement concentrates.

Traveler Need: Property reality attributes

Provider: All providers (attribute recognition)

Observation: Full-Service Hotel recognized in 0.0% of applicable monitored answers.

Why It Matters: Another high-severity attribute gap in the current monitoring period.

Management Review: Confirm whether "Full-Service Hotel" should be represented more clearly in first-party and third-party property copy.

Management Action Agenda

Review AI representation of pet-friendly

Observed Issue

In the current monitoring period, Pet-Friendly was recognized in 0.0% of applicable AI answers (0 of 8).

Recommended Action

Review the hotel's first-party website and major third-party property descriptions to confirm that "Pet-Friendly" is complete, accurate, and consistently represented. Correct gaps or contradictions found in those sources. Do not change measurement methodology; update public information only where it is incomplete or inconsistent.

Why This Matters

This action addresses an information gap observed in the current monitoring period for "Pet-Friendly".

ACCOUNTABLE OWNER

Director of Marketing / Revenue Marketing

SUPPORTING TEAM

Content / Channel distribution

TARGET COMPLETION

Date to be confirmed

STATUS

Open

Expected Signal

Dealality will monitor whether recognition of "Pet-Friendly" changes in the next monitoring period. Monitoring alone does not establish causation.

Prioritize contested demand opportunity

Observed Issue

A monitored demand opportunity (Upscale hotel near NYU for a university or nonprofit leaders...) shows weak or contested competitor ownership in the current period.

Recommended Action

Prioritize accurate public representation of the property attributes most relevant to this demand opportunity (Competitor presence is inconsistent. Opportunity to establish authority. Your property attributes align well with this demand.). Confirm meeting capacity, location convenience, and other cited attributes are consistently described across first-party and major third-party sources.

Why This Matters

This action addresses a demand area where competitor ownership is incomplete in monitored answers. It does not claim category ownership will transfer.

Marketing

TARGET COMPLETION

Date to be confirmed

STATUS

Open

Expected Signal

Dealality will monitor Scenario Presence and consideration in the related demand territory in the next monitoring period.

Review displacement by Crosby Street Hotel

Observed Issue

Crosby Street Hotel appeared in 39 monitored scenarios where NOW NOW NOHO was absent.

Recommended Action

Review the traveler needs and public descriptions associated with displacement by Crosby Street Hotel. Verify whether differentiating property attributes are clearly and consistently stated on the hotel website, brand/booking channels, and major travel platforms. Clarify incomplete or inconsistent descriptions identified in the evidence review.

Why This Matters

This action addresses an observed competitive co-appearance pattern when the subject hotel is absent. It does not claim that any single edit will reverse displacement.

TARGET COMPLETION

Date to be confirmed

STATUS

Open

Expected Signal

Dealality will monitor displacement counts involving Crosby Street Hotel and subject presence in related traveler needs in the next monitoring period.

Verify omitted attributes across public sources

Observed Issue

AI Consideration is 3.2% and Scenario Presence is 12.7% in the current monitoring period.

Recommended Action

Verify whether the property attributes repeatedly omitted from AI responses are accurately and consistently represented across the hotel website, booking channels, major travel platforms, and authoritative local sources. Correct incomplete or conflicting descriptions identified in the evidence and reality-gap review.

Why This Matters

This action addresses broad under-representation observed in the current monitoring period without asserting a guaranteed uplift.

TARGET COMPLETION

Date to be confirmed

STATUS

Open

Expected Signal

Dealality will monitor AI Consideration, Scenario Presence, and Reality Coverage in the next monitoring period.

Prior Action Review

No prior monthly actions are available yet.

Management Decisions / Confirmations Required

- Confirm an accountable owner for each open action (role is pre-suggested; named owner still required).
- Confirm target completion dates for each open action.
- Confirm whether the corrective action order matches management's operating priority for the next 30 days.
- Confirm whether any high-severity reality-gap attributes are outdated, incorrect, or intentionally not marketed.
- Set target dates where currently blank ("Owner to be confirmed" / date pending).

What Dealality Will Monitor Next

- AI Consideration and Scenario Presence versus the next published monitoring run.
- Reality Coverage and high-severity attribute recognition rates.
- Displacement pattern involving Crosby Street Hotel.
- Follow-up signal for action: Review AI representation of pet-friendly.
- Follow-up signal for action: Prioritize contested demand opportunity.

This review is composed from the certified published Existing Hotel ADP customer report and the published Independent Positioning pack where available. It does not rerun providers, invent metrics, or claim causation from management actions.

Meeting Mode

25–30 minute review agenda from the same canonical payload.

Top changes

- **AI Consideration:** 0.0 pp — Change is within the 2 pp materiality heuristic used in the property Executive Read. Treat as stable unless other evidence indicates concentration risk.
- **Scenario Presence:** 0.0 pp — Change is within the 2 pp materiality heuristic used in the property Executive Read. Treat as stable unless other evidence indicates concentration risk.
- **Reality Coverage:** 0.0 pp — Change is within the 2 pp materiality heuristic used in the property Executive Read. Treat as stable unless other evidence indicates concentration risk.
