Executive Assessment

NOW NOW NOHO currently shows AI Consideration of 3.2% and Scenario Presence of 12.7%, with Reality Coverage at 28.6%. Strongest governed signal: Still developing. Primary constraint: AI does not fully reflect the property. Versus the prior published run (2026-08-20), material headline movement is AI Consideration 0.0 pp and Scenario Presence 0.0 pp. Independent Positioning metrics are included only where published. Independent Positioning is weak as well, so the Core and portfolio reads point in the same direction. Overall Core performance remains weak; gaps are broad across consideration, scenario coverage, and Independent Positioning. Management should prioritize correcting clear visibility and reality gaps, then address the competitors that most often appear when the property is absent.

Positive Signal

NOW NOW NOHO does not yet show a single dominant strength with enough comparable evidence in this period.

Performance Risk

AI currently reflects 28.6% of the monitored facts and attributes that define the hotel. Important parts of the property's proposition are not consistently reflected in AI results.

Management Priority

Prioritize correcting high-severity reality gaps and the information conditions behind displacement by Crosby Street Hotel.

2. Demand & Competitive Movement

Material Movement

METRIC / DEMAND AREA	CURRENT	PRIOR	CHANGE	EXECUTIVE INTERPRETATION
AI Consideration	3.2%	3.2%	0.0 pp	Change is within the 2 pp materiality heuristic used in the property Executive Read. Treat as stable unless other evidence indicates concentration risk.
Scenario Presence	12.7%	12.7%	0.0 pp	Change is within the 2 pp materiality heuristic used in the property Executive Read. Treat as stable unless other evidence indicates concentration risk.
Reality Coverage	28.6%	28.6%	0.0 pp	Change is within the 2 pp materiality heuristic used in the property Executive Read. Treat as stable unless other evidence indicates concentration risk.

Demand Movement

DEMAND TERRITORY	CURRENT	CAPTURED	SIGNIFICANCE	INTERPRETATION
Business Travel	7.7%	1 of 13	MATERIAL DECLINE	Low scenario coverage for this traveler need. Treat as a priority inspection area.
Leisure Travel	20.0%	3 of 15	MATERIAL DECLINE	Low scenario coverage for this traveler need. Treat as a priority inspection area.
Couples / Romantic	0.0%	0 of 9	MATERIAL DECLINE	Low scenario coverage for this traveler need. Treat as a priority inspection area.
Group / Meeting	11.1%	1 of 9	MATERIAL DECLINE	Low scenario coverage for this traveler need. Treat as a priority inspection area.
Family	0.0%	0 of 5	MATERIAL DECLINE	Low scenario coverage for this traveler need. Treat as a priority inspection area.
Celebration	16.7%	1 of 6	MATERIAL DECLINE	Low scenario coverage for this traveler need. Treat as a priority inspection area.

Prior-run demand-territory rates are not published as a comparable series in this report edition; current-period rates are shown.

Competitive Movement

When the property is absent, AI answers most often include Crosby Street Hotel (39), Soho Grand Hotel (28), The Bowery Hotel (23). Counts are observational and do not by themselves prove why displacement occurs.

COMPETITOR	DISPLACEMENT COUNT
Crosby Street Hotel	39
Soho Grand Hotel	28
The Bowery Hotel	23
The Greenwich Hotel	22
The Beekman, A Thompson Hotel	20

Competitive movement describes co-appearance and absence patterns in monitored answers. It does not establish causation.

3. Evidence Review

Evidence 01

Leisure Travel

Provider: Perplexity

Observation: For a ****design-focused weekend in NoHo****, the strongest fit is ****Now Now NoHo****: it is described as "uniquely designed," "high design," and explicitly a boutique hotel created by a design-obsessed collective.[1] If you want the closest match to ***NoHo proper*** with a strong visual identity, that is the best pick. A few nuances: - ****NoMo SoHo**** is also design-forward, with a curated mix of vintage and contemporary art,...

Why It Matters: Shows a monitored case where the property is included in the AI answer for a relevant traveler need.

Management Review: Confirm the attributes and third-party sources that support this inclusion remain accurate and consistent.

