AI DEMAND PERFORMANCE REVIEW

Radisson Blu Toronto Downtown

Ontario

MONTHLY EXECUTIVE REVIEW

NOVEMBER 2026 · CURRENT MONITORING NOV 4, 2026 · PRIOR RUN —
PERFORMANCE · COMPETITIVE MOVEMENT · EVIDENCE · ACTIONS · ACCOUNTABILITY

This AI Demand Performance Review is a Dealality executive monitoring report. Measurement methodology is unchanged by presentation. Confidential — for the named recipient only.

1. Executive Performance

No official comparable prior period is available. This review is a current-period baseline read; prior-run trend deltas are not shown.

AI CONSIDERATION	SCENARIO PRESENCE	REALITY GAP V2
33.2%	**43.6%**	**66.7%** Weighted gap (miss + 0.5×partial) — certified staged V2
COMPETITIVE POSITION	**BRAND PORTFOLIO POSITION**	**PORTFOLIO RANK**
Bisha Hotel Top displacement competitor · 24 scenarios where subject was absent	**45.5%** 51 of 112 AI observations	**#1 of 6** Among 6 relevant choice_privileges hotels

Platform Executive Summary

BIGGEST STRENGTH

Often placed near the top when AI ranks hotels

Among AI answers where hotel ranking could be measured, Radisson Blu Toronto Downtown appeared in the Top 3 85.1% of the time. This shows how prominently the hotel is positioned when AI includes it.

BIGGEST CONSTRAINT

AI does not fully reflect the property

AI currently reflects 19% of the monitored facts and attributes that define the hotel. Important parts of the property's proposition are not consistently reflected in AI results.

CHANGE SINCE LAST COMPARABLE RUN

No comparable prior official period yet

No comparable prior official monitoring period is available yet. This period can be evaluated on its own; change over time is not shown.

Executive Conclusion

Radisson Blu Toronto Downtown's primary issue is entering AI consideration at all, especially for Adventure & Experiences.

What the Data Is Telling Us

AI Consideration is 29%, so the hotel appears in only a limited share of individual comparable responses. When the hotel is absent, Bisha Hotel is a leading observed alternative in those gaps — an evidence lead for review, not an automatic proof of recurring substitution. Top-3 appearance can look strong (85.1%) when the hotel is ranked, which can hide how rarely it enters consideration in the first place. The primary constraint is becoming part of the answer set for the traveler needs the hotel currently misses. Softest Scenario Capture is Celebration at 20.0%. Bisha Hotel most often appears when the hotel is missing (24 scenarios).

Why It Matters

Fine-tuning rank against individual competitors will have limited value until the hotel becomes relevant in more of the traveler needs it currently misses. Entry problems and rank problems require different management attention. If leadership optimizes competitor comparisons first, the hotel can look busy while still missing the larger answer-set gap.

Where the Pattern Is Concentrated

Celebration is the softest Scenario Capture at 20.0%. Focus where the gap is concentrated rather than treating every territory equally. Bisha Hotel appears most often when the hotel is missing (24 scenarios) — use that pattern for source and fact checks, not as proof of cause. Reality Coverage is 19.0% (4 of 21 attributes). Start with gaps that matter operationally — beginning with Family-Friendly.

What Management Should Focus On Now

Focus first on how the hotel is represented for Adventure & Experiences. Review whether the attributes, positioning, and use cases most relevant to those travelers are complete and consistently represented across priority sources. Treat competitor-rank tactics as secondary until entry improves.

Confidential · For recipient only · © 2026 Dealality

What Not to Overreact To

No comparable prior official period is available — read these as current levels, not period-over-period change. Independent Positioning (#1 of 6; Portfolio AI Presence 45.5%) is peer-set context — keep it separate from Core demand metrics.

What to Review Next

Compare evidence from scenarios where Bisha Hotel appears with the property information currently available for Radisson Blu Toronto Downtown. Check entry cues first — product type, occasion, and location framing — before broadening the review to secondary attributes.

2. Demand & Competitive Movement

Material Movement

No material movement rows in this period.

Demand Movement

> Celebration is the clearest softness at 20.0% Scenario Capture. These are current-period levels, not trend.

