Platform Executive Summary

BIGGEST STRENGTH

Often placed near the top when AI ranks hotels

Among AI answers where hotel ranking could be measured, The Westin Monterrey Valle appeared in the Top 3 71.4% of the time. This shows how prominently the hotel is positioned when AI includes it.

BIGGEST CONSTRAINT

Not appearing consistently in AI answers

The hotel appeared in at least one AI answer for 85.4% of the traveler needs we tested, but across all individual AI answers it appeared 27.1% of the time. In practical terms, AI recognizes the hotel as relevant for many types of trips, but a traveler will not consistently see it among the hotel options surfaced.

CHANGE SINCE LAST COMPARABLE RUN

No comparable prior official period yet

No comparable prior official monitoring period is available yet. This period can be evaluated on its own; change over time is not shown.

Executive Conclusion

The Westin Monterrey Valle reaches many monitored demand scenarios, but consideration consistency is the primary constraint.

What the Data Is Telling Us

Scenario Presence at 83.3% shows broad recognition across monitored traveler needs. AI Consideration at 26.2% shows that recognition does not consistently convert into selection in individual answers. The management problem is inclusion consistency — not awareness. Softness concentrates in Family Travel; Group / Meeting, Leisure Travel, and Business Travel remain stronger. When the hotel is absent, JW Marriott Hotel Monterrey Valle most often appears (4 scenarios).

Why It Matters

Broad scenario reach without consistent appearance in AI answers means the hotel is known in the demand set but not reliably carried into traveler-facing answers. Management attention should start with consistency of representation, not with assuming the hotel needs an entirely new competitive set.

Where the Pattern Is Concentrated

Family Travel is the softest Scenario Capture at 60.0%, while Group / Meeting, Leisure Travel, and Business Travel show broader coverage. The inclusion issue is concentrated, not universal. JW Marriott Hotel Monterrey Valle appears most often when the hotel is missing (4 scenarios) — use that pattern for source and fact checks, not as proof of cause. Reality Coverage is 45.0% (9 of 20 attributes). Start with gaps that matter operationally — beginning with Financial Center Location.

What Management Should Focus On Now

Focus first on consistency of representation for Family Travel. Confirm priority sources present the same use cases and attributes that appear in scenarios where the hotel is absent, and close gaps that repeatedly coincide with cases where the hotel is missing.

What Not to Overreact To

No comparable prior official period is available — read these as current levels, not period-over-period change.

What to Review Next

Compare high-presence versus low-consideration scenarios and inspect which sources and attributes appear when the hotel is missing. Use that evidence pack before changing channel strategy.

2. Demand & Competitive Movement

Material Movement

No material movement rows in this period.

Demand Movement

> Family Travel is the clearest softness at 60.0% Scenario Capture. Group / Meeting, Leisure Travel, and Business Travel show broader coverage — the inclusion issue is concentrated rather than universal. These are current-period levels, not trend.

DEMAND TERRITORY	SCENARIO CAPTURE	CAPTURED	CAPTURE LEVEL	INTERPRETATION
Family	60.0%	3 of 5	Partial Capture	Partial scenario capture. Review whether missing scenarios share a common attribute or competitor pattern.
Wellness	66.7%	2 of 3	Partial Capture	Partial scenario capture. Review whether missing scenarios share a common attribute or competitor pattern.
Celebration	75.0%	3 of 4	Partial Capture	Partial scenario capture. Review whether missing scenarios share a common attribute or competitor pattern.
Couples / Romantic	85.7%	6 of 7	Partial Capture	Partial scenario capture. Review whether missing scenarios share a common attribute or competitor pattern.
Group / Meeting	87.5%	7 of 8	Partial Capture	Partial scenario capture. Review whether missing scenarios share a common attribute or competitor pattern.
Leisure Travel	88.9%	8 of 9	Partial Capture	Partial scenario capture. Review whether missing scenarios share a common attribute or competitor pattern.

Metric = demandCapture.byIntent scenario capture (captured/total). Prior-run territory rates are not published as a comparable series in this edition.

Competitive Movement

Competitive context: 6 Core competitors identified · Competitor-present displacement 42/48 scenarios

> 6 Core competitors identified in the certified competitive set for this period. Competitors appeared in 42 of 48 monitored scenarios when measuring competitor-present displacement (observational co-appearance / absence patterns — not causation). JW Marriott Hotel Monterrey Valle is the most frequent alternative when The Westin Monterrey Valle is absent (4 scenarios). Hilton Monterrey Valle (2) and AC Hotel by Marriott Monterrey Valle (1) also appear often — displacement is spread across multiple local options. Counts show co-appearance patterns; they do not prove why displacement happens.

COMPETITOR	DISPLACEMENT COUNT
JW Marriott Hotel Monterrey Valle	4
Hilton Monterrey Valle	2
AC Hotel by Marriott Monterrey Valle	1
Holiday Inn Monterrey Valle	1
Novotel Monterrey Valle	1

Competitive movement describes co-appearance and absence patterns in monitored answers. It does not establish causation.

