AI VISIBILITY AUDIT & ACTION PLAN

Hotel Phillips Kansas City, Curio Collection by Hilton

Kansas City, Missouri

INITIAL DIGITAL PRESENCE ASSESSMENT

NOVEMBER 2026

1. Executive Audit Summary

Restore a Verifiable Canonical Source and Complete Core Decision Facts

Hotel Phillips reaches 45 of 60 eligible scenarios and ranks second among six certified Hilton Honors peers, but AI Consideration is 32.1%. The immediate constraint is source control: the supplied canonical domain redirects to Hilton and returned a reference-code/403 response in the bounded probe, while meeting, historic, dining, and location attributes remain incomplete or absent in the certified read.

Performance Snapshot

AI CONSIDERATION	SCENARIO PRESENCE	CERTIFIED PEER POSITION
32.1%	**75.0%**	**#2 of 6**
Mentioned in 77 of 240 comparable monitored AI answers	Present across 45 of 60 eligible traveler-need scenarios	Second-highest presence among 6 certified Hilton Honors peers

AI Consideration is the share of comparable monitored answers mentioning the hotel; Scenario Presence is the share of eligible traveler-need scenarios where it appeared. Certified Peer Position uses the named governed peer set. These measures do not represent bookings, ADR, revenue, or traveler exposure.

Key Findings

1. Confirm and Restore the Intended Canonical Hotel URL

hotelphillips.com redirected to the Hilton property URL. The zero-cost probe then received HTTP 403 with a Hilton reference-code page; separate WebFetch attempts timed out.

Why it matters. The hotel should have one documented canonical source that intended users and approved crawlers can reliably retrieve.

2. Complete the Meetings Decision Package

ADP meeting-space recognition was 34.2% and ballroom recognition was 12.7%. Total space, room count, largest capacity, AV, sales contact, and floor-plan availability require hotel confirmation.

Why it matters. A complete setup-qualified package helps planners verify fit without relying on inferred or stale facts.

3. Establish the Approved Historic and Downtown Fact Set

ADP recorded 0% for historic building, historic Art Deco, National Register listing, downtown Kansas City, Power & Light District, streetcar access, and nearby venue attributes.

Why it matters. Hotel-approved identity and proximity facts can create a consistent source of truth without overstating walking times or landmark relationships.