DEMAND TERRITORY	SCENARIO CAPTURE	CAPTURED	CAPTURE LEVEL	INTERPRETATION
Celebration	20.0%	1 of 5	Low Capture	Low scenario-capture rate for this traveler need. Treat as a priority inspection area (absolute level — not a period-over-period decline).
Family	20.0%	1 of 5	Low Capture	Low scenario-capture rate for this traveler need. Treat as a priority inspection area (absolute level — not a period-over-period decline).
Leisure Travel	25.0%	6 of 24	Low Capture	Low scenario-capture rate for this traveler need. Treat as a priority inspection area (absolute level — not a period-over-period decline).
Couples / Romantic	33.3%	2 of 6	Low Capture	Low scenario-capture rate for this traveler need. Treat as a priority inspection area (absolute level — not a period-over-period decline).
Adventure	50.0%	1 of 2	Partial Capture	Partial scenario capture. Review whether missing scenarios share a common attribute or competitor pattern.
Business Travel	57.1%	4 of 7	Partial Capture	Partial scenario capture. Review whether missing scenarios share a common attribute or competitor pattern.

Metric = demandCapture.byIntent scenario capture (captured/total). Prior-run territory rates are not published as a comparable series in this edition.

Competitive Movement

Competitive context: 28 Core competitors identified · Competitor-present displacement 45/63 scenarios

> 28 Core competitors identified in the certified competitive set for this period. Competitors appeared in 45 of 63 monitored scenarios when measuring competitor-present displacement (observational co-appearance / absence patterns — not causation). Bisha Hotel is the most frequent alternative when Radisson Blu Toronto Downtown is absent (24 scenarios). Hotel X Toronto (By Library Hotel Collection) (20) and 1 Hotel Toronto (King West) (19) also appear often — displacement is spread across multiple local options. Counts show co-appearance patterns; they do not prove why displacement happens.

COMPETITOR	DISPLACEMENT COUNT
Bisha Hotel	24
Hotel X Toronto (By Library Hotel Collection)	20
1 Hotel Toronto (King West)	19
Hazelton Hotel	19
Shangri-La Hotel, Toronto	16

Competitive movement describes co-appearance and absence patterns in monitored answers. It does not establish causation.

Independent Positioning Context

> Independent Positioning looks stronger (#1 of 6; Portfolio AI Presence 45.5%) than Core AI Consideration (33.2%). Treat peer-set standing as relative context — it does not automatically imply stronger market-wide inclusion.

Reality Coverage Context

> Only 4 of 21 monitored attributes are consistently recognized (19.0% Reality Coverage). Not every gap deserves equal urgency. Actionable now: Family-Friendly; City Views. Directly overlaps family-oriented representation — closing this supports inclusion in the softest traveler-need context. Validate first: Pet-Friendly; EV Charging; Choice Hotels Distribution; Near Convention Center; Urban Hotel; Ballroom. Monitor: Outdoor Event Space.

Reality Gap Prioritization

ATTRIBUTE	PRIORITY	WHY IT MATTERS OPERATIONALLY
Family-Friendly	Actionable now	Directly overlaps family-oriented representation — closing this supports inclusion in the softest traveler-need context.
City Views	Actionable now	Location identity is foundational for traveler recognition and often overlaps weaker local-demand scenarios.
Pet-Friendly	Validate first	Rarely recognized today — validate source accuracy before treating as a primary fix.
EV Charging	Validate first	Rarely recognized today — validate source accuracy before treating as a primary fix.
Choice Hotels Distribution	Validate first	Rarely recognized today — validate source accuracy before treating as a primary fix.
Near Convention Center	Validate first	Rarely recognized today — validate source accuracy before treating as a primary fix.

3. Evidence Review

EVIDENCE 01

Scenarios where subject is absent

Provider: Cross-provider

Observation: Bisha Hotel appeared in 24 monitored scenarios where Radisson Blu Toronto Downtown was absent.

Why It Matters: Identifies the competitor most often present when the subject hotel is missing from AI answers.

Management Review: Compare public positioning and third-party descriptions against this competitor for the traveler needs where displacement concentrates.

