AI VISIBILITY AUDIT & ACTION PLAN

Hilton New York Times Square

New York, United States

INITIAL DIGITAL PRESENCE ASSESSMENT

NOVEMBER 2026

1. Executive Audit Summary

Reconcile Hilton Amenities With Four 0% Recognition Gaps

The hotel ranks #2 of 6 in its certified Hilton Honors set but appears in only 10.4% of comparable answers and 28.3% of eligible scenarios. The immediate task is to reconcile explicit first-party facts with the staged reality gaps, while treating technical-probe results as bounded observations rather than causal proof.

Performance Snapshot

AI CONSIDERATION	SCENARIO PRESENCE	CERTIFIED PEER POSITION
10.4%	**28.3%**	**#2 of 6**
Mentioned in 22 of 212 comparable monitored AI answers	Present across 15 of 53 eligible traveler-need scenarios	Second-highest presence among 6 certified Hilton Honors peers

AI Consideration is the share of comparable monitored answers mentioning the hotel; Scenario Presence is the share of eligible traveler-need scenarios where it appeared. Peer position is certified-set context. These measures do not represent bookings, ADR, revenue, or traveler exposure.

Key Findings

1. Reconcile Hilton Amenities With Four 0% Recognition Gaps

Hilton's official hotel-information page lists on-site restaurant, room service, Digital Key, and Connecting Rooms; the certified reality-gap read recorded 0% recognition for all four.

Why it matters. These facts affect family, dining, and convenience decisions, but the gap does not prove that official-page content caused low consideration.

2. Build a Source-Backed Celebrations and Events Entry Path

Celebrations & Events was the softest monitored territory at 0% scenario capture. Hilton's official hotel-information page lists meeting rooms, but the available evidence does not establish a complete celebration proposition.

Why it matters. The hotel should confirm actual event inventory and target occasions before publishing expanded positioning.

3. Strengthen City-View and Walkable-Location Decision Context

The certified read recorded 0% for City Views and Walkable Downtown while the property identity is Hilton New York Times Square at 234 West 42nd Street.

Why it matters. Location identity and view claims are material, but exact view categories and walking-distance language require hotel-approved facts.

Review Hilton Origin Access for Intended Crawlers

MEDIUM | NOT STARTED | NEEDS INVESTIGATION | Owner: Hilton Digital / CDN Security Owner

Timing: Review in 2 weeks; approved updates within 30–45 days

WHAT WE FOUND

The zero-cost probe received HTTP 403 for the Hilton origin GET after redirect to /en/, while robots.txt, sitemap.xml, and HEAD returned HTTP 200. A separate web fetch retrieved the hotel's official information page.

RECOMMENDED ACTION

2. Test the canonical hotel paths independently from the origin.
3. Confirm intended crawler policy with the platform owner.
4. Make only narrow approved changes if a conflict is verified.

TECHNICAL NOTES

ADP recognition is a prioritization signal, not proof of ranking, booking, ADR, or revenue causation.

6. Methodology, Responsibilities & Next Steps

Combines the pinned certified ADP baseline with the staged monthly-review reality gaps, a bounded review of named public pages, and zero-cost technical probes. No paid research, ADP remeasurement, production publication, or customer approval was performed.

How to Read Findings

- VERIFIED_ISSUE — a directly observed, source-backed discrepancy.
- RECOMMENDED_INVESTIGATION — evidence warrants review but does not prove a defect or cause.
- REQUIRES_HOTEL_CONFIRMATION — leadership must establish the source of truth before correction.
- OPTIONAL_COMMERCIAL_OPPORTUNITY — proceed only if leadership wants the demand.

Responsibilities

- Hotel leadership confirms facts, priorities, and public changes.
- Digital, brand, and partner teams implement only approved corrections and document verification.
- Dealality packages measurement context and evidence without implying ranking, booking, ADR, or revenue causation.

How This Relates to Monthly Monitoring

Approved actions may be tracked later. Completing an action does not itself prove a change in AI presence, bookings, ADR, or revenue.

Suggested Next Step

Approve the highest-priority source-of-truth decision, then authorize only the validated work.
