

AI DEMAND PERFORMANCE REVIEW

Renaissance New York Times Square Hotel

New York

MONTHLY EXECUTIVE REVIEW

SEPTEMBER 2026 · CURRENT MONITORING SEP 2, 2026 · PRIOR RUN SEP 2, 2026
PERFORMANCE · COMPETITIVE MOVEMENT · EVIDENCE · ACTIONS · ACCOUNTABILITY

This AI Demand Performance Review is a Dealality executive monitoring report. Measurement methodology is unchanged by presentation.
Confidential — for the named recipient only.

1. Executive Performance

Executive Read marks this as a baseline / not yet an official comparable prior. Trend rows still show the prior published run for transparency; interpret deltas cautiously.

AI CONSIDERATION 7.7% 0.0 pp	SCENARIO PRESENCE 24.6% 0.0 pp	REALITY COVERAGE 35.3% 0.0 pp
PRESENCE INDEX 71 Business Travel	COMPETITIVE POSITION New York Marriott Marquis Top displacement competitor · 33 scenarios where subject was absent	BRAND PORTFOLIO POSITION 47.2% 0.0 pp 17 of 36 AI observations · Prior Run 0.0 pp · Prior Run 0.0 pp

Executive Assessment

Renaissance New York Times Square Hotel currently shows AI Consideration of 7.7% and Scenario Presence of 24.6%, with Reality Coverage at 35.3%. Strongest governed signal: Still developing. Primary constraint: Not appearing consistently in AI answers. Versus the prior published run (2026-09-02), material headline movement is AI Consideration 0.0 pp and Scenario Presence 0.0 pp. Independent Positioning metrics are included only where published. Independent Positioning is weak as well, so the Core and portfolio reads point in the same direction. Overall Core performance remains weak; gaps are broad across consideration, scenario coverage, and Independent Positioning. Management should prioritize correcting clear visibility and reality gaps, then address the competitors that most often appear when the property is absent.

POSITIVE SIGNAL

Renaissance New York Times Square Hotel does not yet show a single dominant strength with enough comparable evidence in this period.

PERFORMANCE RISK

The hotel appeared in at least one AI answer for 24.6% of the traveler needs we tested, but across all individual AI answers it appeared 7.7% of the time. In practical terms, AI recognizes the hotel as relevant for many types of trips, but a traveler will not consistently see it among the hotel options surfaced.

MANAGEMENT PRIORITY

Prioritize correcting high-severity reality gaps and the information conditions behind displacement by New York Marriott Marquis.

2. Demand & Competitive Movement

Material Movement

METRIC / DEMAND AREA	CURRENT	PRIOR	CHANGE	EXECUTIVE INTERPRETATION
AI Consideration	7.7%	7.7%	0.0 pp	Change is within the 2 pp materiality heuristic used in the property Executive Read. Treat as stable unless other evidence indicates concentration risk.
Scenario Presence	24.6%	24.6%	0.0 pp	Change is within the 2 pp materiality heuristic used in the property Executive Read. Treat as stable unless other evidence indicates concentration risk.
Reality Coverage	35.3%	35.3%	0.0 pp	Change is within the 2 pp materiality heuristic used in the property Executive Read. Treat as stable unless other evidence indicates concentration risk.

Demand Movement

DEMAND TERRITORY	CURRENT	CAPTURED	SIGNIFICANCE	INTERPRETATION
Business Travel	38.5%	5 of 13	MATERIAL DECLINE	Low scenario coverage for this traveler need. Treat as a priority inspection area.
Leisure Travel	30.8%	4 of 13	MATERIAL DECLINE	Low scenario coverage for this traveler need. Treat as a priority inspection area.
Couples / Romantic	22.2%	2 of 9	MATERIAL DECLINE	Low scenario coverage for this traveler need. Treat as a priority inspection area.
Group / Meeting	16.7%	2 of 12	MATERIAL DECLINE	Low scenario coverage for this traveler need. Treat as a priority inspection area.
Family	16.7%	1 of 6	MATERIAL DECLINE	Low scenario coverage for this traveler need. Treat as a priority inspection area.
Celebration	28.6%	2 of 7	MATERIAL DECLINE	Low scenario coverage for this traveler need. Treat as a priority inspection area.

Prior-run demand-territory rates are not published as a comparable series in this report edition; current-period rates are shown.

Competitive Movement

When the property is absent, AI answers most often include New York Marriott Marquis (33), The Knickerbocker (32), The Westin New York at Times Square (21). Counts are observational and do not by themselves prove why displacement occurs.

