AI DEMAND PERFORMANCE REVIEW

UMusic Hotel Madrid

Community of Madrid

MONTHLY EXECUTIVE REVIEW

NOVEMBER 2026 · CURRENT MONITORING NOV 3, 2026 · PRIOR RUN —
PERFORMANCE · COMPETITIVE MOVEMENT · EVIDENCE · ACTIONS · ACCOUNTABILITY

This AI Demand Performance Review is a Dealality executive monitoring report. Measurement methodology is unchanged by presentation. Confidential — for the named recipient only.

1. Executive Performance

No official comparable prior period is available. This review is a current-period baseline read; prior-run trend deltas are not shown.

AI CONSIDERATION

1.3%

SCENARIO PRESENCE

5.0%

REALITY GAP V2

50.0%

Weighted gap (miss + 0.5×partial) — certified staged V2

COMPETITIVE POSITION

Four Seasons Hotel Madrid

Top displacement competitor · 35 scenarios where subject was absent

BRAND PORTFOLIO POSITION

N/A

No certified multi-property UMusic same-lens peer cohort; governed BPP N/A — do not invent peers.

Platform Executive Summary

BIGGEST STRENGTH

Still developing

UMusic Hotel Madrid does not yet show a single dominant strength with enough comparable evidence in this period.

BIGGEST CONSTRAINT

AI does not fully reflect the property

AI currently reflects 37.5% of the monitored facts and attributes that define the hotel. Important parts of the property's proposition are not consistently reflected in AI results.

CHANGE SINCE LAST COMPARABLE RUN

No comparable prior official period yet

No comparable prior official monitoring period is available yet. This period can be evaluated on its own; change over time is not shown.

Executive Conclusion

UMusic Hotel Madrid's primary issue is entering AI consideration at all, especially for Business Travel.

What the Data Is Telling Us

AI Consideration is 1.1%, so the hotel appears in only a limited share of individual comparable responses. When the hotel is absent, Four Seasons Hotel Madrid is a leading observed alternative in those gaps — an evidence lead for review, not an automatic proof of recurring substitution. Rank tactics have limited value until relevance improves. The primary constraint is becoming part of the answer set for the traveler needs the hotel currently misses. Softest Scenario Capture is Business Travel at 0.0%. Four Seasons Hotel Madrid most often appears when the hotel is missing (35 scenarios).

Why It Matters

Fine-tuning rank against individual competitors will have limited value until the hotel becomes relevant in more of the traveler needs it currently misses. Entry problems and rank problems require different management attention. If leadership optimizes competitor comparisons first, the hotel can look busy while still missing the larger answer-set gap.

Where the Pattern Is Concentrated

Business Travel is the softest Scenario Capture at 0.0%. Focus where the gap is concentrated rather than treating every territory equally. Four Seasons Hotel Madrid appears most often when the hotel is missing (35 scenarios) — use that pattern for source and fact checks, not as proof of cause. Reality Coverage is 37.5% (6 of 16 attributes). Start with gaps that matter operationally — beginning with Walkable Downtown.

What Management Should Focus On Now

Focus first on how the hotel is represented for Business Travel. Review whether the attributes, positioning, and use cases most relevant to those travelers are complete and consistently represented across priority sources. Treat competitor-rank tactics as secondary until entry improves.

What Not to Overreact To

No comparable prior official period is available — read these as current levels, not period-over-period change.

What to Review Next

Compare evidence from scenarios where Four Seasons Hotel Madrid appears with the property information currently available for UMusic Hotel Madrid. Check entry cues first — product type, occasion, and location framing — before broadening the review to secondary attributes.

2. Demand & Competitive Movement

Material Movement

No material movement rows in this period.

Demand Movement

> Business Travel is the clearest softness at 0.0% Scenario Capture. These are current-period levels, not trend.

DEMAND TERRITORY	SCENARIO CAPTURE	CAPTURED	CAPTURE LEVEL	INTERPRETATION
Business Travel	0.0%	0 of 7	Low Capture	Low scenario-capture rate for this traveler need. Treat as a priority inspection area (absolute level — not a period-over-period decline).
Leisure Travel	0.0%	0 of 7	Low Capture	Low scenario-capture rate for this traveler need. Treat as a priority inspection area (absolute level — not a period-over-period decline).
Celebration	0.0%	0 of 5	Low Capture	Low scenario-capture rate for this traveler need. Treat as a priority inspection area (absolute level — not a period-over-period decline).
Family	0.0%	0 of 5	Low Capture	Low scenario-capture rate for this traveler need. Treat as a priority inspection area (absolute level — not a period-over-period decline).
Wellness	0.0%	0 of 4	Low Capture	Low scenario-capture rate for this traveler need. Treat as a priority inspection area (absolute level — not a period-over-period decline).
Adventure	0.0%	0 of 2	Low Capture	Low scenario-capture rate for this traveler need. Treat as a priority inspection area (absolute level — not a period-over-period decline).

