Platform Executive Summary

BIGGEST STRENGTH Often placed near the top when AI ranks hotels Among AI answers where hotel ranking could be measured, Hotel Caribe by Faranda Grand, a member of Radisson Individuals appeared in the Top 3 72.4% of the time. This shows how prominently the hotel is positioned when AI includes it.	BIGGEST CONSTRAINT Not appearing consistently in AI answers The hotel appeared in at least one AI answer for 69.8% of the traveler needs we tested, but across all individual AI answers it appeared 43.3% of the time. In practical terms, AI recognizes the hotel as relevant for many types of trips, but a traveler will not consistently see it among the hotel options surfaced.	CHANGE SINCE LAST COMPARABLE RUN No comparable prior official period yet No comparable prior official monitoring period is available yet. This period can be evaluated on its own; change over time is not shown.

Executive Conclusion

Hotel Caribe by Faranda Grand, a member of Radisson Individuals reaches many monitored demand scenarios, but consideration consistency is the binding constraint.

What the Data Is Telling Us

Scenario Presence is 69.8% while AI Consideration is 43.3%. The hotel is therefore relevant across a wide share of monitored traveler needs, yet it is not carried into individual answers nearly as consistently. Softness concentrates in Business Travel versus stronger Celebrations & Events. Sofitel Legend Santa Clara Cartagena often fills absences in those weaker contexts. That contrast is more important than either metric alone.

Why It Matters

Broad scenario reach without consistent answer-level inclusion means the hotel is known in the demand set but not reliably carried into traveler-facing answers. Management attention should start with consistency of representation, not with assuming the hotel needs an entirely new competitive set.

Where the Pattern Is Concentrated

Business Travel shows the softest Scenario Capture (54.5%), while Adventure remains stronger (100.0%). That contrast supports a concentrated softness reading — not a uniform demand failure. Sofitel Legend Santa Clara Cartagena most often appears when the hotel is absent (15 scenarios) — useful for source and fact reconciliation, not as proof of cause. Reality Coverage is 46.2% (6/13 attributes). Material gaps include Radisson Individuals Membership; Choice Hotels Distribution.

What Management Should Focus On Now

Focus first on consistency of representation for Business Travel. Confirm priority sources present the same use cases and attributes that appear in scenarios where the hotel is absent, and close gaps that repeatedly coincide with answer-level misses.

What Not to Overreact To

No comparable prior official monitoring period is available yet. This period can be evaluated on its own; change over time is not shown. Independent Positioning (#1 of 4; Portfolio AI Presence 43.3%) uses a different denominator than Core consideration — treat it as relative portfolio context, not a second Core score.

What to Review Next

Compare high-presence versus low-consideration scenarios and inspect which sources and attributes appear when the hotel is missing. Use that evidence pack before changing channel strategy.

2. Demand & Competitive Movement

Material Movement

No material movement rows in this period.

Demand Movement

Business Travel is the clearest current-period softness at 54.5% Scenario Capture. Celebration and Adventure show broader scenario coverage, suggesting the inclusion problem is concentrated rather than universal. These are absolute current-period levels — not period-over-period movement.

DEMAND TERRITORY	SCENARIO CAPTURE	CAPTURED	CAPTURE LEVEL	INTERPRETATION
Business Travel	54.5%	6 of 11	Partial Capture	Partial scenario capture. Review whether missing scenarios share a common attribute or competitor pattern.
Group / Meeting	60.0%	6 of 10	Partial Capture	Partial scenario capture. Review whether missing scenarios share a common attribute or competitor pattern.

Leisure Travel	75.0%	9 of 12	Partial Capture	Partial scenario capture. Review whether missing scenarios share a common attribute or competitor pattern.
Wellness	75.0%	3 of 4	Partial Capture	Partial scenario capture. Review whether missing scenarios share a common attribute or competitor pattern.

Metric = demandCapture.byIntent scenario capture (captured/total). Prior-run territory rates are not published as a comparable series in this edition.

Competitive Movement

Sofitel Legend Santa Clara Cartagena is the most frequently observed alternative when Hotel Caribe by Faranda Grand, a member of Radisson Individuals is absent, appearing in 15 displaced scenarios. Hyatt Regency Cartagena (14) and Hotel Charleston Santa Teresa (10) also appear frequently, indicating displacement is spread across multiple local alternatives rather than a single rival. Counts are observational and do not establish why displacement occurs.

COMPETITOR	DISPLACEMENT COUNT
Sofitel Legend Santa Clara Cartagena	15
Hyatt Regency Cartagena	14
Hotel Charleston Santa Teresa	10
Bastión Luxury Hotel	4
Estelar Cartagena de Indias Hotel & Centre of Conventions	4

Competitive movement describes co-appearance and absence patterns in monitored answers. It does not establish causation.

Independent Positioning Context

Within the Independent Positioning peer set, the hotel ranks #1 of 4 while Portfolio AI Presence is 43.3%. That portfolio presence level is directionally consistent with Core AI Consideration — relative standing inside the loyalty set can look strong even while absolute answer-level inclusion remains the binding constraint.

Reality Coverage Context

Only 6 of 13 monitored property attributes are consistently recognized (46.2% Reality Coverage). Highest-severity gaps today include Radisson Individuals Membership; Choice Hotels Distribution. Prioritize attributes that overlap with weak traveler-need scenarios or displacement evidence — not every gap is equally material.

3. Evidence Review