Reality Coverage Context

> Only 9 of 20 monitored attributes are consistently recognized (45.0% Reality Coverage). Not every gap deserves equal urgency. Actionable now: Financial Center Location; Business District Location. Location identity is foundational for traveler recognition and often overlaps weaker local-demand scenarios. Validate first: On-Site Restaurant; Aimbridge Managed; Digital Key.

Reality Gap Prioritization

ATTRIBUTE	PRIORITY	WHY IT MATTERS OPERATIONALLY
Financial Center Location	Actionable now	Location identity is foundational for traveler recognition and often overlaps weaker local-demand scenarios.
Business District Location	Actionable now	Location identity is foundational for traveler recognition and often overlaps weaker local-demand scenarios.
On-Site Restaurant	Validate first	Rarely recognized today — validate source accuracy before treating as a primary fix.
Aimbridge Managed	Validate first	Rarely recognized today — validate source accuracy before treating as a primary fix.
Digital Key	Validate first	Rarely recognized today — validate source accuracy before treating as a primary fix.

3. Evidence Review

EVIDENCE 01

Scenarios where subject is absent

Provider: Cross-provider

Observation: JW Marriott Hotel Monterrey Valle appeared in 4 monitored scenarios where The Westin Monterrey Valle was absent.

Why It Matters: Identifies the competitor most often present when the subject hotel is missing from AI answers.

Management Review: Compare public positioning and third-party descriptions against this competitor for the traveler needs where displacement concentrates.

EVIDENCE 02

Property reality attributes

Provider: All Providers

Observation: Business District Location recognized in 5.7% of applicable monitored answers (6 of 106).

Why It Matters: This attribute is part of the monitored property proposition but is infrequently reflected in AI answers.

Management Review: Verify whether “Business District Location” is accurately and consistently described on the hotel website and major booking/travel platforms.

4. Management Action Agenda

> Actions are sequenced against the primary inclusion issue. Priority 1 addresses inconsistent answer selection where competitors appear; Priority 2 supports representation; Monitor items are supporting hygiene.

ACTION 01

Reconcile public facts for traveler needs where a named competitor appears and the subject hotel is absent

PRIORITY 1 | OPEN | Owner: General Manager + Marketing Lead | Due: Date to be confirmed

Most directly addresses inconsistent inclusion where competitors appear in the hotel's absence.

OBSERVED ISSUE

JW Marriott Hotel Monterrey Valle appeared in 4 monitored scenarios where The Westin Monterrey Valle was absent.

RECOMMENDED ACTION — IMPLEMENTATION STEPS

1. Confirm the hotel's canonical facts for Competitive displacement with the accountable owner (The Westin Monterrey Valle).
2. Complete the applicable checklist items: list traveler needs / scenarios where absence concentrates; identify subject facts that are missing or inconsistent on priority sources; update first-party pages covering those facts.
3. Audit each target source and record current wording/state: Hotel Website; TripAdvisor; Google Business Profile; Booking.com.
4. Correct only the sources where facts are missing, conflicting, or outdated. Do not change measurement methodology.
5. Compare public facts credited to JW Marriott Hotel Monterrey Valle in displacement evidence against the subject hotel's corrected pages; close only evidence-backed gaps.
6. Store completion evidence (canonical policy summary, sources reviewed, sources corrected, URLs/screenshots, completion date).
7. Notify Dealality of completion so the next monitoring period can check the expected signal without assuming causation.

TARGET SOURCES

Hotel Website; TripAdvisor; Google Business Profile; Booking.com

DEFINITION OF DONE

- Canonical facts for "Competitive displacement" are confirmed by hotel management.
- Each target source is reviewed: Hotel Website; TripAdvisor; Google Business Profile; Booking.com.
- Sources that were incorrect or incomplete are corrected, with URLs or screenshots stored.
- The specific missing/inconsistent items are resolved: list traveler needs / scenarios where absence concentrates; identify subject facts that are missing or inconsistent on priority sources; update first-party pages covering those facts.
- Accountable owner signs off with completion date.

EXPECTED SIGNAL

Dealality will monitor whether competitive displacement recognition and related scenario inclusion change in the next monitoring period. Monitoring alone does not establish causation.

NEXT MONITORING CHECK

Next published ADP run — review Competitive displacement attribute recognition, related demand-territory presence, and evidence excerpts for the corrected facts.

ACTION 02

Align first-party and OTA room descriptions with recurring expectation mismatches in evidence

PRIORITY 2 | OPEN | Owner: Director of Marketing / Revenue Marketing | Due: Date to be confirmed

Material follow-on work after the primary inclusion and source-reconciliation focus.

OBSERVED ISSUE

AI Consideration is 26.2% with Reality Coverage 45.0%. High-severity reality gaps indicate stay-expectation descriptions may contribute to under-inclusion.

