AI Demand Positioning

See how often AI mentions your hotel for different traveler needs, which competing hotels appear instead, and what to review next.

Executive Summary

A plain language summary of where the hotel is strongest, where it is weakest, and what changed since the last monitoring period we can fairly compare against.

BIGGEST STRENGTH

Strong visibility for Leisure Travel

For Leisure Travel searches, Renaissance New York Times Square Hotel appeared in 29.7% of AI answers, compared with 7.8% for the comparable hotels used in this analysis. That means the hotel was surfaced about 3.8 times as often as the comparable hotels used in this analysis. In practical terms, this is the area where the hotel is showing its clearest visibility advantage versus similar hotels.

BIGGEST CONSTRAINT
