Weighted gap (miss + 0.5×partial) — certified staged V2

COMPETITIVE POSITION
New York Marriott Marquis
Top displacement competitor · 27 scenarios where subject was absent

BRAND PORTFOLIO POSITION
35.7%
40 of 112 AI observations

PORTFOLIO RANK
#2 of 6
Among 6 relevant Hilton Honors hotels

Platform Executive Summary

BIGGEST STRENGTH

Often placed near the top when AI ranks hotels

Among AI answers where hotel ranking could be measured, Hilton New York Times Square appeared in the Top 3 100% of the time. This shows how prominently the hotel is positioned when AI includes it.

BIGGEST CONSTRAINT

Not appearing consistently in AI answers

The hotel appeared in at least one AI answer for 28.3% of the traveler needs we tested, but across all individual AI answers it appeared 10.4% of the time. In practical terms, AI recognizes the hotel as relevant for many types of trips, but a traveler will not consistently see it among the hotel options surfaced.

CHANGE SINCE LAST COMPARABLE RUN

No comparable prior official period yet

No comparable prior official monitoring period is available yet. This period can be evaluated on its own; change over time is not shown.

Executive Conclusion

Hilton New York Times Square's primary issue is entering AI consideration at all, especially for Celebrations & Events.

What the Data Is Telling Us

AI Consideration is 10.4%, so the hotel appears in only a limited share of individual comparable responses. When the hotel is absent, New York Marriott Marquis is a leading observed alternative in those gaps — an evidence lead for review, not an automatic proof of recurring substitution. Rank tactics have limited value until relevance improves. The primary constraint is becoming part of the answer set for the traveler needs the hotel currently misses. Softest Scenario Capture is Celebration at 0.0%. New York Marriott Marquis most often appears when the hotel is missing (27 scenarios).

Why It Matters

Fine-tuning rank against individual competitors will have limited value until the hotel becomes relevant in more of the traveler needs it currently misses. Entry problems and rank problems require different management attention. If leadership optimizes competitor comparisons first, the hotel can look busy while still missing the larger answer-set gap.

Where the Pattern Is Concentrated

Celebration is the softest Scenario Capture at 0.0%. Focus where the gap is concentrated rather than treating every territory equally. New York Marriott Marquis appears most often when the hotel is missing (27 scenarios) — use that pattern for source and fact checks, not as proof of cause. Reality Coverage is 15.4% (4 of 26 attributes). Start with gaps that matter operationally — beginning with City Views.

What Management Should Focus On Now

Focus first on how the hotel is represented for Celebrations & Events. Review whether the attributes, positioning, and use cases most relevant to those travelers are complete and consistently represented across priority sources. Treat competitor-rank tactics as secondary until entry improves.

What Not to Overreact To

No comparable prior official period is available — read these as current levels, not period-over-period change. Independent Positioning (#2 of 6; Portfolio AI Presence 35.7%) is peer-set context — keep it separate from Core demand metrics.

What to Review Next

Compare evidence from scenarios where New York Marriott Marquis appears with the property information currently available for Hilton New York Times Square. Check entry cues first — product type, occasion, and location framing — before broadening the review to secondary attributes.

2. Demand & Competitive Movement

Material Movement

No material movement rows in this period.

Demand Movement

> Celebration is the clearest softness at 0.0% Scenario Capture. These are current-period levels, not trend.

DEMAND TERRITORY	SCENARIO CAPTURE	CAPTURED	CAPTURE LEVEL	INTERPRETATION
Celebration	0.0%	0 of 5	Low Capture	Low scenario-capture rate for this traveler need. Treat as a priority inspection area (absolute level — not a period-over-period decline).
Couples / Romantic	14.3%	1 of 7	Low Capture	Low scenario-capture rate for this traveler need. Treat as a priority inspection area (absolute level — not a period-over-period decline).
Leisure Travel	25.0%	2 of 8	Low Capture	Low scenario-capture rate for this traveler need. Treat as a priority inspection area (absolute level — not a period-over-period decline).
Group / Meeting	25.0%	3 of 12	Low Capture	Low scenario-capture rate for this traveler need. Treat as a priority inspection area (absolute level — not a period-over-period decline).
Business Travel	30.0%	3 of 10	Low Capture	Low scenario-capture rate for this traveler need. Treat as a priority inspection area (absolute level — not a period-over-period decline).
Adventure	33.3%	1 of 3	Low Capture	Low scenario-capture rate for this traveler need. Treat as a priority inspection area (absolute level — not a period-over-period decline).

