AI VISIBILITY & DIGITAL PRESENCE ASSESSMENT

AC Hotel A Coruña

A Coruña, Galicia

AUDIT & ACTION PLAN

NOVEMBER 2026

1. Executive Audit Summary

Protect a Strong Peer Position With Clearer, Consistent Commercial Facts

AC Hotel A Coruña ranks second among six certified Marriott Bonvoy peers and appears in 60.4% of eligible scenarios, but several important facts are either inconsistent across public sources or only partly recognized in the ADP baseline. The immediate task is accuracy: establish one approved meetings record, make the AC Lounge and Matogrande/Expocoruña proposition easier to understand, and confirm that intended automated systems can reach the Spanish content.

Performance Snapshot

AI CONSIDERATION	SCENARIO PRESENCE	CERTIFIED PEER POSITION
34.4%	**60.4%**	**#2 of 6**
Mentioned in 66 of 192 comparable monitored AI answers	Present across 29 of 48 eligible traveler-need scenarios	Second-highest presence among 6 certified Marriott Bonvoy peers

AI Consideration is the share of 192 comparable monitored answers mentioning the hotel; Scenario Presence is the share of 48 eligible traveler-need scenarios where it appeared. Certified Peer Position uses the six-hotel Marriott Bonvoy set. These measures do not represent bookings, revenue, or traveler exposure.

Key Findings

1. Meetings Facts Need One Approved Record

Marriott pages use five versus six event rooms, while Marriott and the convention bureau also publish different capacity and address details.

Why it matters. Planners and automated systems should receive setup-qualified figures and one verified street address rather than reconcile competing public facts.

2. Recognized Strengths Do Not Yet Match the Full Offer

The official hotel offer includes AC Lounge dining and proximity to Matogrande and Expocoruña, while ADP restaurant recognition was 0% and meeting-space recognition was about 49%.

Why it matters. This is a content-priority signal, not proof of a defect. Clearer official descriptions can give buyers better decision context.

3. Recent Investment Should Be Reflected Accurately

ACHM reported in June 2026 that all 116 rooms, one meeting room, and the gym were renovated.

Why it matters. Approved post-renovation facts should be consistent across Marriott, sales collateral, and partner listings without overstating the scope of the work.

Recommended Priorities

PRIORITY	ACTION	DESIRED OUTCOME
HIGH	Reconcile Event-Room, Capacity, and Address Facts	An approved room-by-room capacity schedule matching live hotel and brand pages.
HIGH	Secure Accurate CVB Profile + Official Website Hyperlink	Verified CVB or partner listing fields corrected with the approved property URL and a working official hyperlink, or documented decline retained.
MEDIUM	Strengthen AC Lounge and Business-District Signals	Confirmed room-view categories and accurate location descriptions published on the named hotel and brand channels.
MEDIUM	Review Spanish-Page Access for Intended Crawlers	Documented crawler-access decision with verified live robots/CDN behavior.
MEDIUM	Decide Whether to Reinforce Weddings and Social Events	Verified event inventory, supported occasions, and a working inquiry path on the official pages.

EXECUTIVE TAKEAWAY

The hotel already has a credible competitive position. The practical opportunity is to protect it with disciplined fact control and clearer presentation of dining, meetings, business-location, and renovation strengths—then measure future movement without promising a ranking or revenue result. Digital authority: AC Hotel A Coruña already appears on the A Coruña Convention & Visitors Bureau hotel and MICE listings, which is a strong meetings-demand… Digital content readiness: AC Hotel A Coruña's Marriott brand pages and A Coruña CVB listings are strong MICE discovery surfaces, but CVB capacity/address facts conflict with Marriott and CVB pages currently lack an official-site hyperlink.

2. Action Overview

5 hotel-specific actions at a glance; detailed evidence and agency steps follow.

