

AI DEMAND PERFORMANCE REVIEW

Bethesda Marriott

Maryland

MONTHLY EXECUTIVE REVIEW

SEPTEMBER 2026 · CURRENT MONITORING SEP 9, 2026 · PRIOR RUN —
PERFORMANCE · COMPETITIVE MOVEMENT · EVIDENCE · ACTIONS · ACCOUNTABILITY

This AI Demand Performance Review is a Dealality executive monitoring report. Measurement methodology is unchanged by presentation.
Confidential — for the named recipient only.

1. Executive Performance

No official comparable prior period is available. This review is a current-period baseline read; prior-run trend deltas are not shown.

AI CONSIDERATION 42.1% COMPETITIVE POSITION Hyatt Regency Bethesda Top displacement competitor · 11 scenarios where subject was absent	SCENARIO PRESENCE 81.0% BRAND PORTFOLIO POSITION 42.1% 106 of 252 AI observations	REALITY COVERAGE 26.7% PORTFOLIO RANK #1 of 4 Among 4 relevant Marriott Bonvoy hotels
---	--	--

Platform Executive Summary

BIGGEST STRENGTH Often placed near the top when AI ranks hotels Among AI answers where hotel ranking could be measured, Bethesda Marriott appeared in the Top 3 76.7% of the time. This shows how prominently the hotel is positioned when AI includes it.	BIGGEST CONSTRAINT Not appearing consistently in AI answers The hotel appeared in at least one AI answer for 81% of the traveler needs we tested, but across all individual AI answers it appeared 42.1% of the time. In practical terms, AI recognizes the hotel as relevant for many types of trips, but a traveler will not consistently see it among the hotel options surfaced.	CHANGE SINCE LAST COMPARABLE RUN No comparable prior official period yet No comparable prior official monitoring period is available yet. This period can be evaluated on its own; change over time is not shown.
---	---	--

Executive Conclusion

Bethesda Marriott reaches many monitored demand scenarios, but consideration consistency is the binding constraint.

What the Data Is Telling Us

Scenario Presence is 81% while AI Consideration is 42.1%. The hotel is therefore relevant across a wide share of monitored traveler needs, yet it is not carried into individual answers nearly as consistently. Softness concentrates in Family Travel versus stronger Business Travel. Hyatt Regency Bethesda often fills absences in those weaker contexts. That contrast is more important than either metric alone.

Why It Matters

Broad scenario reach without consistent answer-level inclusion means the hotel is known in the demand set but not reliably carried into traveler-facing answers. Management attention should start with consistency of representation, not with assuming the hotel needs an entirely new competitive set.

Where the Pattern Is Concentrated

Family Travel shows the softest Scenario Capture (40.0%), while Adventure remains stronger (100.0%). That contrast supports a concentrated softness reading — not a uniform demand failure. Hyatt Regency Bethesda most often appears when the hotel is absent (11 scenarios) — useful for source and fact reconciliation, not as proof of cause. Reality Coverage is 26.7% (4/15 attributes). Material gaps include Montgomery County Location; 24-Hour Fitness Center; Peloton Fitness.

What Management Should Focus On Now

Focus first on consistency of representation for Family Travel. Confirm priority sources present the same use cases and attributes that appear in scenarios where the hotel is absent, and close gaps that repeatedly coincide with answer-level misses.

What Not to Overreact To

No comparable prior official monitoring period is available yet. This period can be evaluated on its own; change over time is not shown. Independent Positioning (#1 of 4; Portfolio AI Presence 42.1%) uses a different denominator than Core consideration — treat it as relative portfolio context, not a second Core score.

What to Review Next

Compare high-presence versus low-consideration scenarios and inspect which sources and attributes appear when the hotel is missing. Use that evidence pack before changing channel strategy.

2. Demand & Competitive Movement

Material Movement

No material movement rows in this period.

Demand Movement

Family Travel is the clearest current-period softness at 40.0% Scenario Capture. Business Travel, Celebration, and Leisure Travel show broader scenario coverage, suggesting the inclusion problem is concentrated rather than universal. These are absolute current-period levels — not period-over-period movement.