EVIDENCE 02

Property reality attributes

Provider: All Providers

Observation: City Views recognized in 9.6% of applicable monitored answers (7 of 73).

Why It Matters: This attribute is part of the monitored property proposition but is infrequently reflected in AI answers.

Management Review: Verify whether “City Views” is accurately and consistently described on the hotel website and major booking/travel platforms.

4. Management Action Agenda

> Actions are sequenced against the primary inclusion issue. Priority 1 addresses inconsistent answer selection where competitors appear; Priority 2 supports representation; Monitor items are supporting hygiene.

ACTION 01

Reconcile public facts for traveler needs where a named competitor appears and the subject hotel is absent

PRIORITY 1 OPEN Owner: General Manager + Marketing Lead Due: Date to be confirmed

Most directly addresses inconsistent inclusion where competitors appear in the hotel's absence.

OBSERVED ISSUE

Bisha Hotel appeared in 24 monitored scenarios where Radisson Blu Toronto Downtown was absent.

RECOMMENDED ACTION — IMPLEMENTATION STEPS

1. Confirm the hotel's canonical facts for Competitive displacement with the accountable owner (Radisson Blu Toronto Downtown).
2. Complete the applicable checklist items: list traveler needs / scenarios where absence concentrates; identify subject facts that are missing or inconsistent on priority sources; update first-party pages covering those facts.
3. Audit each target source and record current wording/state: Hotel Website; TripAdvisor; Google Business Profile; Booking.com.
4. Correct only the sources where facts are missing, conflicting, or outdated. Do not change measurement methodology.
5. Compare public facts credited to Bisha Hotel in displacement evidence against the subject hotel's corrected pages; close only evidence-backed gaps.
6. Store completion evidence (canonical policy summary, sources reviewed, sources corrected, URLs/screenshots, completion date).
7. Notify Dealality of completion so the next monitoring period can check the expected signal without assuming causation.

TARGET SOURCES

Hotel Website; TripAdvisor; Google Business Profile; Booking.com

DEFINITION OF DONE

- Canonical facts for "Competitive displacement" are confirmed by hotel management.
- Each target source is reviewed: Hotel Website; TripAdvisor; Google Business Profile; Booking.com.
- Sources that were incorrect or incomplete are corrected, with URLs or screenshots stored.
- The specific missing/inconsistent items are resolved: list traveler needs / scenarios where absence concentrates; identify subject facts that are missing or inconsistent on priority sources; update first-party pages covering those facts.
- Accountable owner signs off with completion date.

EXPECTED SIGNAL

Dealality will monitor whether competitive displacement recognition and related scenario inclusion change in the next monitoring period. Monitoring alone does not establish causation.

NEXT MONITORING CHECK

Next published ADP run — review Competitive displacement attribute recognition, related demand-territory presence, and evidence excerpts for the corrected facts.

ACTION 02

Complete missing family-travel facts identified in monitoring evidence

PRIORITY 2 OPEN Owner: Director of Marketing Due: Date to be confirmed

Material follow-on work after the primary inclusion and source-reconciliation focus.

OBSERVED ISSUE

“Family-Friendly” was recognized in only 8.2% of applicable monitored answers (6 of 73; severity HIGH).

RECOMMENDED ACTION — IMPLEMENTATION STEPS

1. Confirm the hotel’s canonical facts for Family content with the accountable owner (Radisson Blu Toronto Downtown).
2. Complete the applicable checklist items: connecting rooms.
3. Audit each target source and record current wording/state: Hotel Website; Google Business Profile; Booking.com; Expedia; TripAdvisor.
4. Correct only the sources where facts are missing, conflicting, or outdated. Do not change measurement methodology.
5. Store completion evidence (canonical policy summary, sources reviewed, sources corrected, URLs/screenshots, completion date).
6. Notify Dealality of completion so the next monitoring period can check the expected signal without assuming causation.

TARGET SOURCES

Hotel Website; Google Business Profile; Booking.com; Expedia; TripAdvisor

DEFINITION OF DONE

- Canonical facts for “Family content” are confirmed by hotel management.
- Each target source is reviewed: Hotel Website; Google Business Profile; Booking.com; Expedia; TripAdvisor.
- Sources that were incorrect or incomplete are corrected, with URLs or screenshots stored.
- The specific missing/inconsistent items are resolved: family amenities; connecting rooms; kids policies.
- Accountable owner signs off with completion date.

