AI VISIBILITY AUDIT & ACTION PLAN

voco Cancún Zona Hotelera

Cancún, Quintana Roo

INITIAL DIGITAL PRESENCE ASSESSMENT

NOVEMBER 2026

1. Executive Audit Summary

Establish Clear Location and Meetings Signals Without Assuming Cause

voco Cancún Zona Hotelera recorded 0.4% AI Consideration and appeared in 1.6% of eligible scenarios, with an 85.2% weighted attribute Reality Gap. These results show very low absolute presence but do not prove a website defect or explain the cause. The hotel should first correct the verified mixed-language room headings on the English page, then organize approved location, meetings, dining, pool, and pet-policy facts so buyers can understand the offer. IHG should separately review the bounded 403 responses without weakening security.

Performance Snapshot

AI CONSIDERATION	SCENARIO PRESENCE	REALITY GAP
0.4%	**1.6%**	**85.2%**
Mentioned in 1 of 252 comparable monitored AI answers	Present across 1 of 63 eligible traveler-need scenarios	Weighted attribute gap under RG_WEIGHTED_PARTIAL_V2 — not a booking metric

AI Consideration is the share of 252 comparable monitored answers mentioning the hotel; Scenario Presence is the share of 63 eligible scenarios where it appeared. Reality Gap is a weighted attribute-recognition diagnostic covering 27 tested attributes. None represents bookings, revenue, rank, or traveler exposure.

Key Findings

1. Low Presence Is a Measurement Signal, Not a Diagnosis

The hotel appeared in only one comparable answer and one eligible scenario.
Why it matters. The result supports disciplined content and access review, but no causal website defect should be invented.

2. English Room Content Has Mixed-Language Headings

The English hotel page displays Spanish room-category phrases including “Ultimos pisos” and “Habitaciones modernas...”.
Why it matters. This is a directly observed content-hygiene issue that can interrupt buyer comprehension and should be corrected through IHG content controls.

3. Location and Meetings Facts Need a Buyer-Ready Structure

Official content describes a position across from Playa Langosta, access to the Isla Mujeres ferry and Cancún demand anchors, plus three meeting rooms with the combined Mexico room accommodating up to 300.
Why it matters. Accurate, maintained facts can improve decision context without promising visibility or booking gains.

Recommended Priorities

PRIORITY	ACTION	DESIRED OUTCOME
High	IHG content: correct mixed-language room headings	Consistent English presentation
High	Commercial team: approve location and meetings fact set	Clear Playa Langosta and three-room proposition
Medium	Operations and marketing: align dining, pool, and pet facts	Accurate amenity and fee presentation
Medium	IHG digital: review bounded WAF/bot responses	Documented security-aligned access posture

EXECUTIVE TAKEAWAY

The hotel’s low measured presence warrants careful prioritization, not a causal claim. Correct the verified language issue, approve one buyer-ready fact set, preserve accurate operating details, and investigate crawler access through IHG security governance. Measure later without promising rankings, bookings, or revenue. Digital authority: Destination inclusion matters more than inventing backlink volume.

2. Priority Findings & Opportunities

The most important verified corrections and opportunities for this hotel. Full research detail remains in the AVA record.

PRIORITY: HIGH · **PLATFORM:** OFFICIAL HOTEL PAGE

Issue: Official content places the hotel across from Playa Langosta and near the Isla Mujeres ferry, Puerto Cancún, La Isla, and the Convention Center; meetings content describes Ibiza at 126, Bora Bora at 150, and combined Mexico up to 300.

Why it matters: A signed fact set can improve buyer decision context, but the audit does not claim content caused the measured result or would change measured bookings.

Recommended action: Clarify Location and Meetings Facts

1. Sales and operations sign exact location relationships and travel wording.
2. Sign room-by-room areas and setup-qualified capacities.
3. Create concise location and meetings copy using only approved facts.
4. Align the hotel page, meetings page, sales collateral, and priority listings.
5. A signed brief records approved location and meeting facts.

Responsible party: Hotel Commercial Leadership

Evidence: Official hotel page

PRIORITY: MEDIUM · **PLATFORM:** OFFICIAL HOTEL PAGE

Issue: Room content on the English page includes “Ultimos pisos” and “Habitaciones modernas...” alongside English content.

Why it matters: Mixed-language headings can interrupt comprehension and create inconsistent reusable content for partners and automated systems.

Recommended action: Correct Mixed-Language Room Headings

1. Capture each mixed-language field and its intended room category.
2. Hotel and IHG approve accurate English replacements.
3. Submit field-level corrections through IHG content controls.
4. Verify desktop and mobile rendered English pages.
5. A field list maps each Spanish heading to approved English copy.

Responsible party: IHG Digital Content / Hotel Marketing

Evidence: Official hotel page

PRIORITY: MEDIUM · **PLATFORM:** OFFICIAL HOTEL PAGE

Issue: Official content identifies two on-site restaurants, Lobby and Pool bars, a lagoon-view pool, and a pet fee of 1,100 MXN.