DEMAND TERRITORY	SCENARIO CAPTURE	CAPTURED	CAPTURE LEVEL	INTERPRETATION
Family	40.0%	2 of 5	Low Capture	Low scenario-capture rate for this traveler need. Treat as a priority inspection area (absolute level — not a period-over-period decline).
Couples / Romantic	55.6%	5 of 9	Partial Capture	Partial scenario capture. Review whether missing scenarios share a common attribute or competitor pattern.
Business Travel	85.7%	12 of 14	Partial Capture	Partial scenario capture. Review whether missing scenarios share a common attribute or competitor pattern.
Celebration	85.7%	6 of 7	Partial Capture	Partial scenario capture. Review whether missing scenarios share a common attribute or competitor pattern.
Leisure Travel	90.9%	10 of 11	High Capture	High scenario-capture rate for this traveler need in the current period.
Group / Meeting	90.9%	10 of 11	High Capture	High scenario-capture rate for this traveler need in the current period.

Metric = demandCapture.byIntent scenario capture (captured/total). Prior-run territory rates are not published as a comparable series in this edition.

Competitive Movement

Hyatt Regency Bethesda is the most frequently observed alternative when Bethesda Marriott is absent, appearing in 11 displaced scenarios. Marriott Bethesda Downtown at Marriott HQ (9) and The Bethesdan Hotel, Tapestry Collection by Hilton (8) also appear frequently, indicating that displacement is spread across both same-brand and broader local alternatives. Counts are observational and do not establish why displacement occurs.

COMPETITOR	DISPLACEMENT COUNT
Hyatt Regency Bethesda	11
Marriott Bethesda Downtown at Marriott HQ	9
The Bethesdan Hotel, Tapestry Collection by Hilton	8
AC Hotel Bethesda Downtown	5
Hilton Garden Inn Bethesda Downtown	5

Competitive movement describes co-appearance and absence patterns in monitored answers. It does not establish causation.

Independent Positioning Context

Within the Independent Positioning peer set, the hotel ranks #1 of 4 while Portfolio AI Presence is 42.1%. That portfolio presence level is directionally consistent with Core AI Consideration — relative standing inside the loyalty set can look strong even while absolute answer-level inclusion remains the binding constraint.

Reality Coverage Context

Only 4 of 15 monitored property attributes are consistently recognized (26.7% Reality Coverage). Highest-severity gaps today include Montgomery County Location; 24-Hour Fitness Center; Peloton Fitness. Prioritize attributes that overlap with weak traveler-need scenarios or displacement evidence — not every gap is equally material.

3. Evidence Review

EVIDENCE 01

Business

Provider: Gemini

Observation: For an upscale business trip to Bethesda, Maryland, the **AC Hotel Bethesda Downtown** and the **Hyatt Regency Bethesda** are the two best options, depending on the vibe and location you prefer. Here is the breakdown of the top choices to help you decide: --- ### 1. The Overall Best Modern Choice: **AC Hotel Bethesda Downtown** * **Vibe:** Sleek, modern, European-inspired luxury. * **Why it's great for business:** O...

Why It Matters: Shows a monitored case where the property was not mentioned while alternatives were surfaced.

Management Review: Review whether property information for this traveler need is complete and consistently represented across first-party and major third-party sources.

EVIDENCE 02

Scenarios where subject is absent

Provider: Cross-provider

Observation: Hyatt Regency Bethesda appeared in 11 monitored scenarios where Bethesda Marriott was absent.

Why It Matters: Identifies the competitor most often present when the subject hotel is missing from AI answers.

Management Review: Compare public positioning and third-party descriptions against this competitor for the traveler needs where displacement concentrates.

Property reality attributes

Provider: All Providers

Observation: Montgomery County Location recognized in 8.5% of applicable monitored answers (9 of 106).

Why It Matters: This attribute is part of the monitored property proposition but is infrequently reflected in AI answers.

Management Review: Verify whether "Montgomery County Location" is accurately and consistently described on the hotel website and major booking/travel platforms.

4. Management Action Agenda

ACTION 01

Complete the meetings decision package with missing capacity, space, and contact facts

HIGH OPEN Owner: Commercial / Sales Lead Due: Date to be confirmed

OBSERVED ISSUE

Business/meeting demand opportunity remains contested ("Best upper-upscale hotel in Montgomery County for multi-day ...") with weak competitor ownership in monitored answers.