PRIORITY	ACTION & BUSINESS RELEVANCE	ACCOUNTABLE OWNER	SUGGESTED TIMING
HIGH	**Reconcile Event-Room, Capacity, and Address Facts** Concrete conflicts create avoidable planner uncertainty and can be repeated by search and AI systems.	Director of Sales / Hotel Operations	Within 30 days
HIGH	**Secure Accurate CVB Profile + Official Website Hyperlink** Meetings planners and destination AI contexts rely on CVB inventory accuracy.	Hotel Commercial / Sales	Within 30 days
MEDIUM	**Strengthen AC Lounge and Business-District Signals** Clearer official descriptions can improve buyer context, although they cannot guarantee future AI presence or bookings.	Hotel Commercial Leadership	Within 30 days
MEDIUM	**Review Spanish-Page Access for Intended Crawlers** An unintended access mismatch could steer automated systems toward secondary sources, but one research client does not establish a general outage.	Marriott Digital / CDN Security Owner	Within 30 days
MEDIUM	**Decide Whether to Reinforce Weddings and Social Events** A focused module could help qualified prospects understand fit, but added content creates maintenance work and cannot guarantee inquiries.	Hotel Commercial Leadership	Within 30 days

3. Decisions Requested from Hotel Leadership

No public change is approved by this draft. Hotel leadership must establish the source of truth and authorize implementation.

1. **Meetings and Address Source of Truth**
   Approve room count, setup capacities, total area, and the correct street number.
2. **Dining and Business Positioning**
   Approve exact AC Lounge, Matogrande, Expocoruña, and inquiry language.
3. **Crawler Access Policy**
   Confirm which automated systems are intended to access Spanish content and approve any rule change.
4. **Renovation Language**
   Approve a precise statement that does not imply a whole-building renovation.
5. **Wedding Content Go/No-Go**
   Decide whether wedding and social-event demand supports additional content.
6. **Secure Accurate CVB Profile + Official Website Hyperlink**
   Hotel leadership must confirm facts and authorize changes before implementation.

7. **Reconcile Marriott and CVB Meetings Facts; Add Official URL**
   Hotel leadership must confirm facts and authorize changes before implementation.

4. Key Digital Presence Findings

The findings below diagnose verified digital-presence issues that affect how travelers and partners understand this hotel. Detailed platform rows and authority evidence follow. Measured AI traveler-intent results remain in ADP and are not repeated here.

VERIFIED PROBLEM

Public Meetings and Address Facts Conflict

The Marriott overview says five event rooms; the events page reports 6 rooms, 674 square metres, and largest capacity 290. The convention bureau publishes different Banquetes capacity and street-number details.

COMMERCIAL RELEVANCE

Concrete conflicts create avoidable planner uncertainty and can be repeated by search and AI systems.

DIAGNOSIS THEMES

Brand page versus hotel website · Conflicting information · Commercially relevant content (meetings / F&B / leisure)

SUPPORTING EVIDENCE

- ACCESS NOTE
  Marriott overview — Overview references five event rooms. Customer hyperlink removed after verification failure; claim retained only if otherwise supported.
- VERIFIED PUBLIC EVIDENCE
  Marriott events page — Reports 6 rooms, 674 sq m, and largest capacity 290.
- VERIFIED PUBLIC EVIDENCE
  A Coruña Convention Bureau listing — Different capacity and street-number details require reconciliation.

NEEDS INVESTIGATION

Dining and Meeting Strengths Are Under-Recognized

ADP recognized the on-site restaurant attribute in 0% of applicable observations and meeting space in about 49%, despite official AC Lounge dining and meetings content.

COMMERCIAL RELEVANCE

Clearer official descriptions can improve buyer context, although they cannot guarantee future AI presence or bookings.

DIAGNOSIS THEMES

Commercially relevant content (meetings / F&B / leisure)

SUPPORTING EVIDENCE

- ACCESS NOTE
  Marriott overview — Official source for AC Lounge and hotel positioning. Customer hyperlink removed after verification failure; claim retained only if otherwise supported.
- VERIFIED PUBLIC EVIDENCE
  Marriott events page — Official meeting-space source.
- VERIFIED PUBLIC EVIDENCE
  Convention bureau listing — Supports Matogrande and Expocoruña context.

NEEDS INVESTIGATION

Spanish URL Returned a Bounded Automated-Access Failure

A research-bot probe of the Spanish Marriott URL returned HTTP 403 and redirected toward default.mi while the English overview and robots.txt were retrievable. This does not prove a general outage.

COMMERCIAL RELEVANCE

An unintended access mismatch could steer automated systems toward secondary sources, but one research client does not establish a general outage.

