AI DEMAND PERFORMANCE REVIEW

Wyndham San Diego Bayside

California

MONTHLY EXECUTIVE REVIEW

OCTOBER 2026 · CURRENT MONITORING OCT 13, 2026 · PRIOR RUN —
PERFORMANCE · COMPETITIVE MOVEMENT · EVIDENCE · ACTIONS · ACCOUNTABILITY

This AI Demand Performance Review is a Dealality executive monitoring report. Measurement methodology is unchanged by presentation. Confidential — for the named recipient only.

1. Executive Performance

No official comparable prior period is available. This review is a current-period baseline read; prior-run trend deltas are not shown.

AI CONSIDERATION

36.1%

SCENARIO PRESENCE

52.4%

REALITY COVERAGE

8.3%

COMPETITIVE POSITION

Hotel del Coronado

Top displacement competitor · 26 scenarios where subject was absent

Platform Executive Summary

BIGGEST STRENGTH

Often placed near the top when AI ranks hotels

Among AI answers where hotel ranking could be measured, Wyndham San Diego Bayside appeared in the Top 3 64.3% of the time. This shows how prominently the hotel is positioned when AI includes it.

BIGGEST CONSTRAINT

Not appearing consistently in AI answers

The hotel appeared in at least one AI answer for 52.4% of the traveler needs we tested, but across all individual AI answers it appeared 36.1% of the time. In practical terms, AI recognizes the hotel as relevant for many types of trips, but a traveler will not consistently see it among the hotel options surfaced.

CHANGE SINCE LAST COMPARABLE RUN

No comparable prior official period yet

No comparable prior official monitoring period is available yet. This period can be evaluated on its own; change over time is not shown.

Executive Conclusion

Wyndham San Diego Bayside's priority is a Reality Gap in how a distinctive part of the proposition is represented in AI answers.

What the Data Is Telling Us

Outdoor Event Space is recognized in only 3.3% of monitored answers. That is low enough to matter commercially if the attribute is part of how the hotel should win relevant traveler needs. Hotel del Coronado also appears in related absent scenarios, which can compound the representation miss. Broader Scenario Presence (52.4%) and Consideration (36.1%) do not, by themselves, prove the distinctive attribute is traveling into answers. Softest Scenario Capture is Family Travel at 40.0%. Hotel del Coronado most often appears when the hotel is missing (26 scenarios).

Why It Matters

If distinctive property attributes are weakly represented, the hotel can look broadly visible while still losing the moments where its real proposition should matter. This is a representation problem first, not automatically a peer-competition program.

Where the Pattern Is Concentrated

Family Travel is the softest Scenario Capture at 40.0%. Focus where the gap is concentrated rather than treating every territory equally. Hotel del Coronado appears most often when the hotel is missing (26 scenarios) — use that pattern for source and fact checks, not as proof of cause. Reality Coverage is 8.3% (1 of 12 attributes). Start with gaps that matter operationally — beginning with Urban Hotel.

What Management Should Focus On Now

Focus first on Outdoor Event Space. Verify first-party and major travel-source completeness for that attribute before treating the issue as a peer-competition problem. Confirm the attribute is stated clearly where AI systems are most likely to read it.

What Not to Overreact To

No comparable prior official period is available — read these as current levels, not period-over-period change.

What to Review Next

Open Reality Gap evidence for Outdoor Event Space and compare recognition cues with official property pages and high-authority travel sources. Then check a small set of related demand scenarios for whether the attribute appears when competitors are named.

2. Demand & Competitive Movement

Material Movement

No material movement rows in this period.

Demand Movement

> Family Travel is the clearest softness at 40.0% Scenario Capture. These are current-period levels, not trend.

DEMAND TERRITORY	SCENARIO CAPTURE	CAPTURED	CAPTURE LEVEL	INTERPRETATION
Family	40.0%	2 of 5	Low Capture	Low scenario-capture rate for this traveler need. Treat as a priority inspection area (absolute level — not a period-over-period decline).
Celebration	42.9%	3 of 7	Low Capture	Low scenario-capture rate for this traveler need. Treat as a priority inspection area (absolute level — not a period-over-period decline).
Couples / Romantic	44.4%	4 of 9	Low Capture	Low scenario-capture rate for this traveler need. Treat as a priority inspection area (absolute level — not a period-over-period decline).
Leisure Travel	45.5%	5 of 11	Low Capture	Low scenario-capture rate for this traveler need. Treat as a priority inspection area (absolute level — not a period-over-period decline).
Group / Meeting	45.5%	5 of 11	Low Capture	Low scenario-capture rate for this traveler need. Treat as a priority inspection area (absolute level — not a period-over-period decline).
Wellness	50.0%	2 of 4	Partial Capture	Partial scenario capture. Review whether missing scenarios share a common attribute or competitor pattern.