RECOMMENDED ACTION — IMPLEMENTATION STEPS

1. Confirm the hotel's canonical facts for Meetings information with the accountable owner (Bethesda Marriott).
2. Complete the applicable checklist items: total meeting space; largest capacity; meeting sales contact; downloadable floorplans; event fact sheet.
3. Audit each target source and record current wording/state: Hotel Website; Meeting / Event Fact Sheet; Google Business Profile.
4. Correct only the sources where facts are missing, conflicting, or outdated. Do not change measurement methodology.
5. Store completion evidence (canonical policy summary, sources reviewed, sources corrected, URLs/screenshots, completion date).
6. Notify Dealality of completion so the next monitoring period can check the expected signal without assuming causation.

TARGET SOURCES

Hotel Website; Meeting / Event Fact Sheet; Google Business Profile

DEFINITION OF DONE

- Canonical facts for "Meetings information" are confirmed by hotel management.
- Each target source is reviewed: Hotel Website; Meeting / Event Fact Sheet; Google Business Profile.
- Sources that were incorrect or incomplete are corrected, with URLs or screenshots stored.
- The specific missing/inconsistent items are resolved: total meeting space; largest capacity; meeting sales contact; downloadable floorplans; event fact sheet.
- Accountable owner signs off with completion date.

EXPECTED SIGNAL

Dealality will monitor whether meetings information recognition and related scenario inclusion change in the next monitoring period. Monitoring alone does not establish causation.

NEXT MONITORING CHECK

Next published ADP run — review Meetings information attribute recognition, related demand-territory presence, and evidence excerpts for the corrected facts.

ACTION 02

Reconcile public facts for traveler needs where a named competitor appears and the subject hotel is absent

MEDIUM OPEN Owner: General Manager + Marketing Lead Due: Date to be confirmed

OBSERVED ISSUE

Hyatt Regency Bethesda appeared in 11 monitored scenarios where Bethesda Marriott was absent.

RECOMMENDED ACTION — IMPLEMENTATION STEPS

1. Confirm the hotel’s canonical facts for Competitive displacement with the accountable owner (Bethesda Marriott).
2. Complete the applicable checklist items: list traveler needs / scenarios where absence concentrates; identify subject facts that are missing or inconsistent on priority sources; update first-party pages covering those facts.
3. Audit each target source and record current wording/state: Hotel Website; TripAdvisor; Google Business Profile; Booking.com.
4. Correct only the sources where facts are missing, conflicting, or outdated. Do not change measurement methodology.
5. Compare public facts credited to Hyatt Regency Bethesda in displacement evidence against the subject hotel’s corrected pages; close only evidence-backed gaps.
6. Store completion evidence (canonical policy summary, sources reviewed, sources corrected, URLs/screenshots, completion date).
7. Notify Dealality of completion so the next monitoring period can check the expected signal without assuming causation.

TARGET SOURCES

Hotel Website; TripAdvisor; Google Business Profile; Booking.com

DEFINITION OF DONE

- Canonical facts for “Competitive displacement” are confirmed by hotel management.
- Each target source is reviewed: Hotel Website; TripAdvisor; Google Business Profile; Booking.com.
- Sources that were incorrect or incomplete are corrected, with URLs or screenshots stored.
- The specific missing/inconsistent items are resolved: list traveler needs / scenarios where absence concentrates; identify subject facts that are missing or inconsistent on priority sources; update first-party pages covering those facts.
- Accountable owner signs off with completion date.

EXPECTED SIGNAL

Dealality will monitor whether competitive displacement recognition and related scenario inclusion change in the next monitoring period. Monitoring alone does not establish causation.

NEXT MONITORING CHECK

Next published ADP run — review Competitive displacement attribute recognition, related demand-territory presence, and evidence excerpts for the corrected facts.

ACTION 03

Stand up a TripAdvisor management-response program with owner, SLA, and theme tracking

MEDIUM OPEN Owner: Guest Experience / Reputation Owner Due: Date to be confirmed

OBSERVED ISSUE

TripAdvisor appears in 84.4% of cited sources in the current monitoring period (54 citations), making response quality and factual corrections operationally material when misconceptions appear.

RECOMMENDED ACTION — IMPLEMENTATION STEPS

1. Confirm the hotel’s canonical facts for TripAdvisor responses with the accountable owner (Bethesda Marriott).
2. Complete the applicable checklist items: designate accountable owner; set response SLA (property-configured; do not invent a default unless governed); identify recurring complaint themes monthly; correct factual misconceptions where appropriate; track response rate.

3. Audit each target source and record current wording/state: TripAdvisor.
4. Correct only the sources where facts are missing, conflicting, or outdated. Do not change measurement methodology.
5. Store completion evidence (canonical policy summary, sources reviewed, sources corrected, URLs/screenshots, completion date).
6. Notify Dealality of completion so the next monitoring period can check the expected signal without assuming causation.