DIAGNOSIS THEMES

Official website clarity · Brand page versus hotel website · Crawlability / content accessibility · Commercially relevant content (meetings / F&B / leisure)

SUPPORTING EVIDENCE

- ACCESS NOTE
  Spanish Marriott overview — Research-environment 403/redirect pattern; requires Marriott review. Customer hyperlink removed after verification failure; claim retained only if otherwise supported.
- VERIFIED PUBLIC EVIDENCE
  Marriott robots.txt — Returned HTTP 200 during the bounded review.
- ACCESS NOTE
  English Marriott overview — Fetched in the same bounded research context. Customer hyperlink removed after verification failure; claim retained only if otherwise supported.

HOTEL CONFIRMATION NEEDED

Post-Renovation Copy Needs Scope Control

ACHM reported completion of renovations to all 116 rooms, one meeting room, and the gym in June 2026. Hotel leadership should confirm what is approved for public reuse.

COMMERCIAL RELEVANCE

Accurate post-renovation language supports current buyer expectations and prevents stale or overbroad claims.

DIAGNOSIS THEMES

Commercially relevant content (meetings / F&B / leisure)

SUPPORTING EVIDENCE

- VERIFIED PUBLIC EVIDENCE
  ACHM renovation announcement — Dated June 20, 2026; states the bounded renovation scope.
- VERIFIED PUBLIC EVIDENCE
  Marriott rooms page — Confirms 116 guestrooms.

OPTIONAL OPPORTUNITY

Wedding Content Exists but Recognition Is Limited

The events page markets weddings, while ADP wedding-venue recognition was 2.4%. Additional content is optional and should follow a hotel demand decision.

COMMERCIAL RELEVANCE

A focused module could help qualified prospects understand fit, but added content creates maintenance work and cannot guarantee inquiries.

DIAGNOSIS THEMES

Brand page versus hotel website · Commercially relevant content (meetings / F&B / leisure)

SUPPORTING EVIDENCE

- VERIFIED PUBLIC EVIDENCE
  Marriott events page — Official wedding and event marketing.

5. Digital Authority & External Visibility

Partial public review of third-party websites — not a comprehensive paid backlink inventory, and not a measure of AI ranking.

WHAT THIS MEANS COMMERCIALLY

Trusted third-party websites currently link to this hotel's official pages (2 verified links in this review). 4 additional third-party pages mention the hotel without a clear property link. Strengthening destination and industry links can improve discoverability — it does not, by itself, change measured AI visibility.

External visibility snapshot

Metric	In this report	What it means
Verified website links	**2**	Third-party pages that hyperlink to an official hotel or brand property URL
Unique referring websites	**2**	Distinct domains among verified links (deduped hosts)
Third-party references (no link)	**4**	Pages that name the hotel but do not clearly link to the official site
High-value destination / industry sources	**2**	Verified links from tourism, CVB, destination, or specialist hosts in this review
Competitor link examples	**0**	Evidence that peers appear on useful third-party pages (not a full backlink ranking)

This is a **partial public review**, not a paid backlink index. Verified website links (backlinks) are different from mentions without hyperlinks, and both are different from measured AI citations in ADP. Counts below are the verified findings shown to you — not a claim about AI ranking or search volume.

Verified website links

Referring website	Links to	Why it matters	Evidence
AC Hotel A Coruña - A Coruña	Hotel website	Third-party site that can help travelers discover this hotel.	Open page

Referring website	Links to	Why it matters	Evidence
Hoteles en A Coruña	Hotel website	Third-party site that can help travelers discover this hotel.	Open page

Third-party references without a clear hotel link

Source	Finding	Evidence
acorunacb.com	Hotel is mentioned; no verified property hyperlink in this review	Open page
acorunacb.com	Hotel is mentioned; no verified property hyperlink in this review	Open page
acorunacb.com	Hotel is mentioned; no verified property hyperlink in this review	Open page
AC by Marriot A Coruña - A Coruña Convention & Visitors Bureau	Hotel is mentioned; no verified property hyperlink in this review	Open page

Competitor visibility notes

Competitor website-backlink superiority was not established from public HTML in this pass where peer outbound links were not confirmed.