Metric = demandCapture.byIntent scenario capture (captured/total). Prior-run territory rates are not published as a comparable series in this edition.

Competitive Movement

Competitive context: 19 Core competitors identified · Competitor-present displacement 47/53 scenarios

> 19 Core competitors identified in the certified competitive set for this period. Competitors appeared in 47 of 53 monitored scenarios when measuring competitor-present displacement (observational co-appearance / absence patterns — not causation). New York Marriott Marquis is the most frequent alternative when Hilton New York Times Square is absent (27 scenarios). The Knickerbocker (22) and The Westin New York at Times Square (16) also appear often — displacement is spread across multiple local options. Counts show co-appearance patterns; they do not prove why displacement happens.

COMPETITOR	DISPLACEMENT COUNT
New York Marriott Marquis	27
The Knickerbocker	22
The Westin New York at Times Square	16
Baccarat Hotel New York	10
Hard Rock Hotel New York	9

Competitive movement describes co-appearance and absence patterns in monitored answers. It does not establish causation.

Independent Positioning Context

> Independent Positioning looks stronger (#2 of 6; Portfolio AI Presence 35.7%) than Core AI Consideration (9.6%). Treat peer-set standing as relative context — it does not automatically imply stronger market-wide inclusion.

Reality Coverage Context

> Only 4 of 26 monitored attributes are consistently recognized (15.4% Reality Coverage). Not every gap deserves equal urgency. Actionable now: City Views; Connecting Rooms; Walkable Downtown. Location identity is foundational for traveler recognition and often overlaps weaker local-demand scenarios. Validate first: On-Site Restaurant; Sky Lobby; Private Dining; Social Event Lounge; Near Empire State Building; Near Madison Square Garden; Near Bryant Park; Near Grand Central; Near Penn Station; Near Javits Center; Digital Key; In-Room Dining; Pet-Friendly. Monitor: Large / Spacious Rooms.

Reality Gap Prioritization

ATTRIBUTE	PRIORITY	WHY IT MATTERS OPERATIONALLY
City Views	Actionable now	Location identity is foundational for traveler recognition and often overlaps weaker local-demand scenarios.
Connecting Rooms	Actionable now	Directly overlaps family-oriented representation — closing this supports inclusion in the softest traveler-need context.
Walkable Downtown	Actionable now	Location identity is foundational for traveler recognition and often overlaps weaker local-demand scenarios.
On-Site Restaurant	Validate first	Rarely recognized today — validate source accuracy before treating as a primary fix.
Sky Lobby	Validate first	Rarely recognized today — validate source accuracy before treating as a primary fix.
Private Dining	Validate first	Rarely recognized today — validate source accuracy before treating as a primary fix.

3. Evidence Review

EVIDENCE 01

Scenarios where subject is absent

Provider: Cross-provider

Observation: New York Marriott Marquis appeared in 27 monitored scenarios where Hilton New York Times Square was absent.

Why It Matters: Identifies the competitor most often present when the subject hotel is missing from AI answers.

Management Review: Compare public positioning and third-party descriptions against this competitor for the traveler needs where displacement concentrates.

EVIDENCE 02

Property reality attributes

Provider: All Providers

Observation: Pet-Friendly recognized in 1.6% of applicable monitored answers (1 of 63).

Why It Matters: This attribute is part of the monitored property proposition but is infrequently reflected in AI answers.

Management Review: Verify whether "Pet-Friendly" is accurately and consistently described on the hotel website and major booking/travel platforms.

4. Management Action Agenda

> Actions are sequenced against the primary inclusion issue. Priority 1 addresses inconsistent answer selection where competitors appear; Priority 2 supports representation; Monitor items are supporting hygiene.