COMPETITOR	DISPLACEMENT COUNT
New York Marriott Marquis	33
The Knickerbocker	32
The Westin New York at Times Square	21
The Civilian Hotel	14
Hard Rock Hotel New York	9

Competitive movement describes co-appearance and absence patterns in monitored answers. It does not establish causation.

3. Evidence Review

EVIDENCE 01

Business

Provider: Gemini

Observation: For a business trip, the "best" hotel in Times Square needs to offer three critical things that the area usually lacks: **peace and quiet (excellent soundproofing)**, **a functional workspace**, and **easy taxi/subway access** without getting trapped in tourist foot traffic. Here are the top hotels in and around Times Square tailored specifically for business travelers, categorized by your priorities: --- ### 1. Ove...

Why It Matters: Shows a monitored case where the property was not mentioned while alternatives were surfaced.

Management Review: Review whether property information for this traveler need is complete and consistently represented across first-party and major third-party sources.

EVIDENCE 02

Property reality attributes

Provider: All Providers

Observation: Fitness Center recognized in 0.0% of applicable monitored answers (0 of 20).

Why It Matters: This attribute is part of the monitored property proposition but is infrequently reflected in AI answers.

Management Review: Verify whether "Fitness Center" is accurately and consistently described on the hotel website and major booking/travel platforms.

EVIDENCE 03

Scenarios where subject is absent

Provider: Cross-provider

Observation: New York Marriott Marquis appeared in 33 monitored scenarios where Renaissance New York Times Square Hotel was absent.

Why It Matters: Identifies the competitor most often present when the subject hotel is missing from AI answers.

Management Review: Compare public positioning and third-party descriptions against this competitor for the traveler needs where displacement concentrates.

EVIDENCE 04

Property reality attributes

Provider: All Providers

Observation: Walking Distance to Broadway recognized in 0.0% of applicable monitored answers.

Why It Matters: Another high-severity attribute gap in the current monitoring period.

Management Review: Confirm whether "Walking Distance to Broadway" should be represented more clearly in first-party and third-party property copy.

4. Management Action Agenda

ACTION 01

Publish one canonical pet policy and reconcile it across booking and profile sources

HIGH **OPEN** Owner: Director of Marketing / Revenue Marketing Due: Date to be confirmed

OBSERVED ISSUE

"Pet-Friendly" was recognized in only 0.0% of applicable monitored answers (0 of 20; severity HIGH).

RECOMMENDED ACTION — IMPLEMENTATION STEPS

- 1. Confirm the hotel's canonical facts for Pet policy with the accountable owner (Renaissance New York Times Square Hotel).
- 2. Complete the applicable checklist items: pets accepted? yes/no; dogs/cats/other; weight limits; per-stay / per-night fee; deposit; restricted room types; service-animal policy.
- 3. Audit each target source and record current wording/state: Hotel Website; Google Business Profile; Booking.com; Expedia; TripAdvisor.
- 4. Correct only the sources where facts are missing, conflicting, or outdated. Do not change measurement methodology.
- 5. Store completion evidence (canonical policy summary, sources reviewed, sources corrected, URLs/screenshots, completion date).
- 6. Notify Dealality of completion so the next monitoring period can check the expected signal without assuming causation.

TARGET SOURCES

Hotel Website; Google Business Profile; Booking.com; Expedia; TripAdvisor

DEFINITION OF DONE

- Canonical facts for "Pet policy" are confirmed by hotel management.
- Each target source is reviewed: Hotel Website; Google Business Profile; Booking.com; Expedia; TripAdvisor.
- Sources that were incorrect or incomplete are corrected, with URLs or screenshots stored.
- The specific missing/inconsistent items are resolved: pets accepted? yes/no; dogs/cats/other; weight limits; per-stay / per-night fee; deposit; restricted room types; service-animal policy.
- Accountable owner signs off with completion date.

EXPECTED SIGNAL

Dealality will monitor whether pet policy recognition and related scenario inclusion change in the next monitoring period. Monitoring alone does not establish causation.

NEXT MONITORING CHECK

Next published ADP run — review Pet policy attribute recognition, related demand-territory presence, and evidence excerpts for the corrected facts.

ACTION 02

Complete the meetings decision package with missing capacity, space, and contact facts

MEDIUM OPEN Owner: Commercial / Sales Lead Due: Date to be confirmed

OBSERVED ISSUE

Business/meeting demand opportunity remains contested ("Where should I stay in NYC for meetings in Midtown?") with weak competitor ownership in monitored answers.