Highest-value external opportunities

> **Add official Marriott URL to CVB hotel and MICE fiches**
> **Why it matters.** CVB pages already surface AC to planners. Converting the textual mention into a correct official-site hyperlink strengthens destination authority without inventing new directories.
>
> **What to do.** After capacity/address sign-off, ask CVB to publish the Marriott LCGCO canonical URL (and retire conflicting figures).
>
> acorunacb.com

> **Reconcile CVB MICE facts with Marriott source of truth**
> **Why it matters.** Conflicting capacity/address facts weaken an otherwise strong destination listing that AI and planners may reuse.
>
> **What to do.** Submit hotel-approved meeting capacities and street address; request English fiche parity.
>
> acorunacb.com

Website links and third-party mentions are different from measured AI visibility. Improving a destination listing does not guarantee a change in AI recommendations, bookings, or revenue.

6. Digital Platform & Website Readiness

EXECUTIVE ASSESSMENT

AC Hotel A Coruña's Marriott brand pages and A Coruña CVB listings are strong MICE discovery surfaces, but CVB capacity/address facts conflict with Marriott and CVB pages currently lack an official-site hyperlink. Brand and destination sources must be reconciled after hotel sign-off.

Digital presence: brand property page identified. Brand and hotel-operated sources are assessed independently when both exist. Measured ADP traveler-intent detail is not repeated here.

Digital discoverability readiness

Dimension	Status
Website accessibility	BRAND PAGE REACHABLE WITH KNOWN BOT LIMITS
Content completeness	MEETINGS FACTS CONFLICT WITH CVB
Structured information	limited public review
Traveler question coverage	STRONG MICE WITH FACT RISK
Third-party consistency	CVB INCONSISTENT AND NO OFFICIAL HREF

Platform-by-platform assessment

Verified corrections & investigations

Platform	Listing	Status	Verified finding	Recommended action	Owner
Destination / tourism / CVB	View destination listing	Verified reachable	Listing URL verified reachable. Identity tokens matched: coru, galicia. Field-level fact accuracy still requires hotel confirmation.	After Marriott sign-off, submit capacities/address + Marriott URL hyperlink	Hotel Sales & Marketing

Actionable inclusion / outreach opportunities

Platform	Listing	Status	Verified finding	Recommended action	Owner
Marriott AC Hotel A Coruña overview	View marriott.com	Access restricted	Automated access restricted; not treated as a broken customer page.	Investigate intended crawler access with brand/security owners; do not weaken legitimate bot protections without approval.	Brand
Hotel-operated website	View hotel website	Access restricted	Listing URL found; automated access restricted. Not treated as proof the public listing is broken.	Investigate intended crawler access with brand/security owners; do not weaken legitimate bot protections without approval.	Hotel management / marketing

Traveler question gaps

- **Which A Coruña hotels near Expocoruña have meeting space?**
  CVB vs Marriott capacity/address conflicts
  Action. Approve one meetings record; update Marriott and CVB fiches including official URL hyperlink
- **Which AC Hotels in A Coruña offer an AC Lounge?**
  Ensure lounge facts remain explicit for AI/planner reuse
  Action. Keep lounge description current on Marriott Spanish/English pages

Missing or inconsistent content is a readiness opportunity unless causal evidence shows it drove a specific AI recommendation. Bot-blocked access is not treated as proof a search engine cannot reach a page. Completing an action does not guarantee a change in AI recommendations or revenue.

7. Prioritized Action Plan

Each action names the affected platform, the verified issue, evidence, owner, timing, and completion criteria. Implementation steps are grouped by responsible party after the action cards.

ACTION 01

Reconcile Event-Room, Capacity, and Address Facts

HIGH PRIORITY | NOT STARTED | VERIFIED PROBLEM | Owner: Director of Sales / Hotel Operations

Timing: Source of truth in 2 weeks; approved corrections within 30 days

EXACT WEBSITE OR PLATFORM

Hotel digital presence

SPECIFIC ISSUE

Marriott uses five versus six event rooms, and the convention bureau differs on Banquetes capacity and street number.

WHAT WE FOUND

Marriott uses five versus six event rooms, and the convention bureau differs on Banquetes capacity and street number.

WHY IT MATTERS / COMMERCIAL IMPORTANCE

Concrete conflicts create avoidable planner uncertainty and can be repeated by search and AI systems.