Metric = demandCapture.byIntent scenario capture (captured/total). Prior-run territory rates are not published as a comparable series in this edition.

Competitive Movement

Competitive context: 11 Core competitors identified · Competitor-present displacement 45/46 scenarios

> 11 Core competitors identified in the certified competitive set for this period. Competitors appeared in 45 of 46 monitored scenarios when measuring competitor-present displacement (observational co-appearance / absence patterns — not causation). Four Seasons Hotel Madrid is the most frequent alternative when UMusic Hotel Madrid is absent (35 scenarios). The Madrid EDITION (32) and Gran Hotel Inglés (22) also appear often — displacement is spread across multiple local options. Counts show co-appearance patterns; they do not prove why displacement happens.

COMPETITOR	DISPLACEMENT COUNT
Four Seasons Hotel Madrid	35
The Madrid EDITION	32
Gran Hotel Inglés	22
Hotel Urban	21
Mandarin Oriental Ritz, Madrid	17

Competitive movement describes co-appearance and absence patterns in monitored answers. It does not establish causation.

Reality Coverage Context

> Only 6 of 16 monitored attributes are consistently recognized (37.5% Reality Coverage). Not every gap deserves equal urgency. Actionable now: Walkable Downtown. Location identity is foundational for traveler recognition and often overlaps weaker local-demand scenarios. Validate first: Social Event Lounge; Full-Service Hotel; Terrace Rooms.

Reality Gap Prioritization

ATTRIBUTE	PRIORITY	WHY IT MATTERS OPERATIONALLY
Walkable Downtown	Actionable now	Location identity is foundational for traveler recognition and often overlaps weaker local-demand scenarios.
Social Event Lounge	Validate first	Rarely recognized today — validate source accuracy before treating as a primary fix.
Full-Service Hotel	Validate first	Rarely recognized today — validate source accuracy before treating as a primary fix.
Terrace Rooms	Validate first	Rarely recognized today — validate source accuracy before treating as a primary fix.

3. Evidence Review

EVIDENCE 01

Scenarios where subject is absent

Provider: Cross-provider

Observation: Four Seasons Hotel Madrid appeared in 35 monitored scenarios where UMusic Hotel Madrid was absent.

Why It Matters: Identifies the competitor most often present when the subject hotel is missing from AI answers.

Management Review: Compare public positioning and third-party descriptions against this competitor for the traveler needs where displacement concentrates.

EVIDENCE 02

Property reality attributes

Provider: All Providers

Observation: Walkable Downtown recognized in 7.1% of applicable monitored answers (5 of 70).

Why It Matters: This attribute is part of the monitored property proposition but is infrequently reflected in AI answers.

Management Review: Verify whether “Walkable Downtown” is accurately and consistently described on the hotel website and major booking/travel platforms.

4. Management Action Agenda

> Actions are sequenced against the primary inclusion issue. Priority 1 addresses inconsistent answer selection where competitors appear; Priority 2 supports representation; Monitor items are supporting hygiene.

ACTION 01

Reconcile public facts for traveler needs where a named competitor appears and the subject hotel is absent

PRIORITY 1 OPEN Owner: General Manager + Marketing Lead Due: Date to be confirmed

Most directly addresses inconsistent inclusion where competitors appear in the hotel's absence.

OBSERVED ISSUE

Four Seasons Hotel Madrid appeared in 35 monitored scenarios where UMusic Hotel Madrid was absent.

RECOMMENDED ACTION — IMPLEMENTATION STEPS

1. Confirm the hotel's canonical facts for Competitive displacement with the accountable owner (UMusic Hotel Madrid).
2. Complete the applicable checklist items: list traveler needs / scenarios where absence concentrates; identify subject facts that are missing or inconsistent on priority sources; update first-party pages covering those facts.
3. Audit each target source and record current wording/state: Hotel Website; TripAdvisor; Google Business Profile; Booking.com.
4. Correct only the sources where facts are missing, conflicting, or outdated. Do not change measurement methodology.
5. Compare public facts credited to Four Seasons Hotel Madrid in displacement evidence against the subject hotel's corrected pages; close only evidence-backed gaps.
6. Store completion evidence (canonical policy summary, sources reviewed, sources corrected, URLs/screenshots, completion date).
7. Notify Dealality of completion so the next monitoring period can check the expected signal without assuming causation.

