AI VISIBILITY AUDIT & ACTION PLAN

AC Hotel A Coruña

A Coruña, Galicia

INITIAL DIGITAL PRESENCE ASSESSMENT

NOVEMBER 2026

1. Executive Audit Summary

Protect a Strong Peer Position With Clearer, Consistent Commercial Facts

AC Hotel A Coruña ranks second among six certified Marriott Bonvoy peers and appears in 60.4% of eligible scenarios, but several important facts are either inconsistent across public sources or only partly recognized in the ADP baseline. The immediate task is accuracy: establish one approved meetings record, make the AC Lounge and Matogrande/Expocoruña proposition easier to understand, and confirm that intended automated systems can reach the Spanish content.

Performance Snapshot

AI CONSIDERATION	SCENARIO PRESENCE	CERTIFIED PEER POSITION
34.4%	**60.4%**	**#2 of 6**
Mentioned in 66 of 192 comparable monitored AI answers	Present across 29 of 48 eligible traveler-need scenarios	Second-highest presence among 6 certified Marriott Bonvoy peers

AI Consideration is the share of 192 comparable monitored answers mentioning the hotel; Scenario Presence is the share of 48 eligible traveler-need scenarios where it appeared. Certified Peer Position uses the six-hotel Marriott Bonvoy set. These measures do not represent bookings, revenue, or traveler exposure.

Key Findings

1. Meetings Facts Need One Approved Record

Marriott pages use five versus six event rooms, while Marriott and the convention bureau also publish different capacity and address details.

Why it matters. Planners and automated systems should receive setup-qualified figures and one verified street address rather than reconcile competing public facts.

2. Recognized Strengths Do Not Yet Match the Full Offer

The official hotel offer includes AC Lounge dining and proximity to Matogrande and Expocoruña, while ADP restaurant recognition was 0% and meeting-space recognition was about 49%.

Why it matters. This is a content-priority signal, not proof of a defect. Clearer official descriptions can give buyers better decision context.

3. Recent Investment Should Be Reflected Accurately

ACHM reported in June 2026 that all 116 rooms, one meeting room, and the gym were renovated.

Why it matters. Approved post-renovation facts should be consistent across Marriott, sales collateral, and partner listings without overstating the scope of the work.

Recommended Priorities

PRIORITY	ACTION	DESIRED OUTCOME
High	Sales and operations: reconcile meetings, capacities, and address facts	One signed source-of-truth schedule
High	Commercial team: strengthen dining and business-location signals	Clearer AC Lounge and Expocoruña decision context
Medium	Digital team: investigate Spanish-page automated access	Security-aligned crawler access decision
Medium	Marketing: align post-renovation public copy	Accurate description of completed improvements

EXECUTIVE TAKEAWAY

The hotel already has a credible competitive position. The practical opportunity is to protect it with disciplined fact control and clearer presentation of dining, meetings, business-location, and renovation strengths—then measure future movement without promising a ranking or revenue result. Digital authority: AC Hotel A Coruña already appears on the A Coruña Convention & Visitors Bureau hotel and MICE listings, which is a strong meetings-demand authority signal.

3. Decisions Requested from Hotel Leadership

No public change is approved by this payload. Hotel leadership must establish the source of truth and authorize implementation.

1. **Meetings and Address Source of Truth** **(AVA-ACOR-001)**
   Approve room count, setup capacities, total area, and the correct street number.
2. **Dining and Business Positioning** **(AVA-ACOR-002)**
   Approve exact AC Lounge, Matogrande, Expocoruña, and inquiry language.
3. **Crawler Access Policy** **(AVA-ACOR-003)**
   Confirm which automated systems are intended to access Spanish content and approve any rule change.
4. **Renovation Language** **(AVA-ACOR-004)**
   Approve a precise statement that does not imply a whole-building renovation.
5. **Wedding Content Go/No-Go** **(AVA-ACOR-005)**
   Decide whether wedding and social-event demand supports additional content.

4. Key Digital Presence Findings

Findings separate verified inconsistencies, bounded investigations, and optional commercial choices.

VERIFIED PROBLEM · AVA-ACOR-001

Public Meetings and Address Facts Conflict

The Marriott overview says five event rooms; the events page reports 6 rooms, 674 square metres, and largest capacity 290. The convention bureau publishes different Banquetes capacity and street-number details.

SUPPORTING EVIDENCE

- VERIFIED PUBLIC EVIDENCE
  Marriott overview — Overview references five event rooms.
- VERIFIED PUBLIC EVIDENCE
  Marriott events page — Reports 6 rooms, 674 sq m, and largest capacity 290.
- VERIFIED PUBLIC EVIDENCE
  A Coruña Convention Bureau listing — Different capacity and street-number details require reconciliation.

