AI VISIBILITY AUDIT & ACTION PLAN

JW Marriott Hotel Santo Domingo

Santo Domingo, Dominican Republic

INITIAL DIGITAL PRESENCE ASSESSMENT

NOVEMBER 2026

1. Executive Audit Summary

Protect Category Leadership by Correcting Stale and Conflicting Official Facts

JW Marriott Hotel Santo Domingo holds the strongest certified peer position in its four-hotel set and appears in 47 of 48 eligible scenarios. The immediate opportunity is fact control: remove or date a 2024 pool-maintenance alert, reconcile event-room terminology, and make verified dining, BlueMall/Piantini, and access facts consistently usable.

Performance Snapshot

AI CONSIDERATION	SCENARIO PRESENCE	CERTIFIED PEER POSITION
65.1%	**97.9%**	**#1 of 4**
Mentioned in 125 of 192 comparable monitored AI answers	Present across 47 of 48 eligible traveler-need scenarios	Highest presence among 4 certified Marriott Bonvoy peers

AI Consideration is the share of 192 comparable monitored answers mentioning the hotel; Scenario Presence is the share of 48 eligible traveler-need scenarios where it appeared. Certified Peer Position uses the four-hotel Marriott Bonvoy set. These measures do not represent bookings, ADR, revenue, or traveler exposure.

Key Findings

1. A Stale Pool Notice Creates Current-State Ambiguity

The official overview still says the pool will remain closed from January 21, 2024 while the same page markets a complimentary outdoor infinity pool.

Why it matters. Guests and automated systems need a dated, current operating status.

2. Event Inventory Uses Competing Labels

The overview markets nine venues while the events page reports five event rooms and seven breakout rooms.

Why it matters. A setup-qualified inventory avoids planner confusion without treating divisible spaces as errors.

3. Dining Exists but Is Absent From the ADP Attribute Read

Winston's, Vertygo 101, and 24-hour in-room dining are official, while restaurant and in-room dining recognition were 0%.

Why it matters. This is a content-priority signal, not proof that content caused measured performance.

Recommended Priorities

2. Priority Findings & Opportunities

The most important verified corrections and opportunities for this hotel. Full research detail remains in the AVA record.

PRIORITY: HIGH · **PLATFORM:** MARRIOTT OVERVIEW

Issue: The official overview says the pool will remain closed for maintenance from January 21, 2024, gives no end date, and also lists a complimentary outdoor pool and infinity-pool experience.

Why it matters: An undated current-state conflict can mislead prospective guests and downstream systems.

1. Operations confirms current pool status.
2. Digital removes the alert or adds an accurate end date and status.
3. Align overview, amenities, booking disclosures, and partner feeds.

2. Define room, venue, breakout, and divisible-section counting rules.
3. Update headline labels without double-counting.
4. Verify capacities against the signed chart.
5. Hotel leadership records the approved source of truth and scope.

Responsible party: Director of Sales / Hotel Operations

Evidence: Marriott overview
