AI VISIBILITY AUDIT & ACTION PLAN

Grand Fiesta Americana Chapultepec

Mexico City

INITIAL DIGITAL PRESENCE ASSESSMENT

NOVEMBER 2026

1. Executive Audit Summary

Turn Recognized Luxury Assets Into Clearer Business and Meetings Signals

Grand Fiesta Americana Chapultepec has credible assets—Spa 19th, Azur, Chapultepec Castle views, Grand Club, dog-friendly positioning, and a Forbes Travel Guide listing—but appeared in only 4.7% of comparable consideration answers and 16.7% of eligible scenarios. Those results do not diagnose a website defect. They support a focused review of whether business, meetings, club-floor, and verified luxury signals are presented with enough precision and consistency.

Performance Snapshot

AI CONSIDERATION	SCENARIO PRESENCE	CERTIFIED PEER POSITION
4.7%	**16.7%**	**#4 of 5**
Mentioned in 9 of 192 comparable monitored AI answers	Present across 8 of 48 eligible traveler-need scenarios	Certified KPI value from the lean Fiesta Rewards baseline; the peer section was not displayed

AI Consideration is based on 9 of 192 comparable monitored answers; Scenario Presence is based on 8 of 48 eligible scenarios. The #4 of 5 peer value is retained from the certified lean Fiesta Rewards baseline, whose peer section was not visible. None of these measures represents bookings, revenue, or traveler exposure.

Key Findings

1. Low Consideration Despite Recognized Core Amenities

ADP recognized spa and restaurant attributes, but meeting-space recognition was only 24.6% despite seven halls and published capacity up to 220.

Why it matters. The gap is a reason to investigate business-content emphasis, not evidence that leisure copy or the website caused the measured result.

2. Capacity Language Needs Qualification

The official site and Cvent support 220 seated, while Forbes inspector copy says El Castillo allows all 300 guests to admire the views.

Why it matters. The 300 reference may describe a different use or editorial wording. Sales should establish one setup-qualified source of truth before requesting changes.

3. Awards and Contact Details Need Precision

The official Forbes section uses vague ratings-and-stars language without naming the current rating, and the page displays +52 443 numbers that should be verified for a Mexico City property.

Why it matters. Specific, approved award and contact facts reduce uncertainty for guests, planners, and automated systems.

Recommended Priorities

PRIORITY	ACTION	DESIRED OUTCOME
High	Commercial team: sharpen meetings, Grand Club, and business signals	Buyer-ready official positioning
High	Sales: reconcile 220 versus 300 capacity language	One setup-qualified capacity record
Medium	Leadership: confirm and state the current Forbes recognition	Precise, supportable award language
Medium	Operations: verify all public phone numbers	Correct property and call-center routing

EXECUTIVE TAKEAWAY

The hotel does not need speculative claims. It needs clearer organization of verified strengths and disciplined correction of facts that buyers may compare. That work can improve information quality and sales readiness, while any later change in AI consideration must be measured rather than promised.

ACTION 01 · AVA-GFAC-001

Strengthen Meetings, Grand Club, and Business Positioning

HIGH PRIORITY | NOT STARTED | NEEDS INVESTIGATION | Owner: Hotel Commercial Leadership

Timing: Brief in 2 weeks; approved updates within 30–45 days

WHAT WE FOUND

Official and partner sources verify seven halls, capacity up to 220, Grand Club, Spa 19th, Azur, Castle views, and proximity to Polanco and Reforma.

WHY IT MATTERS

A clearer hierarchy can help buyers understand fit; it cannot guarantee more AI mentions or bookings.

RECOMMENDED ACTION

1. Approve a business-traveler and meetings fact sheet.
2. Lead with seven halls, setup-qualified capacity, Grand Club, and district access.
3. Retain recognized Spa 19th, Azur, Castle-view, and dog-friendly strengths.
4. QA official pages and sales inquiry paths.

ACTION 02 · AVA-GFAC-002

Align El Castillo Capacity Language

HIGH PRIORITY | NOT STARTED | NEEDS HOTEL CONFIRMATION | Owner: Director of Sales / Events Leadership

Timing: Reconciliation in 2 weeks; corrections within 30 days

WHAT WE FOUND

The official business page says up to 220 guests; Cvent reports 220 seated and 180 standing; Forbes inspector text references all 300 guests.

WHY IT MATTERS

Planners need comparable capacities. The difference may be editorial or setup-specific, so the hotel must confirm before correction.

RECOMMENDED ACTION

1. Sales signs a room-by-room, setup-by-setup capacity schedule.
2. Determine whether 300 applies to any approved use.
3. Request corrections or clarifying labels from official, Forbes, and Cvent channels as appropriate.
4. Verify live wording and retain the signed schedule.

ACTION 03 · AVA-GFAC-003

Confirm and Publish Precise Forbes Recognition

MEDIUM | NOT STARTED | NEEDS HOTEL CONFIRMATION | Owner: Hotel GM / Brand Marketing

Timing: Confirmation in 2 weeks; update within 30 days

WHAT WE FOUND

Forbes Travel Guide has a hotel listing, while the official Forbes section is vague about the current rating.

WHY IT MATTERS

Precise, current award language is more credible and less likely to be misread or repeated inaccurately.

RECOMMENDED ACTION

1. Hotel confirms current Forbes status through its official relationship or current documentation.
2. Approve exact rating, award year, and permitted wording.
3. Replace vague official-page language with the confirmed statement.

Timing: Verification within 2 weeks; corrections within 30 days

WHAT WE FOUND

VERIFICATION METHOD

Complete domestic/international call tests and inspect tel links and contact metadata.

DEPENDENCIES

TECHNICAL NOTES

6. Methodology, Responsibilities & Next Steps

Combines the certified ADP lean baseline with a bounded review of named official and public partner pages. No paid research, ADP remeasurement, production write, or customer publication was performed.

How to Read Findings

- VERIFIED_ISSUE — a directly observed, source-backed discrepancy.
- RECOMMENDED_INVESTIGATION — evidence warrants review but does not prove a defect or cause.
- REQUIRES_HOTEL_CONFIRMATION — leadership must establish the source of truth before correction.
- OPTIONAL_COMMERCIAL_OPPORTUNITY — proceed only if leadership wants the demand.

Responsibilities

- Hotel leadership confirms facts, awards, capacities, contacts, priorities, and public changes.
- Digital, sales, and partner teams implement only approved corrections and document verification.
- Dealality packages measurement context and evidence without implying ranking, booking, or revenue causation.

How This Relates to Monthly Monitoring

Approved actions may be tracked later. Completing an action does not itself prove a change in AI presence, bookings, or revenue.

Suggested Next Step

Approve the capacity and award facts, then authorize the highest-priority validated work.
