AI VISIBILITY AUDIT & ACTION PLAN

Spice Island Beach Resort

Grenada

INITIAL DIGITAL PRESENCE ASSESSMENT

NOVEMBER 2026

1. Executive Audit Summary

Strong AI Visibility, With Opportunities to Improve Digital Accuracy and Control

Spice Island Beach Resort is well positioned in the AI travel searches monitored by Dealality, ranking first among its certified competitive group. This provides a strong foundation as more travelers turn to AI when researching hotels and destinations.

Performance Snapshot

AI CONSIDERATION	SCENARIO PRESENCE	CERTIFIED PEER POSITION
70.2%	**98.4%**	**#1 of 6**
Share of monitored AI answers that mentioned the resort	Traveler-need scenarios where the resort appeared	Strongest overall presence in the certified peer set

These metrics describe presence in monitored AI answers—not booking conversion or traveler exposure.

Key Findings

1. Hotel Information Accuracy

The official website lists a Michelin Star for Oliver Restaurant that does not match Michelin's published One MICHELIN Key recognition. Selected travel sites also show different suite sizes and offer terms than the official site.

Why it matters. Guests and advisors expect accurate luxury details. Conflicts create uncertainty and booking friction.

2. Digital Presence and Information Control

An independently operated booking site uses a domain similar to the official website, and a staging hostname appeared in limited AI citations. Some automated requests to the official site were blocked in research testing.

Why it matters. Confirm which sites represent the resort and whether intended search and AI systems can reach official content before changing access settings.

3. Selective Commercial Opportunities

There is no guest-facing official page for intimate executive retreats or exclusive gatherings—only a post-stay conference feedback form.

Why it matters. Clearer presentation could attract appropriately sized inquiries if management wants that demand. Pursue only if commercially attractive.

Recommended Priorities

PRIORITY	ACTION	DESIRED OUTCOME
High	Correct award information	Accurate Michelin recognition on official channels
High	Align suite and offer details	Consistent facts for guests and travel partners
Medium	Investigate independent sites and automated access	Clearer ownership and verified technical access
Optional	Evaluate an executive-retreat opportunity	Qualified demand aligned with resort positioning

EXECUTIVE TAKEAWAY

Spice Island's AI visibility is already a competitive strength. The immediate opportunity is to protect that position by correcting inaccurate information, improving consistency across digital channels, and ensuring the resort's official content is readily accessible. These targeted actions establish a practical foundation for continued monitoring and improvement.

2. Priority Findings & Opportunities

The most important verified corrections and opportunities for this hotel. Full research detail remains in the AVA record.

PRIORITY: MEDIUM · **PLATFORM:** OFFICIAL DINING PAGE (STRUCTURED AWARD DATA)

Issue: Dining-page structured data lists a Michelin Star for Oliver; Michelin's hotel listing shows One MICHELIN Key for the resort.

Why it matters: Unsupported Star language risks reputation if checked against Michelin and can be repeated by AI systems. Correction protects accuracy; it does not guarantee more mentions or revenue.

Recommended action: Correct Inaccurate Michelin Award Information on the Official Website

1. Hotel confirms Key year/status and that Oliver has no restaurant Star.
2. Agency removes unsupported Star from Oliver Restaurant structured data.
3. If approved, add One MICHELIN Key only at hotel-level awards metadata.
4. Replace brand placeholder "Unmanaged" with the hotel-approved brand string.
5. Verify and archive before/after evidence.

Responsible party: Hotel GM / Commercial Leadership

Evidence: Official dining page (structured award data)

PRIORITY: MEDIUM · **PLATFORM:** OFFICIAL ROOMS PAGE — SEAGRAPE 945 SQ FT

Issue: Official Seagrape size and honeymoon minimum differ from Pure Grenada and/or the independent booking host at research time.

Why it matters: Guests comparing channels should see the same facts. Corrections improve consistency; they do not automatically lift AI rankings or bookings.

Recommended action: Align Suite Sizes, Offer Rules, and Public Titles Across Trusted Listings

1. Hotel signs a one-page source-of-truth sheet.
2. Agency diffs Pure Grenada and authorized partners against the sheet.
3. Submit correction requests only for confirmed fields.
4. Log before/after notes per URL; skip tone-only OTA rewrites without a factual conflict.
5. Signed source-of-truth sheet compared to named live URLs; mismatches logged.

