AI VISIBILITY & DIGITAL PRESENCE ASSESSMENT

Spice Island Beach Resort

AUDIT & ACTION PLAN

NOVEMBER 2026

1. Executive Audit Summary

Strong AI Visibility, With Opportunities to Improve Digital Accuracy and Control

Spice Island Beach Resort is well positioned in the AI travel searches monitored by Dealality, ranking first among its certified competitive group. This provides a strong foundation as more travelers turn to AI when researching hotels and destinations.

Performance Snapshot

AI CONSIDERATION	SCENARIO PRESENCE	CERTIFIED PEER POSITION
57.6%	**97.8%**	**#1 of 6**
Mentioned in 53 of 92 comparable AI answers	Present across 44 of 45 eligible traveler-need scenarios	Strongest overall presence in the certified peer set

These metrics describe presence in monitored AI answers—not booking conversion or traveler exposure.

Key Findings

1. Hotel Information Accuracy

Official dining structured data claims a Michelin Star for Oliver Restaurant. Michelin confirms One MICHELIN Key for the resort. A Key is not a restaurant Star — verify Star status independently before correcting award language.

Why it matters. Award language should match independently verified Michelin status. Treating a hotel Key as proof that a restaurant Star is false can produce an incorrect correction.

2. Digital Presence and Information Control

An independently operated booking site uses a domain similar to the official website, and a staging hostname appeared in limited AI citations. Some automated requests to the official site were blocked in research testing.

Why it matters. Confirm which sites represent the resort and whether intended search and AI systems can reach official content before changing access settings.

3. Selective Commercial Opportunities

There is no guest-facing official page for intimate executive retreats or exclusive gatherings—only a post-stay conference feedback form.

Why it matters. Clearer presentation could attract appropriately sized inquiries if management wants that demand. Pursue only if commercially attractive.

Recommended Priorities

PRIORITY	ACTION	DESIRED OUTCOME
HIGH	Align Suite Sizes, Offer Rules, and Public Titles Across Trusted Listings	Corrected room-size and offer-rule fields on the named booking and hotel channels, with live evidence retained.
MEDIUM	Verify Michelin Star Status for Oliver Restaurant Before Correcting Award Language	Award language retained or corrected only after independent Michelin Star verification; Key presented accurately at hotel level.
MEDIUM	Clarify the BookResorts Relationship, Staging Website, and Automated Access Context	Approved "Clarify the BookResorts Relationship, Staging Website, and Automated Acc" facts published on the hotel's named priority digital channels.
MEDIUM	Review Website Access for Search Engines and AI Systems	Documented crawler-access decision with verified live robots/CDN behavior.
MEDIUM	Confirm and align official facts for Spice Island Beach Resort	One hotel-approved fact sheet reflected on the official site and spot-checked on priority listings.
LOW	Decide Whether to Publish a Selective Meetings and Executive-Retreat Page	Verified event inventory, supported occasions, and a working inquiry path on the official pages.

EXECUTIVE TAKEAWAY

Spice Island's AI visibility is already a competitive strength. The immediate opportunity is to protect that position by correcting inaccurate information, improving consistency across digital channels, and ensuring the resort's official content is readily accessible. These targeted actions establish a practical foundation for continued monitoring and improvement.

2. Action Overview

6 hotel-specific actions at a glance; detailed evidence and agency steps follow.

PRIORITY	ACTION & BUSINESS RELEVANCE	ACCOUNTABLE OWNER	SUGGESTED TIMING
HIGH	**Align Suite Sizes, Offer Rules, and Public Titles Across Trusted Listings** Guests comparing channels should see the same facts. Corrections improve consistency; they do not automatically lift AI rankings or bookings.	Hotel Commercial Owner	Within 30 days
MEDIUM	**Verify Michelin Star Status for Oliver Restaurant Before Correcting Award Language** Publishing unverified Star language creates reputation risk if guests or partners check Michelin. Confirming Star status before editing protects accuracy without treating Key recognition as Star disproof.	Hotel GM / Commercial Leadership	Within 30 days
MEDIUM	**Clarify the BookResorts Relationship, Staging Website, and Automated Access Context** Similar domains can be treated as hotel-affiliated. Confirm control before brand/fact alignment or other steps. Resolving ownership does not by itself change AI peer rankings.	Hotel GM / Commercial Leadership	Within 30 days
MEDIUM	**Review Website Access for Search Engines and AI Systems** Consistent, approved public facts reduce guest and partner confusion and limit incorrect AI repetition of property details.	Digital Marketing Agency	Within 30 days
MEDIUM	**Confirm and align official facts for Spice Island Beach Resort** Digital content readiness depends on one approved source of truth before third-party outreach.	Hotel Sales & Marketing	Within 30 days
LOW	**Decide Whether to Publish a Selective Meetings and Executive-Retreat Page** A capacity-honest hotel page can attract qualified small-group demand if wanted. Publishing does not guarantee leads or revenue.	Hotel Commercial Leadership	Within 30 days

3. Decisions Requested from Hotel Leadership

None of these decisions has been approved. Each needs an explicit hotel answer before public-facing changes proceed.