NEEDS INVESTIGATION · AVA-ACOR-002

Dining and Meeting Strengths Are Under-Recognized

ADP recognized the on-site restaurant attribute in 0% of applicable observations and meeting space in about 49%, despite official AC Lounge dining and meetings content.

NEEDS INVESTIGATION · AVA-ACOR-003

Spanish URL Returned a Bounded Automated-Access Failure

A research-bot probe of the Spanish Marriott URL returned HTTP 403 and redirected toward default.mi while the English overview and robots.txt were retrievable. This does not prove a general outage.

SUPPORTING EVIDENCE

- TECHNICAL OBSERVATION
  Spanish Marriott overview — Research-environment 403/redirect pattern; requires Marriott review.
- VERIFIED PUBLIC EVIDENCE
  Marriott robots.txt — Returned HTTP 200 during the bounded review.
- VERIFIED PUBLIC EVIDENCE

NEEDS HOTEL CONFIRMATION · AVA-ACOR-004

Post-Renovation Copy Needs Scope Control

ACHM reported completion of renovations to all 116 rooms, one meeting room, and the gym in June 2026. Hotel leadership should confirm what is approved for public reuse.

SUPPORTING EVIDENCE

- VERIFIED PUBLIC EVIDENCE

- VERIFIED PUBLIC EVIDENCE
  Marriott rooms page — Confirms 116 guestrooms.

OPTIONAL OPPORTUNITY · AVA-ACOR-005

Wedding Content Exists but Recognition Is Limited

The events page markets weddings, while ADP wedding-venue recognition was 2.4%. Additional content is optional and should follow a hotel demand decision.

SUPPORTING EVIDENCE

- VERIFIED PUBLIC EVIDENCE
  Marriott events page — Official wedding and event marketing.

5. Digital Authority & AI Citation Opportunities

PARTIAL_PUBLIC_SEARCH — CVB pages verified for mentions vs hyperlinks. No Ahrefs/Semrush inventory authorized.

EXECUTIVE FINDING

AC Hotel A Coruña is listed on the A Coruña CVB hotel and MICE profiles—strong destination authority for meetings demand—but those CVB pages do not currently expose a hyperlink to the hotel's official website (Marriott or hotelacacoruna.com). Peer hotels on the same CVB directory likewise lack outbound website backlinks in this public pass. The highest-value authority move is securing an accurate CVB profile with a correct official URL, not chasing generic directory volume.

No third-party hyperlinks to the official hotel website were confirmed in this public-partial pass. Mentions without hyperlinks are classified separately.

Competitive comparison

NH Collection Finisterre, Meliá María Pita, Hesperia A Coruña Centro, and Attica21 appear in the same CVB hotel directory. Public HTML review did not confirm outbound website backlinks for those peers either—so competitor website-backlink superiority on the CVB is SUBJECT_COVERAGE_NOT_ESTABLISHED / not proven. The commercial

gap that is confirmed is factual accuracy: CVB meeting-space figures still conflict with Marriott source pages.

- **NH Collection A Coruña Finisterre** — Also featured on CVB directory. Public HTML did not confirm an outbound website backlink for NH either—so a CVB website-backlink gap vs NH is not established. Evidence
- **Meliá María Pita** — Present on CVB; outbound hotel-website hyperlink not confirmed in this pass (maps links only). Evidence

Recommended authority actions

1. **Secure Accurate CVB Profile + Official Website Hyperlink** · Owner: Hotel Commercial / Sales · HIGH
   CVB hotel/MICE pages mention AC without a confirmed href to Marriott/hotelacacoruna.com; peer CVB pages also lack hotel-website backlinks in this public pass.

Verified backlinks and external mentions are not the same as observed AI citations. A competitor mention is not a backlink. Completing an outreach action does not guarantee a change in AI recommendations, bookings, or revenue.

6. Prioritized Action Plan

Each action states the owner, evidence, approval requirement, completion criteria, target URLs, and verification method.

ACTION 01 · AVA-ACOR-001

Reconcile Event-Room, Capacity, and Address Facts

HIGH PRIORITY | NOT STARTED | VERIFIED PROBLEM | Owner: Director of Sales / Hotel Operations

Timing: Source of truth in 2 weeks; approved corrections within 30 days

WHAT WE FOUND

Marriott uses five versus six event rooms, and the convention bureau differs on Banquetes capacity and street number.

WHY IT MATTERS

Concrete conflicts create avoidable planner uncertainty and can be repeated by search and AI systems.

RECOMMENDED ACTION

1. Sales signs a room-by-room schedule with setup capacities and total area.
2. Operations confirms the correct street address.
3. Submit field-level corrections to Marriott and the convention bureau.
4. Verify every named page against the signed schedule.

