Platform Executive Summary

BIGGEST STRENGTH

Often placed near the top when AI ranks hotels

Among AI answers where hotel ranking could be measured, The Westin Tampa Waterside appeared in the Top 3 72.2% of the time. This shows how prominently the hotel is positioned when AI includes it.

BIGGEST CONSTRAINT

Not appearing consistently in AI answers

The hotel appeared in at least one AI answer for 71.4% of the traveler needs we tested, but across all individual AI answers it appeared 50% of the time. In practical terms, AI recognizes the hotel as relevant for many types of trips, but a traveler will not consistently see it among the hotel options surfaced.

CHANGE SINCE LAST COMPARABLE RUN

No comparable prior official period yet

No comparable prior official monitoring period is available yet. This period can be evaluated on its own; change over time is not shown.

Executive Conclusion

The Westin Tampa Waterside's priority is a Reality Gap in how a distinctive part of the proposition is represented in AI answers.

What the Data Is Telling Us

Scenario Presence at 71.4% shows broad recognition across monitored traveler needs. AI Consideration at 50.0% shows that recognition does not consistently convert into selection in individual answers. The management problem is inclusion consistency — not awareness. Softness concentrates in Family Travel. When the hotel is absent, JW Marriott Tampa Water Street most often appears (16 scenarios).

Why It Matters

If distinctive property attributes are weakly represented, the hotel can look broadly visible while still losing the moments where its real proposition should matter. This is a representation problem first, not automatically a peer-competition program.

Where the Pattern Is Concentrated

Family Travel is the softest Scenario Capture at 40.0%. The inclusion issue is concentrated, not universal. JW Marriott Tampa Water Street appears most often when the hotel is missing (16 scenarios) — use that pattern for source and fact checks, not as proof of cause. Reality Coverage is 41.7% (5 of 12 attributes). Start with gaps that matter operationally — beginning with Wedding Venue.

What Management Should Focus On Now

Focus first on Ballroom. Verify first-party and major travel-source completeness for that attribute before treating the issue as a peer-competition problem. Confirm the attribute is stated clearly where AI systems are most likely to read it.

What Not to Overreact To

No comparable prior official period is available — read these as current levels, not period-over-period change.

What to Review Next

Open Reality Gap evidence for Ballroom and compare recognition cues with official property pages and high-authority travel sources. Then check a small set of related demand scenarios for whether the attribute appears when competitors are named.

2. Demand & Competitive Movement

Material Movement

No material movement rows in this period.

Demand Movement

> Family Travel is the clearest softness at 40.0% Scenario Capture. These are current-period levels, not trend.

DEMAND TERRITORY	SCENARIO CAPTURE	CAPTURED	CAPTURE LEVEL	INTERPRETATION
Family	40.0%	2 of 5	Low Capture	Low scenario-capture rate for this traveler need. Treat as a priority inspection area (absolute level — not a period-over-period decline).
Leisure Travel	63.6%	7 of 11	Partial Capture	Partial scenario capture. Review whether missing scenarios share a common attribute or competitor pattern.
Adventure	66.7%	2 of 3	Partial Capture	Partial scenario capture. Review whether missing scenarios share a common attribute or competitor pattern.
Celebration	71.4%	5 of 7	Partial Capture	Partial scenario capture. Review whether missing scenarios share a common attribute or competitor pattern.
Group / Meeting	72.7%	8 of 11	Partial Capture	Partial scenario capture. Review whether missing scenarios share a common attribute or competitor pattern.
Wellness	75.0%	3 of 4	Partial Capture	Partial scenario capture. Review whether missing scenarios share a common attribute or competitor pattern.

Metric = demandCapture.byIntent scenario capture (captured/total). Prior-run territory rates are not published as a comparable series in this edition.

Competitive Movement

> JW Marriott Tampa Water Street is the most frequent alternative when The Westin Tampa Waterside is absent (16 scenarios). The Epicurean Hotel, Autograph Collection (16) and The Tampa EDITION (14) also appear often — displacement spans both same-brand and broader local options. Counts show co-appearance patterns; they do not prove why displacement happens.

COMPETITOR	DISPLACEMENT COUNT
JW Marriott Tampa Water Street	16
The Epicurean Hotel, Autograph Collection	16
The Tampa EDITION	14
Hotel Haya	8
Grand Hyatt Tampa Bay	7

Competitive movement describes co-appearance and absence patterns in monitored answers. It does not establish causation.

Reality Coverage Context

> Only 5 of 12 monitored attributes are consistently recognized (41.7% Reality Coverage). Not every gap deserves equal urgency. Validate first: Wedding Venue; Ballroom; Large Ballroom.
