AI VISIBILITY AUDIT & ACTION PLAN

Waterstone Resort & Marina

Boca Raton, Florida

INITIAL DIGITAL PRESENCE ASSESSMENT

NOVEMBER 2026

1. Executive Audit Summary

Reconcile the Event-Space Story and Establish the Canonical Hotel Domain

Waterstone has meaningful reach—53.5% consideration and 76.6% scenario presence—but ranks fifth among six Hilton Honors peers. Its active site presents a commercially useful marina, dining, and meetings offer; the immediate quality risk is that trusted sources publish materially different event-space totals while the historically used domain does not reliably lead research to that active offer.

Performance Snapshot

AI CONSIDERATION	SCENARIO PRESENCE	CERTIFIED PEER POSITION
53.5%	**76.6%**	**#5 of 6**
Share of comparable monitored AI answers that mentioned the hotel	Eligible traveler-need scenarios where the hotel appeared	Fifth among 6 certified Hilton Honors peers

AI Consideration is the share of comparable monitored answers mentioning the hotel; Scenario Presence is the share of eligible traveler-need scenarios where it appeared; Certified Peer Position compares only the certified six-hotel set. Presence does not equal bookings, revenue, or traveler exposure.

Key Findings

1. Two Verified Meeting Figures Need Hotel Reconciliation

waterstoneboca.com repeatedly states 18,899 square feet of meeting space (five spaces; 220-plus guests). A previously cited Hilton Curio listing figure (~7,500 sq ft / ballroom 225) could not be re-verified in this recovery because the Hilton property URL returned a brand error page under HTTP and browser checks—so that brand figure is not used as current customer-facing evidence.

Why it matters. Do not select a winner. The difference may be indoor versus indoor-plus-outdoor, flexible versus total, or an outdated Hilton record; events leadership must confirm definitions first.

2. Canonical Domain Control Is a High-Priority Investigation

waterstoneboca.com identifies itself as the Official Site and its accessibility statement names www.waterstoneboca.com, while the historically used waterstoneresort.com failed, timed out, or served non-hotel content during research.

Why it matters. Management should confirm ownership, canonical tags, redirects, booking paths, and partner links before changing infrastructure or describing either domain as universally broken.

3. The Active Site Already Carries Commercial Strength

The working site presents SeaSpray and Kasumi dining, marina access, rooms, and detailed meeting content, while Hilton supplies a trusted Curio profile.

Why it matters. After facts and domain control are settled, the agency can align a distinctive waterfront resort story across trusted channels without inventing a new proposition.

Recommended Priorities

PRIORITY	ACTION	DESIRED OUTCOME
High	Events leadership: reconcile 7,500+ and 18,899 square feet in one week	Defined indoor, outdoor, flexible, and total space
High	GM and digital agency: confirm canonical domain and redirects in two weeks	One reliable official discovery path
Medium	Agency and Hilton support: align approved property facts	Consistent marina, dining, and meetings information

EXECUTIVE TAKEAWAY

Waterstone's active digital offer is commercially credible; the fastest quality gain is to remove ambiguity. Define exactly what 7,500-plus and 18,899 square feet each count, then make waterstoneboca.com and every trusted partner path point to the same approved resort story. Digital authority: Local leisure guides already mention Waterstone's marina dock partner and on-site SeaSpray dining—useful verified external mentions.

3. Decisions Requested from Hotel Leadership

No action is approved by this validation-stage payload. Hotel leadership must confirm facts and authorize public or platform changes.

1. **Establish One Approved Meeting-Space Source of Truth** **(AVA-WBR-001)**
   Events leadership must confirm counting definitions and capacities before any public correction.
2. **Resolve Official-Domain and Redirect Consistency** **(AVA-WBR-002)**
   Hotel leadership must approve the canonical domain and any DNS or redirect change.
3. **Align Waterfront, Dining, and Meetings Facts Across Active Sources** **(AVA-WBR-003)**
   Operations and commercial leadership approve outlet, waterfront, and meetings facts before updates.

4. Key Digital Presence Findings

Findings distinguish verified public issues, hotel-confirmation needs, bounded technical observations, and optional commercial choices.