EXPECTED SIGNAL

Dealality will monitor whether family content recognition and related scenario inclusion change in the next monitoring period. Monitoring alone does not establish causation.

NEXT MONITORING CHECK

Next published ADP run — review Family content attribute recognition, related demand-territory presence, and evidence excerpts for the corrected facts.

ACTION 03

Publish one canonical pet policy and reconcile it across booking and profile sources

PRIORITY 2 OPEN Owner: Director of Marketing / Revenue Marketing Due: Date to be confirmed

Material follow-on work after the primary inclusion and source-reconciliation focus.

OBSERVED ISSUE

“Pet-Friendly” was recognized in only 0.0% of applicable monitored answers (0 of 73; severity HIGH).

RECOMMENDED ACTION — IMPLEMENTATION STEPS

1. Confirm the hotel’s canonical facts for Pet policy with the accountable owner (Radisson Blu Toronto Downtown).
2. Complete the applicable checklist items: pets accepted? yes/no; dogs/cats/other; weight limits; per-stay / per-night fee; deposit; restricted room types; service-animal policy.
3. Audit each target source and record current wording/state: Hotel Website; Google Business Profile; Booking.com; Expedia; TripAdvisor.
4. Correct only the sources where facts are missing, conflicting, or outdated. Do not change measurement methodology.

5. Store completion evidence (canonical policy summary, sources reviewed, sources corrected, URLs/screenshots, completion date).
6. Notify Dealality of completion so the next monitoring period can check the expected signal without assuming causation.

TARGET SOURCES

Hotel Website; Google Business Profile; Booking.com; Expedia; TripAdvisor

DEFINITION OF DONE

- Canonical facts for “Pet policy” are confirmed by hotel management.
- Each target source is reviewed: Hotel Website; Google Business Profile; Booking.com; Expedia; TripAdvisor.
- Sources that were incorrect or incomplete are corrected, with URLs or screenshots stored.
- The specific missing/inconsistent items are resolved: pets accepted? yes/no; dogs/cats/other; weight limits; per-stay / per-night fee; deposit; restricted room types; service-animal policy.
- Accountable owner signs off with completion date.

EXPECTED SIGNAL

Dealality will monitor whether pet policy recognition and related scenario inclusion change in the next monitoring period. Monitoring alone does not establish causation.

NEXT MONITORING CHECK

Next published ADP run — review Pet policy attribute recognition, related demand-territory presence, and evidence excerpts for the corrected facts.

ACTION 04

Complete the meetings decision package with missing capacity, space, and contact facts

PRIORITY 2 OPEN Owner: Commercial / Sales Lead Due: Date to be confirmed

Material follow-on work after the primary inclusion and source-reconciliation focus.

OBSERVED ISSUE

Business/meeting demand opportunity remains contested (“Recommend a upper upscale hotel in Toronto with reliable lat...”) with weak competitor ownership in monitored answers.

RECOMMENDED ACTION — IMPLEMENTATION STEPS

1. Confirm the hotel’s canonical facts for Meetings information with the accountable owner (Radisson Blu Toronto Downtown).
2. Complete the applicable checklist items: total meeting space; largest capacity; meeting sales contact; downloadable floorplans; event fact sheet.
3. Audit each target source and record current wording/state: Hotel Website; Meeting / Event Fact Sheet; Google Business Profile.
4. Correct only the sources where facts are missing, conflicting, or outdated. Do not change measurement methodology.
5. Store completion evidence (canonical policy summary, sources reviewed, sources corrected, URLs/screenshots, completion date).
6. Notify Dealality of completion so the next monitoring period can check the expected signal without assuming causation.

