AI VISIBILITY AUDIT & ACTION PLAN

Wyndham San Diego Bayside

San Diego, California

INITIAL DIGITAL PRESENCE ASSESSMENT

NOVEMBER 2026

1. Executive Audit Summary

Fix Core Meeting Facts Before Treating the Peer Lead as Progress

Wyndham San Diego Bayside ranks first in its five-hotel Wyndham Rewards set, but 13.6% consideration and 34.8% scenario presence show a substantial absolute visibility gap. Management should treat the rank as relative context—not proof of strong visibility—and first repair the official meeting and operating facts that planners and automated systems rely on.

Performance Snapshot

AI CONSIDERATION	SCENARIO PRESENCE	CERTIFIED PEER POSITION
13.6%	**34.8%**	**#1 of 5**
Share of comparable monitored AI answers that mentioned the hotel	Eligible traveler-need scenarios where the hotel appeared	Highest presence among 5 certified Wyndham Rewards peers

AI Consideration is the share of comparable monitored answers mentioning the hotel; Scenario Presence is the share of eligible traveler-need scenarios where it appeared; Certified Peer Position compares only the certified five-hotel set. Presence does not equal bookings, revenue, or traveler exposure.

Key Findings

1. Visible and Machine-Readable Facts Conflict

The homepage shows blank meeting-stat placeholders, and two Hotel JSON-LD blocks publish opposing check-in/check-out pairs: 11:00/16:00 versus 15:00/11:00.

Why it matters. These are verified official-page defects. One hotel-approved operating fact set should replace blanks and conflicts before broader visibility work, because planners and automated systems need consistent basics.

2. The Meetings Page Supplies the Repair Standard

The official meetings page states 27,000 square feet and names rooms including the 10,384-square-foot Pacific Ballroom, giving the agency a concrete basis for reconciliation.

Why it matters. The task is not to invent a meetings proposition. It is to align homepage modules, structured data, room facts, and inquiry paths to a signed sales inventory.

3. Technical and Competitive Signals Remain Investigations

A Node probe received Cloudflare 403 responses while browser access worked, and ADP observed Hotel del Coronado displacement without establishing why.

Why it matters. Neither signal proves an outage, crawler block, or content cause. Bounded, documented partner review should precede any security change or public competitive positioning claim.

Recommended Priorities

PRIORITY	ACTION	DESIRED OUTCOME
High	GM and agency: repair homepage facts and Hotel schema in 2–3 weeks	One accurate operating and meeting fact set
High	Sales and agency: reconcile named rooms and capacities within 30 days	Planner-ready official meeting information
Medium	Agency and security partner: investigate Cloudflare behavior	Documented intended-crawler access decision
Medium	Commercial team: review displaced scenarios and factual distinctions	Defensible San Diego positioning brief

EXECUTIVE TAKEAWAY

Wyndham San Diego Bayside's peer lead is useful context, but the business opportunity is to raise low absolute consideration from a cleaner foundation: accurate operating facts, complete meeting statistics, and a consistent 27,000-square-foot planner story.

2. Action Overview

4 hotel-specific actions at a glance; detailed evidence and agency steps follow.

PRIORITY	ACTION & BUSINESS RELEVANCE	ACCOUNTABLE OWNER	SUGGESTED TIMING
HIGH	**AVA-WSB-001** Fix Homepage Meeting Statistics and Conflicting Hotel Schema Guests, planners, and automated systems should receive one approved set of basic facts. Correcting the conflict protects information accuracy; it does not guarantee more AI mentions or bookings.	Hotel GM / Commercial Leadership	Fact sign-off in 1 week; correction within 2–3 weeks
HIGH	**AVA-WSB-002** Align Meetings Facts Across the Homepage and Meetings Page A planner should not need to reconcile different official presentations. One approved meetings fact set supports sales credibility without implying that content changes will create demand.	Director of Sales / Meetings Leadership	Fact reconciliation in 2 weeks; updates within 30 days
MEDIUM	**AVA-WSB-003** Investigate Cloudflare Access for Intended Crawlers The agency should establish whether intended search and AI crawlers receive official content before changing security rules. Investigation protects both accessibility and site security.	Digital Marketing Agency	Review within 2 weeks
MEDIUM	**AVA-WSB-004** Review Defensible Differentiation From Hotel del Coronado A focused review can clarify Wyndham's distinct downtown, bayside, transport, and meetings fit without attacking a different resort proposition or making unsupported superiority claims.	Hotel Commercial Leadership	Review within 30 days

3. Decisions Requested from Hotel Leadership

No action is approved by this validation-stage payload. Hotel leadership must confirm facts and authorize public or platform changes.

