AI VISIBILITY AUDIT & ACTION PLAN

AC Hotel A Coruña

A Coruña, Galicia

INITIAL DIGITAL PRESENCE ASSESSMENT

NOVEMBER 2026

1. Executive Audit Summary

Protect a Strong Peer Position With Clearer, Consistent Commercial Facts

AC Hotel A Coruña ranks second among six certified Marriott Bonvoy peers and appears in 60.4% of eligible scenarios, but several important facts are either inconsistent across public sources or only partly recognized in the ADP baseline. The immediate task is accuracy: establish one approved meetings record, make the AC Lounge and Matogrande/Expocoruña proposition easier to understand, and confirm that intended automated systems can reach the Spanish content.

Performance Snapshot

AI CONSIDERATION	SCENARIO PRESENCE	CERTIFIED PEER POSITION
34.4%	**60.4%**	**#2 of 6**
Mentioned in 66 of 192 comparable monitored AI answers	Present across 29 of 48 eligible traveler-need scenarios	Second-highest presence among 6 certified Marriott Bonvoy peers

AI Consideration is the share of 192 comparable monitored answers mentioning the hotel; Scenario Presence is the share of 48 eligible traveler-need scenarios where it appeared. Certified Peer Position uses the six-hotel Marriott Bonvoy set. These measures do not represent bookings, revenue, or traveler exposure.

Key Findings

1. Meetings Facts Need One Approved Record

Marriott pages use five versus six event rooms, while Marriott and the convention bureau also publish different capacity and address details.

Why it matters. Planners and automated systems should receive setup-qualified figures and one verified street address rather than reconcile competing public facts.

2. Recognized Strengths Do Not Yet Match the Full Offer

The official hotel offer includes AC Lounge dining and proximity to Matogrande and Expocoruña, while ADP restaurant recognition was 0% and meeting-space recognition was about 49%.

Why it matters. This is a content-priority signal, not proof of a defect. Clearer official descriptions can give buyers better decision context.

3. Recent Investment Should Be Reflected Accurately

ACHM reported in June 2026 that all 116 rooms, one meeting room, and the gym were renovated.

Why it matters. Approved post-renovation facts should be consistent across Marriott, sales collateral, and partner listings without overstating the scope of the work.

Recommended Priorities

PRIORITY	ACTION	DESIRED OUTCOME
HIGH	Reconcile Event-Room, Capacity, and Address Facts	An approved room-by-room capacity schedule matching live hotel and brand pages.
HIGH	Secure Accurate CVB Profile + Official Website Hyperlink	Verified CVB or partner listing fields corrected with the approved property URL and a working official hyperlink, or documented decline retained.
MEDIUM	Strengthen AC Lounge and Business-District Signals	Confirmed room-view categories and accurate location descriptions published on the named hotel and brand channels.
MEDIUM	Review Spanish-Page Access for Intended Crawlers	Documented crawler-access decision with verified live robots/CDN behavior.
MEDIUM	Decide Whether to Reinforce Weddings and Social Events	Verified event inventory, supported occasions, and a working inquiry path on the official pages.

EXECUTIVE TAKEAWAY

The hotel already has a credible competitive position. The practical opportunity is to protect it with disciplined fact control and clearer presentation of dining, meetings, business-location, and renovation strengths—then measure future movement without promising a ranking or revenue result. Digital authority: AC Hotel A Coruña already appears on the A Coruña Convention & Visitors Bureau hotel and MICE listings, which is a strong meetings-demand… Digital content readiness: AC Hotel A Coruña's Marriott brand pages and A Coruña CVB listings are strong MICE discovery surfaces, but CVB capacity/address facts conflict with Marriott and CVB pages currently lack an official-site hyperlink.

2. Priority Findings & Opportunities

The most important verified corrections and opportunities for this hotel. Full research detail remains in the AVA record.

PRIORITY: HIGH · **PLATFORM:** HOTEL DIGITAL PRESENCE

Issue: Marriott uses five versus six event rooms, and the convention bureau differs on Banquetes capacity and street number.

