AI VISIBILITY AUDIT & ACTION PLAN

Sheraton Guadalajara Expo

Guadalajara, Jalisco

INITIAL DIGITAL PRESENCE ASSESSMENT

NOVEMBER 2026

1. Executive Audit Summary

Resolve Meetings Facts and Clarify a Strong Expo-Area Proposition

Sheraton Guadalajara Expo appears in 47.6% of eligible traveler-need scenarios, while AI Consideration is 11.9% and the weighted attribute Reality Gap is 58.0%. These measures do not diagnose a website cause. The immediate verified issue is a public meetings inconsistency: the overview says more than 400 square metres, while the events page reports 12 rooms, 1,654 square metres, and a largest capacity of 500. After sales establishes one approved capacity record, the hotel can present its Expo Guadalajara location, meetings offer, dining, spa, lounge, pool, and pet policy more consistently.

Performance Snapshot

AI CONSIDERATION	SCENARIO PRESENCE	REALITY GAP
11.9%	**47.6%**	**58.0%**
Mentioned in 30 of 252 comparable monitored AI answers	Present across 30 of 63 eligible traveler-need scenarios	Weighted attribute gap under RG_WEIGHTED_PARTIAL_V2 — not a booking metric

AI Consideration is the share of 252 comparable monitored answers mentioning the hotel; Scenario Presence is the share of 63 eligible scenarios where it appeared. Reality Gap is a weighted attribute-recognition diagnostic covering 25 tested attributes. None represents bookings, revenue, rank, or traveler exposure.

Key Findings

1. Meetings Facts Need Reconciliation

The overview uses a broad statement of more than 400 square metres, while the events page reports 12 rooms, 1,654 square metres, and Diamante capacity of 500.

Why it matters. Planners and automated systems need one setup-qualified source of truth rather than materially different public figures.

2. Expo and Convention Positioning Is Defensible

Official content places the hotel near Expo Guadalajara and includes FIFA World Cup 2026 messaging.

Why it matters. Consistent location and meetings facts can improve buyer context without promising consideration, ranking, or booking gains.

3. Hotel Assets Need Disciplined Presentation

MATRIA, QUIDEA Spa, the Platinum-and-above Sheraton Lounge benefit, outdoor pool, and pet policy are buyer-relevant official signals.

Why it matters. Accurate, maintained descriptions help travelers and planners assess fit; the measured gap does not prove these pages are defective.

Recommended Priorities

PRIORITY	ACTION	DESIRED OUTCOME
High	Sales and operations: reconcile meeting area, rooms, and capacities	One signed setup-qualified meetings schedule
High	Commercial team: align Expo, convention, and meetings positioning	Consistent buyer-ready location and event context
Medium	Marketing: audit dining, spa, lounge, pool, and pet signals	Accurate asset descriptions across priority pages
Medium	Marriott digital: review bounded crawler access behavior	Documented security-aligned access posture

EXECUTIVE TAKEAWAY

The practical opportunity is disciplined fact control. Resolve the meetings contradiction first, then organize verified Expo-area and on-property strengths into clear buyer context. Future movement should be measured without promising rankings, bookings, or revenue. Digital authority: Expo adjacency is the authority story—not generic directory volume.

2. Priority Findings & Opportunities

The most important verified corrections and opportunities for this hotel. Full research detail remains in the AVA record.

PRIORITY: HIGH · **PLATFORM:** OFFICIAL OVERVIEW

Issue: The overview says more than 400 square metres; the events page reports 12 rooms, 1,654 square metres, and Diamante capacity of 500.

Why it matters: Conflicting official figures create avoidable planner uncertainty and can be repeated by search and AI systems.

Recommended action: Reconcile Public Meetings Facts

1. Sales signs a room-by-room schedule with setup capacities and total usable area.
2. Define whether the overview figure refers to a subset of space.
3. Submit field-level corrections to Marriott content owners.
4. Verify both pages against the signed schedule.
5. A signed schedule explains the 400-plus and 1,654-square-metre figures.

Responsible party: Director of Sales / Hotel Operations

Evidence: Official overview

PRIORITY: MEDIUM · **PLATFORM:** OFFICIAL OVERVIEW

Issue: Official content places the hotel near Expo Guadalajara and includes FIFA World Cup 2026 messaging alongside a substantial meetings offer.

Why it matters: Consistent official context can help planners assess fit, but it cannot guarantee future AI presence, rankings, or bookings.

Recommended action: Align Expo and Convention Positioning

1. Complete the related action first.
2. Approve durable Expo Guadalajara and convention-location facts.
3. Separate evergreen location copy from time-bounded World Cup messaging.
4. Align overview, events, sales collateral, and priority partner listings.
5. Leadership signs an Expo and convention positioning brief.

Responsible party: Hotel Commercial Leadership

Evidence: Official overview

PRIORITY: MEDIUM · **PLATFORM:** OFFICIAL OVERVIEW

Issue: Official content identifies MATRIA restaurant, QUIDEA Spa, a Sheraton Lounge benefit for Platinum members and above, an outdoor pool, and pet access.

Why it matters: Clear asset descriptions support informed decisions; the 58.0% Reality Gap is a prioritization diagnostic, not proof of a website defect.

Recommended action: Clarify Dining, Spa, Lounge, Pool, and Pet Signals

1. Operations confirms names, hours, access rules, fees, and seasonal limitations.
2. Marketing audits official and priority partner descriptions.
3. Submit only approved factual corrections.
4. Verify live copy and booking-path disclosures.
5. Operations signs a current asset and policy fact sheet.

Responsible party: Hotel Marketing / Operations

Evidence: Official overview

PRIORITY: MEDIUM · **PLATFORM:** OFFICIAL OVERVIEW

Issue: An unintended access mismatch could affect intended crawlers, while broad security changes could create risk.

Why it matters: An unintended access mismatch could affect intended crawlers, while broad security changes could create risk.

Recommended action: Review Automated Access With Marriott

1. Open a Marriott CDN/WAF ticket with request details.
2. Define which automated clients are intended to access the page.
3. Approve only narrow security-safe changes if a conflict is confirmed.
4. Retest the property URL from agreed clients.
5. A technical note explains the response and intended crawler policy.

Evidence: Official overview

PRIORITY: MEDIUM · **PLATFORM:** EXPO GUADALAJARA

Issue: Expo Guadalajara is a verified demand-adjacent authority; hotel-specific outbound Marriott backlink was not confirmed in this public pass.

Why it matters: Planners researching Expo-area lodging need a correct official path once capacities are clean.

Recommended action: Pursue Expo/Destination Profile With Official Marriott Hyperlink

1. Finish the related action meetings source-of-truth.
2. Identify Expo/destination lodging inventory owner.
3. Submit approved profile + Marriott URL.
4. Archive live listing evidence.
5. Opportunity owner and required facts confirmed with hotel leadership.

Responsible party: Director of Sales / Hotel Commercial

Evidence: Expo Guadalajara

3. Digital Platform Assessment

Exact verified listings where available. Rows distinguish corrections, content improvements, distribution opportunities, verified-consistent listings, partial assessments, and research follow-ups. Access restrictions are not treated as content defects.

7. Methodology & Limitations

Dealality AVA assesses the hotel's public digital presence. Listing existence and content assessment are tracked separately; Google Travel entities are not treated as Google Business Profile / Maps place listings. Assessment date: 2026-11-05. Readiness: see certification. ADP traveler-intent detail is limited to the Executive Audit Summary.