Evidence 02

Business

Provider: Gemini

Observation: For a business trip to SoHo or NoHo, the "best" hotel depends on whether you prioritize ****room size and desk space**** or ****trendy spaces to entertain clients****. Here are the top upscale hotels in the area, categorized by what they do best for business travelers: --- ### 1. The Dominick (SoHo) – ***Best Overall for Traditional Business Travelers*** If you need space to work, a dedicated desk, reliable full-service ameniti...

Why It Matters: Shows a monitored case where the property was not mentioned while alternatives were surfaced.

Management Review: Review whether property information for this traveler need is complete and consistently represented across first-party and major third-party sources.

Evidence 03

Property reality attributes

Provider: All Providers

Observation: Pet-Friendly recognized in 0.0% of applicable monitored answers (0 of 8).

Why It Matters: This attribute is part of the monitored property proposition but is infrequently reflected in AI answers.

Management Review: Verify whether “Pet-Friendly” is accurately and consistently described on the hotel website and major booking/travel platforms.

Evidence 04

Scenarios where subject is absent

Provider: Cross-provider

Observation: Crosby Street Hotel appeared in 39 monitored scenarios where NOW NOW NOHO was absent.

Why It Matters: Identifies the competitor most often present when the subject hotel is missing from AI answers.

Management Review: Compare public positioning and third-party descriptions against this competitor for the traveler needs where displacement concentrates.

Evidence 05

Property reality attributes

Provider: All Providers

Observation: Full-Service Hotel recognized in 0.0% of applicable monitored answers.

Why It Matters: Another high-severity attribute gap in the current monitoring period.

Management Review: Confirm whether “Full-Service Hotel” should be represented more clearly in first-party and third-party property copy.

4. Management Action Agenda

Action 01

Publish one canonical pet policy and reconcile it across booking and profile sources

HIGHOPENOwner: Director of Marketing / Revenue MarketingDue: Date to be confirmed

Observed Issue

“Pet-Friendly” was recognized in only 0.0% of applicable monitored answers (0 of 8; severity HIGH).

Recommended Action — Implementation Steps

1. Confirm the hotel's canonical facts for Pet policy with the accountable owner (NOW NOW NOHO).
2. Complete the applicable checklist items: pets accepted? yes/no; dogs/cats/other; weight limits; per-stay / per-night fee; deposit; restricted room types; service-animal policy.
3. Audit each target source and record current wording/state: Hotel Website; Google Business Profile; Booking.com; Expedia; TripAdvisor.
4. Correct only the sources where facts are missing, conflicting, or outdated. Do not change measurement methodology.
5. Store completion evidence (canonical policy summary, sources reviewed, sources corrected, URLs/screenshots, completion date).
6. Notify Dealality of completion so the next monitoring period can check the expected signal without assuming causation.

Target Sources

Hotel Website; Google Business Profile; Booking.com; Expedia; TripAdvisor

Definition of Done

- Canonical facts for "Pet policy" are confirmed by hotel management.
- Each target source is reviewed: Hotel Website; Google Business Profile; Booking.com; Expedia; TripAdvisor.
- Sources that were incorrect or incomplete are corrected, with URLs or screenshots stored.
- The specific missing/inconsistent items are resolved: pets accepted? yes/no; dogs/cats/other; weight limits; per-stay / per-night fee; deposit; restricted room types; service-animal policy.
- Accountable owner signs off with completion date.

Expected Signal

Dealality will monitor whether pet policy recognition and related scenario inclusion change in the next monitoring period. Monitoring alone does not establish causation.

Next Monitoring Check

Next published ADP run — review Pet policy attribute recognition, related demand-territory presence, and evidence excerpts for the corrected facts.

Action 02

Complete the meetings decision package with missing capacity, space, and contact facts

MEDIUMOPENOwner: Commercial / Sales LeadDue: Date to be confirmed

Observed Issue

"Meeting & Event Space" was recognized in only 25.0% of applicable monitored answers (2 of 8; severity LOW).