Metric = demandCapture.byIntent scenario capture (captured/total). Prior-run territory rates are not published as a comparable series in this edition.

Competitive Movement

> Hotel del Coronado is the most frequent alternative when Wyndham San Diego Bayside is absent (26 scenarios). Pendry San Diego (23) and Fairmont Grand Del Mar (20) also appear often — displacement is spread across multiple local options. Counts show co-appearance patterns; they do not prove why displacement happens.

COMPETITOR	DISPLACEMENT COUNT
Hotel del Coronado	26
Pendry San Diego	23
Fairmont Grand Del Mar	20
The Lodge at Torrey Pines	20
The US Grant, a Luxury Collection Hotel	15

Competitive movement describes co-appearance and absence patterns in monitored answers. It does not establish causation.

Reality Coverage Context

> Only 1 of 12 monitored attributes are consistently recognized (8.3% Reality Coverage). Not every gap deserves equal urgency. Validate first: Urban Hotel; Wedding Venue; Ballroom; Large Ballroom. Monitor: Outdoor Event Space.

Reality Gap Prioritization

ATTRIBUTE	PRIORITY	WHY IT MATTERS OPERATIONALLY
Urban Hotel	Validate first	Rarely recognized today — validate source accuracy before treating as a primary fix.
Wedding Venue	Validate first	Rarely recognized today — validate source accuracy before treating as a primary fix.
Ballroom	Validate first	Rarely recognized today — validate source accuracy before treating as a primary fix.
Large Ballroom	Validate first	Rarely recognized today — validate source accuracy before treating as a primary fix.
Outdoor Event Space	Monitor	Narrow amenity signal; monitor unless evidence shows it coincides with repeated absences.

3. Evidence Review

EVIDENCE 01

Business

Provider: Gemini

Observation: The absolute best upscale hotel directly on North Harbor Drive for a business trip is the **InterContinental San Diego**. Here is why it stands out as the top choice, along with a couple of strong alternatives depending on your specific business needs. --- ### **Top Pick: InterContinental San Diego** *(901 N Harbor Dr)* Opened in late 2018, the InterContinental is the newest purpose-built luxury/upper-upscale hotel…

Why It Matters: Shows a monitored case where the property was not mentioned while alternatives were surfaced.

Management Review: Review whether property information for this traveler need is complete and consistently represented across first-party and major third-party sources.

EVIDENCE 02

Scenarios where subject is absent

Provider: Cross-provider

Observation: Hotel del Coronado appeared in 26 monitored scenarios where Wyndham San Diego Bayside was absent.

Why It Matters: Identifies the competitor most often present when the subject hotel is missing from AI answers.

Management Review: Compare public positioning and third-party descriptions against this competitor for the traveler needs where displacement concentrates.

EVIDENCE 03

Property reality attributes

Provider: All Providers

Observation: Ballroom recognized in 6.6% of applicable monitored answers (6 of 91).

Why It Matters: This attribute is part of the monitored property proposition but is infrequently reflected in AI answers.

Management Review: Verify whether “Ballroom” is accurately and consistently described on the hotel website and major booking/travel platforms.

4. Management Action Agenda

> Actions are sequenced against the primary inclusion issue. Priority 1 addresses inconsistent answer selection where competitors appear; Priority 2 supports representation; Monitor items are supporting hygiene.

ACTION 01

Reconcile public facts for traveler needs where a named competitor appears and the subject hotel is absent

PRIORITY 1 OPEN Owner: General Manager + Marketing Lead Due: Date to be confirmed

Most directly addresses inconsistent inclusion where competitors appear in the hotel's absence.

OBSERVED ISSUE

Hotel del Coronado appeared in 26 monitored scenarios where Wyndham San Diego Bayside was absent.

RECOMMENDED ACTION — IMPLEMENTATION STEPS

1. Confirm the hotel's canonical facts for Competitive displacement with the accountable owner (Wyndham San Diego Bayside).
2. Complete the applicable checklist items: list traveler needs / scenarios where absence concentrates; identify subject facts that are missing or inconsistent on priority sources; update first-party pages covering those facts.
3. Audit each target source and record current wording/state: Hotel Website; TripAdvisor; Google Business Profile; Booking.com.
4. Correct only the sources where facts are missing, conflicting, or outdated. Do not change measurement methodology.
5. Compare public facts credited to Hotel del Coronado in displacement evidence against the subject hotel's corrected pages; close only evidence-backed gaps.
6. Store completion evidence (canonical policy summary, sources reviewed, sources corrected, URLs/screenshots, completion date).
7. Notify Dealality of completion so the next monitoring period can check the expected signal without assuming causation.