Why it matters: Concrete conflicts create avoidable planner uncertainty and can be repeated by search and AI systems.

Recommended action: Reconcile Event-Room, Capacity, and Address Facts

1. Sales signs a room-by-room schedule with setup capacities and total area.
2. Apply the change on the verified page (marriott.com) and retain before/after evidence.
3. Operations confirms the correct street address.
4. Submit field-level corrections to Marriott and the convention bureau.
5. Verify every named page against the signed schedule.

Desired outcome: An approved room-by-room capacity schedule matching live hotel and brand pages.

Responsible party: Director of Sales / Hotel Operations

Evidence: Marriott overview

PRIORITY: HIGH · **PLATFORM:** CVB HOTEL FICHE

Issue: CVB hotel/MICE pages mention AC without a confirmed href to Marriott/hotelacacoruna.com; peer CVB pages also lack hotel-website backlinks in this public pass.

Why it matters: Meetings planners and destination AI contexts rely on CVB inventory accuracy.

Recommended action: Secure Accurate CVB Profile + Official Website Hyperlink

1. Approve Marriott canonical URL and meeting capacities.
2. Apply the change on the verified page (acorunacb.com) and retain before/after evidence.
3. Request CVB update including official-site hyperlink.
4. Re-check live fiche and archive screenshots.
5. Field-level CVB vs Marriott reconciliation

Desired outcome: Verified CVB or partner listing fields corrected with the approved property URL and a working official hyperlink, or documented decline retained.

Responsible party: Hotel Commercial / Sales

Evidence: CVB hotel fiche

PRIORITY: MEDIUM · **PLATFORM:** HOTEL DIGITAL PRESENCE

Issue: Restaurant recognition was 0% and meeting-space recognition about 49%, despite official AC Lounge and event content plus the Matogrande/Expocoruña location.

Why it matters: Clearer official descriptions can improve buyer context, although they cannot guarantee future AI presence or bookings.

Recommended action: Strengthen AC Lounge and Business-District Signals

1. Approve concise AC Lounge meal-service language.
2. Apply the change on the verified page (marriott.com) and retain before/after evidence.
3. Add sourced Matogrande, Expocoruña, and business-access context where Marriott permits.
4. Keep meeting facts aligned with the related action.
5. QA live copy and inquiry paths.

Desired outcome: Confirmed room-view categories and accurate location descriptions published on the named hotel and brand channels.

Responsible party: Hotel Commercial Leadership

Evidence: Marriott overview

PRIORITY: MEDIUM · **PLATFORM:** HOTEL DIGITAL PRESENCE

Issue: The Spanish Marriott URL returned HTTP 403 and redirected toward default.mi for the research bot; the English overview fetched and robots.txt returned 200.

Why it matters: An unintended access mismatch could steer automated systems toward secondary sources, but one research client does not establish a general outage.

Recommended action: Review Spanish-Page Access for Intended Crawlers

1. Open a Marriott CDN/WAF review ticket with the exact test context.
2. Apply the change on the verified page (marriott.com) and retain before/after evidence.
3. Compare intended crawler policy with current bot-management rules.
4. Approve only narrow security-safe changes if a conflict is confirmed.
5. Retest Spanish and English pages from agreed clients.

Desired outcome: Documented crawler-access decision with verified live robots/CDN behavior.

Responsible party: Marriott Digital / CDN Security Owner

Evidence: Spanish overview

PRIORITY: MEDIUM · **PLATFORM:** HOTEL DIGITAL PRESENCE

Issue: Marriott markets weddings on the events page while ADP wedding-venue recognition was 2.4%.

Why it matters: A focused module could help qualified prospects understand fit, but added content creates maintenance work and cannot guarantee inquiries.

Recommended action: Decide Whether to Reinforce Weddings and Social Events

1. Sales records a wedding/social-event go or no-go.
2. Apply the change on the verified page (marriott.com) and retain before/after evidence.
3. If go, approve target occasions, capacities, inclusions, and inquiry ownership.
4. Draft concise content using the the related action capacity record.
5. If no-go, document and close the action.