RECOMMENDED ACTION

1. Sales signs a room-by-room schedule with setup capacities and total area.
2. Apply the change on the verified page (marriott.com) and retain before/after evidence.
3. Operations confirms the correct street address.
4. Submit field-level corrections to Marriott and the convention bureau.
5. Verify every named page against the signed schedule.
6. Create a field-level comparison and submit only hotel-approved corrections.

ACCOUNTABLE OWNER

Director of Sales / Hotel Operations

SUPPORTING PARTIES

Marriott digital content,A Coruña Convention Bureau liaison

SUGGESTED TIMING

Source of truth in 2 weeks; approved corrections within 30 days

MEASURABLE COMPLETION CRITERIA

- **Investigation Completed.** A signed meetings and address schedule explains all named figures.
- **Correction Submitted.** Approved correction requests are filed with exact fields and sources.
- **Correction Verified Live.** Named pages match the signed schedule or open tickets have documented follow-up.
- **No Change Required.** Valid only if each difference is documented as setup-specific and current wording is approved.

> **Hotel Decision Required.** Sales and operations must approve the source of truth before external edits.

AGENCY IMPLEMENTATION DETAILS

For the digital marketing agency, website developer, or CDN partner.

AFFECTED PAGES / PLATFORMS

- VERIFIED PUBLIC EVIDENCE
  Marriott overview
- VERIFIED PUBLIC EVIDENCE
  Marriott events
- VERIFIED PUBLIC EVIDENCE
  CVB MICE fiche
- VERIFIED PUBLIC EVIDENCE
  CVB hotel fiche

REQUIRED CHANGES OR INVESTIGATION

1. Sales signs a room-by-room schedule with setup capacities and total area.
2. Apply the change on the verified page (marriott.com) and retain before/after evidence.
3. Operations confirms the correct street address.
4. Submit field-level corrections to Marriott and the convention bureau.
5. Verify every named page against the signed schedule.
6. Create a field-level comparison and submit only hotel-approved corrections.

SOURCE EVIDENCE

- Marriott overview
- Marriott events
- CVB MICE fiche
- CVB hotel fiche

VERIFICATION METHOD

Compare live room count, area, setup capacities, and address against the signed source of truth.

DEPENDENCIES

- Hotel-approved inventory and address record

TECHNICAL NOTES

Do not treat setup-specific capacities as errors until sales confirms the applicable layouts.

ACTION 02

Secure Accurate CVB Profile + Official Website Hyperlink

HIGH PRIORITY | AWAITING HOTEL DECISION | OPTIONAL OPPORTUNITY | Owner: Hotel Commercial / Sales

Timing: Submit within 30 days of capacity sign-off

EXACT WEBSITE OR PLATFORM

CVB hotel fiche

SPECIFIC ISSUE

CVB hotel/MICE pages mention AC without a confirmed href to Marriott/hotelacacoruna.com; peer CVB pages also lack hotel-website backlinks in this public pass.

WHAT WE FOUND

CVB hotel/MICE pages mention AC without a confirmed href to Marriott/hotelacacoruna.com; peer CVB pages also lack hotel-website backlinks in this public pass.

WHY IT MATTERS / COMMERCIAL IMPORTANCE

Meetings planners and destination AI contexts rely on CVB inventory accuracy.

RECOMMENDED ACTION

1. Approve Marriott canonical URL and meeting capacities.
2. Apply the change on the verified page (acorunacb.com) and retain before/after evidence.
3. Request CVB update including official-site hyperlink.
4. Re-check live fiche and archive screenshots.
5. Field-level CVB vs Marriott reconciliation
6. Canonical URL decision

ACCOUNTABLE OWNER

Hotel Commercial / Sales

SUPPORTING PARTIES

Marriott brand content; CVB account manager

SUGGESTED TIMING

Submit within 30 days of capacity sign-off

MEASURABLE COMPLETION CRITERIA

- **Investigation Completed.** Signed comparison of CVB vs Marriott fields is filed.
- **Correction Submitted.** CVB update request submitted with approved facts.
- **Correction Verified Live.** Named CVB pages match the signed schedule.
- **No Change Required.** Valid only if leadership documents each residual difference as setup-specific and approved.

Hotel Decision Required. Approve facts before CVB outreach.