Responsible party: Hotel Commercial Owner

Evidence: Official rooms page — Seagrape 945 sq ft

PRIORITY: MEDIUM · **PLATFORM:** BOOKRESORTS ABOUT PAGE

Issue: BookResorts positions itself as an independent agency on a similar domain; limited AI citations also referenced staging. Authorization unknown.

Why it matters: Similar domains can be treated as hotel-affiliated. Confirm control before brand/fact alignment or other steps. Resolving ownership does not by itself change AI peer rankings.

Recommended action: Clarify the BookResorts Relationship, Staging Website, and Automated Access Context

1. Hotel confirms whether BookResorts is authorized.
2. If yes: align facts/branding to the source-of-truth sheet.
3. If no: hotel decides commercial/legal next steps with advisors.
4. Confirm staging hostname control; restrict if unintended.
5. Document the decision for agency and monthly tracking.

Responsible party: Hotel GM / Commercial Leadership

Evidence: BookResorts About page

PRIORITY: MEDIUM · **PLATFORM:** OFFICIAL HOMEPAGE

Issue: Unintended crawler blocks can push automated systems toward secondary sources. A CDN review clarifies risk; it does not guarantee higher AI visibility.

Why it matters: Unintended crawler blocks can push automated systems toward secondary sources. A CDN review clarifies risk; it does not guarantee higher AI visibility.

Recommended action: Review Website Access for Search Engines and AI Systems

1. Agency opens a CDN/security ticket describing the research 403 pattern.
2. Hotel approves any production allowlist change before it is applied.
3. Retest homepage and key pages; file results.
4. If a rule change is needed: hotel-approved change request submitted to the CDN partner.
5. Agreed test clients retest homepage/key pages; before/after status codes documented.

Responsible party: Digital Marketing Agency

Evidence: Official homepage

PRIORITY: MEDIUM · **PLATFORM:** OFFICIAL WEBSITE

Issue: not a comprehensive paid link inventory.

Why it matters: Specific outreach over SEO volume

Recommended action: Qualify Destination/Partner Listing With Official URL

1. Identify inventory
2. Submit profile
3. Classify honestly
4. Opportunity owner and required facts confirmed with hotel leadership.
5. Outreach or listing update request filed with supporting evidence.

Responsible party: Hotel Sales / Marketing

Evidence: Official website

PRIORITY: MEDIUM · **PLATFORM:** OFFICIAL WEBSITE

Issue: Confirm that meetings, dining, and amenities facts on the official page match the hotel's approved source of truth; align third-party listings after confirmation.

Why it matters: Digital content readiness depends on one approved source of truth before third-party outreach.

Recommended action: Confirm and align official facts for Spice Island Beach Resort

1. Establish one approved fact sheet; update the official page first; then cascade to GBP/OTAs when values are confirmed.
2. Do not change unconfirmed values on OTAs until the hotel approves the fact sheet.
3. Opportunity owner and required facts confirmed with hotel leadership.
4. Outreach or listing update request filed with supporting evidence.
5. Live destination/partner page checked and archived after update (or documented refusal).

Responsible party: Hotel Sales & Marketing

Evidence: Official website

3. Digital Platform Assessment

Exact verified listings where available. Rows distinguish corrections, content improvements, distribution opportunities, verified-consistent listings, partial assessments, and research follow-ups. Access restrictions are not treated as content defects.

PLATFORM	LISTING	ASSESSMENT	FINDING	NEXT ACTION
No platform rows packaged.				

4. Website & Content Improvements

Specific hotel or brand pages that affect how travelers understand and select the property. This section does not repeat ADP traveler-intent analysis.

Page: Official dining page (structured award data)

Issue: Dining-page structured data lists a Michelin Star for Oliver; Michelin's hotel listing shows One MICHELIN Key for the resort.

Recommended action: Correct Inaccurate Michelin Award Information on the Official Website

1. Hotel confirms Key year/status and that Oliver has no restaurant Star.
2. Agency removes unsupported Star from Oliver Restaurant structured data.
3. If approved, add One MICHELIN Key only at hotel-level awards metadata.
4. Replace brand placeholder "Unmanaged" with the hotel-approved brand string.

Why it matters: Unsupported Star language risks reputation if checked against Michelin and can be repeated by AI systems. Correction protects accuracy; it does not guarantee more mentions or revenue.