SUGGESTED TIMING

Source of truth in 2 weeks; approved corrections within 30 days

MEASURABLE COMPLETION CRITERIA

- **Investigation Completed.** A signed meetings and address schedule explains all named figures.
- **Correction Submitted.** Approved correction requests are filed with exact fields and sources.
- **Correction Verified Live.** Named pages match the signed schedule or open tickets have documented follow-up.
- **No Change Required.** Valid only if each difference is documented as setup-specific and current wording is approved.

> **Hotel Decision Required.** Sales and operations must approve the source of truth before external edits.

TECHNICAL NOTES

Do not treat setup-specific capacities as errors until sales confirms the applicable layouts.

ACTION 02 · AVA-ACOR-002

Strengthen AC Lounge and Business-District Signals

HIGH PRIORITY | NOT STARTED | NEEDS INVESTIGATION | Owner: Hotel Commercial Leadership

Timing: Content brief in 2 weeks; updates within 30–45 days

WHAT WE FOUND

Restaurant recognition was 0% and meeting-space recognition about 49%, despite official AC Lounge and event content plus the Matogrande/Expocoruña location.

WHY IT MATTERS

Clearer official descriptions can improve buyer context, although they cannot guarantee future AI presence or bookings.

RECOMMENDED ACTION

1. Approve concise AC Lounge meal-service language.
2. Add sourced Matogrande, Expocoruña, and business-access context where Marriott permits.
3. Keep meeting facts aligned with AVA-ACOR-001.
4. QA live copy and inquiry paths.

ACTION 03 · AVA-ACOR-003

Review Spanish-Page Access for Intended Crawlers

MEDIUM | NOT STARTED | NEEDS INVESTIGATION | Owner: Marriott Digital / CDN Security Owner

Timing: Technical review within 30 days

WHAT WE FOUND

The Spanish Marriott URL returned HTTP 403 and redirected toward default.mi for the research bot; the English overview fetched and robots.txt returned 200.

WHY IT MATTERS

An unintended access mismatch could steer automated systems toward secondary sources, but one research client does not establish a general outage.

RECOMMENDED ACTION

1. Open a Marriott CDN/WAF review ticket with the exact test context.
2. Compare intended crawler policy with current bot-management rules.
3. Approve only narrow security-safe changes if a conflict is confirmed.
4. Retest Spanish and English pages from agreed clients.

Align Public Copy With the Completed Renovation

MEDIUM | NOT STARTED | NEEDS HOTEL CONFIRMATION | Owner: Hotel GM / Marketing Leadership

Timing: Audit in 2 weeks; approved alignment within 45 days

WHAT WE FOUND

ACHM reported in June 2026 that all 116 rooms, one meeting room, and the gym were renovated.

WHY IT MATTERS

Accurate post-renovation language supports current buyer expectations and prevents stale or overbroad claims.

RECOMMENDED ACTION

1. Hotel confirms the final completed scope and approved wording.
2. Audit Marriott and sales materials for stale room, meeting-room, and gym descriptions.
3. Submit approved factual updates.
4. Archive live verification.

Decide Whether to Reinforce Weddings and Social Events

OPTIONAL | NOT STARTED | OPTIONAL OPPORTUNITY | Owner: Hotel Commercial Leadership | Timing: Decision within 30 days

WHAT WE FOUND

Marriott markets weddings on the events page while ADP wedding-venue recognition was 2.4%.

WHY IT MATTERS

A focused module could help qualified prospects understand fit, but added content creates maintenance work and cannot guarantee inquiries.

RECOMMENDED ACTION

1. Sales records a wedding/social-event go or no-go.
2. If go, approve target occasions, capacities, inclusions, and inquiry ownership.
3. Draft concise content using the AVA-ACOR-001 capacity record.
4. If no-go, document and close the action.

TECHNICAL NOTES

No paid backlink tool used. Completing CVB updates does not guarantee AI ranking change.

7. Methodology, Responsibilities & Next Steps

Combines the certified ADP baseline with a bounded review of named public pages and zero-cost technical probes. No paid research, ADP remeasurement, production write, or customer publication was performed.

How to Read Findings

- VERIFIED_ISSUE — a directly observed, source-backed discrepancy.
- RECOMMENDED_INVESTIGATION — evidence warrants review but does not prove a defect or cause.
- REQUIRES_HOTEL_CONFIRMATION — leadership must establish the source of truth before correction.
- OPTIONAL_COMMERCIAL_OPPORTUNITY — proceed only if leadership wants the demand.

Responsibilities

- Hotel leadership confirms facts, priorities, and public changes.
- Digital, brand, and partner teams implement only approved corrections and document verification.
- Dealality packages measurement context and evidence without implying ranking, booking, or revenue causation.

How This Relates to Monthly Monitoring

Approved actions may be tracked later. Completing an action does not itself prove a change in AI presence, bookings, or revenue.

Suggested Next Step

Approve the meetings source of truth, then authorize the highest-priority validated work.