AGENCY IMPLEMENTATION DETAILS

For the digital marketing agency, website developer, or CDN partner.

VERIFICATION METHOD

Live CVB page QA against signed hotel schedule.

DEPENDENCIES

- the related action

TECHNICAL NOTES

No paid backlink tool used. Completing CVB updates does not guarantee AI ranking change.

ACTION 03

Strengthen AC Lounge and Business-District Signals

MEDIUM | NOT STARTED | NEEDS INVESTIGATION | Owner: Hotel Commercial Leadership

Timing: Content brief in 2 weeks; updates within 30–45 days

EXACT WEBSITE OR PLATFORM

Hotel digital presence

SPECIFIC ISSUE

Restaurant recognition was 0% and meeting-space recognition about 49%, despite official AC Lounge and event content plus the Matogrande/Expocoruña location.

WHAT WE FOUND

Restaurant recognition was 0% and meeting-space recognition about 49%, despite official AC Lounge and event content plus the Matogrande/Expocoruña location.

WHY IT MATTERS / COMMERCIAL IMPORTANCE

Clearer official descriptions can improve buyer context, although they cannot guarantee future AI presence or bookings.

RECOMMENDED ACTION

1. Approve concise AC Lounge meal-service language.
2. Apply the change on the verified page (marriott.com) and retain before/after evidence.
3. Add sourced Matogrande, Expocoruña, and business-access context where Marriott permits.
4. Keep meeting facts aligned with the related action.

5. QA live copy and inquiry paths.
6. Map approved restaurant, meetings, and location facts to available Marriott content fields.

ACCOUNTABLE OWNER

Hotel Commercial Leadership

SUPPORTING PARTIES

Food and beverage leadership,Director of Sales,Marriott digital content

SUGGESTED TIMING

Content brief in 2 weeks; updates within 30–45 days

MEASURABLE COMPLETION CRITERIA

- **Investigation Completed.** Commercial leadership approves dining and business-location facts.
- **Correction Submitted.** Approved content requests are filed for priority pages.
- **Correction Verified Live.** Live pages clearly state the approved offer and retain working inquiry paths.
- **No Change Required.** Valid if leadership documents that current presentation is sufficient or Marriott fields cannot support the change.

> **Hotel Decision Required.** Approve operating details and location claims before publication.

AGENCY IMPLEMENTATION DETAILS

For the digital marketing agency, website developer, or CDN partner.

AFFECTED PAGES / PLATFORMS

- VERIFIED PUBLIC EVIDENCE

VERIFICATION METHOD

Confirm approved facts are visible in rendered copy and machine-readable page content where supported.

DEPENDENCIES

- the related action source of truth
- Current AC Lounge operating details

TECHNICAL NOTES

ADP recognition rates are prioritization signals, not proof that content caused measured performance.

ACTION 04

Review Spanish-Page Access for Intended Crawlers

MEDIUM | NOT STARTED | NEEDS INVESTIGATION | Owner: Marriott Digital / CDN Security Owner

Timing: Technical review within 30 days

EXACT WEBSITE OR PLATFORM

Hotel digital presence

SPECIFIC ISSUE

The Spanish Marriott URL returned HTTP 403 and redirected toward default.mi for the research bot; the English overview fetched and robots.txt returned 200.

WHAT WE FOUND

The Spanish Marriott URL returned HTTP 403 and redirected toward default.mi for the research bot; the English overview fetched and robots.txt returned 200.

WHY IT MATTERS / COMMERCIAL IMPORTANCE

An unintended access mismatch could steer automated systems toward secondary sources, but one research client does not establish a general outage.

RECOMMENDED ACTION

1. Open a Marriott CDN/WAF review ticket with the exact test context.
2. Apply the change on the verified page (marriott.com) and retain before/after evidence.
3. Compare intended crawler policy with current bot-management rules.
4. Approve only narrow security-safe changes if a conflict is confirmed.
5. Retest Spanish and English pages from agreed clients.
6. Record status, redirect chain, user agent, and CDN rule decision for agreed clients.