ACTION 01

Reconcile public facts for traveler needs where a named competitor appears and the subject hotel is absent

PRIORITY 1 | OPEN | Owner: General Manager + Marketing Lead | Due: Date to be confirmed

Most directly addresses inconsistent inclusion where competitors appear in the hotel's absence.

OBSERVED ISSUE

New York Marriott Marquis appeared in 27 monitored scenarios where Hilton New York Times Square was absent.

RECOMMENDED ACTION — IMPLEMENTATION STEPS

1. Confirm the hotel's canonical facts for Competitive displacement with the accountable owner (Hilton New York Times Square).
2. Complete the applicable checklist items: list traveler needs / scenarios where absence concentrates; identify subject facts that are missing or inconsistent on priority sources; update first-party pages covering those facts.
3. Audit each target source and record current wording/state: Hotel Website; TripAdvisor; Google Business Profile; Booking.com.
4. Correct only the sources where facts are missing, conflicting, or outdated. Do not change measurement methodology.
5. Compare public facts credited to New York Marriott Marquis in displacement evidence against the subject hotel's corrected pages; close only evidence-backed gaps.
6. Store completion evidence (canonical policy summary, sources reviewed, sources corrected, URLs/screenshots, completion date).
7. Notify Dealality of completion so the next monitoring period can check the expected signal without assuming causation.

TARGET SOURCES

Hotel Website; TripAdvisor; Google Business Profile; Booking.com

DEFINITION OF DONE

- Canonical facts for "Competitive displacement" are confirmed by hotel management.
- Each target source is reviewed: Hotel Website; TripAdvisor; Google Business Profile; Booking.com.
- Sources that were incorrect or incomplete are corrected, with URLs or screenshots stored.
- The specific missing/inconsistent items are resolved: list traveler needs / scenarios where absence concentrates; identify subject facts that are missing or inconsistent on priority sources; update first-party pages covering those facts.
- Accountable owner signs off with completion date.

EXPECTED SIGNAL

Dealality will monitor whether competitive displacement recognition and related scenario inclusion change in the next monitoring period. Monitoring alone does not establish causation.

NEXT MONITORING CHECK

Next published ADP run — review Competitive displacement attribute recognition, related demand-territory presence, and evidence excerpts for the corrected facts.

ACTION 02

Publish one canonical pet policy and reconcile it across booking and profile sources

PRIORITY 2 OPEN Owner: Director of Marketing / Revenue Marketing Due: Date to be confirmed

Material follow-on work after the primary inclusion and source-reconciliation focus.

OBSERVED ISSUE

“Pet-Friendly” was recognized in only 1.6% of applicable monitored answers (1 of 63; severity HIGH).

RECOMMENDED ACTION — IMPLEMENTATION STEPS

1. Confirm the hotel’s canonical facts for Pet policy with the accountable owner (Hilton New York Times Square).
2. Complete the applicable checklist items: pets accepted? yes/no; dogs/cats/other; weight limits; per-stay / per-night fee; deposit; restricted room types; service-animal policy.
3. Audit each target source and record current wording/state: Hotel Website; Google Business Profile; Booking.com; Expedia; TripAdvisor.
4. Correct only the sources where facts are missing, conflicting, or outdated. Do not change measurement methodology.
5. Store completion evidence (canonical policy summary, sources reviewed, sources corrected, URLs/screenshots, completion date).
6. Notify Dealality of completion so the next monitoring period can check the expected signal without assuming causation.

TARGET SOURCES

Hotel Website; Google Business Profile; Booking.com; Expedia; TripAdvisor

DEFINITION OF DONE

- Canonical facts for “Pet policy” are confirmed by hotel management.
- Each target source is reviewed: Hotel Website; Google Business Profile; Booking.com; Expedia; TripAdvisor.
- Sources that were incorrect or incomplete are corrected, with URLs or screenshots stored.
- The specific missing/inconsistent items are resolved: pets accepted? yes/no; dogs/cats/other; weight limits; per-stay / per-night fee; deposit; restricted room types; service-animal policy.
- Accountable owner signs off with completion date.