1. **Fix Homepage Meeting Statistics and Conflicting Hotel Schema** **(AVA-WSB-001)**
   Confirm every operational and meetings value before the agency edits visible copy or schema.
2. **Align Meetings Facts Across the Homepage and Meetings Page** **(AVA-WSB-002)**
   Meetings leadership must approve capacities, definitions, and sales contact routing.
3. **Investigate Cloudflare Access for Intended Crawlers** **(AVA-WSB-003)**
   Do not alter WAF or bot-management rules without hotel and security-partner approval.
4. **Review Defensible Differentiation From Hotel del Coronado** **(AVA-WSB-004)**
   Approve the competitive lens and every public distinction before publication.

4. Key Digital Presence Findings

Findings distinguish verified public issues, hotel-confirmation needs, bounded technical observations, and optional commercial choices.

VERIFIED PROBLEM · AVA-WSB-001

Fix Homepage Meeting Statistics and Conflicting Hotel Schema

Homepage meeting-stat labels appear without values. Two Hotel JSON-LD graphs conflict: one states check-in 11:00 and checkout 16:00; another states check-in 15:00 and checkout 11:00. Schema also states 27,000 square feet of meeting space.

SUPPORTING EVIDENCE

- VERIFIED PUBLIC EVIDENCE
  Official homepage — meeting placeholders and Hotel JSON-LD
- VERIFIED PUBLIC EVIDENCE
  Official meetings page

NEEDS HOTEL CONFIRMATION · AVA-WSB-002

Align Meetings Facts Across the Homepage and Meetings Page

The official meetings page contains meetings and weddings content, while the homepage leaves meeting-stat values blank and its schema states a 27,000-square-foot figure.

SUPPORTING EVIDENCE

- VERIFIED PUBLIC EVIDENCE
  Official meetings page
- VERIFIED PUBLIC EVIDENCE
  Official homepage

NEEDS INVESTIGATION · AVA-WSB-003

Investigate Cloudflare Access for Intended Crawlers

Automated Node requests to the homepage and robots target received Cloudflare 403 responses, while browser and WebFetch access succeeded. This is not proof of a public outage or universal crawler block.

SUPPORTING EVIDENCE

- VERIFIED PUBLIC EVIDENCE
  Official homepage
- COMPANY_PUBLISHED_OR_TECHNICAL_TARGET
  Official robots target
- TECHNICAL OBSERVATION
  Bounded Node probe — Cloudflare 403 observed; browser-based access worked.

NEEDS INVESTIGATION · AVA-WSB-004

Review Defensible Differentiation From Hotel del Coronado

The certified ADP brief notes Hotel del Coronado displacement. The observation does not prove a content defect, traveler preference, or causal competitive advantage.

SUPPORTING EVIDENCE

- INTERNAL_CERTIFIED
  Certified ADP baseline and action brief — Hotel del Coronado displacement observation; cause not established.

5. Prioritized Action Plan

Each action states the recommendation, owner, timing, completion criteria, exact pages, and verification method.

ACTION 01 · AVA-WSB-001

Fix Homepage Meeting Statistics and Conflicting Hotel Schema

HIGH PRIORITY | AWAITING HOTEL DECISION | VERIFIED PROBLEM | Owner: Hotel GM / Commercial Leadership

Timing: Fact sign-off in 1 week; correction within 2–3 weeks

WHAT WE FOUND

The homepage leaves meeting-stat values blank. Two Hotel JSON-LD graphs conflict—check-in 11:00/check-out 16:00 versus check-in 15:00/check-out 11:00—while official meetings content states 27,000 square feet.