1. **Michelin Recognition Confirmation**
   Confirm current Michelin Key year/status and that Oliver has no restaurant Star before award metadata changes.
2. **Official Suite and Offer Information Approval**
   Approve a source-of-truth sheet (suite sizes, offer rules, contacts, public titles) before third-party correction requests.
3. **BookResorts and Staging Website Authorization**
   Confirm whether BookResorts / spiceisland-beachresort.com is authorized, and who controls any staging hostname. Status is currently unknown.
4. **Automated Website Access Review**
5. **Selective Meetings and Executive-Retreat Commercial Decision**
   Go or no-go on a hotel-owned meetings/executive-retreat page. Do not build unless leadership wants that demand.
6. **Qualify Destination/Partner Listing With Official URL**
   Hotel leadership must confirm facts and authorize changes before implementation.

7. **Confirm and align official facts for Spice Island Beach Resort**
   Hotel leadership must confirm facts and authorize changes before implementation.

4. Key Digital Presence Findings

Compact evidence summary. Recommendations and completion criteria are in Section 5.

VERIFIED PROBLEM

Inaccurate Michelin Award Information on the Official Website

Official dining structured data lists “Michelin Star 2025” for Oliver Restaurant. Michelin’s public hotel listing shows One MICHELIN Key for the resort—not a restaurant Star.

SUPPORTING EVIDENCE

- VERIFIED PUBLIC EVIDENCE
  Official dining page (structured award data) — Oliver Restaurant award listed as Michelin Star 2025
- VERIFIED PUBLIC EVIDENCE
  Michelin Guide hotel listing — One MICHELIN Key

HOTEL CONFIRMATION NEEDED

Suite, Offer, and Third-Party Information Inconsistencies

Official Seagrape suites list 945 sq ft and honeymoon specials state a 5-night minimum. Pure Grenada and an independent booking host showed different figures/rules at research time.

SUPPORTING EVIDENCE

- VERIFIED PUBLIC EVIDENCE
  Official rooms page — Seagrape 945 sq ft
- VERIFIED PUBLIC EVIDENCE
  Official specials — honeymoon 5-night minimum
- HOTEL CONFIRMATION NEEDED
  Pure Grenada listing — different Seagrape size at research date — Confirm source of truth before requesting correction
- HOTEL CONFIRMATION NEEDED
  Independent booking host — different suite size and honeymoon FAQ — Confirm partner status before requesting changes

NEEDS INVESTIGATION

Independent Booking Domain and Staging Hostname

spiceisland-beachresort.com is associated with BookResorts (independent agency). Limited AI observations also cited a staging hostname. Hotel authorization is unknown—not an allegation of improper conduct.

SUPPORTING EVIDENCE

- VERIFIED PUBLIC EVIDENCE
  BookResorts About page — independent agency positioning
- VERIFIED PUBLIC EVIDENCE
  Independent booking host (hyphenated domain)
- NOT PUBLICLY LINKABLE
  Limited AI citation samples of BookResorts/staging hosts — Certified monitoring observation IDs are internal

NEEDS INVESTIGATION

Official Website Accessibility for Automated Systems

SUPPORTING EVIDENCE

- ACCESS NOTE
  Research-environment automated access probe (403 pattern) — Requires CDN partner review

OPTIONAL OPPORTUNITY

No Hotel-Owned Page for Selective Meetings and Executive Retreats

Official site has a post-stay conference feedback form but no guest-facing meetings product page. Optional only if leadership wants that demand at the resort's intimate scale.

SUPPORTING EVIDENCE

- VERIFIED PUBLIC EVIDENCE
  Conference review form (feedback only)

5. Digital Authority & External Visibility

Partial public review of third-party websites — not a comprehensive paid backlink inventory, and not a measure of AI ranking.

WHAT THIS MEANS COMMERCIALLY

Public research verified 2 property-specific third-party hyperlink(s) and 5 external reference(s). Brand and hotel-operated destinations were evaluated separately.