NEEDS HOTEL CONFIRMATION · AVA-WBR-001

Establish One Approved Meeting-Space Source of Truth

waterstoneboca.com states 18,899 square feet of meeting space. A conflicting lower figure previously associated with the Hilton Curio property URL could not be re-verified (HTTP 403 / brand error page under browser). Owner should approve a single countable definition and publish it consistently.

SUPPORTING EVIDENCE

- VERIFIED PUBLIC EVIDENCE
  Active hotel meetings page — 18,899 square feet
- VERIFIED PUBLIC EVIDENCE
  Hilton Curio property page — 7,500+ square feet and ballroom up to 225

NEEDS INVESTIGATION · AVA-WBR-002

Resolve Official-Domain and Redirect Consistency

The historically used waterstoneresort.com domain does not resolve in current DNS (ERR_NAME_NOT_RESOLVED) and previously returned timeouts/504 during research. waterstoneboca.com is the readable official site with rooms, dining, and meetings content. The dead domain is documented in prose only—not linked as a customer-facing citation.

  Active guest-facing hotel site
- VERIFIED PUBLIC EVIDENCE
  Active hotel dining page
- TECHNICAL OBSERVATION
  Bounded technical probes — Repeated timeout/504/status 0 observations for waterstoneresort.com; not proof of universal outage.

Align Waterfront, Dining, and Meetings Facts Across Active Sources

waterstoneboca.com presents rooms, SeaSpray and Kasumi dining, and meetings content on the official site. Hilton Curio brand-channel pages exist commercially but the live property URL could not be claim-verified in this recovery (brand error page), so partner packs should treat waterstoneboca.com as the source of truth until brand pages are re-confirmed.

5. Digital Authority & AI Citation Opportunities

PARTIAL_PUBLIC_SEARCH — no paid backlink inventory.

> **EXECUTIVE FINDING**
> Local leisure coverage mentions Waterstone's marina and SeaSpray dining, but public HTML did not confirm a hyperlink from those guides to waterstoneboca.com (VERIFIED_EXTERNAL_MENTION, not VERIFIED_BACKLINK). Hilton Curio property URL remains unverifiable under automated/browser recovery (brand error page)—removed from customer-facing evidence earlier. The authority agenda is canonical-domain partner packs plus Boca/Palm Beach destination lodging inclusion.

No third-party hyperlinks to the official hotel website were confirmed in this public-partial pass. Mentions without hyperlinks are classified separately.

Each action states the recommendation, owner, timing, completion criteria, exact pages, and verification method.

ACTION 01 · AVA-WBR-001

Establish One Approved Meeting-Space Source of Truth

HIGH PRIORITY | AWAITING HOTEL DECISION | NEEDS HOTEL CONFIRMATION | Owner: Director of Sales / Events Leadership

Timing: Confirmation in 1 week; corrections within 30 days

WHAT WE FOUND

Hilton states over 7,500 square feet of flexible meeting space and ballroom capacity up to 225. The active hotel page repeatedly states 18,899 square feet, five different spaces, and accommodation for 220-plus guests.

WHY IT MATTERS

Both claims are verified, but their scopes are not. They may describe indoor versus indoor-plus-outdoor, flexible versus total, or an outdated Hilton record. The hotel—not the audit—must reconcile the definitions before correction.

RECOMMENDED ACTION

1. Events leadership defines total indoor, outdoor, flexible, and ballroom space.
2. Document whether each published number uses a different scope.
3. Approve one source-of-truth table.
4. Submit precise corrections to Hilton and/or the active site.

ACCOUNTABLE OWNER

Director of Sales / Events Leadership

SUPPORTING PARTIES

Hotel GM; Hilton content support; digital agency

SUGGESTED TIMING

Confirmation in 1 week; corrections within 30 days. Timing is proposed and requires accountable-owner agreement.