WHY IT MATTERS

Guests, planners, and automated systems should receive one approved set of basic facts. Correcting the conflict protects information accuracy; it does not guarantee more AI mentions or bookings.

RECOMMENDED ACTION

1. Hotel signs off on check-in, checkout, meeting-space total, maximum capacity, and room count.
2. Agency populates or removes empty homepage statistic modules.
3. Developer consolidates conflicting Hotel JSON-LD values.
4. Archive before-and-after page and schema evidence.

ACCOUNTABLE OWNER

Hotel GM / Commercial Leadership

SUPPORTING PARTIES

Digital marketing agency; website developer; meetings sales

SUGGESTED TIMING

Fact sign-off in 1 week; correction within 2–3 weeks. Timing is proposed and requires accountable-owner agreement.

MEASURABLE COMPLETION CRITERIA

- **Investigation Completed.** Signed source-of-truth sheet records operational times and all homepage meeting statistics.
- **Correction Submitted.** CMS and JSON-LD change ticket is submitted with the signed values and named homepage components.
- **Correction Verified Live.** Homepage values are visible and all Hotel schema graphs show the same approved check-in, checkout, and meeting facts.

- **No Change Required.** Valid only if the hotel documents that a labeled statistic should intentionally remain unpublished and the empty module is removed; conflicting schema times still require resolution.

Hotel Decision Required. Confirm every operational and meetings value before the agency edits visible copy or schema.

AGENCY IMPLEMENTATION DETAILS

For the digital marketing agency, website developer, or CDN partner.

AFFECTED PAGES / PLATFORMS

- VERIFIED PUBLIC EVIDENCE
  Official homepage — meeting placeholders and Hotel JSON-LD
- VERIFIED PUBLIC EVIDENCE
  Official meetings page

REQUIRED CHANGES OR INVESTIGATION

1. Inspect every Hotel JSON-LD node on the homepage.
2. Replace conflicting check-in/check-out values with hotel-approved times.
3. Populate meeting-stat cards from the signed sheet or remove empty components.
4. Confirm whether 27,000 square feet is the approved total before retaining it.

SOURCE EVIDENCE

- VERIFIED PUBLIC EVIDENCE
  Official homepage — meeting placeholders and Hotel JSON-LD
- VERIFIED PUBLIC EVIDENCE
  Official meetings page

VERIFICATION METHOD

Visual homepage QA plus view-source/schema validation against the signed fact sheet; retain screenshots and JSON-LD export.

DEPENDENCIES

- Confirm every operational and meetings value before the agency edits visible copy or schema.

TECHNICAL NOTES

No paid research or ADP remeasurement was performed.

ACTION 02 · AVA-WSB-002

Align Meetings Facts Across the Homepage and Meetings Page

HIGH PRIORITY | AWAITING HOTEL DECISION | NEEDS HOTEL CONFIRMATION | Owner: Director of Sales / Meetings Leadership

Timing: Fact reconciliation in 2 weeks; updates within 30 days

WHAT WE FOUND

The meetings page states 27,000 square feet and names rooms including the 10,384-square-foot Pacific Ballroom, while homepage meeting-stat values remain blank.

WHY IT MATTERS

A planner should not need to reconcile different official presentations. One approved meetings fact set supports sales credibility without implying that content changes will create demand.

RECOMMENDED ACTION

1. Meetings sales signs a room-by-room inventory covering total space, named rooms, capacities, and counting definitions.
2. Agency aligns the homepage, meetings page, and Hotel schema to that inventory.
3. Retain the 27,000-square-foot total only if the signed inventory confirms its scope.

4. Test meeting and wedding inquiry paths and archive live evidence.

ACCOUNTABLE OWNER

Director of Sales / Meetings Leadership

SUPPORTING PARTIES

Digital marketing agency; website developer

SUGGESTED TIMING

Fact reconciliation in 2 weeks; updates within 30 days. Timing is proposed and requires accountable-owner agreement.

MEASURABLE COMPLETION CRITERIA

- **Investigation Completed.** A page-by-page comparison against the signed meetings fact sheet is complete.
- **Correction Submitted.** Approved homepage, meetings-page, and schema edits are included in one tracked agency ticket.
- **Correction Verified Live.** Named official pages and schema use the same definitions and approved values; inquiry links work.
- **No Change Required.** Valid if the signed comparison shows the meetings page is already accurate and no duplicated fact needs editing; rationale and screenshots are filed.

