AI VISIBILITY AUDIT & ACTION PLAN

Castillo Hotel Son Vida, a Luxury Collection Hotel, Mallorca

Palma de Mallorca, Spain

INITIAL DIGITAL PRESENCE ASSESSMENT

NOVEMBER 2026

1. Executive Audit Summary

Protect a Strong Luxury Position With One Coherent, Accurate Story

Castillo Hotel Son Vida records 50.0% consideration and 62.1% scenario presence, ranking first among four Bonvoy peers. The measured position is credible but not universal. Management's highest-value work is to resolve the spa-size conflict and make the adults-only Luxury Collection castle, Arabella golf, wellness, events, and wedding offer read as one precise luxury proposition.

Performance Snapshot

AI CONSIDERATION	SCENARIO PRESENCE	CERTIFIED PEER POSITION
50.0%	**62.1%**	**#1 of 4**
Share of comparable monitored AI answers that mentioned the hotel	Eligible traveler-need scenarios where the hotel appeared	Highest presence among 4 certified Marriott Bonvoy peers

AI Consideration is the share of comparable monitored answers mentioning the hotel; Scenario Presence is the share of eligible traveler-need scenarios where it appeared; Certified Peer Position compares only the certified four-hotel set. Presence does not equal bookings, revenue, or traveler exposure.

Key Findings

1. The Spa Measurement Requires Hotel Confirmation

The same Marriott overview describes the spa as both 900 and 990 square metres, apparently referring to the same facility.

Why it matters. The conflict is verified, but the correct figure is not. Spa operations must confirm scope and measurement before Marriott corrects the page; the audit should not invent a winner.

2. Distinctive Luxury Attributes Need One Narrative

Official content combines an adults-only Luxury Collection castle, Arabella golf access, wellness, meetings, and weddings.

Why it matters. A signed fact architecture can connect these strengths while distinguishing on-property, affiliated, seasonal, and policy-dependent elements—giving leisure guests and international planners a coherent luxury offer without overstating access or ownership.

3. Narrow Signals Deserve Proportionate Review

A Marriott access probe returned an Akamai 403 pattern, and Hotel Saratoga displaced Castillo in only three monitored scenarios.

Why it matters. Neither observation establishes a broad weakness. Platform support should investigate access, while commercial leadership can review the three scenarios lightly and close them if they are not strategically relevant.

Recommended Priorities

PRIORITY	ACTION	DESIRED OUTCOME
HIGH	Reconcile and Correct Spa Size Information	One confirmed spa measurement published consistently on official brand and hotel pages.
MEDIUM	Align Castle, Adults-Only, Golf, Wellness, and Events Facts	Approved "Align Castle, Adults-Only, Golf, Wellness, and Events Facts" facts published and spot-checked on Official Marriott property overview.
MEDIUM	Investigate Marriott Property-Page Access for Intended Crawlers	Documented crawler-access decision with verified live robots/CDN behavior.
MEDIUM	Review the Three Hotel Saratoga Displacement Scenarios	Published changes match approved facts and contain no unsupported comparative claim.
MEDIUM	Protect Visit Palma Backlink Asset with Accurate Luxury Facts	Verified CVB or partner listing fields corrected with the approved property URL and a working official hyperlink, or documented decline retained.

EXECUTIVE TAKEAWAY

Castillo Hotel Son Vida can strengthen a credible measured position through precision, not volume: resolve the 900/990 m² spa discrepancy, connect the adults-only castle, golf, wellness, and events offer, and keep the three Hotel Saratoga scenarios in proportion. Digital authority: Visit Palma destination inventories already list Castillo Hotel Son Vida alongside Sheraton Mallorca Arabella Golf—strong destination authority for luxury and meetings demand. Digital content readiness: Castillo's Marriott Luxury Collection brand page and Visit Palma destination listing already provide strong discovery surfaces.

2. Priority Findings & Opportunities

The most important verified corrections and opportunities for this hotel. Full research detail remains in the AVA record.

PRIORITY: HIGH · **PLATFORM:** OFFICIAL MARRIOTT OVERVIEW — 900/990-SQUARE-METRE CONFLICT

Issue: The same Marriott overview describes the spa as 900 square metres in one section and 990 square metres in another; both appear to refer to the same facility.

Why it matters: The conflict is verified, but the correct figure is not. Spa operations must confirm measurement scope before correction; the audit must not infer which number wins.

Recommended action: Reconcile and Correct Spa Size Information

1. Spa operations confirms the correct measurement and scope.
2. Hotel management approves the authoritative spa specification.
3. Brand digital updates confirmed incorrect brand-page content.
4. Marketing checks relevant destination and distribution pages for the same figure.