TARGET SOURCES

Hotel Website; Meeting / Event Fact Sheet; Google Business Profile

DEFINITION OF DONE

- Canonical facts for “Meetings information” are confirmed by hotel management.
- Each target source is reviewed: Hotel Website; Meeting / Event Fact Sheet; Google Business Profile.
- Sources that were incorrect or incomplete are corrected, with URLs or screenshots stored.
- The specific missing/inconsistent items are resolved: total meeting space; largest capacity; meeting sales contact; downloadable floorplans; event fact sheet.

- Accountable owner signs off with completion date.

EXPECTED SIGNAL

Dealality will monitor whether meetings information recognition and related scenario inclusion change in the next monitoring period. Monitoring alone does not establish causation.

NEXT MONITORING CHECK

Next published ADP run — review Meetings information attribute recognition, related demand-territory presence, and evidence excerpts for the corrected facts.

ACTION 05

Stand up a TripAdvisor management-response program with owner, SLA, and theme tracking

MONITOR OPEN Owner: Guest Experience / Reputation Owner Due: Date to be confirmed

Important hygiene or reputation work — support the primary inclusion agenda rather than lead it.

OBSERVED ISSUE

TripAdvisor appears in 34.9% of cited sources in the current monitoring period (22 citations), making response quality and factual corrections operationally material when misconceptions appear.

RECOMMENDED ACTION — IMPLEMENTATION STEPS

1. Confirm the hotel's canonical facts for TripAdvisor responses with the accountable owner (Radisson Blu Toronto Downtown).
2. Complete the applicable checklist items: designate accountable owner; set response SLA (property-configured; do not invent a default unless governed); identify recurring complaint themes monthly; correct factual misconceptions where appropriate; track response rate.
3. Audit each target source and record current wording/state: TripAdvisor.
4. Correct only the sources where facts are missing, conflicting, or outdated. Do not change measurement methodology.
5. Store completion evidence (canonical policy summary, sources reviewed, sources corrected, URLs/screenshots, completion date).
6. Notify Dealality of completion so the next monitoring period can check the expected signal without assuming causation.

TARGET SOURCES

TripAdvisor

DEFINITION OF DONE

- Canonical facts for "TripAdvisor responses" are confirmed by hotel management.
- Each target source is reviewed: TripAdvisor.
- Sources that were incorrect or incomplete are corrected, with URLs or screenshots stored.
- The specific missing/inconsistent items are resolved: designate accountable owner; set response SLA; identify recurring complaint themes monthly; correct factual misconceptions where appropriate; track response rate.
- Accountable owner signs off with completion date.

EXPECTED SIGNAL

Dealality will monitor whether tripadvisor responses recognition and related scenario inclusion change in the next monitoring period. Monitoring alone does not establish causation.

NEXT MONITORING CHECK

Next published ADP run — review TripAdvisor responses attribute recognition, related demand-territory presence, and evidence excerpts for the corrected facts.

5. Accountability & Decisions

Prior Action Review

No prior monthly actions are available yet.

Decisions Required

1. Confirm an accountable owner for each open action (role is pre-suggested; named owner still required).
2. Confirm target completion dates for each open action.
3. Confirm whether the corrective action order matches management's operating priority for the next 30 days.
4. Confirm whether any high-severity reality-gap attributes are outdated, incorrect, or intentionally not marketed.
5. Set target dates where currently blank ("Owner to be confirmed" / date pending).

What Dealality Will Monitor Next

- AI Consideration and Scenario Presence versus the next published monitoring run.
- Reality Coverage and high-severity attribute recognition rates.
- Displacement pattern involving Bisha Hotel.
- Follow-up signal for action: Complete missing family-travel facts identified in monitoring evidence — focus: family amenities, connecting rooms, kids policies.
- Follow-up signal for action: Publish one canonical pet policy and reconcile it across booking and profile sources — focus: pets accepted? yes/no, dogs/cats/other, weight limits.

This review is composed from the certified published Existing Hotel ADP customer report and the published Independent Positioning pack where available. It does not rerun providers, invent metrics, or claim causation from management actions. Final actions are executable playbooks with target sources, implementation steps, and definition of done. This executive PDF uses the same Dealality AI Demand Performance Review production line as the original certified hotel portfolio (Bethesda master). Content is bound to the certified staged Full ADP report version (staged_mw56twqe_3634267914); it is not a printout of the interactive owner dashboard.