> **Hotel Decision Required.** Meetings leadership must approve capacities, definitions, and sales contact routing.

AGENCY IMPLEMENTATION DETAILS

For the digital marketing agency, website developer, or CDN partner.

AFFECTED PAGES / PLATFORMS

- VERIFIED PUBLIC EVIDENCE
  Official meetings page
- VERIFIED PUBLIC EVIDENCE
  Official homepage

REQUIRED CHANGES OR INVESTIGATION

1. Create a meetings source-of-truth table.
2. Diff visible copy, statistic modules, and JSON-LD.
3. Correct only hotel-approved factual differences.
4. Test meeting and wedding inquiry paths.

SOURCE EVIDENCE

- VERIFIED PUBLIC EVIDENCE
  Official meetings page
- VERIFIED PUBLIC EVIDENCE
  Official homepage

VERIFICATION METHOD

Signed fact table, tracked change ticket, live-page comparison, and inquiry-link test.

DEPENDENCIES

- Meetings leadership must approve capacities, definitions, and sales contact routing.

TECHNICAL NOTES

No paid research or ADP remeasurement was performed.

ACTION 03 · AVA-WSB-003

Investigate Cloudflare Access for Intended Crawlers

MEDIUM | AWAITING HOTEL DECISION | NEEDS INVESTIGATION | Owner: Digital Marketing Agency | Timing: Review within 2 weeks

WHAT WE FOUND

Automated Node requests to the homepage and robots target received Cloudflare 403 responses, while browser and WebFetch access succeeded. This is not proof of a public outage or universal crawler block.

WHY IT MATTERS

The agency should establish whether intended search and AI crawlers receive official content before changing security rules. Investigation protects both accessibility and site security.

RECOMMENDED ACTION

1. Open a Cloudflare review with timestamps and user agents.
2. Confirm the intended robots policy from an approved environment.
3. Compare WAF behavior for intended crawlers and ordinary automation.
4. Retest after any hotel-approved rule change.

ACCOUNTABLE OWNER

Digital Marketing Agency

SUPPORTING PARTIES

Cloudflare/security partner; hotel IT

SUGGESTED TIMING

Review within 2 weeks. Timing is proposed and requires accountable-owner agreement.

MEASURABLE COMPLETION CRITERIA

- **Investigation Completed.** A reproducible access matrix documents client, region, URL, status, and expected policy.
- **Correction Submitted.** If a mismatch is confirmed, a hotel-approved Cloudflare ticket identifies the narrow rule adjustment.
- **Correction Verified Live.** Agreed clients successfully retest named URLs, or expected denials are documented with rationale.
- **No Change Required.** Valid if the security partner confirms intended crawlers are served and the Node result is environment-specific; decision memo is filed.

> **Hotel Decision Required.** Do not alter WAF or bot-management rules without hotel and security-partner approval.

AGENCY IMPLEMENTATION DETAILS

For the digital marketing agency, website developer, or CDN partner.

AFFECTED PAGES / PLATFORMS

- VERIFIED PUBLIC EVIDENCE
  Official homepage
- COMPANY_PUBLISHED_OR_TECHNICAL_TARGET
  Official robots target

REQUIRED CHANGES OR INVESTIGATION

1. Reproduce GETs from approved clients.
2. Inspect Cloudflare event logs for the probe window.
3. Compare observed treatment with intended crawler policy.
4. Prefer a narrow rule change only if a mismatch is confirmed.

SOURCE EVIDENCE

- VERIFIED PUBLIC EVIDENCE
  Official homepage
- COMPANY_PUBLISHED_OR_TECHNICAL_TARGET
  Official robots target
- TECHNICAL OBSERVATION
  Bounded Node probe — Cloudflare 403 observed; browser-based access worked.

VERIFICATION METHOD

Security-partner ticket plus before-and-after access matrix from agreed test clients.

DEPENDENCIES

- Do not alter WAF or bot-management rules without hotel and security-partner approval.