EXPECTED SIGNAL

Dealality will monitor whether pet policy recognition and related scenario inclusion change in the next monitoring period. Monitoring alone does not establish causation.

NEXT MONITORING CHECK

Next published ADP run — review Pet policy attribute recognition, related demand-territory presence, and evidence excerpts for the corrected facts.

ACTION 03

Complete the meetings decision package with missing capacity, space, and contact facts

PRIORITY 2 OPEN Owner: Commercial / Sales Lead Due: Date to be confirmed

Material follow-on work after the primary inclusion and source-reconciliation focus.

OBSERVED ISSUE

“Meeting & Event Space” was recognized in only 33.3% of applicable monitored answers (21 of 63; severity LOW).

RECOMMENDED ACTION — IMPLEMENTATION STEPS

1. Confirm the hotel's canonical facts for Meetings information with the accountable owner (Hilton New York Times Square).
2. Complete the applicable checklist items: total meeting space; number of rooms; largest capacity; AV capabilities; meeting sales contact; downloadable floorplans.
3. Audit each target source and record current wording/state: Hotel Website; Google Business Profile; Booking.com; Expedia; TripAdvisor.
4. Correct only the sources where facts are missing, conflicting, or outdated. Do not change measurement methodology.
5. Store completion evidence (canonical policy summary, sources reviewed, sources corrected, URLs/screenshots, completion date).
6. Notify Dealality of completion so the next monitoring period can check the expected signal without assuming causation.

TARGET SOURCES

Hotel Website; Google Business Profile; Booking.com; Expedia; TripAdvisor

DEFINITION OF DONE

- Canonical facts for "Meetings information" are confirmed by hotel management.
- Each target source is reviewed: Hotel Website; Google Business Profile; Booking.com; Expedia; TripAdvisor.
- Sources that were incorrect or incomplete are corrected, with URLs or screenshots stored.
- The specific missing/inconsistent items are resolved: total meeting space; number of rooms; largest capacity; AV capabilities; meeting sales contact; downloadable floorplans.
- Accountable owner signs off with completion date.

EXPECTED SIGNAL

Dealality will monitor whether meetings information recognition and related scenario inclusion change in the next monitoring period. Monitoring alone does not establish causation.

NEXT MONITORING CHECK

Next published ADP run — review Meetings information attribute recognition, related demand-territory presence, and evidence excerpts for the corrected facts.

ACTION 04

Align first-party and OTA room descriptions with recurring expectation mismatches in evidence

PRIORITY 2 OPEN Owner: Director of Marketing / Revenue Marketing Due: Date to be confirmed

Material follow-on work after the primary inclusion and source-reconciliation focus.

OBSERVED ISSUE

AI Consideration is 9.6% with Reality Coverage 15.4%. High-severity reality gaps indicate stay-expectation descriptions may contribute to under-inclusion.

RECOMMENDED ACTION — IMPLEMENTATION STEPS

1. Confirm the hotel's canonical facts for Room expectation alignment with the accountable owner (Hilton New York Times Square).
2. Complete the applicable checklist items: identify exact recurring expectation mismatch; update first-party room descriptions; verify OTA room-type descriptions; ensure imagery accurately reflects room type.
3. Audit each target source and record current wording/state: Hotel Website; OTA Room-Type Descriptions; Booking.com; Expedia.
4. Correct only the sources where facts are missing, conflicting, or outdated. Do not change measurement methodology.
5. Store completion evidence (canonical policy summary, sources reviewed, sources corrected, URLs/screenshots, completion date).
6. Notify Dealality of completion so the next monitoring period can check the expected signal without assuming causation.

TARGET SOURCES

Hotel Website; OTA Room-Type Descriptions; Booking.com; Expedia

DEFINITION OF DONE

- Canonical facts for “Room expectation alignment” are confirmed by hotel management.
- Each target source is reviewed: Hotel Website; OTA Room-Type Descriptions; Booking.com; Expedia.
- Sources that were incorrect or incomplete are corrected, with URLs or screenshots stored.
- The specific missing/inconsistent items are resolved: identify exact recurring expectation mismatch; update first-party room descriptions; verify OTA room-type descriptions; ensure imagery accurately reflects room type.
- Accountable owner signs off with completion date.