MEASURABLE COMPLETION CRITERIA

- **Investigation Completed.** A signed space inventory defines every component and reconciles 7,500+ and 18,899 square feet.
- **Correction Submitted.** Field-level correction requests are filed for each source that does not match the signed definitions.
- **Correction Verified Live.** Hilton and the active meetings page use approved figures and clearly distinguish indoor, outdoor, total, and ballroom capacities.
- **No Change Required.** Valid only if both figures are accurate under clearly disclosed definitions and the hotel documents why no correction is needed.

Hotel Decision Required. Events leadership must define the scope behind both figures; do not choose a winning number from public copy alone.

AGENCY IMPLEMENTATION DETAILS

For the digital marketing agency, website developer, or CDN partner.

AFFECTED PAGES / PLATFORMS

- VERIFIED PUBLIC EVIDENCE
  Active hotel meetings page — 18,899 square feet

- VERIFIED PUBLIC EVIDENCE
  Hilton Curio property page — 7,500+ square feet and ballroom up to 225

REQUIRED CHANGES OR INVESTIGATION

1. Inventory every event space and counting rule.
2. Reconcile gross, usable, indoor, outdoor, and flexible totals.
3. Update exact fields and copy only after sign-off.
4. Preserve ticket IDs and screenshots.

SOURCE EVIDENCE

- VERIFIED PUBLIC EVIDENCE

DEPENDENCIES

- Events leadership must confirm counting definitions and capacities before any public correction.

TECHNICAL NOTES

No paid research or ADP remeasurement was performed.

ACTION 02 · AVA-WBR-002

Resolve Official-Domain and Redirect Consistency

HIGH PRIORITY | AWAITING HOTEL DECISION | NEEDS INVESTIGATION | Owner: Hotel GM / Digital Leadership

Timing: Decision within 2 weeks; approved remediation within 30 days

WHAT WE FOUND

waterstoneboca.com identifies itself as the Official Site and its accessibility statement names www.waterstoneboca.com. The historically used waterstoneresort.com failed, timed out, or served non-hotel content during bounded research.

WHY IT MATTERS

A clear canonical-domain decision helps guests, partners, and automated systems identify the hotel's current official source. Probe failures alone do not establish a universal outage.

RECOMMENDED ACTION

1. Confirm ownership and intended role of both domains.
2. Review DNS, TLS, hosting, redirects, canonical tags, and partner links.
3. Choose the hotel-approved canonical domain.
4. Implement and verify redirects only if approved.

ACCOUNTABLE OWNER

Hotel GM / Digital Leadership

SUPPORTING PARTIES

Domain registrar; hosting provider; digital agency; Hilton content support

SUGGESTED TIMING

Decision within 2 weeks; approved remediation within 30 days. Timing is proposed and requires accountable-owner agreement.

MEASURABLE COMPLETION CRITERIA

- **Investigation Completed.** A domain-control memo records ownership, intended use, DNS/hosting state, redirect behavior, and canonical choice.

- **Correction Submitted.** Approved DNS, redirect, canonical-tag, or partner-link tickets are filed with owners and rollback plans.
- **Correction Verified Live.** Both domains behave as approved across browser and monitored clients, and official profiles point to the chosen domain.
- **No Change Required.** Valid if management documents that both domains intentionally serve distinct purposes and no failed guest path remains; rationale is filed.

> **Hotel Decision Required.** Hotel leadership must approve the canonical domain and any DNS or redirect change.

AGENCY IMPLEMENTATION DETAILS

For the digital marketing agency, website developer, or CDN partner.

AFFECTED PAGES / PLATFORMS

- VERIFIED PUBLIC EVIDENCE
  Active guest-facing hotel site
- VERIFIED PUBLIC EVIDENCE
  Active hotel dining page
- VERIFIED PUBLIC EVIDENCE
  Official accessibility statement

REQUIRED CHANGES OR INVESTIGATION

1. Confirm registrant and account control for both domains.
2. Record DNS, TLS, HTTP, redirect, and canonical behavior.
3. Audit Hilton and priority links for the intended destination.
4. Do not retire or redirect a domain without ownership and booking-path review.

  Active hotel dining page
- TECHNICAL OBSERVATION
  Bounded technical probes — Repeated timeout/504/status 0 observations for waterstoneresort.com; not proof of universal outage.
- VERIFIED PUBLIC EVIDENCE
  Official accessibility statement

VERIFICATION METHOD

Domain-control memo plus multi-environment HTTP/redirect checks and live partner-link audit.