ACCOUNTABLE OWNER

Marriott Digital / CDN Security Owner

SUPPORTING PARTIES

Hotel digital marketing,Hotel commercial leadership

SUGGESTED TIMING

Technical review within 30 days

MEASURABLE COMPLETION CRITERIA

- **Investigation Completed.** A technical note explains the 403/redirect behavior and intended crawler policy.
- **Correction Submitted.** Any required change is approved and filed through Marriott security controls.
- **Correction Verified Live.** Agreed clients receive the intended response on both language variants.
- **No Change Required.** Valid if Marriott documents that intended crawlers are unaffected and the research-client block is intentional.

Hotel Decision Required. Do not weaken security; hotel approval is required for any production access-policy change.

AGENCY IMPLEMENTATION DETAILS

For the digital marketing agency, website developer, or CDN partner.

AFFECTED PAGES / PLATFORMS

- VERIFIED PUBLIC EVIDENCE
  Spanish overview
- VERIFIED PUBLIC EVIDENCE
  Marriott robots.txt

REQUIRED CHANGES OR INVESTIGATION

1. Open a Marriott CDN/WAF review ticket with the exact test context.
2. Apply the change on the verified page (marriott.com) and retain before/after evidence.
3. Compare intended crawler policy with current bot-management rules.
4. Approve only narrow security-safe changes if a conflict is confirmed.
5. Retest Spanish and English pages from agreed clients.
6. Record status, redirect chain, user agent, and CDN rule decision for agreed clients.

SOURCE EVIDENCE

- Spanish overview
- Marriott robots.txt

VERIFICATION METHOD

Repeat controlled requests to both language variants and document status codes and redirect destinations.

DEPENDENCIES

- Marriott CDN/WAF access
- Approved crawler policy

TECHNICAL NOTES

The observation is bounded and does not prove a global indexing failure.

ACTION 05

Decide Whether to Reinforce Weddings and Social Events

MEDIUM | NOT STARTED | OPTIONAL OPPORTUNITY | Owner: Hotel Commercial Leadership | Timing: Decision within 30 days

EXACT WEBSITE OR PLATFORM

Hotel digital presence

SPECIFIC ISSUE

Marriott markets weddings on the events page while ADP wedding-venue recognition was 2.4%.

WHAT WE FOUND

Marriott markets weddings on the events page while ADP wedding-venue recognition was 2.4%.

WHY IT MATTERS / COMMERCIAL IMPORTANCE

A focused module could help qualified prospects understand fit, but added content creates maintenance work and cannot guarantee inquiries.

RECOMMENDED ACTION

1. Sales records a wedding/social-event go or no-go.
2. Apply the change on the verified page (marriott.com) and retain before/after evidence.
3. If go, approve target occasions, capacities, inclusions, and inquiry ownership.
4. Draft concise content using the the related action capacity record.
5. If no-go, document and close the action.
6. Document go/no-go and, if approved, map wedding facts to supported Marriott fields.

ACCOUNTABLE OWNER
Hotel Commercial Leadership

SUPPORTING PARTIES
Wedding and events sales,Marriott digital content

SUGGESTED TIMING
Decision within 30 days

MEASURABLE COMPLETION CRITERIA

- **Investigation Completed.** A written commercial go/no-go is on file.
- **Correction Submitted.** If approved, a content request using signed facts is submitted.
- **Correction Verified Live.** If approved, live content matches capacities and has a working inquiry path.
- **No Change Required.** Valid when leadership documents a no-go or confirms current wedding content is sufficient.

> **Hotel Decision Required.** Optional commercial decision; do not publish additional content without demand and capacity approval.

AGENCY IMPLEMENTATION DETAILS
For the digital marketing agency, website developer, or CDN partner.

AFFECTED PAGES / PLATFORMS

- VERIFIED PUBLIC EVIDENCE
  Marriott events page

REQUIRED CHANGES OR INVESTIGATION

1. Sales records a wedding/social-event go or no-go.
2. Apply the change on the verified page (marriott.com) and retain before/after evidence.
3. If go, approve target occasions, capacities, inclusions, and inquiry ownership.
4. Draft concise content using the the related action capacity record.
5. If no-go, document and close the action.
6. Document go/no-go and, if approved, map wedding facts to supported Marriott fields.

SOURCE EVIDENCE

- Marriott events page

VERIFICATION METHOD
If approved, compare live wedding content and inquiry path against the signed brief.

DEPENDENCIES

- Commercial go/no-go
- the related action capacity record

TECHNICAL NOTES
Optional opportunity, not a verified website defect.