TARGET SOURCES

Hotel Website; TripAdvisor; Google Business Profile; Booking.com

DEFINITION OF DONE

- Canonical facts for "Competitive displacement" are confirmed by hotel management.
- Each target source is reviewed: Hotel Website; TripAdvisor; Google Business Profile; Booking.com.
- Sources that were incorrect or incomplete are corrected, with URLs or screenshots stored.
- The specific missing/inconsistent items are resolved: list traveler needs / scenarios where absence concentrates; identify subject facts that are missing or inconsistent on priority sources; update first-party pages covering those facts.
- Accountable owner signs off with completion date.

EXPECTED SIGNAL

Dealality will monitor whether competitive displacement recognition and related scenario inclusion change in the next monitoring period. Monitoring alone does not establish causation.

NEXT MONITORING CHECK

Next published ADP run — review Competitive displacement attribute recognition, related demand-territory presence, and evidence excerpts for the corrected facts.

ACTION 02

Align first-party and OTA room descriptions with recurring expectation mismatches in evidence

PRIORITY 2 OPEN Owner: Director of Marketing / Revenue Marketing Due: Date to be confirmed

Material follow-on work after the primary inclusion and source-reconciliation focus.

OBSERVED ISSUE

AI Consideration is 1.3% with Reality Coverage 37.5%. High-severity reality gaps indicate stay-expectation descriptions may contribute to under-inclusion.

RECOMMENDED ACTION — IMPLEMENTATION STEPS

1. Confirm the hotel's canonical facts for Room expectation alignment with the accountable owner (UMusic Hotel Madrid).

2. Complete the applicable checklist items: identify exact recurring expectation mismatch; update first-party room descriptions; verify OTA room-type descriptions; ensure imagery accurately reflects room type.
3. Audit each target source and record current wording/state: Hotel Website; OTA Room-Type Descriptions; Booking.com; Expedia.
4. Correct only the sources where facts are missing, conflicting, or outdated. Do not change measurement methodology.
5. Store completion evidence (canonical policy summary, sources reviewed, sources corrected, URLs/screenshots, completion date).
6. Notify Dealality of completion so the next monitoring period can check the expected signal without assuming causation.

TARGET SOURCES

Hotel Website; OTA Room-Type Descriptions; Booking.com; Expedia

DEFINITION OF DONE

- Canonical facts for “Room expectation alignment” are confirmed by hotel management.
- Each target source is reviewed: Hotel Website; OTA Room-Type Descriptions; Booking.com; Expedia.
- Sources that were incorrect or incomplete are corrected, with URLs or screenshots stored.
- The specific missing/inconsistent items are resolved: identify exact recurring expectation mismatch; update first-party room descriptions; verify OTA room-type descriptions; ensure imagery accurately reflects room type.
- Accountable owner signs off with completion date.

EXPECTED SIGNAL

Dealality will monitor whether room expectation alignment recognition and related scenario inclusion change in the next monitoring period. Monitoring alone does not establish causation.

NEXT MONITORING CHECK

Next published ADP run — review Room expectation alignment attribute recognition, related demand-territory presence, and evidence excerpts for the corrected facts.

ACTION 03

Audit and correct Google Business Profile fields against the hotel’s canonical facts

PRIORITY 2 OPEN Owner: Marketing / Local Presence Owner Due: Date to be confirmed

Material follow-on work after the primary inclusion and source-reconciliation focus.

OBSERVED ISSUE

Broad under-inclusion (Scenario Presence 5.0%) requires verifying that Google Business Profile amenities, description, and booking link match the hotel’s canonical facts before other channels can be trusted as consistent.

RECOMMENDED ACTION — IMPLEMENTATION STEPS

1. Confirm the hotel’s canonical facts for Google Business Profile with the accountable owner (UMusic Hotel Madrid).
2. Complete the applicable checklist items: booking link; amenities; photos; description; Q&A; outdated user-added information.
3. Audit each target source and record current wording/state: Google Business Profile; Hotel Website.
4. Correct only the sources where facts are missing, conflicting, or outdated. Do not change measurement methodology.
5. Store completion evidence (canonical policy summary, sources reviewed, sources corrected, URLs/screenshots, completion date).
6. Notify Dealality of completion so the next monitoring period can check the expected signal without assuming causation.