TARGET SOURCES

TripAdvisor

DEFINITION OF DONE

- Canonical facts for “TripAdvisor responses” are confirmed by hotel management.
- Each target source is reviewed: TripAdvisor.
- Sources that were incorrect or incomplete are corrected, with URLs or screenshots stored.
- The specific missing/inconsistent items are resolved: designate accountable owner; set response SLA; identify recurring complaint themes monthly; correct factual misconceptions where appropriate; track response rate.
- Accountable owner signs off with completion date.

EXPECTED SIGNAL

Dealality will monitor whether tripadvisor responses recognition and related scenario inclusion change in the next monitoring period. Monitoring alone does not establish causation.

NEXT MONITORING CHECK

Next published ADP run — review TripAdvisor responses attribute recognition, related demand-territory presence, and evidence excerpts for the corrected facts.

ACTION 04

Align first-party and OTA room descriptions with recurring expectation mismatches in evidence

MEDIUM

OPEN

Owner: Director of Marketing / Revenue Marketing

Due: Date to be confirmed

OBSERVED ISSUE

AI Consideration is 42.1% with Reality Coverage 26.7%. High-severity reality gaps indicate stay-expectation descriptions may contribute to under-inclusion.

RECOMMENDED ACTION — IMPLEMENTATION STEPS

1. Confirm the hotel’s canonical facts for Room expectation alignment with the accountable owner (Bethesda Marriott).
2. Complete the applicable checklist items: identify exact recurring expectation mismatch; update first-party room descriptions; verify OTA room-type descriptions; ensure imagery accurately reflects room type.
3. Audit each target source and record current wording/state: Hotel Website; OTA Room-Type Descriptions; Booking.com; Expedia.
4. Correct only the sources where facts are missing, conflicting, or outdated. Do not change measurement methodology.
5. Store completion evidence (canonical policy summary, sources reviewed, sources corrected, URLs/screenshots, completion date).
6. Notify Dealality of completion so the next monitoring period can check the expected signal without assuming causation.

TARGET SOURCES

Hotel Website; OTA Room-Type Descriptions; Booking.com; Expedia

DEFINITION OF DONE

- Canonical facts for “Room expectation alignment” are confirmed by hotel management.
- Each target source is reviewed: Hotel Website; OTA Room-Type Descriptions; Booking.com; Expedia.
- Sources that were incorrect or incomplete are corrected, with URLs or screenshots stored.
- The specific missing/inconsistent items are resolved: identify exact recurring expectation mismatch; update first-party room descriptions; verify OTA room-type descriptions; ensure imagery accurately reflects room type.

- Accountable owner signs off with completion date.

EXPECTED SIGNAL

Dealality will monitor whether room expectation alignment recognition and related scenario inclusion change in the next monitoring period. Monitoring alone does not establish causation.

NEXT MONITORING CHECK

Next published ADP run — review Room expectation alignment attribute recognition, related demand-territory presence, and evidence excerpts for the corrected facts.

5. Accountability & Decisions

Prior Action Review

No prior monthly actions are available yet.

Decisions Required

1. Confirm an accountable owner for each open action (role is pre-suggested; named owner still required).
2. Confirm target completion dates for each open action.
3. Confirm whether the corrective action order matches management's operating priority for the next 30 days.
4. Confirm whether any high-severity reality-gap attributes are outdated, incorrect, or intentionally not marketed.
5. Set target dates where currently blank ("Owner to be confirmed" / date pending).

What Dealality Will Monitor Next

- AI Consideration and Scenario Presence versus the next published monitoring run.
- Reality Coverage and high-severity attribute recognition rates.
- Displacement pattern involving Hyatt Regency Bethesda.
- Follow-up signal for action: Complete the meetings decision package with missing capacity, space, and contact facts — focus: total meeting space, largest capacity, meeting sales contact.
- Follow-up signal for action: Reconcile public facts for traveler needs where a named competitor appears and the subject hotel is absent — focus: list traveler needs / scenarios where absence concentrates, identify subject facts that are missing or inconsistent on priority sources, update first-party pages covering those facts.

This review is composed from the certified published Existing Hotel ADP customer report and the published Independent Positioning pack where available. It does not rerun providers, invent metrics, or claim causation from management actions. Final actions are executable playbooks with target sources, implementation steps, and definition of done.