Recommended Action — Implementation Steps

1. Confirm the hotel's canonical facts for Meetings information with the accountable owner (NOW NOW NOHO).
2. Complete the applicable checklist items: total meeting space; number of rooms; largest capacity; AV capabilities; meeting sales contact; downloadable floorplans.
3. Audit each target source and record current wording/state: Hotel Website; Google Business Profile; Booking.com; Expedia; TripAdvisor.
4. Correct only the sources where facts are missing, conflicting, or outdated. Do not change measurement methodology.
5. Store completion evidence (canonical policy summary, sources reviewed, sources corrected, URLs/screenshots, completion date).
6. Notify Dealality of completion so the next monitoring period can check the expected signal without assuming causation.

Target Sources

Hotel Website; Google Business Profile; Booking.com; Expedia; TripAdvisor

Definition of Done

- Canonical facts for "Meetings information" are confirmed by hotel management.
- Each target source is reviewed: Hotel Website; Google Business Profile; Booking.com; Expedia; TripAdvisor.
- Sources that were incorrect or incomplete are corrected, with URLs or screenshots stored.
- The specific missing/inconsistent items are resolved: total meeting space; number of rooms; largest capacity; AV capabilities; meeting sales contact; downloadable floorplans.
- Accountable owner signs off with completion date.

Expected Signal

Dealality will monitor whether meetings information recognition and related scenario inclusion change in the next monitoring period. Monitoring alone does not establish causation.

Next Monitoring Check

Next published ADP run — review Meetings information attribute recognition, related demand-territory presence, and evidence excerpts for the corrected facts.

Action 03

Reconcile public facts for traveler needs where a named competitor appears and the subject hotel is absent

MEDIUM OPEN Owner: General Manager + Marketing Lead Due: Date to be confirmed

Observed Issue

Crosby Street Hotel appeared in 39 monitored scenarios where NOW NOW NOHO was absent.

Recommended Action — Implementation Steps

1. Confirm the hotel's canonical facts for Competitive displacement with the accountable owner (NOW NOW NOHO).
2. Complete the applicable checklist items: list traveler needs / scenarios where absence concentrates; identify subject facts that are missing or inconsistent on priority sources; update first-party pages covering those facts.
3. Audit each target source and record current wording/state: Hotel Website; TripAdvisor; Google Business Profile; Booking.com.
4. Correct only the sources where facts are missing, conflicting, or outdated. Do not change measurement methodology.
5. Compare public facts credited to Crosby Street Hotel in displacement evidence against the subject hotel's corrected pages; close only evidence-backed gaps.
6. Store completion evidence (canonical policy summary, sources reviewed, sources corrected, URLs/screenshots, completion date).
7. Notify Dealality of completion so the next monitoring period can check the expected signal without assuming causation.

Target Sources

Hotel Website; TripAdvisor; Google Business Profile; Booking.com

Definition of Done

- Canonical facts for "Competitive displacement" are confirmed by hotel management.
- Each target source is reviewed: Hotel Website; TripAdvisor; Google Business Profile; Booking.com.
- Sources that were incorrect or incomplete are corrected, with URLs or screenshots stored.
- The specific missing/inconsistent items are resolved: list traveler needs / scenarios where absence concentrates; identify subject facts that are missing or inconsistent on priority sources; update first-party pages covering those facts.
- Accountable owner signs off with completion date.

Expected Signal

Dealality will monitor whether competitive displacement recognition and related scenario inclusion change in the next monitoring period. Monitoring alone does not establish causation.

Next Monitoring Check

Next published ADP run — review Competitive displacement attribute recognition, related demand-territory presence, and evidence excerpts for the corrected facts.

Action 04

Stand up a TripAdvisor management-response program with owner, SLA, and theme tracking

MEDIUM OPEN Owner: Guest Experience / Reputation Owner Due: Date to be confirmed

Observed Issue

TripAdvisor appears in 78.1% of cited sources in the current monitoring period (50 citations), making response quality and factual corrections operationally material when misconceptions appear.

Recommended Action — Implementation Steps

1. Confirm the hotel's canonical facts for TripAdvisor responses with the accountable owner (NOW NOW NOHO).
2. Complete the applicable checklist items: designate accountable owner; set response SLA (property-configured; do not invent a default unless governed); identify recurring complaint themes monthly; correct factual misconceptions where appropriate; track response rate.
3. Audit each target source and record current wording/state: TripAdvisor.
4. Correct only the sources where facts are missing, conflicting, or outdated. Do not change measurement methodology.
5. Store completion evidence (canonical policy summary, sources reviewed, sources corrected, URLs/screenshots, completion date).
6. Notify Dealality of completion so the next monitoring period can check the expected signal without assuming causation.