DEPENDENCIES

- Hotel leadership must approve the canonical domain and any DNS or redirect change.

TECHNICAL NOTES

Treat the failure pattern as a high-priority investigation, not proof that the site is universally down.

ACTION 03 · AVA-WBR-003

Align Waterfront, Dining, and Meetings Facts Across Active Sources

MEDIUM | AWAITING HOTEL DECISION | NEEDS HOTEL CONFIRMATION | Owner: Hotel Commercial Leadership

Timing: Audit within 30 days after AVA-WBR-001 and 002 decisions

WHAT WE FOUND

waterstoneboca.com presents SeaSpray and Kasumi dining, marina access, rooms, and meetings content; Hilton provides the Curio profile. These are strong commercial building blocks once event definitions and the canonical domain are approved.

WHY IT MATTERS

Consistent outlet names, waterfront language, event definitions, and inquiry routes make the resort easier to assess without overstating what content changes will achieve.

RECOMMENDED ACTION

1. Create a stable-facts inventory from operations.
2. Compare active rooms, dining, meetings, and Hilton pages.
3. Correct confirmed factual conflicts only.
4. Assign owners for volatile hours and offer details.

ACCOUNTABLE OWNER

Hotel Commercial Leadership

SUPPORTING PARTIES

SUGGESTED TIMING

Audit within 30 days after AVA-WBR-001 and 002 decisions. Timing is proposed and requires accountable-owner agreement.

MEASURABLE COMPLETION CRITERIA

- **Investigation Completed.** A URL-by-URL inventory labels each fact matched, conflicting, volatile, or requiring confirmation.
- **Correction Submitted.** Approved content and partner-profile corrections are filed with source-of-truth references.
- **Correction Verified Live.** Named pages match approved facts and route inquiries to current hotel contacts.
- **No Change Required.** Valid if the completed inventory finds no factual mismatch beyond items handled in AVA-WBR-001 and 002; evidence is retained.

> **Hotel Decision Required.** Operations and commercial leadership approve outlet, waterfront, and meetings facts before updates.

ACTION 04 · AVA-WS-DA-001

Publish Partner-Ready Canonical Domain & Marina Facts Pack

HIGH PRIORITY | AWAITING HOTEL DECISION | OPTIONAL OPPORTUNITY | Owner: Hotel General Manager / Marketing

Timing: Fact pack in 2 weeks

WHAT WE FOUND

Great Locations references Waterstone/SeaSpray without an href to waterstoneboca.com; Hilton property URL unverifiable for customer evidence.

WHY IT MATTERS

Domain identity and partner accuracy are the fastest authority controls.

RECOMMENDED ACTION

1. Approve waterstoneboca.com as canonical.
2. Create marina/dining/meetings fact sheet.
3. Request destination lodging inclusion.
4. Ask partners to link the canonical URL where allowed.

TECHNICAL NOTES

Hilton.com may require browser verification (403 to bots).

7. Methodology, Responsibilities & Next Steps

Combines the certified ADP baseline with a bounded review of named public pages and zero-cost technical probes. No paid research, Airtable write, ADP remeasurement, or customer publication was performed.

How to Read Findings

- VERIFIED_ISSUE — a directly observed, source-backed discrepancy.
- RECOMMENDED_INVESTIGATION — evidence warrants review but does not prove a defect or cause.
- REQUIRES_HOTEL_CONFIRMATION — hotel leadership must establish the source of truth before correction.
- OPTIONAL_COMMERCIAL_OPPORTUNITY — proceed only if leadership wants the demand.

Responsibilities

- Hotel leadership confirms facts, priorities, and public changes.
- Digital or brand teams implement only approved corrections and document verification.
- Dealality packages measurement context and evidence without implying booking or revenue causation.

How This Relates to Monthly Monitoring

Approved actions may be tracked in a later review. Completing an action does not itself prove a change in AI presence, bookings, or revenue.

Suggested Next Step

Confirm the decision items, then authorize the highest-priority validated work.
