CHANGE SINCE LAST COMPARABLE RUN

No comparable prior official period yet

No comparable prior official monitoring period is available yet. This period can be evaluated on its own; change over time is not shown.

Executive Conclusion

voco Cancún Zona Hotelera's primary issue is entering AI consideration at all, especially for Leisure Travel.

What the Data Is Telling Us

AI Consideration is 0.4%, so the hotel appears in only a limited share of individual comparable responses. When the hotel is absent, NIZUC Resort & Spa is a leading observed alternative in those gaps — an evidence lead for review, not an automatic proof of recurring substitution. Rank tactics have limited value until relevance improves. The primary constraint is becoming part of the answer set for the traveler needs the hotel currently misses. Softest Scenario Capture is Leisure Travel at 0.0%. NIZUC Resort & Spa most often appears when the hotel is missing (49 scenarios).

Why It Matters

Fine-tuning rank against individual competitors will have limited value until the hotel becomes relevant in more of the traveler needs it currently misses. Entry problems and rank problems require different management attention. If leadership optimizes competitor comparisons first, the hotel can look busy while still missing the larger answer-set gap.

Where the Pattern Is Concentrated

Leisure Travel is the softest Scenario Capture at 0.0%. Focus where the gap is concentrated rather than treating every territory equally. NIZUC Resort & Spa appears most often when the hotel is missing (49 scenarios) — use that pattern for source and fact checks, not as proof of cause. Reality Coverage is 14.8% (4 of 27 attributes). Start with gaps that matter operationally — beginning with Family-Friendly.

What Management Should Focus On Now

Focus first on how the hotel is represented for Leisure Travel. Review whether the attributes, positioning, and use cases most relevant to those travelers are complete and consistently represented across priority sources. Treat competitor-rank tactics as secondary until entry improves.

What Not to Overreact To

No comparable prior official period is available — read these as current levels, not period-over-period change.

What to Review Next

Compare evidence from scenarios where NIZUC Resort & Spa appears with the property information currently available for voco Cancún Zona Hotelera. Check entry cues first — product type, occasion, and location framing — before broadening the review to secondary attributes.

2. Demand & Competitive Movement

Material Movement

No material movement rows in this period.

Demand Movement

> Leisure Travel is the clearest softness at 0.0% Scenario Capture. These are current-period levels, not trend.

DEMAND TERRITORY	SCENARIO CAPTURE	CAPTURED	CAPTURE LEVEL	INTERPRETATION
Leisure Travel	0.0%	0 of 25	Low Capture	Low scenario-capture rate for this traveler need. Treat as a priority inspection area (absolute level — not a period-over-period decline).
Couples / Romantic	0.0%	0 of 6	Low Capture	Low scenario-capture rate for this traveler need. Treat as a priority inspection area (absolute level — not a period-over-period decline).
Group / Meeting	0.0%	0 of 10	Low Capture	Low scenario-capture rate for this traveler need. Treat as a priority inspection area (absolute level — not a period-over-period decline).
Celebration	0.0%	0 of 5	Low Capture	Low scenario-capture rate for this traveler need. Treat as a priority inspection area (absolute level — not a period-over-period decline).
Family	0.0%	0 of 5	Low Capture	Low scenario-capture rate for this traveler need. Treat as a priority inspection area (absolute level — not a period-over-period decline).
Wellness	0.0%	0 of 3	Low Capture	Low scenario-capture rate for this traveler need. Treat as a priority inspection area (absolute level — not a period-over-period decline).

Metric = demandCapture.byIntent scenario capture (captured/total). Prior-run territory rates are not published as a comparable series in this edition.

Competitive Movement

Competitive context: 53 Core competitors identified · Competitor-present displacement 63/63 scenarios

> 53 Core competitors identified in the certified competitive set for this period. Competitors appeared in 63 of 63 monitored scenarios when measuring competitor-present displacement (observational co-appearance / absence patterns — not causation). NIZUC Resort & Spa is the most frequent alternative when voco Cancún Zona Hotelera is absent (49 scenarios). Le Blanc Spa Resort Cancún (44) and JW Marriott Cancun Resort & Spa (35) also appear often — displacement is spread across multiple local options. Counts show co-appearance patterns; they do not prove why displacement happens.

COMPETITOR	DISPLACEMENT COUNT
NIZUC Resort & Spa	49
Le Blanc Spa Resort Cancún	44
JW Marriott Cancun Resort & Spa	35
Live Aqua Beach Resort Cancún	33
Sunscape Cancún All-Inclusive Resort & Spa	33

Competitive movement describes co-appearance and absence patterns in monitored answers. It does not establish causation.

Reality Coverage Context

> Only 4 of 27 monitored attributes are consistently recognized (14.8% Reality Coverage). Not every gap deserves equal urgency. Actionable now: Family-Friendly; Waterfront Location. Directly overlaps family-oriented representation — closing this supports inclusion in the softest traveler-need context.