Desired outcome: One confirmed spa measurement published consistently on official brand and hotel pages.

Responsible party: Hotel GM / Spa Operations

Evidence: marriott.com/en-us/hotels/pmilc-castillo-hotel-son-v...

PRIORITY: MEDIUM · **PLATFORM:** OFFICIAL MARRIOTT PROPERTY OVERVIEW

Issue: Official content presents an adults-only Luxury Collection castle, Arabella golf access, spa and wellness, and meetings and weddings content.

Why it matters: A signed fact architecture helps guests and planners understand what is on property, partner-provided, seasonal, or subject to policy without diluting the hotel's distinctive luxury story.

Recommended action: Align Castle, Adults-Only, Golf, Wellness, and Events Facts

1. Approve terminology for castle heritage, adults-only policy, golf relationship, spa, meetings, and weddings.
2. Apply the change on the verified page (marriott.com) and retain before/after evidence.
3. Map each fact to official overview and events content.
4. Clarify access versus ownership for golf.
5. Correct only confirmed inconsistencies.

Desired outcome: Approved "Align Castle, Adults-Only, Golf, Wellness, and Events Facts" facts published and spot-checked on Official Marriott property overview.

Responsible party: Hotel Commercial Leadership

Evidence: marriott.com/en-us/hotels/pmilc-castillo-hotel-son-v...

PRIORITY: MEDIUM · **PLATFORM:** OFFICIAL PROPERTY OVERVIEW

Issue: Marriott robots.txt returned 200 and did not disallow the property overview path; the automated GET redirected to default.mi and returned 403, while HEAD returned 200.

Why it matters: Marriott should verify intended behavior before any platform change. The probe does not establish a public outage or universal crawler block.

Recommended action: Investigate Marriott Property-Page Access for Intended Crawlers

1. Open a Marriott/Akamai ticket with the redirect chain.
2. Apply the change on the verified page (marriott.com) and retain before/after evidence.
3. Confirm intended crawler policy.
4. Retest overview and events pages from agreed clients and regions.
5. Document expected behavior or approved remediation.

Desired outcome: Documented crawler-access decision with verified live robots/CDN behavior.

Responsible party: Marriott Digital Content / Platform Support

Evidence: marriott.com/en-us/hotels/pmilc-castillo-hotel-son-v...

PRIORITY: MEDIUM · **PLATFORM:** CASTILLO HOTEL SON VIDA OFFICIAL OVERVIEW

Issue: The ADP brief notes Hotel Saratoga displacement in three scenarios. It does not establish a causal content gap or broader competitive weakness.

Why it matters: A light review can determine whether the scenarios fit Castillo's adults-only luxury, golf, wellness, meetings, or wedding strategy without overreacting to a narrow signal.

Recommended action: Review the Three Hotel Saratoga Displacement Scenarios

1. Review the three scenarios and intended traveler need.
2. Apply the change on the verified page (marriott.com) and retain before/after evidence.
3. Compare verified official propositions only.
4. Decide whether each scenario is strategically relevant.
5. Approve a restrained content change only where supported.

Desired outcome: Published changes match approved facts and contain no unsupported comparative claim.

Responsible party: Hotel Commercial Leadership

Evidence: marriott.com/en-us/hotels/pmilc-castillo-hotel-son-v…

PRIORITY: MEDIUM · **PLATFORM:** VISIT PALMA HOTEL LINKS

Issue: Visit Palma hotel page hyperlinks to the Marriott Luxury Collection property URL; Golfbreaks lists Castillo without a confirmed Marriott href.

Why it matters: Destination backlinks are rare, high-credibility surfaces for Palma luxury demand.

Recommended action: Protect Visit Palma Backlink Asset with Accurate Luxury Facts

1. Reconcile spa-size source of truth.
2. Apply the change on the verified page (visit-palma.com) and retain before/after evidence.
3. Submit Visit Palma fact updates.
4. Align Golfbreaks listing facts.
5. Re-verify live Visit Palma href annuallyually.

Desired outcome: Verified CVB or partner listing fields corrected with the approved property URL and a working official hyperlink, or documented decline retained.

Responsible party: Hotel Commercial / Revenue

Evidence: Visit Palma hotel links

3. Digital Platform Assessment

Exact verified listings where available. Rows distinguish corrections, content improvements, distribution opportunities, verified-consistent listings, partial assessments, and research follow-ups. Access restrictions are not treated as content defects. Listing verification and content verification are tracked separately.
