Executive Conclusion

The St. Regis Cap Cana Resort reaches many monitored demand scenarios, but consideration consistency is the primary constraint.

What the Data Is Telling Us

Scenario Presence at 98.3% shows broad recognition across monitored traveler needs. AI Consideration at 46.7% shows that recognition does not consistently convert into selection in individual answers. The management problem is inclusion consistency — not awareness. Softness concentrates in Wellness; Business Travel, Leisure Travel, and Group / Meeting remain stronger. When the hotel is absent, Eden Roc Cap Cana most often appears (1 scenarios).

Why It Matters

Broad scenario reach without consistent appearance in AI answers means the hotel is known in the demand set but not reliably carried into traveler-facing answers. Management attention should start with consistency of representation, not with assuming the hotel needs an entirely new competitive set.

Where the Pattern Is Concentrated

Wellness is the softest Scenario Capture at 80.0%, while Business Travel, Leisure Travel, and Group / Meeting show broader coverage. The inclusion issue is concentrated, not universal. Eden Roc Cap Cana appears most often when the hotel is missing (1 scenarios) — use that pattern for source and fact checks, not as proof of cause. Reality Coverage is 64.3% (9 of 14 attributes).

What Management Should Focus On Now

Focus first on consistency of representation for Business Travel. Confirm priority sources present the same use cases and attributes that appear in scenarios where the hotel is absent, and close gaps that repeatedly coincide with cases where the hotel is missing.

What Not to Overreact To

No comparable prior official period is available — read these as current levels, not period-over-period change. Independent Positioning (#1 of 11; Portfolio AI Presence 45.6%) measures relative standing among loyalty peers. Strong peer rank does not mean consistent inclusion across the wider demand set.

What to Review Next

Compare high-presence versus low-consideration scenarios and inspect which sources and attributes appear when the hotel is missing. Use that evidence pack before changing channel strategy.

2. Demand & Competitive Movement

Material Movement

No material movement rows in this period.

Demand Movement

Wellness is the clearest softness at 80.0% Scenario Capture. Business Travel, Leisure Travel, and Group / Meeting show broader coverage — the inclusion issue is concentrated rather than universal. These are current-period levels, not trend.

DEMAND TERRITORY	SCENARIO CAPTURE	CAPTURED	CAPTURE LEVEL	INTERPRETATION
Wellness	80.0%	4 of 5	Partial Capture	Partial scenario capture. Review whether missing scenarios share a common attribute or competitor pattern.
Business Travel	100.0%	11 of 11	High Capture	High scenario-capture rate for this traveler need in the current period.
Leisure Travel	100.0%	12 of 12	High Capture	High scenario-capture rate for this traveler need in the current period.
Couples / Romantic	100.0%	9 of 9	High Capture	High scenario-capture rate for this traveler need in the current period.
Group / Meeting	100.0%	9 of 9	High Capture	High scenario-capture rate for this traveler need in the current period.
Family	100.0%	7 of 7	High Capture	High scenario-capture rate for this traveler need in the current period.

Metric = demandCapture.byIntent scenario capture (captured/total). Prior-run territory rates are not published as a comparable series in this edition.

Competitive Movement

Eden Roc Cap Cana is the most frequent alternative when The St. Regis Cap Cana Resort is absent (1 scenarios). Excellence Punta Cana (1) and Hyatt Zilara Cap Cana (1) also appear often — displacement is spread across multiple local options. Counts show co-appearance patterns; they do not prove why displacement happens.

COMPETITOR	DISPLACEMENT COUNT
Eden Roc Cap Cana	1
Excellence Punta Cana	1
Hyatt Zilara Cap Cana	1
PUNTACANA Resort & Club	1
Sanctuary Cap Cana, a Luxury Collection Resort, Dominican Republic, Adult All-Inclusive	1

Competitive movement describes co-appearance and absence patterns in monitored answers. It does not establish causation.

Independent Positioning Context

Among loyalty peers in the Independent Positioning set, the hotel ranks #1 of 11. Portfolio AI Presence is 45.6% — aligned with Core AI Consideration. Relative strength inside the loyalty set can coexist with inconsistent inclusion in the broader answer set; peer rank is not a substitute for market-wide selection consistency.

Reality Coverage Context

Only 9 of 14 monitored attributes are consistently recognized (64.3% Reality Coverage). Not every gap deserves equal urgency. Validate first: Swim-Out Suites; Full-Service Hotel; Infinity Pool; Marriott Bonvoy Loyalty; Private Beach.

Reality Gap Prioritization