TECHNICAL NOTES

The 403 is an investigation signal, not a requirement to change CDN or security configuration.

ACTION 04 · AVA-WSB-004

Review Defensible Differentiation From Hotel del Coronado

MEDIUM | AWAITING HOTEL DECISION | NEEDS INVESTIGATION | Owner: Hotel Commercial Leadership

Timing: Review within 30 days

WHAT WE FOUND

The certified ADP brief notes Hotel del Coronado displacement. The observation does not prove a content defect, traveler preference, or causal competitive advantage.

WHY IT MATTERS

A focused review can clarify Wyndham's distinct downtown, bayside, transport, and meetings fit without attacking a different resort proposition or making unsupported superiority claims.

RECOMMENDED ACTION

1. Review only the displaced ADP scenarios.
2. Compare verified official propositions and target occasions.
3. Select two or three factual Wyndham distinctions.
4. Approve any resulting content brief before publication.

ACCOUNTABLE OWNER

Hotel Commercial Leadership

SUPPORTING PARTIES

Revenue strategy; sales; digital agency

SUGGESTED TIMING

Review within 30 days. Timing is proposed and requires accountable-owner agreement.

MEASURABLE COMPLETION CRITERIA

- **Investigation Completed.** A scenario-level worksheet separates verified differences, hypotheses, and unknowns.
- **Correction Submitted.** Any approved positioning edits are submitted with sources and hotel sign-off.
- **Correction Verified Live.** Published distinctions match approved facts and contain no unsupported comparative claim.
- **No Change Required.** Valid if leadership concludes current positioning is appropriate or the displaced scenarios are not commercially relevant; rationale is filed.

Hotel Decision Required. Approve the competitive lens and every public distinction before publication.

AGENCY IMPLEMENTATION DETAILS

For the digital marketing agency, website developer, or CDN partner.

AFFECTED PAGES / PLATFORMS

- VERIFIED PUBLIC EVIDENCE
  Wyndham official homepage
- VERIFIED PUBLIC EVIDENCE
  Wyndham official meetings page
- VERIFIED PUBLIC EVIDENCE
  Hotel del Coronado official site

REQUIRED CHANGES OR INVESTIGATION

1. Review displaced scenarios only.
2. Compare audience, location, meetings, and stay occasion using official sources.
3. Avoid preference, quality, or performance claims.
4. Translate approved distinctions into a restrained brief.

SOURCE EVIDENCE

- INTERNAL_CERTIFIED
  Certified ADP baseline and action brief — Hotel del Coronado displacement observation; cause not established.
- VERIFIED PUBLIC EVIDENCE
  Wyndham official homepage
- VERIFIED PUBLIC EVIDENCE
  Wyndham official meetings page
- VERIFIED PUBLIC EVIDENCE
  Hotel del Coronado official site

VERIFICATION METHOD

Hotel-approved comparison worksheet with source URLs and final-copy review.

DEPENDENCIES

- Approve the competitive lens and every public distinction before publication.

TECHNICAL NOTES

No paid research or ADP remeasurement was performed.

6. Methodology, Responsibilities & Next Steps

Combines the certified ADP baseline with a bounded review of named public pages and zero-cost technical probes. No paid research, Airtable write, ADP remeasurement, or customer publication was performed.

How to Read Findings

- VERIFIED_ISSUE — a directly observed, source-backed discrepancy.
- RECOMMENDED_INVESTIGATION — evidence warrants review but does not prove a defect or cause.
- REQUIRES_HOTEL_CONFIRMATION — hotel leadership must establish the source of truth before correction.
- OPTIONAL_COMMERCIAL_OPPORTUNITY — proceed only if leadership wants the demand.

Responsibilities

- Hotel leadership confirms facts, priorities, and public changes.
- Digital or brand teams implement only approved corrections and document verification.
- Dealality packages measurement context and evidence without implying booking or revenue causation.

How This Relates to Monthly Monitoring

Approved actions may be tracked in a later review. Completing an action does not itself prove a change in AI presence, bookings, or revenue.

Suggested Next Step

Confirm the decision items, then authorize the highest-priority validated work.
