Executive Conclusion

JW Marriott Hotel Monterrey Valle reaches many monitored demand scenarios, but consideration consistency is the primary constraint.

What the Data Is Telling Us

Scenario Presence at 92.1% shows broad recognition across monitored traveler needs. AI Consideration at 45.2% shows that recognition does not consistently convert into selection in individual answers. The management problem is inclusion consistency — not awareness. Softness concentrates in Family Travel; Group / Meeting, Business Travel, and Leisure Travel remain stronger. When the hotel is absent, AC Hotel by Marriott Monterrey Valle most often appears (2 scenarios).

Why It Matters

Broad scenario reach without consistent appearance in AI answers means the hotel is known in the demand set but not reliably carried into traveler-facing answers. Management attention should start with consistency of representation, not with assuming the hotel needs an entirely new competitive set.

Where the Pattern Is Concentrated

Family Travel is the softest Scenario Capture at 60.0%, while Group / Meeting, Business Travel, and Leisure Travel show broader coverage. The inclusion issue is concentrated, not universal. AC Hotel by Marriott Monterrey Valle appears most often when the hotel is missing (2 scenarios) — use that pattern for source and fact checks, not as proof of cause. Reality Coverage is 46.7% (7 of 15 attributes). Start with gaps that matter operationally — beginning with Financial Center Location.

What Management Should Focus On Now

Focus first on consistency of representation for Family Travel. Confirm priority sources present the same use cases and attributes that appear in scenarios where the hotel is absent, and close gaps that repeatedly coincide with cases where the hotel is missing.

What Not to Overreact To

No comparable prior official period is available — read these as current levels, not period-over-period change. Independent Positioning (#1 of 9; Portfolio AI Presence 45.2%) measures relative standing among loyalty peers. Strong peer rank does not mean consistent inclusion across the wider demand set.

What to Review Next

Compare high-presence versus low-consideration scenarios and inspect which sources and attributes appear when the hotel is missing. Use that evidence pack before changing channel strategy.

2. Demand & Competitive Movement

Material Movement

No material movement rows in this period.

Demand Movement

Family Travel is the clearest softness at 60.0% Scenario Capture. Group / Meeting, Business Travel, and Leisure Travel show broader coverage — the inclusion issue is concentrated rather than universal. These are current-period levels, not trend.

Competitive Movement

AC Hotel by Marriott Monterrey Valle is the most frequent alternative when JW Marriott Hotel Monterrey Valle is absent (2 scenarios). Hilton Monterrey Valle (2) and Holiday Inn Express & Suites Monterrey Valle (1) also appear often — displacement is spread across multiple local options. Counts show co-appearance patterns; they do not prove why displacement happens.

COMPETITOR	DISPLACEMENT COUNT
AC Hotel by Marriott Monterrey Valle	2
Hilton Monterrey Valle	2
Holiday Inn Express & Suites Monterrey Valle	1
Holiday Inn Monterrey Valle	1
Novotel Monterrey Valle	1

Competitive movement describes co-appearance and absence patterns in monitored answers. It does not establish causation.

Independent Positioning Context

Among loyalty peers in the Independent Positioning set, the hotel ranks #1 of 9. Portfolio AI Presence is 45.2% — aligned with Core AI Consideration. Relative strength inside the loyalty set can coexist with inconsistent inclusion in the broader answer set; peer rank is not a substitute for market-wide selection consistency.

Reality Coverage Context

Only 7 of 15 monitored attributes are consistently recognized (46.7% Reality Coverage). Not every gap deserves equal urgency. Actionable now: Financial Center Location. Location identity is foundational for traveler recognition and often overlaps weaker local-demand scenarios. Validate first: Aimbridge Managed; 24-Hour Fitness Center.

Reality Gap Prioritization

ATTRIBUTE	PRIORITY	WHY IT MATTERS OPERATIONALLY
Financial Center Location	Actionable now	Location identity is foundational for traveler recognition and often overlaps weaker local-demand scenarios.
Aimbridge Managed	Validate first	Rarely recognized today — validate source accuracy before treating as a primary fix.
24-Hour Fitness Center	Validate first	High-severity amenity gap — confirm whether public sources already state the amenity clearly before investing in content changes.