TARGET SOURCES

Hotel Website; TripAdvisor; Google Business Profile; Booking.com

DEFINITION OF DONE

- Canonical facts for "Competitive displacement" are confirmed by hotel management.
- Each target source is reviewed: Hotel Website; TripAdvisor; Google Business Profile; Booking.com.
- Sources that were incorrect or incomplete are corrected, with URLs or screenshots stored.
- The specific missing/inconsistent items are resolved: list traveler needs / scenarios where absence concentrates; identify subject facts that are missing or inconsistent on priority sources; update first-party pages covering those facts.
- Accountable owner signs off with completion date.

EXPECTED SIGNAL

Dealality will monitor whether competitive displacement recognition and related scenario inclusion change in the next monitoring period. Monitoring alone does not establish causation.

NEXT MONITORING CHECK

Next published ADP run — review Competitive displacement attribute recognition, related demand-territory presence, and evidence excerpts for the corrected facts.

ACTION 02

Complete the meetings decision package with missing capacity, space, and contact facts

PRIORITY 2 OPEN Owner: Commercial / Sales Lead Due: Date to be confirmed

Material follow-on work after the primary inclusion and source-reconciliation focus.

OBSERVED ISSUE

"Meeting & Event Space" was recognized in only 39.6% of applicable monitored answers (36 of 91; severity LOW).

RECOMMENDED ACTION — IMPLEMENTATION STEPS

1. Confirm the hotel's canonical facts for Meetings information with the accountable owner (Wyndham San Diego Bayside).

2. Complete the applicable checklist items: total meeting space; number of rooms; largest capacity; AV capabilities; meeting sales contact; downloadable floorplans.
3. Audit each target source and record current wording/state: Hotel Website; Google Business Profile; Booking.com; Expedia; TripAdvisor.
4. Correct only the sources where facts are missing, conflicting, or outdated. Do not change measurement methodology.
5. Store completion evidence (canonical policy summary, sources reviewed, sources corrected, URLs/screenshots, completion date).
6. Notify Dealality of completion so the next monitoring period can check the expected signal without assuming causation.

TARGET SOURCES

Hotel Website; Google Business Profile; Booking.com; Expedia; TripAdvisor

DEFINITION OF DONE

- Canonical facts for “Meetings information” are confirmed by hotel management.
- Each target source is reviewed: Hotel Website; Google Business Profile; Booking.com; Expedia; TripAdvisor.
- Sources that were incorrect or incomplete are corrected, with URLs or screenshots stored.
- The specific missing/inconsistent items are resolved: total meeting space; number of rooms; largest capacity; AV capabilities; meeting sales contact; downloadable floorplans.
- Accountable owner signs off with completion date.

EXPECTED SIGNAL

Dealality will monitor whether meetings information recognition and related scenario inclusion change in the next monitoring period. Monitoring alone does not establish causation.

NEXT MONITORING CHECK

Next published ADP run — review Meetings information attribute recognition, related demand-territory presence, and evidence excerpts for the corrected facts.

ACTION 03

Align first-party and OTA room descriptions with recurring expectation mismatches in evidence

PRIORITY 2 OPEN Owner: Director of Marketing / Revenue Marketing Due: Date to be confirmed

Material follow-on work after the primary inclusion and source-reconciliation focus.

OBSERVED ISSUE

AI Consideration is 36.1% with Reality Coverage 8.3%. High-severity reality gaps indicate stay-expectation descriptions may contribute to under-inclusion.

RECOMMENDED ACTION — IMPLEMENTATION STEPS

1. Confirm the hotel’s canonical facts for Room expectation alignment with the accountable owner (Wyndham San Diego Bayside).
2. Complete the applicable checklist items: identify exact recurring expectation mismatch; update first-party room descriptions; verify OTA room-type descriptions; ensure imagery accurately reflects room type.
3. Audit each target source and record current wording/state: Hotel Website; OTA Room-Type Descriptions; Booking.com; Expedia.
4. Correct only the sources where facts are missing, conflicting, or outdated. Do not change measurement methodology.
5. Store completion evidence (canonical policy summary, sources reviewed, sources corrected, URLs/screenshots, completion date).
6. Notify Dealality of completion so the next monitoring period can check the expected signal without assuming causation.

