Portfolio Rank

#1 of 6

Among 6 relevant Marriott Bonvoy hotels

Executive Assessment

The St. Regis Mexico City currently shows AI Consideration of 85.7% and Scenario Presence of 100.0%, with Reality Coverage at 53.8%. Strongest governed signal: Often placed near the top when AI ranks hotels. Primary constraint: No single dominant weakness. Versus the prior published run (2026-09-08), material headline movement is AI Consideration +85.7 pp and Scenario Presence +100.0 pp. Independent Positioning shows #1 of 6 with Portfolio AI Presence 85.7%. Independent Positioning is also strong and does not contradict the Core read; benchmark and index remain suppressed while the peer set stays below five hotels. Overall Core performance remains strong; weakness, where present, is concentrated rather than broad. Management should protect

demonstrated strengths, review concentrated attribute gaps, and watch competitive displacement where it already appears in evidence.

Positive Signal

Among AI answers where hotel ranking could be measured, The St. Regis Mexico City appeared in the Top 3 75.6% of the time. This shows how prominently the hotel is positioned when AI includes it.

Watch Item

The St. Regis Mexico City shows mixed results across the monitored measures. No one limitation clearly outweighs the others in the current data.

Management Priority

Confirm the highest-severity reality gaps and review competitive displacement evidence before expanding the action list.

2. Demand & Competitive Movement

Material Movement

METRIC / DEMAND AREA	CURRENT	PRIOR	CHANGE	EXECUTIVE INTERPRETATION
AI Consideration	85.7%		+85.7 pp	Improvement meets the 2 pp materiality heuristic. Confirm the gain holds in the next monitoring period.
Scenario Presence	100.0%		+100.0 pp	Improvement meets the 2 pp materiality heuristic. Confirm the gain holds in the next monitoring period.
Reality Coverage	53.8%	0.0%	+53.8 pp	Improvement meets the 2 pp materiality heuristic. Confirm the gain holds in the next monitoring period.

Demand Movement

DEMAND TERRITORY	CURRENT	CAPTURED	SIGNIFICANCE	INTERPRETATION
Business Travel	100.0%	13 of 13	STABLE	High scenario coverage for this traveler need in the current period.
Leisure Travel	100.0%	11 of 11	STABLE	High scenario coverage for this traveler need in the current period.
Couples / Romantic	100.0%	9 of 9	STABLE	High scenario coverage for this traveler need in the current period.
Group / Meeting	100.0%	11 of 11	STABLE	High scenario coverage for this traveler need in the current period.
Family	100.0%	5 of 5	STABLE	High scenario coverage for this traveler need in the current period.
Celebration	100.0%	7 of 7	STABLE	High scenario coverage for this traveler need in the current period.

Prior-run demand-territory rates are not published as a comparable series in this report edition; current-period rates are shown.

Competitive Movement

No displacement competitors are recorded for this period.

Competitive movement describes co-appearance and absence patterns in monitored answers. It does not establish causation.

3. Evidence Review

Evidence 01

Business

Provider: Perplexity

Observation: For an upscale corporate-meetings hotel in Mexico City, ****InterContinental Presidente Mexico City**** is a strong top pick because it can accommodate ****10 to 1,200 guests**** and its event spaces feature ****natural light****, which makes it suitable for everything from board

meetings to larger conferences.[2][5] Other excellent upscale options, depending on your needs, are: - **Hyatt Regency Mexico City** — in the upscale...

Why It Matters: Shows a monitored case where the property was not mentioned while alternatives were surfaced.

Management Review: Review whether property information for this traveler need is complete and consistently represented across first-party and major third-party sources.

Evidence 02

Property reality attributes

Provider: All Providers

Observation: Urban Luxury recognized in 0.9% of applicable monitored answers (2 of 216).

Why It Matters: This attribute is part of the monitored property proposition but is infrequently reflected in AI answers.

Management Review: Verify whether “Urban Luxury” is accurately and consistently described on the hotel website and major booking/travel platforms.

4. Management Action Agenda

Action 01

Stand up a TripAdvisor management-response program with owner, SLA, and theme tracking

HIGHOPENOwner: Guest Experience / Reputation OwnerDue: Date to be confirmed

Observed Issue

TripAdvisor appears in 64.1% of cited sources in the current monitoring period (41 citations), making response quality and factual corrections operationally material when misconceptions appear.

Recommended Action — Implementation Steps

- 1. Confirm the hotel’s canonical facts for TripAdvisor responses with the accountable owner (The St. Regis Mexico City).
- 2. Complete the applicable checklist items: designate accountable owner; set response SLA (property-configured; do not invent a default unless governed); identify recurring complaint themes monthly; correct factual misconceptions where appropriate; track response rate.

3. Audit each target source and record current wording/state: TripAdvisor.
4. Correct only the sources where facts are missing, conflicting, or outdated. Do not change measurement methodology.
5. Store completion evidence (canonical policy summary, sources reviewed, sources corrected, URLs/screenshots, completion date).
6. Notify Dealality of completion so the next monitoring period can check the expected signal without assuming causation.

Target Sources

TripAdvisor

Definition of Done

- Canonical facts for “TripAdvisor responses” are confirmed by hotel management.
- Each target source is reviewed: TripAdvisor.
- Sources that were incorrect or incomplete are corrected, with URLs or screenshots stored.
- The specific missing/inconsistent items are resolved: designate accountable owner; set response SLA; identify recurring complaint themes monthly; correct factual misconceptions where appropriate; track response rate.
- Accountable owner signs off with completion date.

Expected Signal

Dealality will monitor whether tripadvisor responses recognition and related scenario inclusion change in the next monitoring period. Monitoring alone does not establish causation.

Next Monitoring Check

Next published ADP run — review TripAdvisor responses attribute recognition, related demand-territory presence, and evidence excerpts for the corrected facts.

5. Accountability & Decisions

Prior Action Review

No prior monthly actions are available yet.

Decisions Required

1. Confirm an accountable owner for each open action (role is pre-suggested; named owner still required).
2. Confirm target completion dates for each open action.

3. Confirm which Watch Item items remain monitor-only versus requiring an open action this month.
4. Set target dates where currently blank ("Owner to be confirmed" / date pending).

What Dealality Will Monitor Next

- AI Consideration and Scenario Presence versus the next published monitoring run.
- Reality Coverage and high-severity attribute recognition rates.
- Follow-up signal for action: Stand up a TripAdvisor management-response program with owner, SLA, and theme tracking — focus: designate accountable owner, set response SLA, identify recurring complaint themes monthly.
- Independent Positioning rank and Portfolio AI Presence (benchmark/index remain suppressed while peer set is below 5).

This review is composed from the certified published Existing Hotel ADP customer report and the published Independent Positioning pack where available. It does not rerun providers, invent metrics, or claim causation from management actions. Final actions are executable playbooks with target sources, implementation steps, and definition of done.
