AI VISIBILITY AUDIT & ACTION PLAN

Wyndham Alltra Punta Cana

Uvero Alto, Punta Cana

INITIAL DIGITAL PRESENCE ASSESSMENT

NOVEMBER 2026

1. Executive Audit Summary

Correct the Name Error and Clarify the Uvero Alto Resort Offer

Wyndham Alltra Punta Cana recorded 3.4% AI Consideration and appeared in 13.6% of eligible scenarios, with a 68.2% weighted attribute Reality Gap. These results do not establish why the hotel was or was not mentioned. The first action is a verified accuracy correction: official overview body text contains “Wyndham Alltra Punta Cana.” After fixing the missing “t,” the hotel should consistently present its Uvero Alto Beach location, 620-room all-inclusive inventory, 20 dining and beverage venues, family facilities, spa terms, and three-venue meetings offer—without introducing out-of-scope Cap Cana Marina claims.

Performance Snapshot

AI CONSIDERATION	SCENARIO PRESENCE	REALITY GAP
3.4%	**13.6%**	**68.2%**
Mentioned in 8 of 236 comparable monitored AI answers	Present across 8 of 59 eligible traveler-need scenarios	Weighted attribute gap under RG_WEIGHTED_PARTIAL_V2 — not a booking metric

AI Consideration is the share of 236 comparable monitored answers mentioning the hotel; Scenario Presence is the share of 59 eligible scenarios where it appeared. Reality Gap is a weighted attribute-recognition diagnostic covering 33 tested attributes. None represents bookings, revenue, rank, or traveler exposure.

Key Findings

1. The Official Name Typo Is a Verified Issue

Overview body text uses “Wyndham Alltra Puna Cana,” omitting the “t” in Punta.

Why it matters. Brand and place-name accuracy should be consistent across official and syndicated content.

2. The Resort Offer Is Broad but Under-Recognized

Official content describes Uvero Alto Beach, 620 rooms, 20 restaurants/bars/snack venues, a kids pirate-ship pool, spa services with extra charges, and three event venues.

Why it matters. These facts merit clear presentation, but the audit does not claim missing recognition caused low consideration.

3. Geography Must Stay Disciplined

The hotel is in Uvero Alto; Cap Cana Marina scenarios were out of scope in the integrity review.

Why it matters. Content should reinforce the correct location and correct partner confusion if found, not add Cap Cana Marina language as a visibility tactic.

Recommended Priorities

PRIORITY	ACTION	DESIRED OUTCOME
High	Wyndham content: correct “Puna Cana” everywhere	Consistent official brand and place name
High	Commercial team: approve one Uvero Alto resort fact set	Clear all-inclusive, family, spa, and meetings context
Medium	Distribution team: audit partner geography	No unsupported Cap Cana Marina association
Medium	Revenue and reservations: preserve clear award and extra-guest terms	Accurate maintained FAQ disclosures

EXECUTIVE TAKEAWAY

The hotel has substantial verified inventory and facilities. The practical task is to correct the official name error, organize those strengths around the true Uvero Alto location, prevent geography drift, and maintain transparent fee and award disclosures. Future movement should be measured without promising rankings, bookings, or revenue. Digital authority: Destination authority requires geographic accuracy first.

ACTION 03 · AVA-WAPC-003

Audit Partner Listings for Geography Drift

MEDIUM | NOT STARTED | NEEDS INVESTIGATION | Owner: Distribution / Revenue Leadership

Timing: Priority-channel audit within 30 days

WHAT WE FOUND

The official property is positioned in Uvero Alto. The audit has not verified a live partner error, so any Cap Cana Marina correction must follow evidence from a listing audit.

WHY IT MATTERS

Incorrect geography can mislead guests and planners; adding Cap Cana Marina language as a visibility tactic would create rather than solve an accuracy problem.

RECOMMENDED ACTION

1. Approve canonical Uvero Alto and Punta Cana geography language.
2. Audit priority partner listings and sales collateral for Cap Cana Marina associations.
3. Correct only verified mismatches with source evidence.
4. Record no-change results for channels already accurate.

7. Methodology, Responsibilities & Next Steps

Combines the certified ADP baseline with a bounded review of named public pages and zero-cost technical probes. No paid research, ADP remeasurement, production write, or customer publication was performed.

How to Read Findings

- VERIFIED_ISSUE — a directly observed, source-backed discrepancy.
- RECOMMENDED_INVESTIGATION — evidence warrants review but does not prove a defect or cause.
- REQUIRES_HOTEL_CONFIRMATION — leadership must establish the source of truth before correction.
- OPTIONAL_COMMERCIAL_OPPORTUNITY — proceed only if leadership wants the demand.

Responsibilities

- Hotel leadership confirms facts, priorities, and public changes.
- Digital, brand, and partner teams implement only approved corrections and document verification.
- Dealality packages measurement context and evidence without implying ranking, booking, or revenue causation.

How This Relates to Monthly Monitoring

Approved actions may be tracked later. Completing an action does not itself prove a change in AI presence, bookings, or revenue.

Suggested Next Step

Correct the verified hotel-name typo, then approve the resort fact set and geography standard.