Target Sources

TripAdvisor

Definition of Done

- Canonical facts for "TripAdvisor responses" are confirmed by hotel management.
- Each target source is reviewed: TripAdvisor.
- Sources that were incorrect or incomplete are corrected, with URLs or screenshots stored.

- The specific missing/inconsistent items are resolved: designate accountable owner; set response SLA; identify recurring complaint themes monthly; correct factual misconceptions where appropriate; track response rate.
- Accountable owner signs off with completion date.

Expected Signal

Dealality will monitor whether tripadvisor responses recognition and related scenario inclusion change in the next monitoring period. Monitoring alone does not establish causation.

Next Monitoring Check

Next published ADP run — review TripAdvisor responses attribute recognition, related demand-territory presence, and evidence excerpts for the corrected facts.

Action 05

Align first-party and OTA room descriptions with recurring expectation mismatches in evidence

MEDIUM OPEN Owner: Director of Marketing / Revenue Marketing Due: Date to be confirmed

Observed Issue

AI Consideration is 3.2% with Reality Coverage 28.6%. High-severity reality gaps indicate stay-expectation descriptions may contribute to under-inclusion.

Recommended Action — Implementation Steps

1. Confirm the hotel's canonical facts for Room expectation alignment with the accountable owner (NOW NOW NOHO).
2. Complete the applicable checklist items: identify exact recurring expectation mismatch; update first-party room descriptions; verify OTA room-type descriptions; ensure imagery accurately reflects room type.
3. Audit each target source and record current wording/state: Hotel Website; OTA Room-Type Descriptions; Booking.com; Expedia.
4. Correct only the sources where facts are missing, conflicting, or outdated. Do not change measurement methodology.
5. Store completion evidence (canonical policy summary, sources reviewed, sources corrected, URLs/screenshots, completion date).
6. Notify Dealality of completion so the next monitoring period can check the expected signal without assuming causation.

Target Sources

Hotel Website; OTA Room-Type Descriptions; Booking.com; Expedia

Definition of Done

- Canonical facts for “Room expectation alignment” are confirmed by hotel management.
- Each target source is reviewed: Hotel Website; OTA Room-Type Descriptions; Booking.com; Expedia.
- Sources that were incorrect or incomplete are corrected, with URLs or screenshots stored.
- The specific missing/inconsistent items are resolved: identify exact recurring expectation mismatch; update first-party room descriptions; verify OTA room-type descriptions; ensure imagery accurately reflects room type.
- Accountable owner signs off with completion date.

Expected Signal

Dealality will monitor whether room expectation alignment recognition and related scenario inclusion change in the next monitoring period. Monitoring alone does not establish causation.

Next Monitoring Check

Next published ADP run — review Room expectation alignment attribute recognition, related demand-territory presence, and evidence excerpts for the corrected facts.

5. Accountability & Decisions

Prior Action Review

No prior monthly actions are available yet.

Decisions Required

1. Confirm an accountable owner for each open action (role is pre-suggested; named owner still required).
2. Confirm target completion dates for each open action.
3. Confirm whether the corrective action order matches management’s operating priority for the next 30 days.
4. Confirm whether any high-severity reality-gap attributes are outdated, incorrect, or intentionally not marketed.
5. Set target dates where currently blank (“Owner to be confirmed” / date pending).

What Dealality Will Monitor Next

- AI Consideration and Scenario Presence versus the next published monitoring run.

- Reality Coverage and high-severity attribute recognition rates.
- Displacement pattern involving Crosby Street Hotel.
- Follow-up signal for action: Publish one canonical pet policy and reconcile it across booking and profile sources — focus: pets accepted? yes/no, dogs/cats/other, weight limits.
- Follow-up signal for action: Complete the meetings decision package with missing capacity, space, and contact facts — focus: total meeting space, number of rooms, largest capacity.

This review is composed from the certified published Existing Hotel ADP customer report and the published Independent Positioning pack where available. It does not rerun providers, invent metrics, or claim causation from management actions. Final actions are executable playbooks with target sources, implementation steps, and definition of done.
