AI VISIBILITY AUDIT & ACTION PLAN

Tampa Airport Marriott

Tampa, Florida

INITIAL DIGITAL PRESENCE ASSESSMENT

NOVEMBER 2026

1. Executive Audit Summary

Clarify In-Terminal Access and Airport-Shuttle Language

Tampa Airport Marriott has a highly distinctive in-terminal proposition, renovated rooms, day-use inventory, three restaurants, an outdoor pool, and renovated event venues, yet it appeared in only 6.5% of eligible scenarios and 2.2% of comparable consideration answers. The immediate work is factual: resolve airport-access and shuttle wording, reconcile event-space totals, and consistently present verified layover, dining, and meeting assets.

Performance Snapshot

AI CONSIDERATION	SCENARIO PRESENCE	CERTIFIED PEER POSITION
2.2%	**6.5%**	**#6 of 6**
Mentioned in 4 of 184 comparable monitored AI answers	Present across 3 of 46 eligible traveler-need scenarios	Lowest presence among 6 certified Marriott Bonvoy peers

AI Consideration is the share of comparable monitored answers mentioning the hotel; Scenario Presence is the share of eligible traveler-need scenarios where it appeared. Certified Peer Position uses only the named certified Marriott Bonvoy set. These measures do not represent bookings, ADR, revenue, or traveler exposure.

Key Findings

1. Clarify In-Terminal Access and Airport-Shuttle Language

The overview describes the hotel as inside TPA with direct terminal access. The getting-here section includes an on-request $0 round trip, another line says the hotel does not provide shuttle service, and the FAQ says an airport shuttle is available.

Why it matters. Travelers need to know whether they walk from the terminal or use a vehicle; ambiguous shuttle language weakens the hotel's defining access advantage.

2. Reconcile Renovated Event-Space Totals

The overview states 25,416 square feet, events marketing says 25,000 square feet, and the events summary reports 25,766 square feet across 17 event rooms with capacity of 700.

Why it matters. Rounding may explain one difference, but the 350-square-foot variance between precise totals requires a signed inventory basis.

3. Make Layover, Dining, Pool, and Rooftop Assets Usable

Marriott verifies renovated soundproof rooms, day-use rooms, Imbarco, Kahwa Coffee, in-room dining, outdoor pool, 24-hour fitness, and rooftop event space. ADP recorded 0% restaurant, room-service, airport-adjacent, and ballroom-capacity recognition.

Why it matters. These facts distinguish the property for disrupted travel, layovers, meetings, and airport stays, but the audit does not claim content caused the measured result.