RECOMMENDED ACTION — IMPLEMENTATION STEPS

1. Confirm the hotel's canonical facts for Room expectation alignment with the accountable owner (The Westin Monterrey Valle).
2. Complete the applicable checklist items: identify exact recurring expectation mismatch; update first-party room descriptions; verify OTA room-type descriptions; ensure imagery accurately reflects room type.
3. Audit each target source and record current wording/state: Hotel Website; OTA Room-Type Descriptions; Booking.com; Expedia.
4. Correct only the sources where facts are missing, conflicting, or outdated. Do not change measurement methodology.
5. Store completion evidence (canonical policy summary, sources reviewed, sources corrected, URLs/screenshots, completion date).
6. Notify Dealality of completion so the next monitoring period can check the expected signal without assuming causation.

TARGET SOURCES

Hotel Website; OTA Room-Type Descriptions; Booking.com; Expedia

DEFINITION OF DONE

- Canonical facts for "Room expectation alignment" are confirmed by hotel management.
- Each target source is reviewed: Hotel Website; OTA Room-Type Descriptions; Booking.com; Expedia.
- Sources that were incorrect or incomplete are corrected, with URLs or screenshots stored.
- The specific missing/inconsistent items are resolved: identify exact recurring expectation mismatch; update first-party room descriptions; verify OTA room-type descriptions; ensure imagery accurately reflects room type.
- Accountable owner signs off with completion date.

EXPECTED SIGNAL

Dealality will monitor whether room expectation alignment recognition and related scenario inclusion change in the next monitoring period. Monitoring alone does not establish causation.

NEXT MONITORING CHECK

Next published ADP run — review Room expectation alignment attribute recognition, related demand-territory presence, and evidence excerpts for the corrected facts.

ACTION 03

Stand up a TripAdvisor management-response program with owner, SLA, and theme tracking

MONITOR | OPEN | Owner: Guest Experience / Reputation Owner | Due: Date to be confirmed

Important hygiene or reputation work — support the primary inclusion agenda rather than lead it.

OBSERVED ISSUE

TripAdvisor appears in 49% of cited sources in the current monitoring period (24 citations), making response quality and factual corrections operationally material when misconceptions appear.

RECOMMENDED ACTION — IMPLEMENTATION STEPS

1. Confirm the hotel's canonical facts for TripAdvisor responses with the accountable owner (The Westin Monterrey Valle).

2. Complete the applicable checklist items: designate accountable owner; set response SLA (property-configured; do not invent a default unless governed); identify recurring complaint themes monthly; correct factual misconceptions where appropriate; track response rate.
3. Audit each target source and record current wording/state: TripAdvisor.
4. Correct only the sources where facts are missing, conflicting, or outdated. Do not change measurement methodology.
5. Store completion evidence (canonical policy summary, sources reviewed, sources corrected, URLs/screenshots, completion date).
6. Notify Dealality of completion so the next monitoring period can check the expected signal without assuming causation.

TARGET SOURCES

TripAdvisor

DEFINITION OF DONE

- Canonical facts for “TripAdvisor responses” are confirmed by hotel management.
- Each target source is reviewed: TripAdvisor.
- Sources that were incorrect or incomplete are corrected, with URLs or screenshots stored.
- The specific missing/inconsistent items are resolved: designate accountable owner; set response SLA; identify recurring complaint themes monthly; correct factual misconceptions where appropriate; track response rate.
- Accountable owner signs off with completion date.

EXPECTED SIGNAL

Dealality will monitor whether tripadvisor responses recognition and related scenario inclusion change in the next monitoring period. Monitoring alone does not establish causation.

NEXT MONITORING CHECK

Next published ADP run — review TripAdvisor responses attribute recognition, related demand-territory presence, and evidence excerpts for the corrected facts.

5. Accountability & Decisions

Prior Action Review

No prior monthly actions are available yet.

Decisions Required

1. Confirm an accountable owner for each open action (role is pre-suggested; named owner still required).
2. Confirm target completion dates for each open action.
3. Confirm whether the corrective action order matches management's operating priority for the next 30 days.
4. Confirm whether any high-severity reality-gap attributes are outdated, incorrect, or intentionally not marketed.
5. Set target dates where currently blank ("Owner to be confirmed" / date pending).

What Dealality Will Monitor Next

- AI Consideration and Scenario Presence versus the next published monitoring run.
- Reality Coverage and high-severity attribute recognition rates.
- Displacement pattern involving JW Marriott Hotel Monterrey Valle.
- Follow-up signal for action: Reconcile public facts for traveler needs where a named competitor appears and the subject hotel is absent — focus: list traveler needs / scenarios where absence concentrates, identify subject facts that are missing or inconsistent on priority sources, update first-party pages covering those facts.
- Follow-up signal for action: Stand up a TripAdvisor management-response program with owner, SLA, and theme tracking — focus: designate accountable owner, set response SLA, identify recurring complaint themes monthly.

This review is composed from the certified published Existing Hotel ADP customer report and the published Independent Positioning pack where available. It does not rerun providers, invent metrics, or claim causation from management actions. Final actions are executable playbooks with target sources, implementation steps, and definition of done. This executive PDF uses the same Dealality AI Demand Performance Review production line as the original certified hotel portfolio (Bethesda master). Content is bound to the certified staged Full ADP report version (staged_mw56u8pu_c449124cb7); it is not a printout of the interactive owner dashboard.
