Executive Conclusion

Waterstone Resort & Marina's priority is a Reality Gap in how a distinctive part of the proposition is represented in AI answers.

What the Data Is Telling Us

Scenario Presence at 73.1% shows broad recognition across monitored traveler needs. AI Consideration at 51.3% shows that recognition does not consistently convert into selection in individual answers. The management problem is inclusion consistency — not awareness. Softness concentrates in Wellness; Business Travel remain stronger. When the hotel is absent, Eau Palm Beach Resort & Spa most often appears (15 scenarios).

Why It Matters

If distinctive property attributes are weakly represented, the hotel can look broadly visible while still losing the moments where its real proposition should matter. This is a representation problem first, not automatically a peer-competition program.

Where the Pattern Is Concentrated

Wellness is the softest Scenario Capture at 50.0%, while Business Travel show broader coverage. The inclusion issue is concentrated, not universal. Eau Palm Beach Resort & Spa appears most often when the hotel is missing (15 scenarios) — use that pattern for source and fact checks, not as proof of cause. Reality Coverage is 38.9% (7 of 18 attributes). Start with gaps that matter operationally — beginning with 24-Hour Fitness Center.

What Management Should Focus On Now

Focus first on Outdoor Event Space. Verify first-party and major travel-source completeness for that attribute before treating the issue as a peer-competition problem. Confirm the attribute is stated clearly where AI systems are most likely to read it.

What Not to Overreact To

No comparable prior official period is available — read these as current levels, not period-over-period change. Independent Positioning (#4 of 6; Portfolio AI Presence 50.0%) measures relative standing among loyalty peers. Strong peer rank does not mean consistent inclusion across the wider demand set.

What to Review Next

Open Reality Gap evidence for Outdoor Event Space and compare recognition cues with official property pages and high-authority travel sources. Then check a small set of related demand scenarios for whether the attribute appears when competitors are named.

2. Demand & Competitive Movement

Material Movement

No material movement rows in this period.

Demand Movement

Wellness is the clearest softness at 50.0% Scenario Capture. Business Travel show broader coverage — the inclusion issue is concentrated rather than universal. These are current-period levels, not trend.

DEMAND TERRITORY	SCENARIO CAPTURE	CAPTURED	CAPTURE LEVEL	INTERPRETATION
Wellness	50.0%	4 of 8	Partial Capture	Partial scenario capture. Review whether missing scenarios share a common attribute or competitor pattern.

Metric = demandCapture.byIntent scenario capture (captured/total). Prior-run territory rates are not published as a comparable series in this edition.

Competitive Movement

Eau Palm Beach Resort & Spa is the most frequent alternative when Waterstone Resort & Marina is absent (15 scenarios). Four Seasons Resort Palm Beach (12) and The Boca Raton (10) also appear often — displacement is spread across multiple local options. Counts show co-appearance patterns; they do not prove why displacement happens.

COMPETITOR	DISPLACEMENT COUNT
Eau Palm Beach Resort & Spa	15
Four Seasons Resort Palm Beach	12
The Boca Raton	10
Pelican Grand Beach Resort	6
Cheeca Lodge & Spa	5

Competitive movement describes co-appearance and absence patterns in monitored answers. It does not establish causation.

Independent Positioning Context

Among loyalty peers in the Independent Positioning set, the hotel ranks #4 of 6. Portfolio AI Presence is 50.0% — aligned with Core AI Consideration. Relative strength inside the loyalty set can coexist with inconsistent inclusion in the broader answer set; peer rank is not a substitute for market-wide selection consistency.

Reality Coverage Context

Only 7 of 18 monitored attributes are consistently recognized (38.9% Reality Coverage). Not every gap deserves equal urgency. Validate first: 24-Hour Fitness Center; EV Charging; Pet-Friendly. Monitor: Outdoor Event Space.

Reality Gap Prioritization

ATTRIBUTE	PRIORITY	WHY IT MATTERS OPERATIONALLY
24-Hour Fitness Center	Validate first	High-severity amenity gap — confirm whether public sources already state the amenity clearly before investing in content changes.
EV Charging	Validate first	Rarely recognized today — validate source accuracy before treating as a primary fix.
Pet-Friendly	Validate first	Rarely recognized today — validate source accuracy before treating as a primary fix.
Outdoor Event Space	Monitor	Narrow amenity signal; monitor unless evidence shows it coincides with repeated absences.