5. Digital Authority & Backlink Opportunities

Public research verified 2 property-specific third-party hyperlink(s) and 5 external reference(s). Brand and hotel-operated destinations were evaluated separately.

UNLINKED MENTION

Source: Spice Island Beach Resort - Grenada Hotel & Tourism Association

Observation: Hotel mentioned in page text; no property-specific hyperlink confirmed.

Commercial relevance: Official destination pages influence how visitors evaluate lodging options in this market.

Recommended action: Ask the destination organization to add or correct the property-specific hyperlink to the hotel-approved URL.

Responsible party: Hotel Marketing / Partnerships

UNLINKED MENTION

Source: Spice Island Beach Resort | hospitality in Grand Anse Beach, St. George's, GD | CARICOM Business Hub | CARICOM Business Hub — Caribbean B2B Directory

Observation: Hotel mentioned in page text; no property-specific hyperlink confirmed.

Commercial relevance: This business / destination association listing already mentions Spice Island Beach Resort; adding the correct official URL makes the reference actionable.

Recommended action: Contact Spice Island Beach Resort | hospitality in Grand Anse Beach, St. George's, GD | CARICOM Business Hub | CARICOM Business Hub — Caribbean B2B Directory to request a property-specific hyperlink to the hotel's approved official website where the publisher allows it.

Responsible party: Hotel Marketing / Partnerships

VERIFIED HEALTHY BACKLINK

Source: SPICE ISLAND BEACH RESORT

Observation: SPICE ISLAND BEACH RESORT (referring website) includes a verified property-specific hyperlink to http://www.spiceislandbeachresort.com/.

Commercial relevance: This referring website already provides a working referral path for travelers who discover Spice Island Beach Resort through that channel.

Destination: Official / approved hotel URL — Destination matches a verified hotel/brand URL.

Recommended action: No correction required. Periodically confirm the live destination still resolves to the hotel-approved URL.

Responsible party: Hotel Marketing / Partnerships

UNLINKED MENTION

Source: Spice Island Beach Resort | Hotels | Air Canada Vacations

Observation: Hotel mentioned in page text; no property-specific hyperlink confirmed.

Commercial relevance: This referring website already mentions Spice Island Beach Resort; adding the correct official URL makes the reference actionable.

Recommended action: Contact Spice Island Beach Resort | Hotels | Air Canada Vacations to request a property-specific hyperlink to the hotel's approved official website where the publisher allows it.

Responsible party: Hotel Marketing / Partnerships

UNLINKED MENTION · 2 PAGES

Source: Meetings & Events - Spice Island Beach Resort · Related page 2

Observation: Hotel mentioned in page text; no property-specific hyperlink confirmed.

Commercial relevance: This referring website already mentions Spice Island Beach Resort; adding the correct official URL makes the reference actionable.

Recommended action: Contact Meetings & Events - Spice Island Beach Resort to request a property-specific hyperlink to the hotel's approved official website where the publisher allows it.

Responsible party: Hotel Marketing / Partnerships

VERIFIED HEALTHY BACKLINK

Source: Spice Island Beach Resort Redefines Corporate Gatherings

Observation: Spice Island Beach Resort Redefines Corporate Gatherings (travel publication) includes a verified property-specific hyperlink to http://www.spiceislandbeachresort.com/.

Commercial relevance: This travel publication already provides a working referral path for travelers who discover Spice Island Beach Resort through that channel.

Destination: Official / approved hotel URL — Destination matches a verified hotel/brand URL.

Recommended action: No correction required. Periodically confirm the live destination still resolves to the hotel-approved URL.

Responsible party: Hotel Marketing / Partnerships

Full referring-domain inventory is retained in AVA research records — not printed here. Directory presence is not counted as a backlink. Healthy existing backlinks are not listed as problems.

6. Implementation Roadmap

Same canonical actions as Priority Findings — execution view only. Escalate brand-controlled edits through the brand digital team when the hotel cannot edit the page directly.

7. Methodology & Limitations

Dealality AVA assesses the hotel's public digital presence. Listing existence and content assessment are tracked separately; Google Travel entities are not treated as Google Business Profile / Maps place listings. Assessment date: 2026-11-05. Readiness: see certification. ADP traveler-intent detail is limited to the Executive Audit Summary.