Desired outcome: Verified event inventory, supported occasions, and a working inquiry path on the official pages.

Responsible party: Hotel Commercial Leadership

Evidence: Marriott events page

3. Digital Platform Assessment

Exact verified listings where available. Rows distinguish corrections, content improvements, distribution opportunities, verified-consistent listings, partial assessments, and research follow-ups. Access restrictions are not treated as content defects. Listing verification and content verification are tracked separately.

PLATFORM	LISTING	ASSESSMENT	FINDING	NEXT ACTION
Brand property page	View Marriott property profile	Partially assessed	Exact listing verified; important page content could not be fully audited due to access restrictions. This is not evidence of incorrect hotel content.	Reconcile Event-Room, Capacity, and Address Facts Owner: Director of Sales / Hotel Operations
Hotel-operated website	View hotel website	Partially assessed	Exact listing verified; important page content could not be fully audited due to access restrictions. This is not evidence of incorrect hotel content.	Secure Accurate CVB Profile + Official Website Hyperlink Owner: Hotel Commercial / Sales
Tripadvisor	View Tripadvisor listing	Partially assessed	Exact listing verified; important page content could not be fully audited due to access restrictions. This is not evidence of incorrect hotel content.	No content correction prescribed from restricted page body — hotel may spot-check key facts when logged in.
Expedia	View Expedia listing	Partially assessed	Exact listing verified; important page content could not be fully audited due to access restrictions. This is not evidence of incorrect hotel content.	Strengthen AC Lounge and Business-District Signals Owner: Hotel Commercial Leadership
Apple Maps	—	Research follow-up	Exact listing not yet confirmed — additional verification required before prescribing a correction.	Complete listing verification before treating as a defect.
Bing Places	—	Research follow-up	Exact listing not yet confirmed — additional verification required before prescribing a correction.	Complete listing verification before treating as a defect.
Cvent	—	Research follow-up	Exact listing not yet confirmed — additional verification required before prescribing a correction.	Complete listing verification before treating as a defect.

4. Website & Content Improvements

Specific hotel or brand pages that affect how travelers understand and select the property. This section does not repeat ADP traveler-intent analysis.

Page: CVB hotel fiche

Issue: CVB hotel/MICE pages mention AC without a confirmed href to Marriott/hotelacacoruna.com; peer CVB pages also lack hotel-website backlinks in this public pass.

Recommended action: Secure Accurate CVB Profile + Official Website Hyperlink

1. Approve Marriott canonical URL and meeting capacities.
2. Apply the change on the verified page (acorunacb.com) and retain before/after evidence.
3. Request CVB update including official-site hyperlink.
4. Re-check live fiche and archive screenshots.

Why it matters: Meetings planners and destination AI contexts rely on CVB inventory accuracy.

Responsible party: Hotel Commercial / Sales

Evidence: View page

Page: Marriott overview

Issue: Restaurant recognition was 0% and meeting-space recognition about 49%, despite official AC Lounge and event content plus the Matogrande/Expocoruña location.

Recommended action: Strengthen AC Lounge and Business-District Signals

1. Approve concise AC Lounge meal-service language.
2. Apply the change on the verified page (marriott.com) and retain before/after evidence.
3. Add sourced Matogrande, Expocoruña, and business-access context where Marriott permits.
4. Keep meeting facts aligned with the related action.

Why it matters: Clearer official descriptions can improve buyer context, although they cannot guarantee future AI presence or bookings.

Responsible party: Hotel Commercial Leadership

Evidence: View page

Page: Spanish overview

Issue: The Spanish Marriott URL returned HTTP 403 and redirected toward default.mi for the research bot; the English overview fetched and robots.txt returned 200.