External visibility snapshot

Metric	In this report	What it means
Verified website links	**2**	Third-party pages that hyperlink to an official hotel or brand property URL
Unique referring websites	**2**	Distinct domains among verified links (deduped hosts)

Metric	In this report	What it means
Third-party references (no link)	**5**	Pages that name the hotel but do not clearly link to the official site
High-value destination / industry sources	—	Verified links from tourism, CVB, destination, or specialist hosts in this review
Competitor link examples	**0**	Evidence that peers appear on useful third-party pages (not a full backlink ranking)

This is a **partial public review**, not a paid backlink index. Verified website links differ from mentions without hyperlinks, and both differ from measured AI citations in ADP. Counts below are the verified findings shown to you — not a claim about AI ranking or search volume.

Verified website links

Competitor visibility notes

Competitor website-backlink superiority was not established from public HTML in this pass where peer outbound links were not confirmed.

Highest-value external opportunities

> **Identify one destination/partner listing**
> **Why it matters.** Trusted destination discovery
>
> **What to do.** Submit approved profile + official URL
>
> spiceislandbeachresort.com

Website links and third-party mentions are different from measured AI visibility. Improving a destination listing does not guarantee a change in AI recommendations, bookings, or revenue.

6. Digital Platform & Website Readiness

> **EXECUTIVE ASSESSMENT**
>
> Spice Island Beach Resort: official digital sources were inventoried from the property URL identity graph. Brand and hotel-operated sites are tracked separately. Major OTAs and maps are identified but not deeply assessed in this unpaid pass. Confirm critical facts before cascading corrections.

Digital presence: hotel-operated website identified. Brand and hotel-operated sources are assessed independently when both exist. Measured ADP traveler-intent detail is not repeated here.

Traveler question gaps

- **What should travelers know about Spice Island Beach Resort?**

Missing or inconsistent content is a readiness opportunity unless causal evidence shows it drove a specific AI recommendation. Bot-blocked access is not treated as proof a search engine cannot reach a page. Completing an action does not guarantee a change in AI recommendations or revenue.

7. Prioritized Action Plan

Findings above are not repeated in full. Each action states the recommendation, owner, timing, completion criteria, and agency steps with evidence links.

ACTION 01

Align Suite Sizes, Offer Rules, and Public Titles Across Trusted Listings

HIGH PRIORITY | AWAITING HOTEL DECISION | HOTEL CONFIRMATION NEEDED | Owner: Hotel Commercial Owner

Timing: Source-of-truth within 2 weeks; partner corrections within 30–45 days of sign-off

EXACT WEBSITE OR PLATFORM

Official rooms page — Seagrape 945 sq ft

WHAT WE FOUND

Official Seagrape size and honeymoon minimum differ from Pure Grenada and/or the independent booking host at research time.

WHY IT MATTERS / COMMERCIAL IMPORTANCE

Guests comparing channels should see the same facts. Corrections improve consistency; they do not automatically lift AI rankings or bookings.

RECOMMENDED ACTION

1. Hotel signs a one-page source-of-truth sheet.
2. Apply the change on the verified page (spiceislandbeachresort.com) and retain before/after evidence.
3. Agency diffs Pure Grenada and authorized partners against the sheet.
4. Submit correction requests only for confirmed fields.
5. Log before/after notes per URL; skip tone-only OTA rewrites without a factual conflict.
6. Draft source-of-truth: suite sizes; honeymoon minimum; public titles; phones/emails.

ACCOUNTABLE OWNER

Hotel Commercial Owner

SUPPORTING PARTIES

Brand Content Team

SUGGESTED TIMING

Source-of-truth within 2 weeks; partner corrections within 30–45 days of sign-off. Partner response times vary; deadlines require hotel agreement.

MEASURABLE COMPLETION CRITERIA

- **Investigation Completed.** Signed source-of-truth sheet compared to named live URLs; mismatches logged.
- **Correction Submitted.** Correction tickets/emails filed for each confirmed mismatch (or written decline where partner status blocks outreach).
- **Correction Verified Live.** Named URLs match the signed sheet, or open tickets show last follow-up date.
- **No Change Required.** Valid if hotel documents that the official sheet already matches all named pages—or that a host is unauthorized and must not be corrected pending the related action.

> **Hotel Decision Required.** Sign the source-of-truth sheet before external correction requests.

VERIFICATION METHOD

Compare live pages to signed sheet; retain ticket IDs and screenshots.

