Executive Assessment

The St. Regis Cap Cana Resort currently shows AI Consideration of 46.7% and Scenario Presence of 98.3%, with Reality Coverage at 64.3%. Strongest governed signal: Still developing. Primary constraint: Not appearing consistently in AI answers. Versus the prior published run (2026-09-08), material headline movement is AI Consideration +46.7 pp and Scenario Presence +98.3 pp. Independent Positioning shows #1 of 11 with Portfolio AI Presence 45.6%. Overall Core performance is mixed: some indicators are competitive while others still show material gaps. Management should protect the stronger signals while closing the specific gaps that are already visible in evidence.

POSITIVE SIGNAL

The St. Regis Cap Cana Resort does not yet show a single dominant strength with enough comparable evidence in this period.

PERFORMANCE RISK

The hotel appeared in at least one AI answer for 98.3% of the traveler needs we tested, but across all individual AI answers it appeared 46.7% of the time. In practical terms, AI recognizes the hotel as relevant for many types of trips, but a traveler will not consistently see it among the hotel options surfaced.
