AI VISIBILITY AUDIT & ACTION PLAN

Sheraton Guadalajara Expo

Guadalajara, Jalisco

INITIAL DIGITAL PRESENCE ASSESSMENT

NOVEMBER 2026

1. Executive Audit Summary

Resolve Meetings Facts and Clarify a Strong Expo-Area Proposition

Sheraton Guadalajara Expo appears in 47.6% of eligible traveler-need scenarios, while AI Consideration is 11.9% and the weighted attribute Reality Gap is 58.0%. These measures do not diagnose a website cause. The immediate verified issue is a public meetings inconsistency: the overview says more than 400 square metres, while the events page reports 12 rooms, 1,654 square metres, and a largest capacity of 500. After sales establishes one approved capacity record, the hotel can present its Expo Guadalajara location, meetings offer, dining, spa, lounge, pool, and pet policy more consistently.

Performance Snapshot

AI CONSIDERATION	SCENARIO PRESENCE	REALITY GAP
11.9%	**47.6%**	**58.0%**
Mentioned in 30 of 252 comparable monitored AI answers	Present across 30 of 63 eligible traveler-need scenarios	Weighted attribute gap under RG_WEIGHTED_PARTIAL_V2 — not a booking metric

AI Consideration is the share of 252 comparable monitored answers mentioning the hotel; Scenario Presence is the share of 63 eligible scenarios where it appeared. Reality Gap is a weighted attribute-recognition diagnostic covering 25 tested attributes. None represents bookings, revenue, rank, or traveler exposure.

Key Findings

1. Meetings Facts Need Reconciliation

The overview uses a broad statement of more than 400 square metres, while the events page reports 12 rooms, 1,654 square metres, and Diamante capacity of 500.

Why it matters. Planners and automated systems need one setup-qualified source of truth rather than materially different public figures.

2. Expo and Convention Positioning Is Defensible

Official content places the hotel near Expo Guadalajara and includes FIFA World Cup 2026 messaging.

Why it matters. Consistent location and meetings facts can improve buyer context without promising consideration, ranking, or booking gains.

3. Hotel Assets Need Disciplined Presentation

MATRIA, QUIDEA Spa, the Platinum-and-above Sheraton Lounge benefit, outdoor pool, and pet policy are buyer-relevant official signals.

Why it matters. Accurate, maintained descriptions help travelers and planners assess fit; the measured gap does not prove these pages are defective.

Recommended Priorities

PRIORITY	ACTION	DESIRED OUTCOME
High	Sales and operations: reconcile meeting area, rooms, and capacities	One signed setup-qualified meetings schedule
High	Commercial team: align Expo, convention, and meetings positioning	Consistent buyer-ready location and event context
Medium	Marketing: audit dining, spa, lounge, pool, and pet signals	Accurate asset descriptions across priority pages
Medium	Marriott digital: review bounded crawler access behavior	Documented security-aligned access posture

EXECUTIVE TAKEAWAY

The practical opportunity is disciplined fact control. Resolve the meetings contradiction first, then organize verified Expo-area and on-property strengths into clear buyer context. Future movement should be measured without promising rankings, bookings, or revenue. Digital authority: Expo adjacency is the authority story—not generic directory volume.

Automated Probe Returned a Bounded Marriott Access Failure

The zero-cost research probe returned HTTP 403 and redirected the property URL to default.mi; robots.txt and a HEAD request returned 200, and the English overview was available through browser tooling. This does not prove a general outage.

SUPPORTING EVIDENCE

- TECHNICAL OBSERVATION

- VERIFIED PUBLIC EVIDENCE
  Marriott robots.txt — Returned HTTP 200 in the same bounded probe.

PARTIAL_PUBLIC_SEARCH — Expo Guadalajara and destination pages reviewed. No Ahrefs/Semrush inventory.

>
> Sheraton Guadalajara Expo's commercial authority centers on Expo Guadalajara adjacency and meetings capacity accuracy—not directory volume. Public partial research did not confirm a third-party DMO page with a verified hyperlink to the hotel's Marriott URL in this pass. Priority: keep Expo/meetings facts reconciled, then pursue a destination or convention listing with an official-site hyperlink.

No third-party hyperlinks to the official hotel website were confirmed in this public-partial pass. Mentions without hyperlinks are classified separately.

   Expo Guadalajara is a verified demand-adjacent authority; hotel-specific outbound Marriott backlink was not confirmed in this public pass.

Verified backlinks and external mentions are not the same as observed AI citations. A competitor mention is not a backlink. Completing an outreach action does not guarantee a change in AI recommendations, bookings, or revenue.

WHAT WE FOUND

The overview says more than 400 square metres; the events page reports 12 rooms, 1,654 square metres, and Diamante capacity of 500.

WHAT WE FOUND

VERIFICATION METHOD

DEPENDENCIES

TECHNICAL NOTES

Public partial Digital Authority research only; no paid SEO metrics invented.

7. Methodology, Responsibilities & Next Steps

Combines the certified ADP baseline with a bounded review of named public pages and zero-cost technical probes. No paid research, ADP remeasurement, production write, or customer publication was performed.

How to Read Findings

- VERIFIED_ISSUE — a directly observed, source-backed discrepancy.
- RECOMMENDED_INVESTIGATION — evidence warrants review but does not prove a defect or cause.
- REQUIRES_HOTEL_CONFIRMATION — leadership must establish the source of truth before correction.
- OPTIONAL_COMMERCIAL_OPPORTUNITY — proceed only if leadership wants the demand.

Responsibilities

- Hotel leadership confirms facts, priorities, and public changes.
- Digital, brand, and partner teams implement only approved corrections and document verification.
- Dealality packages measurement context and evidence without implying ranking, booking, or revenue causation.

How This Relates to Monthly Monitoring

Approved actions may be tracked later. Completing an action does not itself prove a change in AI presence, bookings, or revenue.

Suggested Next Step

Approve the meetings source of truth, then authorize the highest-priority validated work.