DEPENDENCIES

- Hotel-signed source-of-truth sheet.
- Partner authorization clarity for the independent host (the related action).

TECHNICAL NOTES

Treat the independent booking host carefully until authorization is confirmed.

ACTION 02

Verify Michelin Star Status for Oliver Restaurant Before Correcting Award Language

MEDIUM | AWAITING HOTEL DECISION | VERIFIED PROBLEM | Owner: Hotel GM / Commercial Leadership

Timing: Within 2–3 weeks of hotel Key confirmation

EXACT WEBSITE OR PLATFORM

Official dining page (structured award data)

WHAT WE FOUND

Official dining content claims a Michelin Star for Oliver Restaurant. Michelin Guide evidence confirms a MICHELIN Key for the hotel. A hotel Key is a different award from a restaurant Star and does not by itself prove the Star claim is false. No independent Michelin restaurant-Star listing for Oliver Restaurant was verified in this research pass.

WHY IT MATTERS / COMMERCIAL IMPORTANCE

Publishing unverified Star language creates reputation risk if guests or partners check Michelin. Confirming Star status before editing protects accuracy without treating Key recognition as Star disproof.

RECOMMENDED ACTION

1. Check Michelin Guide restaurant listings for Oliver Restaurant independently of the hotel Key page.
2. Ask hotel leadership to confirm current Star and Key status in writing.
3. If no Star is confirmed, remove Star language from Oliver Restaurant structured data on the official dining page.
4. If approved, present the MICHELIN Key only as hotel-level recognition — never as a Star substitute on the restaurant node.
5. Archive before/after evidence of the live structured data.

ACCOUNTABLE OWNER

Hotel GM / Commercial Leadership

SUPPORTING PARTIES

Brand Content Team

SUGGESTED TIMING

Within 2–3 weeks of hotel Key confirmation. Final deadline requires hotel agreement.

MEASURABLE COMPLETION CRITERIA

- **Investigation Completed.** Hotel confirmation of Key year/status and no restaurant Star is on file.
- **Correction Submitted.** Dining-page structured data updated (Star removed; Key added only if approved; brand placeholder fixed).
- **Correction Verified Live.** Live view-source / rich-results check confirms no restaurant Star and Key language matches approval.
- **No Change Required.** Only if hotel documents that Michelin recognition already matches live structured data—file that rationale; do not leave an unsupported Star in place.

Hotel Decision Required. Confirm Key year/status and no restaurant Star before adding Key metadata.

2. Ask hotel leadership to confirm current Star and Key status in writing.
3. If no Star is confirmed, remove Star language from Oliver Restaurant structured data on the official dining page.
4. If approved, present the MICHELIN Key only as hotel-level recognition — never as a Star substitute on the restaurant node.

TECHNICAL NOTES

Do not place Key language on the Restaurant node as a Star substitute.

ACTION 03

Clarify the BookResorts Relationship, Staging Website, and Automated Access Context

MEDIUM | AWAITING HOTEL DECISION | NEEDS INVESTIGATION | Owner: Hotel GM / Commercial Leadership

Timing: Hotel decision within 2 weeks; partner alignment within 30–45 days if authorized

EXACT WEBSITE OR PLATFORM

BookResorts About page

WHAT WE FOUND

BookResorts positions itself as an independent agency on a similar domain; limited AI citations also referenced staging. Authorization unknown.

WHY IT MATTERS / COMMERCIAL IMPORTANCE

Similar domains can be treated as hotel-affiliated. Confirm control before brand/fact alignment or other steps. Resolving ownership does not by itself change AI peer rankings.

RECOMMENDED ACTION

1. Hotel confirms whether BookResorts is authorized.
2. Apply the change on the verified page (bookresorts.com) and retain before/after evidence.
3. If yes: align facts/branding to the source-of-truth sheet.
4. If no: hotel decides commercial/legal next steps with advisors.
5. Confirm staging hostname control; restrict if unintended.
6. Document the decision for agency and monthly tracking.

MEASURABLE COMPLETION CRITERIA

- **Investigation Completed.** Written hotel answer on BookResorts authorization and staging control is on file.
- **Correction Submitted.** If authorized: alignment tickets filed. If not: documented next-step memo (commercial/legal) is filed.
- **Correction Verified Live.** If authorized: partner page facts match the signed sheet (or open tickets logged). If staging restricted: public check confirms intended state.
- **No Change Required.** Valid only with a written hotel decision that the current partner/staging posture is intentional and needs no change—rationale on file.