8. Implementation by Responsible Party

Page-specific execution notes grouped for hotel teams, brand partners, agencies, and platform owners. Unassessed platforms are not treated as confirmed defects.

Hotel management

1. **Reconcile Event-Room, Capacity, and Address Facts**

Platform. Hotel digital presence
Issue. Marriott uses five versus six event rooms, and the convention bureau differs on Banquetes capacity and street number.
Do this. Sales signs a room-by-room schedule with setup capacities and total area. Operations confirms the correct street address. Submit field-level corrections to Marriott and the convention bureau. Verify every named page against the signed schedule.

2. **Strengthen AC Lounge and Business-District Signals**
Platform. Hotel digital presence
Issue. Restaurant recognition was 0% and meeting-space recognition about 49%, despite official AC Lounge and event content plus the Matogrande/Expocoruña location.
Do this. Approve concise AC Lounge meal-service language. Add sourced Matogrande, Expocoruña, and business-access context where Marriott permits. Keep meeting facts aligned with the related action. QA live copy and inquiry paths.
3. **Align Public Copy With the Completed Renovation**
Platform. Hotel digital presence
Issue. ACHM reported in June 2026 that all 116 rooms, one meeting room, and the gym were renovated.
Do this. Hotel confirms the final completed scope and approved wording. Audit Marriott and sales materials for stale room, meeting-room, and gym descriptions. Submit approved factual updates. Archive live verification.
4. **Decide Whether to Reinforce Weddings and Social Events**
Platform. Hotel digital presence
Issue. Marriott markets weddings on the events page while ADP wedding-venue recognition was 2.4%.
Do this. Sales records a wedding/social-event go or no-go. If go, approve target occasions, capacities, inclusions, and inquiry ownership. Draft concise content using the the related action capacity record. If no-go, document and close the action.
5. **Secure Accurate CVB Profile + Official Website Hyperlink**
Platform. CVB hotel fiche
Issue. CVB hotel/MICE pages mention AC without a confirmed href to Marriott/hotelacacoruna.com; peer CVB pages also lack hotel-website backlinks in this public pass.
Do this. Approve Marriott canonical URL and meeting capacities. Request CVB update including official-site hyperlink. Re-check live fiche and archive screenshots.
acorunacb.com · acorunacb.com
6. **Reconcile Marriott and CVB Meetings Facts; Add Official URL**
Platform. CVB hotel fiche
Issue. CVB lists AC without confirmed Marriott href; capacities/address conflict with Marriott sources.
Do this. Approve Marriott LCGCO meetings record. Submit CVB corrections including official hyperlink. Re-check live fiches.
acorunacb.com · acorunacb.com

Brand

1. **Review Spanish-Page Access for Intended Crawlers**
Platform. Hotel digital presence
Issue. The Spanish Marriott URL returned HTTP 403 and redirected toward default.mi for the research bot; the English overview fetched and robots.txt returned 200.
Do this. Open a Marriott CDN/WAF review ticket with the exact test context. Compare intended crawler policy with current bot-management rules. Approve only narrow security-safe changes if a conflict is confirmed. Retest Spanish and English pages from agreed clients.

9. Methodology, Responsibilities & Next Steps

Combines the Dealality's latest AI visibility measurements with a bounded review of named public pages and standard technical checks. No paid research, new AI visibility measurement, production write, or customer publication was performed.

How to Read Findings

- Verified Problem — a directly observed, source-backed discrepancy.
- Needs Investigation — evidence warrants review but does not prove a defect or cause.
- Hotel confirmation needed — leadership must establish the source of truth before correction.
- Optional Opportunity — proceed only if leadership wants the demand.

Responsibilities

- Hotel leadership confirms facts, priorities, and public changes.
- Digital, brand, and partner teams implement only approved corrections and document verification.
- Dealality packages measurement context and evidence without implying ranking, booking, or revenue causation.

How This Relates to Monthly Monitoring

Approved actions may be tracked later. Completing an action does not itself prove a change in AI presence, bookings, or revenue.

Suggested Next Step

For AC Hotel A Coruña: confirm the decision items — starting with “Reconcile Event-Room, Capacity, and Address Facts” — then authorize the validated work your leadership prioritizes.