Why it matters: Accurate descriptions help guests assess fit and total cost; the Reality Gap does not prove these facts are missing because of a website defect.

Recommended action: Align Dining, Pool, and Pet-Policy Signals

1. Operations signs current outlet names, service periods, pool description, and pet terms.
2. Audit official and priority partner pages against that fact sheet.
3. Submit only factual corrections or clarifications.
4. Retain live verification and an update owner.
5. Operations signs a current amenity and policy fact sheet.

Responsible party: Hotel Operations / Marketing

Evidence: Official hotel page

PRIORITY: MEDIUM · **PLATFORM:** TURISMO CANCÚN

Issue: An unintended policy mismatch could limit intended automated clients, but a single research environment does not establish a general outage.

Why it matters: An unintended policy mismatch could limit intended automated clients, but a single research environment does not establish a general outage.

Recommended action: Review IHG Automated-Access Posture

1. Open an IHG WAF/bot-management ticket with the exact request context.
2. Define intended crawler and partner access policy.
3. Approve only narrow security-safe changes if a conflict is confirmed.
4. Retest agreed endpoints from intended clients.
5. A technical note explains the 403 behavior and intended policy.

Responsible party: IHG Digital / WAF Security Owner

Evidence: Turismo Cancún

PRIORITY: MEDIUM · **PLATFORM:** TURISMO CANCÚN

Issue: Turismo Cancún is a credible destination authority; hotel-specific outbound IHG backlink was not confirmed in this public pass.

Why it matters: Leisure AI and planners often reuse destination inventories.

Recommended action: Pursue Turismo Cancún Lodging Profile With Official IHG URL

1. Finish EN page / room-label hygiene actions.
2. Contact Turismo Cancún lodging inventory owner.
3. Submit approved profile + IHG canonical URL.
4. Re-check live listing.
5. Opportunity owner and required facts confirmed with hotel leadership.

Responsible party: Hotel Commercial / IHG brand content

Evidence: Turismo Cancún

PRIORITY: MEDIUM · **PLATFORM:** OFFICIAL WEBSITE

Issue: Confirm that meetings, dining, and amenities facts on the official page match the hotel's approved source of truth; align third-party listings after confirmation.

Why it matters: Digital content readiness depends on one approved source of truth before third-party outreach.

Recommended action: Confirm and align official facts for voco Cancún Zona Hotelera

1. Establish one approved fact sheet; update the official page first; then cascade to GBP/OTAs when values are confirmed.
2. Do not change unconfirmed values on OTAs until the hotel approves the fact sheet.
3. Opportunity owner and required facts confirmed with hotel leadership.
4. Outreach or listing update request filed with supporting evidence.
5. Live destination/partner page checked and archived after update (or documented refusal).

Responsible party: Hotel Sales & Marketing

Evidence: Official website

3. Digital Platform Assessment

Exact verified listings where available. Rows distinguish corrections, content improvements, distribution opportunities, verified-consistent listings, partial assessments, and research follow-ups. Access restrictions are not treated as content defects.

Why it matters: Digital content readiness depends on one approved source of truth before third-party outreach.

Responsible party: Hotel Sales & Marketing

Evidence: View page

5. Digital Authority & Backlink Opportunities

Public research completed 5 searches and inspected 10 candidate pages without verifying additional property-specific third-party hyperlinks beyond prior known destination listings. Mentions without links remain classified separately.

UNLINKED MENTION

Source: Turismo Cancún

Observation: Destination authority surface; hotel-specific official-site backlink not confirmed in this pass.

Commercial relevance: This referring website already mentions voco Cancún Zona Hotelera; adding the correct official URL makes the reference actionable.

Recommended action: Contact Turismo Cancún to request a property-specific hyperlink to the hotel's approved official website where the publisher allows it.

Responsible party: Hotel Marketing / Partnerships

UNLINKED MENTION

Source: IHG's New voco Hotel in Cancún Is Taking Shape

Observation: Hotel mentioned in page text; no property-specific hyperlink confirmed.

Commercial relevance: This travel publication already mentions voco Cancún Zona Hotelera; adding the correct official URL makes the reference actionable.

Recommended action: Contact IHG's New voco Hotel in Cancún Is Taking Shape to request a property-specific hyperlink to the hotel's approved official website where the publisher allows it.

Responsible party: Hotel Marketing / Partnerships

Full referring-domain inventory is retained in AVA research records — not printed here. Directory presence is not counted as a backlink. Healthy existing backlinks are not listed as problems.

6. Implementation Roadmap

Same canonical actions as Priority Findings — execution view only. Escalate brand-controlled edits through the brand digital team when the hotel cannot edit the page directly.

7. Methodology & Limitations

Dealality AVA assesses the hotel's public digital presence. Listing existence and content assessment are tracked separately; Google Travel entities are not treated as Google Business Profile / Maps place listings. Assessment date: 2026-11-05. Readiness: see certification. ADP traveler-intent detail is limited to the Executive Audit Summary.