RECOMMENDED ACTION — IMPLEMENTATION STEPS

1. Confirm the hotel's canonical facts for Meetings information with the accountable owner (Renaissance New York Times Square Hotel).
2. Complete the applicable checklist items: total meeting space; largest capacity; meeting sales contact; downloadable floorplans; event fact sheet.
3. Audit each target source and record current wording/state: Hotel Website; Meeting / Event Fact Sheet; Google Business Profile.
4. Correct only the sources where facts are missing, conflicting, or outdated. Do not change measurement methodology.
5. Store completion evidence (canonical policy summary, sources reviewed, sources corrected, URLs/screenshots, completion date).
6. Notify Dealality of completion so the next monitoring period can check the expected signal without assuming causation.

TARGET SOURCES

Hotel Website; Meeting / Event Fact Sheet; Google Business Profile

DEFINITION OF DONE

- Canonical facts for "Meetings information" are confirmed by hotel management.
- Each target source is reviewed: Hotel Website; Meeting / Event Fact Sheet; Google Business Profile.
- Sources that were incorrect or incomplete are corrected, with URLs or screenshots stored.
- The specific missing/inconsistent items are resolved: total meeting space; largest capacity; meeting sales contact; downloadable floorplans; event fact sheet.
- Accountable owner signs off with completion date.

EXPECTED SIGNAL

Dealality will monitor whether meetings information recognition and related scenario inclusion change in the next monitoring period. Monitoring alone does not establish causation.

NEXT MONITORING CHECK

Next published ADP run — review Meetings information attribute recognition, related demand-territory presence, and evidence excerpts for the corrected facts.

ACTION 03

Reconcile public facts for traveler needs where a named competitor appears and the subject hotel is absent

MEDIUM OPEN Owner: General Manager + Marketing Lead Due: Date to be confirmed

OBSERVED ISSUE

New York Marriott Marquis appeared in 33 monitored scenarios where Renaissance New York Times Square Hotel was absent.

RECOMMENDED ACTION — IMPLEMENTATION STEPS

1. Confirm the hotel’s canonical facts for Competitive displacement with the accountable owner (Renaissance New York Times Square Hotel).
2. Complete the applicable checklist items: list traveler needs / scenarios where absence concentrates; identify subject facts that are missing or inconsistent on priority sources; update first-party pages covering those facts.
3. Audit each target source and record current wording/state: Hotel Website; TripAdvisor; Google Business Profile; Booking.com.
4. Correct only the sources where facts are missing, conflicting, or outdated. Do not change measurement methodology.
5. Compare public facts credited to New York Marriott Marquis in displacement evidence against the subject hotel’s corrected pages; close only evidence-backed gaps.
6. Store completion evidence (canonical policy summary, sources reviewed, sources corrected, URLs/screenshots, completion date).
7. Notify Dealality of completion so the next monitoring period can check the expected signal without assuming causation.

TARGET SOURCES

Hotel Website; TripAdvisor; Google Business Profile; Booking.com

DEFINITION OF DONE

- Canonical facts for “Competitive displacement” are confirmed by hotel management.
- Each target source is reviewed: Hotel Website; TripAdvisor; Google Business Profile; Booking.com.
- Sources that were incorrect or incomplete are corrected, with URLs or screenshots stored.
- The specific missing/inconsistent items are resolved: list traveler needs / scenarios where absence concentrates; identify subject facts that are missing or inconsistent on priority sources; update first-party pages covering those facts.
- Accountable owner signs off with completion date.

EXPECTED SIGNAL

Dealality will monitor whether competitive displacement recognition and related scenario inclusion change in the next monitoring period. Monitoring alone does not establish causation.

NEXT MONITORING CHECK

Next published ADP run — review Competitive displacement attribute recognition, related demand-territory presence, and evidence excerpts for the corrected facts.

ACTION 04

Stand up a TripAdvisor management-response program with owner, SLA, and theme tracking

MEDIUM OPEN Owner: Guest Experience / Reputation Owner Due: Date to be confirmed

OBSERVED ISSUE

TripAdvisor appears in 80.3% of cited sources in the current monitoring period (53 citations), making response quality and factual corrections operationally material when misconceptions appear.

RECOMMENDED ACTION — IMPLEMENTATION STEPS

- 1. Confirm the hotel’s canonical facts for TripAdvisor responses with the accountable owner (Renaissance New York Times Square Hotel).
- 2. Complete the applicable checklist items: designate accountable owner; set response SLA (property-configured; do not invent a default unless governed); identify recurring complaint themes monthly; correct factual misconceptions where appropriate; track response rate.
- 3. Audit each target source and record current wording/state: TripAdvisor.
- 4. Correct only the sources where facts are missing, conflicting, or outdated. Do not change measurement methodology.
- 5. Store completion evidence (canonical policy summary, sources reviewed, sources corrected, URLs/screenshots, completion date).
- 6. Notify Dealality of completion so the next monitoring period can check the expected signal without assuming causation.