TARGET SOURCES

Hotel Website; OTA Room-Type Descriptions; Booking.com; Expedia

DEFINITION OF DONE

- Canonical facts for “Room expectation alignment” are confirmed by hotel management.
- Each target source is reviewed: Hotel Website; OTA Room-Type Descriptions; Booking.com; Expedia.
- Sources that were incorrect or incomplete are corrected, with URLs or screenshots stored.
- The specific missing/inconsistent items are resolved: identify exact recurring expectation mismatch; update first-party room descriptions; verify OTA room-type descriptions; ensure imagery accurately reflects room type.
- Accountable owner signs off with completion date.

EXPECTED SIGNAL

Dealality will monitor whether room expectation alignment recognition and related scenario inclusion change in the next monitoring period. Monitoring alone does not establish causation.

NEXT MONITORING CHECK

Next published ADP run — review Room expectation alignment attribute recognition, related demand-territory presence, and evidence excerpts for the corrected facts.

ACTION 04

Stand up a TripAdvisor management-response program with owner, SLA, and theme tracking

MONITOR OPEN Owner: Guest Experience / Reputation Owner Due: Date to be confirmed

Important hygiene or reputation work — support the primary inclusion agenda rather than lead it.

OBSERVED ISSUE

TripAdvisor appears in 32.8% of cited sources in the current monitoring period (21 citations), making response quality and factual corrections operationally material when misconceptions appear.

RECOMMENDED ACTION — IMPLEMENTATION STEPS

1. Confirm the hotel’s canonical facts for TripAdvisor responses with the accountable owner (Wyndham San Diego Bayside).
2. Complete the applicable checklist items: designate accountable owner; set response SLA (property-configured; do not invent a default unless governed); identify recurring complaint themes monthly; correct factual misconceptions where appropriate; track response rate.
3. Audit each target source and record current wording/state: TripAdvisor.
4. Correct only the sources where facts are missing, conflicting, or outdated. Do not change measurement methodology.
5. Store completion evidence (canonical policy summary, sources reviewed, sources corrected, URLs/screenshots, completion date).
6. Notify Dealality of completion so the next monitoring period can check the expected signal without assuming causation.

TARGET SOURCES

TripAdvisor

DEFINITION OF DONE

- Canonical facts for “TripAdvisor responses” are confirmed by hotel management.
- Each target source is reviewed: TripAdvisor.
- Sources that were incorrect or incomplete are corrected, with URLs or screenshots stored.
- The specific missing/inconsistent items are resolved: designate accountable owner; set response SLA; identify recurring complaint themes monthly; correct factual misconceptions where appropriate; track response rate.
- Accountable owner signs off with completion date.

EXPECTED SIGNAL

Dealality will monitor whether tripadvisor responses recognition and related scenario inclusion change in the next monitoring period. Monitoring alone does not establish causation.

NEXT MONITORING CHECK

Next published ADP run — review TripAdvisor responses attribute recognition, related demand-territory presence, and evidence excerpts for the corrected facts.

5. Accountability & Decisions

Prior Action Review

No prior monthly actions are available yet.

Decisions Required

1. Confirm an accountable owner for each open action (role is pre-suggested; named owner still required).
2. Confirm target completion dates for each open action.
3. Confirm whether the corrective action order matches management's operating priority for the next 30 days.
4. Confirm whether any high-severity reality-gap attributes are outdated, incorrect, or intentionally not marketed.
5. Set target dates where currently blank ("Owner to be confirmed" / date pending).

What Dealality Will Monitor Next

- AI Consideration and Scenario Presence versus the next published monitoring run.
- Reality Coverage and high-severity attribute recognition rates.
- Displacement pattern involving Hotel del Coronado.
- Follow-up signal for action: Complete the meetings decision package with missing capacity, space, and contact facts — focus: total meeting space, number of rooms, largest capacity.
- Follow-up signal for action: Reconcile public facts for traveler needs where a named competitor appears and the subject hotel is absent — focus: list traveler needs / scenarios where absence concentrates, identify subject facts that are missing or inconsistent on priority sources, update first-party pages covering those facts.

This review is composed from the certified published Existing Hotel ADP customer report and the published Independent Positioning pack where available. It does not rerun providers, invent metrics, or claim causation from management actions. Final actions are executable playbooks with target sources, implementation steps, and definition of done.