TARGET SOURCES

Google Business Profile; Hotel Website

DEFINITION OF DONE

- Canonical facts for “Google Business Profile” are confirmed by hotel management.
- Each target source is reviewed: Google Business Profile; Hotel Website.

- Sources that were incorrect or incomplete are corrected, with URLs or screenshots stored.
- The specific missing/inconsistent items are resolved: amenities; description; booking link; photos; Q&A; outdated user-added information.
- Accountable owner signs off with completion date.

EXPECTED SIGNAL

Dealality will monitor whether google business profile recognition and related scenario inclusion change in the next monitoring period. Monitoring alone does not establish causation.

NEXT MONITORING CHECK

Next published ADP run — review Google Business Profile attribute recognition, related demand-territory presence, and evidence excerpts for the corrected facts.

ACTION 04

Stand up a TripAdvisor management-response program with owner, SLA, and theme tracking

MONITOR OPEN Owner: Guest Experience / Reputation Owner Due: Date to be confirmed

Important hygiene or reputation work — support the primary inclusion agenda rather than lead it.

OBSERVED ISSUE

TripAdvisor appears in 32.6% of cited sources in the current monitoring period (15 citations), making response quality and factual corrections operationally material when misconceptions appear.

RECOMMENDED ACTION — IMPLEMENTATION STEPS

1. Confirm the hotel's canonical facts for TripAdvisor responses with the accountable owner (UMusic Hotel Madrid).
2. Complete the applicable checklist items: designate accountable owner; set response SLA (property-configured; do not invent a default unless governed); identify recurring complaint themes monthly; correct factual misconceptions where appropriate; track response rate.
3. Audit each target source and record current wording/state: TripAdvisor.
4. Correct only the sources where facts are missing, conflicting, or outdated. Do not change measurement methodology.
5. Store completion evidence (canonical policy summary, sources reviewed, sources corrected, URLs/screenshots, completion date).
6. Notify Dealality of completion so the next monitoring period can check the expected signal without assuming causation.

TARGET SOURCES

TripAdvisor

DEFINITION OF DONE

- Canonical facts for "TripAdvisor responses" are confirmed by hotel management.
- Each target source is reviewed: TripAdvisor.
- Sources that were incorrect or incomplete are corrected, with URLs or screenshots stored.
- The specific missing/inconsistent items are resolved: designate accountable owner; set response SLA; identify recurring complaint themes monthly; correct factual misconceptions where appropriate; track response rate.
- Accountable owner signs off with completion date.

EXPECTED SIGNAL

Dealality will monitor whether tripadvisor responses recognition and related scenario inclusion change in the next monitoring period. Monitoring alone does not establish causation.

NEXT MONITORING CHECK

Next published ADP run — review TripAdvisor responses attribute recognition, related demand-territory presence, and evidence excerpts for the corrected facts.

5. Accountability & Decisions

Prior Action Review

No prior monthly actions are available yet.

Decisions Required

1. Confirm an accountable owner for each open action (role is pre-suggested; named owner still required).
2. Confirm target completion dates for each open action.
3. Confirm whether the corrective action order matches management's operating priority for the next 30 days.
4. Confirm whether any high-severity reality-gap attributes are outdated, incorrect, or intentionally not marketed.
5. Set target dates where currently blank ("Owner to be confirmed" / date pending).

What Dealality Will Monitor Next

- AI Consideration and Scenario Presence versus the next published monitoring run.
- Reality Coverage and high-severity attribute recognition rates.
- Displacement pattern involving Four Seasons Hotel Madrid.
- Follow-up signal for action: Reconcile public facts for traveler needs where a named competitor appears and the subject hotel is absent — focus: list traveler needs / scenarios where absence concentrates, identify subject facts that are missing or inconsistent on priority sources, update first-party pages covering those facts.
- Follow-up signal for action: Stand up a TripAdvisor management-response program with owner, SLA, and theme tracking — focus: designate accountable owner, set response SLA, identify recurring complaint themes monthly.

This review is composed from the certified published Existing Hotel ADP customer report and the published Independent Positioning pack where available. It does not rerun providers, invent metrics, or claim causation from management actions. Final actions are executable playbooks with target sources, implementation steps, and definition of done. This executive PDF uses the same Dealality AI Demand Performance Review production line as the original certified hotel portfolio (Bethesda master). Content is bound to the certified staged Full ADP report version (staged_mw56u62m_19b06f98de); it is not a printout of the interactive owner dashboard.