TARGET SOURCES

TripAdvisor

DEFINITION OF DONE

- Canonical facts for “TripAdvisor responses” are confirmed by hotel management.
- Each target source is reviewed: TripAdvisor.
- Sources that were incorrect or incomplete are corrected, with URLs or screenshots stored.
- The specific missing/inconsistent items are resolved: designate accountable owner; set response SLA; identify recurring complaint themes monthly; correct factual misconceptions where appropriate; track response rate.
- Accountable owner signs off with completion date.

EXPECTED SIGNAL

Dealality will monitor whether tripadvisor responses recognition and related scenario inclusion change in the next monitoring period. Monitoring alone does not establish causation.

NEXT MONITORING CHECK

Next published ADP run — review TripAdvisor responses attribute recognition, related demand-territory presence, and evidence excerpts for the corrected facts.

ACTION 05

Align first-party and OTA room descriptions with recurring expectation mismatches in evidence

MEDIUM OPEN Owner: Director of Marketing / Revenue Marketing Due: Date to be confirmed

OBSERVED ISSUE

AI Consideration is 7.7% with Reality Coverage 35.3%. High-severity reality gaps indicate stay-expectation descriptions may contribute to under-inclusion.

RECOMMENDED ACTION — IMPLEMENTATION STEPS

- 1. Confirm the hotel’s canonical facts for Room expectation alignment with the accountable owner (Renaissance New York Times Square Hotel).
- 2. Complete the applicable checklist items: identify exact recurring expectation mismatch; update first-party room descriptions; verify OTA room-type descriptions; ensure imagery accurately reflects room type.
- 3. Audit each target source and record current wording/state: Hotel Website; OTA Room-Type Descriptions; Booking.com; Expedia.
- 4. Correct only the sources where facts are missing, conflicting, or outdated. Do not change measurement methodology.
- 5. Store completion evidence (canonical policy summary, sources reviewed, sources corrected, URLs/screenshots, completion date).
- 6. Notify Dealality of completion so the next monitoring period can check the expected signal without assuming causation.

TARGET SOURCES

Hotel Website; OTA Room-Type Descriptions; Booking.com; Expedia

DEFINITION OF DONE

- Canonical facts for “Room expectation alignment” are confirmed by hotel management.
- Each target source is reviewed: Hotel Website; OTA Room-Type Descriptions; Booking.com; Expedia.
- Sources that were incorrect or incomplete are corrected, with URLs or screenshots stored.
- The specific missing/inconsistent items are resolved: identify exact recurring expectation mismatch; update first-party room descriptions; verify OTA room-type descriptions; ensure imagery accurately reflects room type.
- Accountable owner signs off with completion date.

EXPECTED SIGNAL

Dealality will monitor whether room expectation alignment recognition and related scenario inclusion change in the next monitoring period. Monitoring alone does not establish causation.

NEXT MONITORING CHECK

Next published ADP run — review Room expectation alignment attribute recognition, related demand-territory presence, and evidence excerpts for the corrected facts.

5. Accountability & Decisions

Prior Action Review

No prior monthly actions are available yet.

Decisions Required

1. Confirm an accountable owner for each open action (role is pre-suggested; named owner still required).
2. Confirm target completion dates for each open action.
3. Confirm whether the corrective action order matches management’s operating priority for the next 30 days.
4. Confirm whether any high-severity reality-gap attributes are outdated, incorrect, or intentionally not marketed.
5. Set target dates where currently blank (“Owner to be confirmed” / date pending).

What Dealality Will Monitor Next

- AI Consideration and Scenario Presence versus the next published monitoring run.
- Reality Coverage and high-severity attribute recognition rates.
- Displacement pattern involving New York Marriott Marquis.
- Follow-up signal for action: Publish one canonical pet policy and reconcile it across booking and profile sources — focus: pets accepted? yes/no, dogs/cats/other, weight limits.
- Follow-up signal for action: Complete the meetings decision package with missing capacity, space, and contact facts — focus: total meeting space, largest capacity, meeting sales contact.

This review is composed from the certified published Existing Hotel ADP customer report and the published Independent Positioning pack where available. It does not rerun providers, invent metrics, or claim causation from management actions. Final actions are executable playbooks with target sources, implementation steps, and definition of done.