EXPECTED SIGNAL

Dealality will monitor whether room expectation alignment recognition and related scenario inclusion change in the next monitoring period. Monitoring alone does not establish causation.

NEXT MONITORING CHECK

Next published ADP run — review Room expectation alignment attribute recognition, related demand-territory presence, and evidence excerpts for the corrected facts.

ACTION 05

Stand up a TripAdvisor management-response program with owner, SLA, and theme tracking

MONITOR OPEN Owner: Guest Experience / Reputation Owner Due: Date to be confirmed

Important hygiene or reputation work — support the primary inclusion agenda rather than lead it.

OBSERVED ISSUE

TripAdvisor appears in 43.4% of cited sources in the current monitoring period (23 citations), making response quality and factual corrections operationally material when misconceptions appear.

RECOMMENDED ACTION — IMPLEMENTATION STEPS

1. Confirm the hotel’s canonical facts for TripAdvisor responses with the accountable owner (Hilton New York Times Square).
2. Complete the applicable checklist items: designate accountable owner; set response SLA (property-configured; do not invent a default unless governed); identify recurring complaint themes monthly; correct factual misconceptions where appropriate; track response rate.
3. Audit each target source and record current wording/state: TripAdvisor.
4. Correct only the sources where facts are missing, conflicting, or outdated. Do not change measurement methodology.
5. Store completion evidence (canonical policy summary, sources reviewed, sources corrected, URLs/screenshots, completion date).
6. Notify Dealality of completion so the next monitoring period can check the expected signal without assuming causation.

TARGET SOURCES

TripAdvisor

DEFINITION OF DONE

- Canonical facts for “TripAdvisor responses” are confirmed by hotel management.
- Each target source is reviewed: TripAdvisor.
- Sources that were incorrect or incomplete are corrected, with URLs or screenshots stored.
- The specific missing/inconsistent items are resolved: designate accountable owner; set response SLA; identify recurring complaint themes monthly; correct factual misconceptions where appropriate; track response rate.
- Accountable owner signs off with completion date.

EXPECTED SIGNAL

Dealality will monitor whether tripadvisor responses recognition and related scenario inclusion change in the next monitoring period. Monitoring alone does not establish causation.

NEXT MONITORING CHECK

Next published ADP run — review TripAdvisor responses attribute recognition, related demand-territory presence, and evidence excerpts for the corrected facts.

5. Accountability & Decisions

Prior Action Review

No prior monthly actions are available yet.

Decisions Required

1. Confirm an accountable owner for each open action (role is pre-suggested; named owner still required).
2. Confirm target completion dates for each open action.
3. Confirm whether the corrective action order matches management's operating priority for the next 30 days.
4. Confirm whether any high-severity reality-gap attributes are outdated, incorrect, or intentionally not marketed.
5. Set target dates where currently blank ("Owner to be confirmed" / date pending).

What Dealality Will Monitor Next

- AI Consideration and Scenario Presence versus the next published monitoring run.
- Reality Coverage and high-severity attribute recognition rates.
- Displacement pattern involving New York Marriott Marquis.
- Follow-up signal for action: Publish one canonical pet policy and reconcile it across booking and profile sources — focus: pets accepted? yes/no, dogs/cats/other, weight limits.
- Follow-up signal for action: Complete the meetings decision package with missing capacity, space, and contact facts — focus: total meeting space, number of rooms, largest capacity.

This review is composed from the certified published Existing Hotel ADP customer report and the published Independent Positioning pack where available. It does not rerun providers, invent metrics, or claim causation from management actions. Final actions are executable playbooks with target sources, implementation steps, and definition of done. This executive PDF uses the same Dealality AI Demand Performance Review production line as the original certified hotel portfolio (Bethesda master). Content is bound to the certified staged Full ADP report version (staged_mw56viqr_e38f6df779); it is not a printout of the interactive owner dashboard.