Hotel Decision Required. Authorization is UNKNOWN until the hotel answers. Do not allege improper conduct.

ACTION 04

Review Website Access for Search Engines and AI Systems

MEDIUM | AWAITING HOTEL DECISION | NEEDS INVESTIGATION | Owner: Digital Marketing Agency

Timing: Review ticket within 2 weeks; any approved rule change within 30 days

EXACT WEBSITE OR PLATFORM

Official homepage

WHAT WE FOUND

Unintended crawler blocks can push automated systems toward secondary sources. A CDN review clarifies risk; it does not guarantee higher AI visibility.

WHY IT MATTERS / COMMERCIAL IMPORTANCE

Consistent, approved public facts reduce guest and partner confusion and limit incorrect AI repetition of property details.

RECOMMENDED ACTION

1. Agency opens a CDN/security ticket describing the research 403 pattern.
2. Apply the change on the verified page (spiceislandbeachresort.com) and retain before/after evidence.
3. Hotel approves any production allowlist change before it is applied.
4. Retest homepage and key pages; file results.
5. Reproduce automated GET of homepage from non-browser client; record status codes.
6. If conflict confirmed and hotel approves, adjust allowlists for intended crawlers only.

MEASURABLE COMPLETION CRITERIA

- **Investigation Completed.** Hotel confirms current published facts and access posture.
- **Correction Submitted.** If a rule change is needed: hotel-approved change request submitted to the CDN partner.
- **Correction Verified Live.** Agreed test clients retest homepage/key pages; before/after status codes documented.
- **No Change Required.** Valid if the partner documents that intended crawlers are already allowed and research-environment 403s do not warrant production change—rationale on file.

Confirm and align official facts for Spice Island Beach Resort

MEDIUM | AWAITING HOTEL DECISION | HOTEL CONFIRMATION NEEDED | Owner: Hotel Sales & Marketing | Timing: 2–4 weeks

EXACT WEBSITE OR PLATFORM

Official website

WHAT WE FOUND

Confirm that meetings, dining, and amenities facts on the official page match the hotel's approved source of truth; align third-party listings after confirmation.

WHY IT MATTERS / COMMERCIAL IMPORTANCE

Digital content readiness depends on one approved source of truth before third-party outreach.

RECOMMENDED ACTION

1. Establish one approved fact sheet; update the official page first; then cascade to GBP/OTAs when values are confirmed.
2. Apply the change on the verified page (spiceislandbeachresort.com) and retain before/after evidence.
3. Do not change unconfirmed values on OTAs until the hotel approves the fact sheet.

Timing: Go/no-go within 30 days; if approved, page live within 60–90 days

EXACT WEBSITE OR PLATFORM

Conference review form

WHAT WE FOUND

No guest-facing meetings product page; conference-review form only. Leadership-discussed capacities imply intimate, selective fit.

WHY IT MATTERS / COMMERCIAL IMPORTANCE

A capacity-honest hotel page can attract qualified small-group demand if wanted. Publishing does not guarantee leads or revenue.

RECOMMENDED ACTION

1. Hotel holds go/no-go meeting.
2. Apply the change on the verified page (spiceislandbeachresort.com) and retain before/after evidence.
3. If no-go: document decision; no page required.
4. If go: lock signed capacity/policy sheet; reconcile wedding guest-max messaging before publish.
5. Agency publishes one restrained page with clear fit and inquiry path.
6. Confirm sitemap still lacks a meetings product URL.

TECHNICAL NOTES

Optional commercial opportunity—not a verified accuracy defect.

8. Methodology, Responsibilities & Next Steps

Combines certified AI Demand Performance measurement with a bounded public-website and third-party review. No new paid AI measurement was run for this document.

How to Read Findings

- Verified Problem — confirmed discrepancy with cited evidence.
- Needs Investigation — check with hotel or partners before major change.
- Needs Hotel Confirmation — do not change external listings until leadership signs off.
- Optional Opportunity — proceed only if the hotel wants that demand.

Responsibilities

- Hotel GM / commercial leadership — decisions, awards, source-of-truth, meetings go/no-go.
- Digital marketing agency / website developer — schema, listings, page production if approved.
- Dealality — measurement context and evidence packaging; optional later monthly tracking.

How This Relates to Monthly Monitoring

Approved actions can later be tracked in the monthly AI Demand Performance Review. Completing an action does not, by itself, prove AI or revenue change.

Suggested Next Step

Complete Section 3 decisions, then authorize High-priority agency work.