Recommended action: Review Spanish-Page Access for Intended Crawlers

1. Open a Marriott CDN/WAF review ticket with the exact test context.
2. Apply the change on the verified page (marriott.com) and retain before/after evidence.
3. Compare intended crawler policy with current bot-management rules.
4. Approve only narrow security-safe changes if a conflict is confirmed.

Why it matters: An unintended access mismatch could steer automated systems toward secondary sources, but one research client does not establish a general outage.

Responsible party: Marriott Digital / CDN Security Owner

Evidence: View page

Issue: Marriott markets weddings on the events page while ADP wedding-venue recognition was 2.4%.

Recommended action: Decide Whether to Reinforce Weddings and Social Events

1. Sales records a wedding/social-event go or no-go.
2. Apply the change on the verified page (marriott.com) and retain before/after evidence.
3. If go, approve target occasions, capacities, inclusions, and inquiry ownership.
4. Draft concise content using the the related action capacity record.

Why it matters: A focused module could help qualified prospects understand fit, but added content creates maintenance work and cannot guarantee inquiries.

Responsible party: Hotel Commercial Leadership

Evidence: View page

5. Digital Authority & Backlink Opportunities

Trusted third-party websites currently link to this hotel's official pages (2 verified links in this review). 4 additional third-party pages mention the hotel without a clear property link. Strengthening destination and industry links can improve discoverability — it does not, by itself, change measured AI visibility.

VERIFIED HEALTHY BACKLINK

Source: AC Hotel A Coruña - A Coruña

Observation: AC Hotel A Coruña - A Coruña (business / destination association listing) includes a verified property-specific hyperlink to https://www.hotelacacoruna.com/?utm_source=infogal.es&utm_medium=referral&utm_campaign=ficha-empresa.

Commercial relevance: This business / destination association listing already provides a working referral path for travelers who discover AC Hotel A Coruña through that channel.

Destination: Official / approved hotel URL — Destination matches a hotel-operated property domain.

Recommended action: No correction required. Periodically confirm the live destination still resolves to the hotel-approved URL.

Responsible party: Hotel Marketing / Partnerships

VERIFIED HEALTHY BACKLINK

Source: Hoteles en A Coruña

Observation: Hoteles en A Coruña (business / destination association listing) includes a verified property-specific hyperlink to http://www.hotelacacoruna.com/.

Commercial relevance: This business / destination association listing already provides a working referral path for travelers who discover AC Hotel A Coruña through that channel.

Destination: Official / approved hotel URL — Destination matches a hotel-operated property domain.

Recommended action: No correction required. Periodically confirm the live destination still resolves to the hotel-approved URL.

Responsible party: Hotel Marketing / Partnerships

UNLINKED MENTION · 4 PAGES

Source: acorunacb.com · Related page 2 · Related page 3 · Related page 4

Observation: Hotel mentioned in page text; no property-specific hyperlink confirmed.

Commercial relevance: Meeting and leisure planners commonly use this convention and visitors bureau profile when shortlisting hotels; an accurate official URL reduces friction between discovery and booking.

Recommended action: Request that the CVB update the hotel profile with the approved official website URL and verify meeting/capacity facts against the hotel source of truth.

Responsible party: Hotel Marketing / Partnerships

Full referring-domain inventory is retained in AVA research records — not printed here. Directory presence is not counted as a backlink. Healthy existing backlinks are not listed as problems.

6. Implementation Roadmap

Same canonical actions as Priority Findings — execution view only. Escalate brand-controlled edits through the brand digital team when the hotel cannot edit the page directly.

7. Methodology & Limitations

Dealality AVA assesses the hotel's public digital presence. Listing existence and content assessment are tracked separately; Google Travel entities are not treated as Google Business Profile / Maps place listings. Assessment date: 2026-11-05. Research coverage: PASS. Research limits: Public partial research only unless paid providers are founder-authorized. Platform ownership is confirmed only with evidence; otherwise RESPONSIBLE_PARTY_TO_CONFIRM. ADP traveler-intent detail is limited to the Executive Audit Summary. Methodology limits are not listed as hotel findings.
